

Temporary Meadow Street Trail Map (8/November/2023)

Trail	Length (miles)
Outer Loop	Approx. 1 mi.
Green	.24
Green Bypass	.07
Blue	.62
Red	.15
Yellow	.27
Orange	.06

Notes:

1. The outer loop, green to blue is approximately 1 mile.
2. The green trail has a dry bypass trail for when the water levels get high.
3. The blue trail section on the lower right is along the sewer easement.
4. The red trail parallel to the lower right section of the blue trail, is at a higher elevation than lower elevations of the sewer easement part of the blue trail, which floods when ground water levels are high. The red trail is dryer, more interesting than a straight-line sewer easement route.
5. *Sites:* The green trail passes a kettle like pond, the blue trail has several nice river views, and the yellow and orange trail intersect at a small pond (when water levels are high).
