Red Bluff Police Department Organizational Chart

WELCOME MESSAGE FROM THE CHIEF

The Red Bluff Police Department is a full-service Police Department that is currently staffed with twenty-five sworn police officers and ten civilian employees. The Department is divided organizationally into two Divisions. These Divisions are the Operations Division and the Support/ Special Services Division. The Operations Division consists of the Uniformed Patrol Unit. Our Volunteers In Police Service (VIPS) program continues to be a valuable asset to the Department and our community. We look at strengthening our volunteer program(s) in the future years. This unit is also managed from the Operations Division of the Department.

The Support/ Special Services Division consists of the Investigations Unit, Dispatch Unit, Records Unit and the Community Service Officer Unit. The purpose of the Police Department is to provide for the safety and security of the citizens of Red Bluff. Our goal is to maintain a well equipped and well trained department that can provide a high level of service. The Members of the Police Department are committed to providing "Service with Integrity."

The Red Bluff Police Department remains committed to providing a high level of quality service to the citizens of Red Bluff. With the assistance of our community partners and allied agency partners, as well as State Grants, we have re-acquired two police officers positions. This has brought us to within just one position of our 2009 sworn staffing levels. Finally, after several years with this position vacant we are able to assign an officer to the Tehama Inter-Agency Drug Enforcement (TIDE) Task Force.

During 2014 the Red Bluff Police Department had a very busy and challenging year. There were significant increases in calls for service as well as increases in crime that certainly challenged our Department. We enhanced our School Resource Officer Program by adding a part-time School Resource Officer working in the Elementary Schools. I am very proud of the staff at Red Bluff PD. They work diligently every day to enhance the security and safety of our community.

Most importantly, the voters approved a ¼ cent sales tax increase focused on supporting public safety. With this increased funding we will begin gradually increasing the sworn and non-sworn staff to assist in providing better police services to our community. We are very grateful to the citizens for this support and will work hard to insure that this money is used to increase the safety and security of our community.

As you read through these pages, it will reflect the high level of activity and challenges as well as the quality and professionalism of the members of the Red Bluff Police Department. Our City is divided into (5) Areas of Responsibility, each headed by a Patrol Sergeant. There is a map on our website that identifies the jurisdictional boundaries of each Area of Responsibility. Each Sergeant is available to respond to questions or concerns about crime and law enforcement services in our city, and your Area of Responsibility. Each Sergeant's email addresses are available on-line at www.rbpd.org.

I encourage every citizen to read our Annual Report and Email questions and or comments to the Chief of Police at pnanfito@rbpd.org. You may also email questions or concerns to the Division Commanders.

OPERATIONS DIVISION

CAPTAIN KYLE SANDERS

The Operations Division is predominately comprised of patrol officers and supervisors whose primary function is to deliver initial police services to the community 24 hours a day. These uniformed personnel provide police response to calls for service as well as the initial response to an emergency or report of a crime. Other personnel within the Operations Division include two fulltime School Resource Officers (SRO's), one part-time SRO, traffic officer, and one Community Service Officer. The VIPS (volunteers) also fall within the Operations Division. All of these fine professionals deliver initial and follow up police services to the community seven days a week.

This division accounts for most of the Department's measurable workload and is the most visible as they are usually the primary contact for persons seeking police services.

All personnel within the Operations Division worked persistently throughout 2014 to address a year filled with challenges. These men and women routinely made sacrifices for the betterment of the Department and to improve the quality of life within the City of Red Bluff.

The following charts represent a small snapshot of some statistical data involving Operations Division personnel.

TRAFFIC OFFICER PROGRAM

The City of Red Bluff suffers from a significant collision rate and for many years has had one of the highest rates of vehicle versus bicycle collisions when compared with similarly sized communities. Methods to reduce collisions include both education and enforcement. The Department is committed to improving traffic related safety and through most of 2014 a fulltime traffic officer was designated to focus on such efforts.

The below chart demonstrates traffic collision statistics and shows that 2014 saw an overall decrease in our collision rate.

<i>Traffic Collisions</i>	<i>2011</i>	<i>2012</i>	<i>2013</i>	<i>2014</i>	<i>Change</i>	<i>% Change</i>

An Office of Traffic Safety (OTS) grant to assist our agency in costs associated with traffic enforcement efforts was acquired in 2013 and was awarded for the period of October 1, 2013 through September 30, 2014. The grant award totaled \$131,825.00 and provided funding for one fulltime police officer, overtime, equipment, and training. The following is a breakdown of the grant funding allotments:

TRAFFIC OFFICER PROGRAM (CONTINUED)

This chart shows a significant increase in total citations issued compared with the previous three years. This is mostly attributed to having an assigned traffic officer whose purpose is to focus time and efforts on traffic safety and enforcement.

We sincerely thank all who have helped as we could not have accomplished this without the incredible community support.

VOLUNTEERS IN POLICE SERVICE (VIPS)

Our Volunteers in Police Service (VIPS) program came to fruition in 2013 after eight VIPS graduated a 10-week VIPS Academy. On 6/13/2014, our second VIPS Academy concluded with three new members. The newly appointed VIPS are:

COMMUNITY ORIENTED POLICING PROGRAMS

The Police Department divides the City of Red Bluff into five different geographical regions (Areas of Responsibility) and designates each area with a sergeant and one or two officers for community oriented policing purposes. Each Area of Responsibility participates in Neighborhood Watch meetings and the Random Citizen Contact (RCC) program. The RCC program consists of an officer contacting a citizen randomly for no other reason than to connect with them and interact positively outside of a call for service.

The above chart demonstrates the Department's goal and efforts toward reducing the annual costs of special event related overtime. While 2014 saw an increase in total costs in comparison to 2013, it is still below previous years. This was accomplished in large part due to our ability to staff some events with volunteers from the Department's Volunteer in Police Service (VIPS) Program.

SRO Thomas

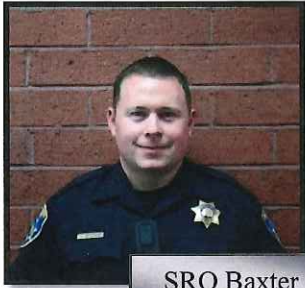

SCHOOL RESOURCE OFFICER

The Red Bluff Police Department School Resource Officer position is an integral part of our community policing philosophy.

During 2014 a transition in the Red Bluff High School Resource Officer took place due to SRO Aaron Murray advancing to a detective assignment. Detective Murray transitioned to the detective role at the conclusion of the school year in June 2014 and Officer Heidi Thomas took over the SRO role beginning at the start of school in August 2014. The SRO spends countless hours communicating with school staff, parents, students and citizens who live in the area of Red Bluff High School. The high school SRO remained quite busy throughout 2014 not only in the community policing aspect but also in the enforcement of violations committed by students at Red Bluff High School and the extension schools of the Red Bluff Union High School District.

The below chart represents only a small portion of the activity associated with the Red Bluff High School SRO:

SRO Baxter

 - ✓ The classes assist students to:
 - ✚ Define their role in the school / community.
 - ✚ Develop goals and methods to attain those goals.
 - ✚ Develop decision making skills.
 - ✚ Develop effective communication skills.
 - ✚ Develop effective refusal skills.

Red Bluff Police Department Support / Special Services Division

SUPPORT / SPECIAL SERVICES DIVISION

LIEUTENANT DAN FLOWERDEW

The Support/Special Services Division is comprised of several units that include Investigations (Detectives), Records, Community Service Officers (CSO), and Dispatch. While each of these units vary greatly in the scope of work performed, all are vital to the mission and goals of the Red Bluff Police Department. The Support/Special Services Division is managed by Lt. Dan Flowerdew.

Although the Units within the Support/Special Services Division have been adversely affected by the struggling economy, they are united in their commitment to providing quality services to the City of Red Bluff.

INVESTIGATIONS

During the calendar year of 2014, the Investigations Unit was comprised of two assigned detectives; Detective Scott Curtis and Detective Aaron Murray. Detective Murray was assigned to the unit in June 2014 and from January 2014 to June 2014 Officer Matt Coker and Officer Heidi Thomas were temporarily assigned to the Investigations Unit on a temporary rotation status.

- 125 cases assigned-follow up, 35 were sex related
- Significant Cases:
 - ✓ Sex with a minor
 - ✓ Kidnapping and crossing state lines
 - ✓ Joshua Verry-Homicide
 - ✓ Rogelio Samuel McDarment-Manslaughter

Detectives Possess Special Skills

- Computer Forensics
- Cell phone Forensics
- Computer Voice Stress Analyzer
- Forensic Interview Skills

A total of **124** cases were assigned to the Investigations Unit for follow-up during this year and **120** cases were cleared. The cases ranged from child molestations, rapes, robberies, assaults with deadly weapons, burglaries and homicide investigations. A breakdown of investigative cases assigned to detectives can be found in the below chart. Also due to staffing levels, Detectives have assisted patrol throughout this year to help fill patrol shifts. In 2013, **95** cases were assigned to Detectives which means, in 2014, case assignments to Detectives were up by 30.52%. In 2014, the complexity of the assigned investigative cases is very time consuming and due to only having two assigned Detectives they simply cannot investigate every case. This has caused Lt. Flowerdew to scrutinize the potential investigative cases. Some of those cases did not meet the priority level of other cases therefore those cases were either reassigned to patrol or simply not worked. This is very unfortunate but a necessity at this time. Furthermore many of the runaway cases have been assigned to the School Recourse Officers; cases which would normally be investigated by a Detective.

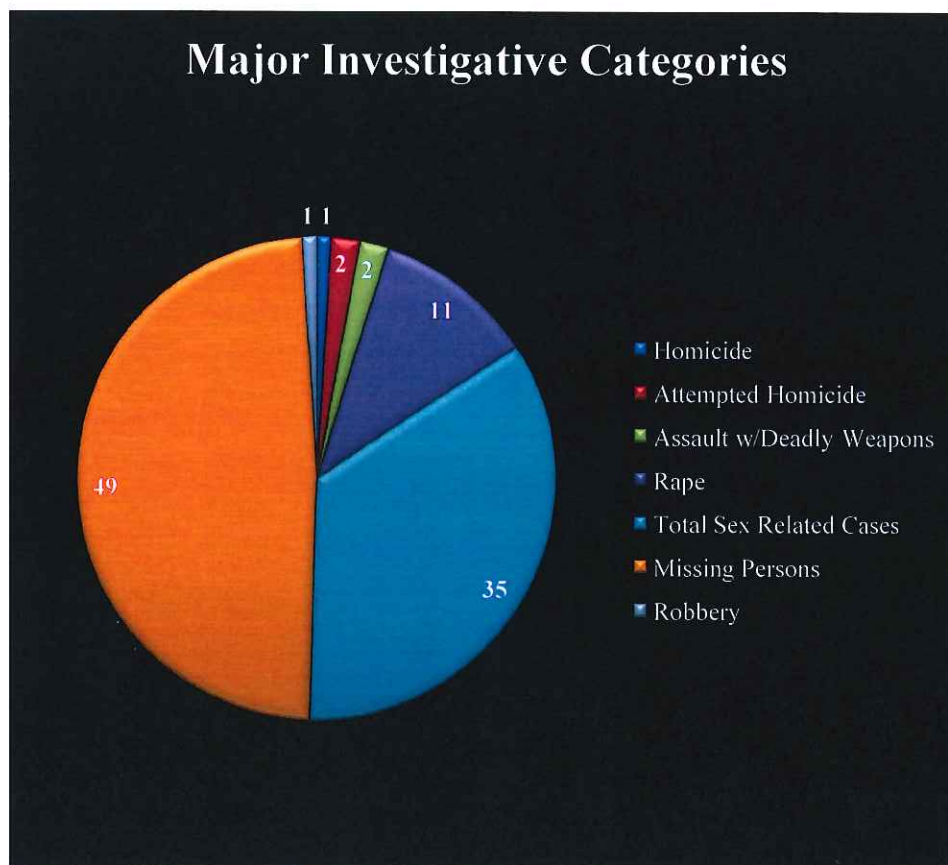

INVESTIGATIONS (CONTINUED)

Detective Curtis also took 18 initial investigative reports and Detective Murray took 31 initial investigative reports.

A total of 35 sex related investigations, 1 homicide investigation, 2 assaults with deadly weapons cases and 49 missing persons cases were assigned for detective follow-up. These types of cases involve an extraordinary amount of time to investigate as well as a great deal of investigative knowledge, skill and experience to do so effectively.

Detective Curtis is in charge of coordinating and scheduling the Red Bluff Police Department sexual offender program sex registration compliance checks. This program is funded by the Shasta County SAFE Grant and is overseen by Lt. Flowerdew in regards to Red Bluff Police Department overall activity and equipment acquisitions.

Records/Communications
Manager Cindee Spurgeon

The Communications Center is the primary PSAP (Public Safety Answering Point) for the City of Red Bluff. This means that all 911 calls originating in the city are routed to the center, including wireless calls. The dispatcher's primary responsibilities include answering seven 911 emergency telephone lines, 4 business telephone lines and several other inter-department telephone lines that must be routed properly. They keep track of all on-duty police officers, detectives, sergeants, community service officers, and other miscellaneous personnel. They monitor Red Bluff PD's primary radio channel along with other radio channels such as the Tehama County Sheriff's Department, the Red Bluff Fire Department and Public Works so they are aware of incidents that may require police assistance. They use a Computer Aided Dispatch system to input calls for service and to keep track of on duty units. They prioritize these calls for service and dispatch appropriate unit(s) to in progress or cold calls. Besides answering emergency phone calls and radio dispatching, RBPd dispatchers inquire and update into CLETS databases, complete data entry on pawns, citations and other miscellaneous paperwork, and also scan documents into cases and incidents.
