I am writing to file a complaint regarding the non stop airplane traffic over the Winfield Rock neighborhood this past Thursday and Friday (May 11 and 12). It appears to be the majority of the planes were from the flight schools. These planes go every 3 minutes and while some try to alter their routes; the majority just follow the same route directly over our houses, practicing take off and landing. I did notice some turning and following route one, which gave some relief. Today was a nice day, until about noon, not sure if the winds changed or if the flight schools just prefer our runway. Thanks for your continuing to work with our neighborhood.
