

CLASS SPECIFICATION

Modoc County

CLASS CODE: 4029-002
 CLASS TITLE: **Air Pollution Specialist II**
 FLSA DESIGNATION: Non- Exempt
 RANGE/STEP A-F: 260 (Step A-F \$3,567 - \$4,552)

JOB SUMMARY:

To perform inspection and enforcement duties related to state air pollution, weights and measures, and hazardous waste programs, including activities required under the Unified Hazardous Waste and Hazardous Materials Management Regulation Program; to assist in implementing various departmental programs and activities. Performs a variety of functions of operation and maintenance of air sampling devices, inspection of facilities, control devices, mobile sources, vapor recovery systems agriculture burning and prescribed burns, issue permits for construction, and Title V facilities for the protection of public health, safety, and agriculture; enforces state and county laws and regulations in assigned areas of responsibility performs related work as assigned.

DISTINGUISHING CHARACTERISTICS:

Air Pollution Specialist I is the entry-level class in the Air Pollution Specialist series. Initially, under close supervision, the incumbent provides para-professional support to the inspection and regulation functions of the Air Pollution Control District. As experience is gained the incumbent performs independent inspections and takes a pro-active enforcement stance in assigned areas, required of Air Pollution Inspectors. The one level in this class has completed all requirements to become certified. This class is distinguished from the Air Pollution Specialist II by the performance of the more routine tasks and duties assigned to positions within the series.

Air Pollution Specialist II is the full journey-level class within the series. Incumbents are distinguished from the Air Pollution Specialist I by the performance of the full range of duties as assigned. Employees at this level receive only occasional instruction or assistance as new or unusual situations arise, and are fully aware of the operating procedures and policies of the work unit. Positions in this class are flexibly staffed and are normally filled by advancement from the Air Pollution Specialist I level, or when filled from the outside, require prior air pollution enforcement experience. All certification requirements for air pollution inspections have been obtained. The work requires a knowledge of a variety of laws and regulations and skill in performing inspections and experience in permit issuance.

EXAMPLES OF DUTIES:

Essential functions, as defined under the Americans with Disabilities Act, may include any of the following tasks, knowledge, skills, and other characteristics. The list that follows is not intended as a comprehensive list; it is intended to provide a representative summary of the major duties and responsibilities. The position may not be required to perform all duties listed and may be required to perform additional, position-specific tasks.

Work with exposure to potentially hazardous materials.

Work outdoors in all weather conditions.

EDUCATION, EXPERIENCE AND TRAINING GUIDELINES:

Any combination equivalent to experience and training that would likely provide the required knowledge and abilities is qualifying. A typical way to obtain the knowledge and abilities would be:

Air Pollution Specialist I:

Associate degree from an accredited college and two years of experience in air pollution, agriculture, weights, and measure, or a similar setting that will provide the basic knowledge and skills outlined above. Possess a valid California Class C driver's license.

Air Pollution Specialist II – In addition to the above:

Bachelor's degree from an accredited college and four years of experience in air pollution control inspection and weights and measures.

Licensing and Certification:

Possession of, or ability to obtain, an appropriate, valid California driver's license.

Possess Fundamentals of Enforcement certification.

Possess Visual Emissions Evaluation certification.

Air Pollution Specialist II - Requires possession of, or ability to obtain, an appropriate, valid California Weights and Measures certificate.

Possession of a valid Visible Emission Evaluator Certificate issued by the California Air Resources Board.

This class specification lists the major duties and requirements of the job and is not all-inclusive. Incumbents may be expected to perform job-related duties other than those contained in this document and may be required to have specific job-related knowledge and skills.

All county of Modoc employees are designated Disaster Service Workers through State law (California Government Code §3100-3109). Employment with Modoc County requires the affirmation of a loyalty oath to this effect. Employees are required to complete all Disaster Service Work-related training as assigned, and to return to work as ordered in the event of an emergency.

FLSA Status is dependent upon meeting the qualifications for the exemption test. All of the following must be met in order for status to be Exempt. Upon meeting the Exempt status, a certification form will need to be completed to accompany the Personnel Action Notification form (PAN) form.
