Mr. Raymond, thank you again for working with the Winfield/Rock Streets neighborhood to lessen the impact of the flights over our neighborhood. We very much appreciate your efforts. On the airport website, we saw that "public meetings held 2nd Wednesday" has been replaced with "held at least once monthly." However, "Noise Complaints & Inquiries" still shows "No Results." Despite improvements, yesterday Wednesday February 22, on a beautiful day with no wind, the flight schools must have been doing catchup. There were @75 planes over our neighborhood with very little redirection. Specifically, there were 29 planes from 8:44am to 10:17am, and one after another were over Winfield Street. There was some redirection the rest of the day, with some flights over Coolidge Avenue. Again, we thank you for working with our neighborhood to reduce the noise and frequency of flights over our neighborhood.

Another website suggestion: The "Intro Page" needs updating. In the Sub Menu, under Noise Complaints, if you click on Noise Abatements, the page shows charts dated 1/1/00 with the name of Russ Maguire. The Procedures Brief Sheet also has the name of Russ Maguire and Traffic Pattern Operations dated 6/17/21. Mr. Raymond, you earned your promotion so your name should appear on the updated charts.

We look forward to the subcommittee meeting that would help mitigate some of the overflights, and meeting with the Norwood Airport Commission meeting in March...Diane Wiffin
