

F.O.G. ALERT!™

Fats, Oils & Grease are clogging
the sewer pipes on your street!

(More on back)

The City of Sedro-Woolley maintenance crew is in your neighborhood working hard to keep sewage flowing away from your home. Help us fight future sewer backups on your street!

Following a few simple steps, you can help prevent sewer backups and spills:

Siga estos pasos para ayudar a evitar cañerías obstruidas y derrames de las alcantarillas:

- 1.** Pour cooled fats, oils and grease into a covered, disposable container and throw it into your garbage. Never pour fats, oils or grease down sink drains or toilets.

Coloque las grasas y los aceites fríos en un recipiente con tapa y desechable y arrójelo a la basura.

- 2.** Soak up remaining oils and grease with an absorbent material such as paper towels or kitty litter and throw into your garbage.

Absorba las grasas y los aceites restantes con servilletas de papel y deshágase de ellas junto con los restos de comida y desechos del jardín.

- 3.** Before you wash dishes, scrape food scraps, fats, oils and grease into your garbage.

Antes de lavar los platos, arroje los restos de alimentos, grasas y aceites en su compostaje o en la basura.

- 4.** Use sink strainers to catch any remaining food waste while washing dishes.

Utilice coladores para fregaderos al lavar los platos para atrapar los restos de comida que podrían quedar.
