Good afternoon, Mr Raymond-

Attached please find a video of a small plane traveling low over a Rock Street home on May 22, 2024. These small planes took off and landed at 3 minute intervals throughout the afternoon and evening. We as a neighborhood continue to seek relief from the flight schools at the Airport. I have lived in this area for 18 years, and the air traffic has been and continues to be excessive for our community.

Best,

Natalie Schofield
