C. Inspection Results

FAIL*

*If anyone item on the inspection for is coded as 'Work Needed', then the entire SCM fails inspection.

*If a site has multiple SCMs and one fails inspection, this cover sheet is marked as 'Fail' until all items on all SCMs pass inspection.

Note: Applicable SCM Inspection Reports and confirmatory digital photographs summarizing required repairs must be submitted to the Town following completion of the preliminary inspection. It is strongly encouraged that the inspector be part of the repair and maintenance process in a QA/QC role in order to ensure that repairs are being performed properly.

PASS

Note: A passed inspection form should be signed, stamped, and sealed below by the appropriate Professional and submitted to the Town on or before the established inspection due date. Attach all applicable SCM Inspection Reports and confirmatory digital photographs accordingly.

D. Professional Certification (Registered North Carolina professional engineer, surveyor, or landscape architect):

To be completed only when all structural BMPs at this site are functional with no outstanding maintenance issues.

I, _____, as a duly registered _____ in the state of North Carolina attest that a thorough inspection has been completed for all ALL structural SCMs that are associated with this particular site. All inspected structural BMPs are performing properly and are in compliance with the terms and conditions in the approved engineered plans.
