**Oh Very Young- It's Not Just COVID**

COVID vax are going sluggishly for the 16-29 age group. It seems it will always be the “other guy” that gets it. This carries over to texting while driving. Killington Mountain School student Jason Sullivan was awarded Honorable Mention in the Vermont Highway Safety Alliance's 3rd annual PSA video contest for his cautionary message about texting while driving. So while you're on your way to and from a VAX clinic, don't share the news or image until you're parked!
