**ATTN: Honorable Mayor Greg Parker & Board of Aldermen**

**RE:               Engineer's Review and Recommendation of Bids for:  
Well No. 2 and Well No. 4 Contact Tank Painting Project**

Dear Mayor Parker & Board of Aldermen,

On March 28, 2023 the City Clerk, Water and Sewer Superintendent and I were present to open and read aloud bids for the above-mentioned project. A total of four contractors acquired plans for consideration and we received bids from all contractors. The contract was configured such that award would be made to the low base bid submitted by a responsive, responsible bidder. The Base Bid scope covered the painting of the Well No. 4 Contact Tank. Hogan's, Inc. of Van Buren, MO was low bidder. Table 1 summarizes the base bids submitted by each bidder.

**Table 1 – Summary of Base Bids**

Bidder	Base Bid Price
CCIMW	\$50,096.00
Central Tank Coatings, Inc.	\$43,000.00
<b>Hogan's, Inc.</b>	<b>\$29,454.00</b>
Ozark Applicators, LLC.	\$35,750.00

Several additive alternates were included within the bid package. This approach was taken to allow the City flexibility in determining the final scope of work selected to accommodate budget allowances. Each selected additive alternate would be awarded to the bidder having the low base bid. Table 2 Summarizes the additive alternate prices submitted by the low bidder.

**Table 2 – Hogan's, Inc., Bid Alternate Prices**

Additive Alternate	Description	Bid Price
Alternate No. 1	Well No. 2 Contact Tank Painting	\$31,475.00
Alternate No. 2	Well No. 6 & 8 Contact Tank Piping Insulation	\$7,400.00
Alternate No. 3	Well No. 4 Contact Tank Mural Replacement	\$6,400.00

*Salem Contact Tank Painting  
Page 2 of 2  
March 28, 2023*

The City's budget for this project was \$60,000. Based on a review of the base bid and bid alternates with City Staff, it is **recommended that the Base Bid and Additive Alternate No. 1 be awarded to Hogan's, Inc. in the amount of \$60,929.00.** It is also recommended that the City consider awarding Additive Alternate No. 2 which would afford the insulation of exposed piping at the Well No. 6 and No. 8 sites. Pipe freezing becomes a chronic issue during winter months that requires frequent City intervention. The installation of a permanent insulation system on the contact tank piping will help to protect the City's water supply and potentially reduce current operational expenditures.

Archer-Elgin appreciates the opportunity to serve the City and looks forward to completing a successful project for the Salem Community. We welcome any questions or comments.

**Respectfully,**
