

Recreation Minutes

October 14 2021

Attendance: Ryan Blass, Laurie Boyle, Andy Fox, Vanessa James, Chris Morris, Althea Sanders

Current programs and events:

-Micro mini soccer is winding down for the Fall season. The final weekend of games will take place October 30.

-The high school open gym nights will continue for another month and will continue to be on Tuesday and Thursday nights.

-This Saturday (10/16), there will be an all-day disc golf tournament taking place at Alcyon Woods. It is nice to see continued usage of the course.

-Healthy Kids Running will continue until November. It takes place on Sundays at Alcyon.

-Tonight (10/14) is the final night for the Fall Middle School Tennis program. The Slenkamps continue to run these successful programs over at Shertel Park.

-Repairs have been taking place at the pump track to fix drainage issues. More repairs will continue tomorrow (10/15). Steve Blackmon has been helping with this endeavor.

-Cleanup at Glen Lake is still progressing. This has been and will continue to be a time consuming project to make the area in the best condition it can be. As a result, some residents are not too happy that it has taken a while.

-Basketball registrations will be taking place shortly for all our programs. However, due to limited venues and issues with gym usages, our in-house program will be put on hold this year. The plan is to bring it back next year.

-On Columbus Day (10/11), the annual George Haegle Golf Tournament took place at Centerton Golf Club. This year's tournament had nice weather and over 100 golfers participated.

Upcoming programs and events:

-There have been some talks about a possible winter field hockey program. It would be a 3v3 styled program in hopes to garner more interest in field hockey. The program would be eight weeks taking place Wednesday nights at the Middle School gym.

-This December, the Hobo band will be back having a Christmas concert at the high school auditorium.

-Next week, there will be a meeting with Nicholas construction to discuss the tennis courts at Shertel. While still usable, there are three key spots that are in need of repair. Ideally, all the courts will be replaced, but that would be very expensive.

Next Meeting: Thursday November 4 at 6:30 at Borough Hall
