

GUADALUPE COUNTY

OFFICE OF EMERGENCY MANAGEMENT

101 EAST COURT STREET
SEGUIN, TEXAS 78155

June 23, 2020

For Immediate Release:

196 People have recovered from COVID-19 in Guadalupe County with 79 active cases.

43 COVID-19 cases have been confirmed in Guadalupe County since Friday, June 19th, bringing the total cases reported to 275. **Multiple** cases are in the same households.

Effective June 19, 2020

The Texas Department of State Health services changed their new reporting format for COVID. The total county will include the total of confirmed, probable, and pending cases in Guadalupe County.

The total case in count will also be the same as the sum of active, recovered, and death cases:

Pending Investigation + Confirmed + Probable = Total = Active + Recovered + Deaths

Guadalupe County Number

275 Reported to Guadalupe County + 193 DSHS Pending Cases = DSHS 467 total reported on website.

Reminder on Case Definitions

A confirmed case of COVID-19 is one that is laboratory confirmed in a clinical specimen using a molecular test, such as a PCR test. A probable case of COVID-19 is one that is not laboratory confirmed by PCR, but may meet case definition through a combination of symptoms, exposure history, and other lab tests. The purpose of a probable case definition is to identify cases that may not be able to receive a confirmatory test. This may be due to their isolation status or because they have mild symptoms that do not require a healthcare visit. Both confirmed and probable cases are considered cases and are included in total counts.

We continue to encourage and recommend all citizens to help stop and slow the spread of COVID-19 by following the guidelines outlined by the Texas Department of State Health Services and orders issued by the Governor or local jurisdictions.

The public can find up-to-date coronavirus information at dshs.texas.gov/coronavirus, and at <https://www.co.guadalupe.tx.us/>. If you have questions about COVID-19, call 2-1-1.
