1. Resolution No 2021-43- Minor Subdivision 675 10th St

City Planner Nathan Fuerst stated the city received a request for a minor subdivision at 675 10th Street. The zoning is R-1, and the future land use is single family. The parcel is about a half-acre in size the proposal is to split into two parcels that would be approximately 10,300 square feet each. Parcel two currently has accessory structures that are considered legal non-conforming. Both parcels will need to meet the 35% maximum impervious surface and building height maximum of 35 feet. The applicant is responsible for the parkland dedication. The Planning Commission discussed this item and held a public hearing. There was one comment from a resident who was in support of this request. The Planning Commission voted unanimously to recommend Council to approve this minor subdivision. Staff recommends approval with the conditions presented.

Member Johnson reminded residents to reserve their pumpkin for Halloween at the library.

Member Chapdelaine stated the new 3M drinking water facilities that will be built will not have the soft water treatment component from the settlement funds that he was hoping for. It would take a commitment from the communities to add that component. Woodbury is looking into the soft water component and the cost estimate is 100 million dollars. Member Chapdelaine stated the Newport overlooks are being replanted. Bob Vogel is working on a grant proposal to get signs depicting the historical relevance at each overlook.

The survey was conducted over the phone from October 13th – October 22nd. Residents were asked if they have used individual parks, city trails, and ice rinks. Of the residents who did not use our parks, the main reason was they were not aware of them. Of the residents who used the parks, they were asked what improvement you would make, and the majority stated updating playground equipment. When asked if residents would support city funding for various amenities, the highest support was for modernize playground equipment and construction of a dog park. The study found that our community prefers passive or non-organized recreational activities. The study also found that resident's main source of information comes from the city website and the city newsletter. 3. 10th STREET STORMWATER MODELLING

City Engineer Jon Herdegen stated there are four parcels between 10th Street and 9th Street that may be sold as individual lots and there is concern about stormwater management. Specifically, if the lots are developed individually, there will be limited opportunity to implement effective stormwater management. Member Chapdelaine stated in the past when there were discussions about developing this property collectively, the thought was to build three homes and use the fourth lot for stormwater retention. Council discussed Engineer Herdegen should reach out to the Watershed District as maybe they can help since they are currently working on a project on 10th Street.

4. 2021 CITY BUDGET

City Administrator Deb Hill stated the preliminary levy was set to 2% and there are a few updates to the city budget. Our health insurance increase is 2.71% and our dental insurance increase is 0%. The equipment CIP removed a \$40,000 vehicle since it had low usage and increased the transfer from the general fund. Staff received an updated CIP plan from the county and found the estimate for the trail at Maxwell to 7th Avenue has increased by \$50,000. Even with these extra transfers, the fund balance to expenditure ratio is 66%, which is very good. Council discussed and agreed we should keep the 2% levy and continue to spend wisely.

5. FUTURE AGENDA ITEMS

Administrator Hill stated future agenda items include a presentation from Ehlers on our financial management plans, closed meeting for the sale of City Hall, updated agreement for Ten-E Packaging billing, and the truth in taxation final levy.

MEMO

TO: Newport City Council

FROM: Deb Hill, City Administrator

DATE: December 2, 2021

SUBJECT: 2022 Final Levy

Background: In September Newport City Council voted a preliminary 11.37% levy increase this equates to 2.0% actual tax increase with the 9.37% being captured taxes due to development.

Discussion: The following are highlights of the preliminary levy:

- Revenue increase is mainly driven by the new lease for the billboard site.
- Extra monies for onetime expenses new IT equipment for the city hall, new website, various expenses for the move, and planning was increased for extra time taken with our new planners.
- A full time position was added for administration.
- The equipment CIP experienced additional items that total \$154,700. The line item of \$40,000 to replace the '05 Crown Vic was removed as this vehicle only averaged 333 miles per year for the last couple of years. Transfer to this fund was increased to \$300,000. The fund will need to be additionally shored up next year.
- The parks CIP was adjusted for updated estimates from the County for the development of a trail at Maxwell/21st Street to 7th Avenue/20th Street. This new estimate is \$175,000 with \$150,000 slated for 2022 and \$25,00 for 2023. The parks fund transfer was increased to \$275,000 to accommodate the new Lions Park.
- Even with additional transfers to parks and equipment funds, the fund balance to expenditures ratio is at 65.7%.

Recommendation: Staff recommends the levy remains at 11.37%.

MEMO

TO: Newport City Council

FROM: Deb Hill, City Administrator

DATE: December 2, 2021

SUBJECT: New FEMA grant

Background: The City of Newport received a FEMA grant in 2015 to acquire and mitigate three properties near the levee – two homes were acquired. In 2019 the city received a grant for model flood damage and impacts of the levee failing. The study concluded that it would be beneficial to have the last remaining property to be removed and levee breached.

Staff is currently working on a new FEMA grant that would enable the city to acquire and mitigate 1651 Cedar Lane and breach the levee. The total amount of the grant would be \$455,800 with the city portion (25%) being \$113,950. Staff has contacted the DNR – it appears at this time they probably have funds to share in the cost which would bring the city share down to \$56,975.

Discussion: Council needs to decide whether to move forward with the grant and commit the funds needed.

Recommendation: Staff recommends the approving the resolution and commitment of funds.
