## Working Together and Being Prepared

The Rio Grande City Chief of Police, Mr. Noe Castillo, held a meeting to discuss various challenges facing our local law enforcement agencies and school districts when it comes to an active shooter situation.

There have been over 2000 tragic active shooter situations in the United States alone, creating the question: What is the best way to prevent a shooting incident in our community?

"The main point of this meeting is to have

an open conversation," stated Mayor Joel Villarreal as he welcomed the guests from the community, "we want to coordinate efforts to prevent a tragic event from occurring in our schools and community."

Representatives from IDEA Public Schools, RGCGISD Police Department, Roma ISD Police Department, Rio Grande City Police Department, Roma Police Department, Escobares Police Department, La Grulla Police Department, and the Starr County Sheriff's Office came together with the

superintendents from Rio Grande City Grulla ISD, Mr. Adolfo Pena Jr., and Roma ISD, Mr. Carlos M. Gonzalez Jr., to openly discuss ideas should an active shooter situation occur.

On behalf of Mayor Joel Villarreal, Chief of Police Noe Castillo, and the City of Rio Grande City, we would like to thank everyone who took the time to attend this meeting and we hope to continue these conversations in the future for the safety and well being of our community.

## DHR Hospital Breaks Ground for Upcoming Medical Facilities in Starr County

A groundbreaking ceremony took place for an upcoming state-of-the-art medical development that will provide the necessary facilities enabling patients to stay within Starr County to access specialized healthcare.

The development will include a new laboratory, a clinic, a research facility and other facilities in hopes of attracting physicians to the area.

"Today is a day I'm proud to be part of," said Mayor Joel Villarreal. "This project will transform our region for generations to come and ensure our medical needs are serviced right here in Rio Grande City." The new medical development will be an expansion of DHR's services in Starr County following a partnership between the hospital system and Starr County Memorial Hospital. Through the existing partnership, DHR physicians provide services at the Starr County hospital.

"Today, we stand here to redirect the same commitment of DHR Health to the family and friends of Starr County," Dr. Manish Singh, CEO of DHR Health, said during Thursday's groundbreaking ceremony.

Dr. Singh said the hospital partnered with the Starr County Industrial Foundation, the Rio Grande Economic Development Corporation, Rio Grande City, and Starr County Memorial Hospital to bring "a medical lab to provide faster results for the patients, develop various residency programs to recruit even more skilled physicians to the area, a clinic, housing for those physicians — that's right, an apartment complex so they can live near the workplace right here."
