Total Floor Area of House: _____

Total Floor Area of Existing Accessory Structures: _____

Structure requirements: All accessory structures shall be located no closer than eight (8) feet to any side or rear property line if the structure is in the rear yard. All detached accessory structures shall not be located closer than ten (10) feet to the principal structure. The maximum height of any accessory structure is 18 feet (except detached garages).

Building dimensions: _____

Comments: _____

Required Attachment: A copy of a survey which shows: (a) the shape, dimensions and location of the lot to be built upon; (b) the shape, dimensions and location of all existing and principal accessory structures on the lot; (c) the shape, dimensions and location of the accessory structure to be placed on the lot; (d) all applicable setback lines pertaining to the new accessory structure once complete; and (e) any additional information that may be necessary to ensure that the proposed accessory structure will be in compliance with all provisions of the Town of Mint Hill Unified Development Ordinance. The proposed accessory structure may be sketched onto a copy of an existing survey of the subject property and submitted in lieu of a new plot plan. However, if the proposed structure will be located very near to the required setback lines, then it might be in the best interest of the applicant to have a plot plan of the proposed structure completed by a registered surveyor to ensure there are no encroachments.

Certification: I hereby certify that all of the information contained herein and attached is true and correct to the best of my knowledge. I understand and acknowledge that any violation of any provision of the Town of Mint Hill's Unified Development Ordinance will be grounds for revoking my Zoning Permit.
