<p>For single- unit consumers with City water service, the billing rate structure consists of two components: A monthly fixed charge for the service, regardless of water meter size, plus Tiered volumetric charges per thousand gallons of water consumed, as registered by the meter serving the consumer and based on a winter averaging calculation specified below.</p>	
<p>For multiple- unit consumers utilizing a single water meter, the billing rate structure consists of two components: A monthly fixed charge for the service, regardless of water meter size, multiplied by the number of units being served plus Tiered volumetric charges per thousand gallons of water consumed, as registered by the water meter serving the consumer and based on a winter averaging calculation specified below. In calculating the charge, the number of gallons specified in each tier is multiplied by the number of units being served to determine the upper consumption limit for that tier.</p>

<b>WATER AND SANITARY SEWER RATES (Continued)</b>	
<p>Note: Sanitary sewer charges for residential and commercial accounts are calculated based upon water consumed as registered by the water meter serving each consumer.</p> <p>1. To qualify for sewer averaging, an account with sewer service must have had metered water service available throughout all four months of the previous November through February time period (the "designated winter months"). Metered water consumption for only the current occupant at a service address will be considered in the calculation of the average. The calculation will not include metered water consumption for any former occupants at the same service address.</p> <p>2. Sewer averaging will be recalculated at the commencement of each fiscal year, starting with the billing for October consumption taking place on or about November 25 and continuing throughout the remainder of the fiscal year. An average of each qualifying account's water consumption for the four designated winter months will be calculated and billed in accordance with the applicable sewer rate table currently in effect. If an account with metered water service does not have water consumption for any of the designated winter months, those months will be excluded from the averaging calculation. Once the average has been calculated, it will be used as a basis for billing the account each month for the entire fiscal year until a new average has been established.</p> <p>3. An account with metered water service that does not qualify for sewer averaging will be billed for sewer service based on a default average water consumption of 5,000 gallons per month, billed in accordance with the applicable sewer rate table currently in effect. The account will continue to be billed in this manner until such time when an average can be established.</p> <p>4. An account with sanitary sewer service but without metered water service will be billed at the flat rate specified above.</p>

<b>SOLID WASTE RATES</b>	
<p>Solid waste and recyclables shall be picked up and removed by the City’s contractor, Texas Disposal Systems (“TDS”), from each residence and non-residential establishment within the City at the following rates. When residential and non-residential activities are located within the same building, the commercial billing fee schedule will be applied to the utility account. For multiple-unit customers, the monthly fixed charge will be multiplied by the number of units. If the disposal of solid waste of a particular establishment is prohibited under the terms of the operating permit of the landfill facility being utilized by the City or its contractor, such establishment must make arrangements for a qualified individual or entity to collect and dispose of its solid waste at a properly permitted facility.</p>	
<p>TDS will not be collecting customers’ garbage or recyclables on any scheduled collection day that falls on New Year’s Day, Independence Day, Labor Day, Thanksgiving Day, and Christmas Day.</p> <p>The City contracts with TDS for once-a-week residential solid waste collection services at the following rates and charges:</p>	
<p>Each residence will also be provided curbside collection one (1) time per month on the customer’s last day of pickup for the month. TDS will collect up to three (3) cubic yards per pick up of bulky waste or brush collected. Brush must be cut no longer than four (4) feet in length and three (3) inches in diameter. Brush must be bundled and tied and each bundle must weigh less than thirty-five (35) pounds for safety. There is no charge for this service other than the monthly residential rate listed above.</p>	
<p>Single-stream recycling will be collected one (1) time every-other-week for each Residential Unit. The Contractor will provide one (1) ninety-six (96) gallon cart specifically for this service. There is no charge for this service other than the monthly residential rate listed above.</p>	
<b>RESIDENTIAL RATES AND CHARGES</b>	
Standard service (one cart)	\$35.24
Each additional cart	\$18.00
<b>RESIDENTIAL SERVICE DEPOSITS</b>	
<p>Residents having water, sanitary sewer, or natural gas service with the City are not required to pay an additional deposit for solid waste service. If the resident has only solid waste service, the following cash deposit shall be charged each customer:</p>	
Owner Occupied	\$75.00
Senior Citizen (65 or older)	\$40.00
Tenant-occupied/mobile or manufactured home	\$125.00
<p><b>* All deposits shall be paid in cash by the customer before any service shall be provided.
