#### NEW BUSINESS

1. Recycling Service Discussion.

Finance Director Kelly Kohnken reviewed the memorandum 'Financial Impact of Reducing City Recycling Service'. Her conclusion was that deleting the service would result in an estimated annual decrease of \$347,535 in the Solid Waste Budget. See memorandum attached for details.

After considerable discussion, the Committee consensus was that no further action was required on this topic at this time. The Committee requested that this topic be revisited annually during the budget process. Director Freiburger suggested that this review occur during the annual utility rate review process and be discussed at the October 11 Public Works Committee meeting. This was the consensus of the committee.

2. Discussion was held on street sign and restroom vandalism. No conclusions were reached on the matter.

3. Director Freiburger requested input on future topics for the PW Committee meetings. Councilmember Diamond suggested a report and discussion on sidewalk infill and replacement.

The meeting adjourned at approximately 5:45 pm.

Next meeting: July 12, 2023
