

Recreation Minutes

December 3, 2020

Zoom Attendance: Ryan Blass, Laurie Boyle, Andy Fox, Tim McIlvaine, Chris Morris, Michael Razze, Amy Rudley, Althea Sanders

Current programs and events:

-As of now, there are still no plans for basketball programs this winter, due to the lack of indoor facilities. Even the possible program at Total Turf fell through.

-Because there are not as many programs going on right now, it is an ideal time for repairs and upkeep. These include: the roofs on the dugouts at McBurney and Harmon fields; the pump track being patched up; roof, trimming, and painting of Sunset Auditorium; cleaning the erosion that is around the south end of Alcyon Lake stream (by the Dell fields); and cleaning up the dead trees around Glen Lake.

-We are still awaiting one final quote for the upcoming tennis court repairs, which will take place in the Spring and finish in time for the Summer.

-The bricks are becoming hazardous at Alcyon Lake Park. This will need to be repaired so they do not sink and settle. No word yet on whether the original bricks will be fixed. On that idea, the possibility of a fundraiser for this project was discussed, along with adding new bricks to display that sponsorship.

-Our department website will be complete in the next week or two. It will have more of a functional and professional look, along with an online calendar and ability for online registrations.

Upcoming programs and events:

-We are still looking and hoping to have the in-house basketball programs run this winter. It would be once a week, maybe twice at most.

Next Meeting: Thursday January 5 at 6:30 via Zoom
