Subject: Re: OCCC VCDP Grant

Kathleen-

Hello. I want to thank you and the select board for supporting the Otter Creek expansion project. We are very excited for the project to get some momentum.

As we dug further into the VCDP application it became clear that we are not ready for this application and that the application is not non-profit friendly. Sadly, the program is really set up to support for-profit businesses. We have made the difficult decision not to apply this round. We are going to regroup and pursue some other grant funds. We may revisit VCDP in the future.

Thank you again for all your support and I'm so sorry that this is not working out at this time.

All the best,
Linda January
