Dear Homeowner:

The City of Oak Park has recently inspected the sidewalk adjacent to your home. In order to place the sidewalk at the proper level, if the sidewalk adjacent to your service walk is marked for replacement, it will be necessary to raise the sidewalk grade adjacent to your service walk. By placing the sidewalk at the correct grade, a grade difference between your service walk and sidewalk may occur. A “ramp” of concrete will be placed at the service walk as a courtesy by the contractor. At the bottom of this letter is a picture showing what the concrete “ramp” will look like upon replacement of the sidewalk. To prevent this situation, replacement of a section of the service walk is recommended but not required.

If you would like to have a portion of the service walk replaced at your expense, please contact me to make the arrangements.

Please contact me at (248) 691-7580 if you have any further questions or concerns.

Sincerely,

City of Oak Park Engineering Team

Above is an example of the courtesy ramp
