110 overflights over Winfield/Rock Street neighborhood on Tuesday October 3. A plane here at 9:20am, a plane there at 10:39am, and then the flight school planes with an occasional jet were everywhere. Constantly overhead all day, low and loud. At our 9th Norwood Airport Commission meeting on September 20, we were told that construction on runway 10/28 which affects our neighborhood would begin the start of October. It's October 3, part of a beautiful and dry week, perfect for construction, and the planes are still constantly flying overhead. Since there still is no construction update posted on the Norwood Airport website, we would like to know what is going on. After 1 1/2 years, we would have hoped for better.
