Kathleen,

Thank you for your comments on the Middlebury State Airport. In response, please note that your questions are relevant to airport operations and procedures, but not associated with the master planning effort. The master plan is focused on the short and long-term facility planning, but does not address airport operations. As such, your letter will not be included in the final master plan document (which is current in production).

With regards to the requested items, I will get back to you on VTrans responses.

Thank you!

-Rob
