

**CLASSROOM TRAINING (CRT) DEMAND OCCUPATION LIST - Approved by WDB 6/6/2023.**

Training in demand occupations is tied to specific skills needed for the industry/occupation. The Demand Occupation List was developed through consultation with our regional NYSDOL Labor Market Analyst, feedback from businesses, and prior participant outcomes. The WDB reviews recommendations for training areas based upon this information and regional goals. Labor market data available through the NYSDOL website is also reviewed for training relevant to the needs of businesses and program resources. The WDB will continue to review the relevance of occupations in light of updated information with our Labor Market Analyst as well as feedback from businesses, the REDC, and its committees.

For Individual Training Accounts to be issued, job credentials have been created with industry and occupational standards, with educational standards set by the NYS Education Department and maintained on the Eligible Training Provider List (ETPL).
