TOTAL - Add all points to determine complexity		

“Basin” means any vessel constructed of manmade materials designed to hold or receive water, including the splash zone of an interactive play attraction or a run-out slide.

“Therapy pool” means a pool used for professionally administered physical therapy.

“Water attraction” means a pool with design and operational features that provide a patron recreational activity other than conventional swimming that involves partial or total immersion of the body, including an activity pool, interactive play attraction, leisure river, plunge pool, vortex pool, vanishing edge pool, waterslide, run-out slide, drop slide, pool slide, wave pool, zero-depth entry pool, and any public pool with features except wading pools.

“Whirlpool” means a small pool, sometimes called a “spa,” which uses higher temperature water than other pools and may include a water agitation system.

Does your pool have a Feature?

“Feature” means a pool with a depth greater than 16 feet, a pool with a surface area greater than 20,000 sq. ft., or a physical object permanently installed in a pool that is intended for recreational use, including a pool slide, waterslide, pad walk, basketball hoop, diving board, wave generator, treadmill, vortex pool, climbing wall, current pool, swim-up bar, vanishing edge pool, tethered or non-tethered floatable, or a spray feature.

Your complexity total calculated above, and if your pool has a Feature, will be used to complete your application.

Does your pool have a Feature? Answer Yes / No and check box describing complexity and presence or absence of a feature.		Yes <input type="checkbox"/> No <input type="checkbox"/>
