

**Norwood Public Health Department  
Weekly COVID-19 Data Report  
July 22, 2020**

MA Department of Public Health [Weekly COVID-19 Public Health Report](#) (including city and town data)

*State changed data indicators reported. They no longer provide total case rate per 100,000 or total test rate per 100,00. They have added case count in the last 14 days, percent change: increase, decrease or no change, which represents the difference in case counts over the last 14 days, total tests in the last 14 days and total positive tests in the last 14 days. These are a better representation of the current virus activity.*

Norwood data as reported by MA Department of Public Health (July 21, 2020):

- Total Confirmed Case count: 585
- Case count in the last 14 days: 9
- Percent change over the last 14 days: Increase
- Total tests: 6,200
- Total tests last 14 days: 643
- Total positive tests performed last 14 days: 11 (*one individual might have multiple tests*)
- Percent Positive last 14 days: 1.71%

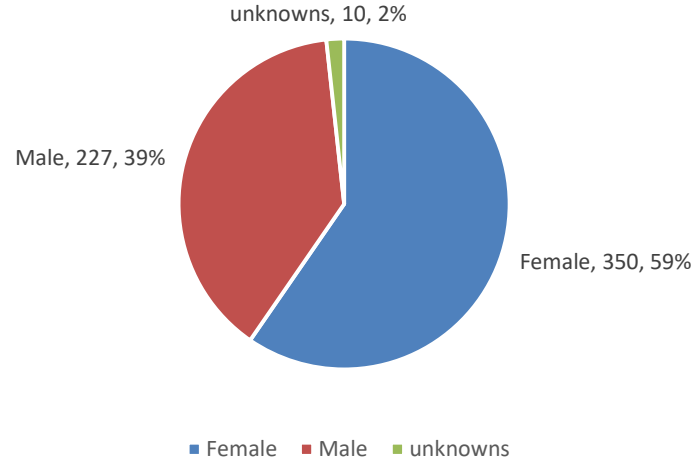

\*Week of July 19<sup>th</sup>, partial week, as of July 22<sup>nd</sup>
