Hospitalizations

We are in constant communication with the Hospital. We are aware that there are more COVID-19 patients at GRMC than what our chart shows. There are several factors with that: we can only “officially” report confirmed cases by DSHS, and two, we can only count patients that are Guadalupe County residents. Not all patients at GRMC are Guadalupe County residents. Therefore, there will most likely continue to be a discrepancy between the number of patients the hospital reports to have, and how many we can count. Currently, GRMC has 27 hospitalized patients at their facility. Not all of these patients reside in Guadalupe County. The current Total number of Hospitalized patients with the DSHS numbers, and GRMC number is 31 patients.
