## CHARTER TOWNSHIP OF PLYMOUTH REQUEST FOR BOARD ACTION

**MEETING DATE:** June 2, 2020

**ITEM:** Discussion Regarding “Golfview Neighborhood Park” – Ann Arbor Trail at Beck/Powell and County Funding

**PRESENTERS:** Supervisor Heise

**BACKGROUND:** On September 10, 2019 the Board of Trustees authorized the study of a new neighborhood park using the so-called ‘Triangle’ area bounded by Beck, Ann Arbor Trail and Powell Roads, adjacent to Hilltop Golf Course. This project would utilize some of the more than 150 trees being donated by Webasto. This simple community park concept would encompass trees, walking paths, park benches, and possibly a shelter facility, depending on cost. While it was my intent to hire a college student to draft a plan for this project, it was actually cheaper and easier to have McKenna Associates do it. Attached is the concept plan developed by McKenna along with a summary and project recap prepared by Laura Haw, who will be attending tonight’s meeting.

It was my intention that if we move forward with this project that our annual Wayne County Parks grant allocation would help cover all or most of the cost; unfortunately due to the COVID-19 crisis this funding is unlikely to be allocated this year. However, I believe we must have a parks and recreation project ready to go should this money be freed up, or at least to have it for next year. In any event, we need to discuss this project in light of these unforeseen developments and make a determination on where we plan to go in the future.

**PROPOSED MOTION:** None; discussion only.

# Memorandum

**TO:** Board of Trustees, Charter Township of Plymouth, Michigan

**FROM:** Laura Haw, AICP, NCI

**SUBJECT:** Recreation Amenity: Golfview Passive Park, Concept Design

**DATE:** May 28, 2020

## BACKGROUND

The Township's 2018-2022 Parks and Recreation Master Plan unanimously adopted by the Board on May 8, 2018, by virtue of Resolution #2018-05-08-24, sets forth certain community goals based on public input.

The Recreation Master Plan finds that the Township is deficient in terms of the amount of parkland per resident (ex: National Standard: 9.6 acres of parkland per 1,000 residents; Plymouth Township: 6.4 acres of parkland per 1,000 residents). The public engagement process, in the development of the subject Recreation Master Plan, resulted in a priority recommendation for an increase in walking, biking, and running options. Further, the 2018-2022 Parks and Recreation Master Plan recommends that the Township seek opportunities to improve and expand existing and potential future parks and recreation facilities.

At the regular meeting on September 10, 2019, the Board discussed the possibilities for creating a new neighborhood passive park in the Township-owned triangle property (approximately 9 acres) adjacent to Hilltop Golf Course bounded by Beck Road, Ann Arbor Trail, and Powell Road. The property is currently zoned as "Public Land", which is intended to provide outdoor, public recreation uses that are compatible with the surrounding neighborhood(s) and establish a high standard of site design and appearance. Additionally, the property is designated on the Future Land Use Map of the Township's adopted Master Plan as "Recreation Space", which is intended for Township-owned, public parks.

The property currently consists of a large central grassy area with a substantial tree line along the north boundary, a sparse tree planting along the west boundary, a mixed tree and shrub planting along the south boundary, and, towards the apex of the triangular area, a heavily-wooded, debris-ridden, and inaccessible area with invasive vegetation. A sidewalk currently follows the axis of Ann Arbor Trail along the southern boundary of Hilltop Golf Course and connects to the entrance to Township Park. The intersection at Ann Arbor Trail and Beck is governed by a traffic signal, but no pedestrian crosswalks exist to connect the Township-owned property to the sidewalks along Beck to the south and west along Beck Road.

The property is a unique greenspace that lacks a current use or utility. Without sidewalk connectivity, residents are hindered from walking and bicycling to the property. There is also no parking; the parking lot in front of the Hilltop Golf Course is designed for patrons of the course. Protecting this greenspace with an enhanced scope of use by residents aligns very well with the Township's 2018-2022 Parks and Recreation Master Plan by transitioning a vacant, underutilized piece of property into a sustainable, community amenity that improves the walkability and safety of the community.

At the September 10 meeting, the Board discussed ideas such as including walking paths, park benches, bike racks, additional trees, and opening the area to leashed dogs if a park were to be created. The Board unanimously approved authorizing the Supervisor to study the conversion of the property to a public neighborhood park, subject to final review and approval by the Board.

At its April 17, 2019, meeting, the Planning Commission granted tentative and final site plan approval requested in Application 2330-0319, Webasto, at Schoolcraft and Haggerty Roads, with the voluntary condition by Webasto to donate and plant approximately 150 new trees in locations approved by the Township for public purpose. The triangle property is in need of clean-up of the invasive species and is an ideal location for the replanting of new trees; the planting of the Webasto trees at this location would provide numerous environmental and aesthetic benefits.

### **GOLFVIEW PASSIVE PARK, CONCEPT PLAN**

In 2020, McKenna was commissioned to develop a proposed plan for the park, and the location of the donated trees, at a cost not to exceed \$2,500. The plan has been developed consistent with the Township's 2018-2022 Parks and Recreation Master Plan and to fulfill the request of Township residents for more recreational opportunities.

Enclosed, please find a copy of the concept design plan, key highlights include:

1. **Walking Path.** The proposed pathway is 8-feet in width; the existing 5-foot sidewalk along Ann Arbor Trail is shown to remain: the sidewalk is generally in good shape, but eventually, we recommend that this sidewalk would be replaced with an 8-foot pathway to match.
2. **Mile Markers for the Walking Path.** Three (3) mile markers are proposed for pedestrians: the western "loop" is approximately 0.30 miles and the smaller, eastern loop is approximately 0.20 miles. One large loop around Golfview park is approximately a half-a-mile. We see an opportunity to connect to the existing trail network in Township Park to create a comprehensive walking / running system with markers.
3. **Enhanced Tree Canopy.** The plan details 80 trees from the Webasto donation; there is an opportunity for additional trees, depending on the understory and spacing.
4. **Invasive Species.** A majority of the vegetative area within the smaller, eastern pedestrian loop contains invasive species, it is recommend this area be thinned out and monitored.
5. **Preservation of Open Space.** The large lawn area within the western pedestrian loop is proposed to be preserved; this area is an opportunity for informal active recreation, ex: a family playing frisbee.
6. **Connectivity to Neighborhoods.** Potential crosswalks are shown on Beck Road, Ann Arbor Trail and Sandalwood Drive to better connect to the surrounding neighborhoods and calm traffic.
7. **Additional Parking.** Seven (7) additional parking spaces are proposed at the end of Powell Road; currently acts as informal parking; this would formalize the space and provide additional parking for the Golf Course as well.
8. **Cultural Installations.** Several areas are noted as potential cultural installations; ex: public art.

Implementation of the Golfview Plan would have the following additional benefits:

- Elimination of the possibility of this unique public greenspace from being sold on the basis that it has no real use.
- Developed in accordance with the Township's Zoning Map, Recreation Master Plan and Future Land Use Map of the Master Plan.
- Prime open space for a native tree canopy, which is an important factor in the local air and water quality, including the River Rouge Watershed that it is located in.
- An opportunity to remove a number of existing invasive species, improving the community's environmental health.
- Provide additional opportunities for walking paths; connecting neighborhoods to Township Park.
- An opportunity for additional woodlands --- strands of deciduous and/or evergreen trees can form an effective screen to reduce strong winds or blowing snow.
- A potential gateway along the Beck, Powell and Ann Arbor Trail roadways, adding to the unique character to the community.
- Located along a planned Regional Non-Motorized Corridor (Wayne County and SEMCOG) and acts as a natural backdrop to the route.
- An opportunity for public art installations or other forms of cultural education.
- Educating children on the environment, conservation, and heritage.
- Township beautification.
- Promoting a healthy lifestyle for residents, both mentally and physically.

This last item is become ever more an emphatic public goal given the COVID-19 situation. The crisis has demonstrated how critical it is to have a greater diversity of outdoor activities in the Township than exists presently, and this would increase the public inventory of recreation assets in a substantial way.

In addition, creation of this park shows an unshakeable purpose by the Township to take major positive steps as we emerge from the crisis.

The plan does not rule out potential golf course expansion down the road, while not prejudging whether that should happen as of yet. Preservation of the large grassy central area enables future uses of various kinds, depending on the community needs and the financial situation of the Golf Course. The removal and care of invasive species is also part of project, and would be required with any other future development.

In addition to the Webasto donation, there are other grants available for the funding of this project, including partnerships with adjacent communities, SEMCOG and the Michigan Department of Natural Resources (MDNR). The project also has the potential to be phased, which would leverage funding as it becomes available.

## **RECOMMENDATION**

We recommend that the Township consider authorization of a public, passive park on the Township-owned land (approximately 9 acres) at the triangle formed by Ann Arbor Trail, Beck Road, and Powell Road based on the findings above.

**MEETING DATE:**     June 2, 2020

**ITEM:**    Temporary Outdoor Seating Permit, Resolution #2020-06-02-49

**PRESENTERS:**     Supervisor Kurt Heise, Planning Consultant Laura Haw

**BACKGROUND:**    Due to the Coronavirus Crisis and the Governor's Executive Orders, we recognize that our restaurants, bars and other dining establishments are seeing a severe decline in their revenue. As these businesses are slowly allowed to re-open in a COVID-compliant seating format, we anticipate that the proprietors will seek additional or expanded outdoor seating.

The attached Temporary Outdoor Seating Permit has been developed by our Planning Consultant, Building Department and Supervisor. It allows for the applicant to bypass the Planning Commission and obtain a renewable, 90-day permit for outdoor seating and dining. The permit application would be reviewed by the Planner, Building Department, Fire Department and approved by the Supervisor. We will be happy to answer any questions you may have.

**PROPOSED MOTION:**    I move that the Plymouth Township Board of Trustees hereby adopt Resolution #2020-06-02-49 authorizing the implementation and use of the Temporary Outdoor Seating Permit; such permit to automatically expire on November 1, 2020 unless otherwise re-authorized by the Board.
