Two COVID-19 Cases Confirmed in Seguin on May 7

SEGUIN, Texas – Two cases of COVID-19 were reported in the City of Seguin on Thursday, May 7, bringing the total number of cases reported in the City to 19.

Currently, there are 14 active cases in the City. Five patients have recovered.

Both patients are self-quarantined at home and being monitored by the Department of State Health Services (DSHS). More information will be shared as it becomes available from DSHS.

The City of Seguin and Guadalupe County expect to see an increase in cases throughout the City and County as testing becomes more available. The City and County remain committed to monitoring the COVID-19 situation actively and will make decisions that keep the citizens of Seguin and Guadalupe County safe.

To help prevent the spread of COVID-19, residents are urged to follow these guidelines:

- Continue to practice social distancing by keeping six (6) feet apart and avoiding gathering of more than ten (10) people
- Wash your hands often with soap and water for at least 20 seconds. If soap and water are not available, use an alcohol-based hand sanitizer.
- Avoid touching your eyes, nose, and mouth with unwashed hands.
- Avoid close contact with people who are sick.
- Stay home when you are sick.
- Cover your cough or sneeze with a tissue, then wash your hands.
- Clean and disinfect frequently touched objects and surfaces.

Minimizing exposure is especially important for people who are 65 or older or who have an underlying health condition like heart disease, lung disease, diabetes, high blood pressure or cancer. People in those groups have a higher risk of developing severe disease if they do

get COVID-19, and the safest thing for them during an outbreak will be to stay home as much as possible and minimize close contact with other people. To get ready, they should talk to their doctor about getting additional prescription medications and have enough household items and groceries on hand to stay home as needed.

The public can find up-to-date coronavirus information at:
