California Green Building Code Waste Diversion

The purpose of the Green Building Code (GBC) is to improve public health, safety and general welfare by enhancing the design and construction of buildings through the use of building concepts having a positive environmental impact and encouraging sustainable construction practices in multiple categories, including **material conservation and resource efficiency**.

To comply with the Green Building Code, the permit applicant for all new construction shall:

- 1) Complete a Waste Management Pre-Construction Plan prior to issuance of a building permit, and submit to the Agency indicated below.
- 2) Complete a Waste Management Plan Final Report within 30 days after project completion, and submit to the Agency indicated below.
- 3) Upon project completion, demonstrate that at least 65% (by weight or volume, not both) of jobsite debris was diverted from disposal in a landfill by providing receipts and/or gate tags from all facilities and service providers used for recycling, reuse and disposal of jobsite debris.

Documentation must be delivered in person or by certified mail to:

City of Red Bluff
Building Department
555 Washington St.
Red Bluff, CA 9608

Tehama County Landfill is happy to provide FREE waste management pre-construction plan and waste diversion assistance. Contact Rachel Ross-Donaldson at (530) 528-1103 or at rross@co.tehama.ca.us for further information. Forms and additional information are also available at <http://www.co.tehama.ca.us>.
