Exemptions Allowed:

- For New Residential Construction: New residential construction is eligible to receive a 100% exemption from taxation on 30% of the increase in assessed value up to a maximum of \$75,000.00. The exemption is for a period of 5 years.
- For New and Existing Commercial and Industrial Improvements: All qualified real estate assessed as commercial or industrial is eligible to receive an exemption from taxation on the actual value added by the improvements. Reasons for Disqualification of Exemption:

- Not all improvements result in an increase in the assessed value, especially if the improvements are considered repairs or minor in nature. Improvements that do not increase the taxable value of the property by at least \$5,000 or 5% of the assessed value of the original property will not be granted an exemption.
- Any improvements made without a building permit or in violation of the Zoning Ordinance will not qualify.
- Failure to apply within the allowable time period will result in disqualification.

Approval – City Council and County Assessor:

- All applications approved by the City Council shall be forwarded to the County Assessor for review no later than the first day of March of each year with a statement indicating the authorized exemption. The County Assessor shall make a physical review of all properties with approved applications. The County Assessor shall determine the increase in actual value for tax purposes, if any, due to the improvements and notify the applicant of that determination. After the initial tax exemption is granted, the County Assessor shall continue to grant the tax exemption for the period specified on the approved application. The tax exemptions for the succeeding years shall be granted without the owner(s) having to file an application for the succeeding years.
