Subject: RE: GRANTS AVAILABLE to Municipal Entities to Increase Composting Capacity

Good Afternoon,

The Vermont Department of Environmental Conservation (DEC) is making up to \$975,000 available for grants to solid waste districts and municipalities for expanded or new Food Scrap Processing Capacity Projects such as: composting facilities, anaerobic digestion facilities, organics recovery facilities, or organics transfer stations.

The maximum grant award for any individual project is \$500,000 and the grantee will be required to provide match for at least 60% of the total project cost. Eligible entities include municipalities and solid waste districts. Grantees will be required to provide match for at least 60% of the total project cost.

Eligible projects include:

- Composting Facilities – pads, aeration, buildings, processing equipment
- Anaerobic Digestion Facilities – buildings, tanks, processing equipment
- Organics Transfer Stations – pads, buildings, processing equipment
