

## New Jersey Clean Energy Residential Programs

Homes are significant consumers of energy in New Jersey, accounting for approximately **24%** of the annual statewide energy usage. Home improvements increase energy efficiency, reduce greenhouse gas emissions, save homeowners money, and address health and safety issues.

Pitman residents can take advantage of two state-sponsored programs to potentially save energy and money:

### Home Performance with ENERGY STAR

- A Home Performance contractor will report on the current conditions of your home from top to bottom. The contractor will assess your heating and cooling equipment, conduct a combustion safety test on appliances, check insulation levels and look for air sealing opportunities. After the assessment, you will receive a report listing recommended measures along with financial incentives available to pay for the work.
  - This **video** can show you what to expect during your home energy assessment.
- To help pay for energy-efficient upgrades, Pitman residents may qualify for:
  - **\$4,000** in financial incentives now until June 30, 2021
  - **0%** interest financing (up to \$10,000 with a 7-year maximum term)
  - **0.99%** interest financing (up to \$15,000 with a 9-year maximum term)
- **Find a local Home Performance Contractor** and **schedule your Home Assessment** (fee may apply): [https://www.njcleanenergy.com/residential/tools-and-resources/tradeally/advanced\\_vendorsearch/?id=57&start=](https://www.njcleanenergy.com/residential/tools-and-resources/tradeally/advanced_vendorsearch/?id=57&start=)
