Good afternoon, Mr. Raymond:

This morning from 10:57 am through and including 11:57 am at Hilltop Gardens condominium complex on Rock Street, there were 27 flyovers from airplanes originating from and heading away from Norwood Memorial Airport. At least one of the planes appears to be a plane owned by one of the flight schools operating out of Norwood Memorial Airport. That averages out to a flyover every 2.2 minutes, which is completely unacceptable. As experience has shown, these flyovers will continue at this pace for the remainder of the day barring any unforeseen weather changes. I did file a noise complaint with the FAA.

Thank you for your attention to this matter.

Best,

Kim
