

City of South Lyon
Regular City Council Meeting
June 27, 2022

Mayor Pelchat called the meeting to order at 7:30 p.m.

Mayor Pelchat led those present in the Pledge of Allegiance

Roll Call: Mayor Pelchat and Councilmembers: Dilg, Kurtzweil, Kivell, Kennedy, Mosier, Hansen

Also present: City Manager Zelenak, Lieutenant Noechel, Chief Sovik, Finance and Benefit Administrator Tiernan, DDA Director Mack, Clerk/Treasurer Deaton and Director Varney

MINUTES

Councilmember Kivell stated the first sentence in the last paragraph on page 10, should be changed to reflect what he said which is “he would like to start off kind of off the back of something Lisa said. He said he saw something pertinent something to the effect of he dreams of a world where we love our children more than we love our guns, and he can’t imagine anything clearer that we’re on a weird path.”

CM 6-1-22 MOTION TO APPROVE MINUTES AS AMENDED

Motion by Kennedy, supported by Dilg

Motion to approve the minutes as amended

VOTE: MOTION CARRIED UNANIMOUSLY

BILLS- None

AGENDA

CM 6-2-22 MOTION TO AMEND AGENDA

Motion by Kennedy, supported by Kivell

Motion to add revised budget fiscal 2022-2023 revised budget and millage resolution approval

VOTE: MOTION CARRIED UNANIMOUSLY

CM 6-3-22 MOTION TO APPROVE AGENDA AS AMENDED

Motion by Dilg, supported by Hansen

Motion to approve the agenda as amended

VOTE: MOTION CARRIED AS AMENDED

CONSENT AGENDA

1. Traffic Control Order 22-03

CM 6-4-22 MOTION TO APPROVE CONSENT AGENDA

Motion by Kurtzweil, supported by Kennedy

Motion to approve consent agenda as presented

VOTE: MOTION CARRIED UNANIMOUSLY

PUBLIC COMMENT- No comments were made

DISCUSSION- Downtown

Downtown Director Mack stated the Farmers Market was very successful over the weekend. The first responders for the kids and Diana reported that it was a great event. He then thanked Police, Fire and the ambulances for all being there. He then stated we had the downtown business and property owner meeting and we had representatives from the Greater Brighton Area Chamber of Commerce present to discuss the merging of the Kensington Valley Chamber with the Brighton Area. He then stated he

6/27/22

submitted a grant for \$1,000 to Main Street Oakland County to help with a market analysis study and we should hear back in a month or two. He further stated the Lyon's Book Den is closing down and he is collecting information to add to our website if and when the property goes up for sale. Councilmember Kurtzweil asked about the stop work order on the door of the appliance store. Downtown Director Mack stated that is for the Doctor's office side of the building, they were doing work without permits, but they are working on getting the permits now. Councilmember Hansen stated with the book store closing, we will now have another empty storefront on that street. He then asked if there has been any movement with the theatre. Downtown Director Mack responded he has not heard anything recently, but he will look into it. Councilmember Kivell asked who owns the book store. Downtown Director Mack stated the building is owned by the bookstore.

FIRE CHIEF REPORT

Lieutenant Noechel stated as of today they have had 527 calls for service, which is up from last year. He stated recently they gave mutual aid to a residential structure fire with Green Oak Township, and the wind storm caused multiple power lines down and trees across the roadways. He further stated they did some hose management training for staff and they also did some fire truck evolutions. He stated we are almost done with the annual hose testing which is part of the NFPA compliance and he thanked all the staff members that have come out multiple days to assist. Our Fire Inspector has been working on multiple plan reviews, and field inspections. He then stated as of July 24th, our station will have someone at the station 24 hours, 7 days a week. We will have a minimum of 1 firefighter on duty. Councilmember Kurtzweil asked why there has been an increase in calls. Lieutenant Noechel stated it could be an increase in population, more people at home and with summer being here there is more foot traffic. He further stated they are all various types of calls, such as car accidents, lock outs, and things like that. Councilmember Kurtzweil stated that speaks highly of the Fire Department in that there is a tremendous credibility that people have with respect to the assistance you give.

POLICE CHIEF REPORT

Chief Sovik stated they have hired a new administrative assistant and she starts on July 11th. She came from Milford Police Department so she comes with police experience and she has a lot of the certifications they were looking for. Brianne has offered to come in on a weekend to show her around and where all the files and everything are located. He then stated they had a generator issue last week. They tested it on Friday and it was fine, but when the power went out later, it did not come on. He explained there is some type of gas pressure regulator that we are working through with DTE and we are now working with SPS and Consumers to get that fixed. Chief Sovik stated they have added a handicapped parking spot on Pontiac Trail near the bakery. He then stated they participated in the Touch a Truck at the library and at the Farmers Market and it was a good turnout. He stated they had a meeting regarding the First Responder Monument and the Veterans Memorial Fund. He stated things are going slower than anticipated and the next step is to have someone do an architectural landscape design of the project. Things have been put on hold, but Gary Fagin joined and said he would contact someone who can provide that for us. Potential donors want to see the plans of what have coming. He further stated on July 1st they will be putting in a concrete slab to work with the people that are fabricating it. They intended on having something by September 11th, but we are probably looking at spring of next year. We plan on doing more fundraising. Councilmember Dilg stated she is happy about the new handicapped spot. She was getting ready to walk across the street, and a senior was getting frustrated trying to cross the street, and she had to stop traffic so that person could cross. She stated we budgeted for a cross walk there, but if there is anything we can do better, we should. Chief Sovik stated we have pedestrian signs that keep disappearing, he thinks people run them over and drag them, but we keep replacing them as we find them. If anyone finds one, please bring it to the Police Department. Councilmember Kennedy

thanked Chief Sovik and Chief Thorington for getting the sign placed on W Lake Street identifying the Police and Fire Department. He then stated maybe we can increase the size at a later time.

UNFINISHED BUSINESS

1. Tax abatement extension

Downtown Director Mack explained discussions have been taking place with 135 E Lake Street regarding the progress of their project. He stated they have requested an additional 3-month extension date for the completion of the building. Due to delays due to COVID and trades people are hard to come by and get on the schedule. He won't be able to make the June 30th date. He is hoping to be done by September 30th. Councilmember Kivell stated he doesn't think there is anything wrong with this, but he wants to make sure we don't hit another bump. He thinks Tom is running a little bit late beyond Dan's project that is moving forward, there's a lot more necessary to get Tom going. Downtown Director Mack stated that is separate from the tax abatement, because that is the business going inside. Councilmember Kivell stated his point is he isn't doing this again. Councilmember Hansen stated he agrees with Councilmember Kivell and with staffing being a tough thing, he hopes the business is setting up those dominoes so they are ready to fall when the building is ready to open. Councilmember Kurtzweil stated Dan has done a remarkable job, and she doesn't have a problem if he has to come back a second time, it is important we make these decisions based on the economics in which are living in, 3 months from now, we could be in a recession, which would clearly affect the restaurant. She stated she wouldn't let this go on for a year, but we need to take all economic variables into the decisions.

CM 6-5-22 MOTION TO APPROVE 3 MONTH EXTENSION

Motion by Kurtzweil, supported by Kennedy

Motion to approve the request from 1855 Holdings, LLC to extend the project completion deadline of 135 E Lake St renovations to September 30, 2022

ROLL CALL VOTE:

Kurtzweil- Yes

Hansen- Yes

Kennedy- Yes

Mosier- Yes

Dilg- Yes

Kivell- Yes

Pelchat- yes

MOTION CARRIED UNANIMOUSLY

2. Fiscal Year 2022-2023 revised budget and millage rate resolution

Finance and Benefit Administrator Tiernan stated she is asking for a revisit of our fiscal year 2022-2023 budget. Oakland County detected a clerical error in the millage rate that was calculated on the L-4029 form, tax rate request. She stated there was an error with the Headlee roll back calculation. She stated the correct mill rate will be 12.3500 mill per thousand per value, for the general fund operation. This is a reduction from the 12.4938 due to the Headlee roll back. She stated the tax bills being mailed this week does have the correct mill rate. There is no change to the voter approved 3. millage rate. The revised millage rate resolution and budget resolution will need to be passed tonight. Councilmember Kennedy stated it is straight forward and he thanked her for her work and getting this to Council. Councilmember Kurtzweil asked the decline in revenue attributed to the millage rate. Finance and Benefit Administrator Tiernan stated it is approximately \$64,000.00 for the general fund and a few hundred for the DDA budget. Councilmember Kurtzweil stated that isn't a significant impact on our budget or the operations of the city.

CM 6-6-22 MOTION TO APPROVE REVISED MILLAGE RATE RESOLUTION

6/27/22

Motion by Kennedy, supported by Mosier

Motion to approve the revised Fiscal Year 2022-2023 Millage Rate Resolution

ROLL CALL VOTE: Hansen- Yes
 Mosier- Yes
 Kurtzweil- Yes

 Hansen- Yes
 Mosier- Yes
 Kurtzweil- Yes
 Kennedy- Yes
 Pelchat- Yes
MOTION CARRIED UNANIMOUSLY

NEW BUSINESS

1. Budget amendments

Finance and Benefit Administrator Tiernan explained the fiscal year 2021-2022 budget amendments totaling \$300,090.00 for general fund, \$36,605.00 for major streets fund, \$16,532.00 for local streets fund, and \$6,425.00 for equipment replacement fund.

CM 6-8-22 MOTION TO APPROVE BUDGET AMENDMENTS

Motion by Kivell, supported by Kennedy

Motion to approve the proposed fiscal year 2021-2022 budget amendments

ROLL CALL VOTE: Kennedy- Yes
 Mosier- Yes
 Hansen- Yes
 Kurtzweil- Yes
 Dilg- Yes
 Kivell- Yes
 Pelchat- Yes
MOTION CARRIED UNANIMOUSLY

2. Purchase of new raw sewage pump and motor

Superintendent Varney stated the wastewater treatment plant needs to replace a raw sewage pump. The Aurora Pumps that are currently being used are no longer being manufactured by PENTAIR. He stated they researched options to update the current configuration at the clean water plant. The current pump and motor are 10HP and will need to be reconfigured to match the other raw sewage pumps in the drywell. Councilmember Kennedy asked him to explain the benefits of this pump. Superintendent Varney stated the actual pump we are going to go with is the current configuration and can be pulled separate from one another. There is another configuration that we could have gone with that are

combined, so if the pump goes you have to replace the pump and the motor, the same if the motor goes. Eventually we will switch out all our pumps. Councilmember Kurtzweil asked where this is made, because there are still supply issues due to the economy and she'd hate to bank on everything being made in China and we are still waiting for its months from now. Superintendent Varney stated we shouldn't have that problem. Councilmember Hansen asked if we have a time table to replace the other pumps. Superintendent Varney stated they are working on that with the CIP. We are doing one thing at a time. Further discussion was held regarding the time frame for replacing pumps.

CM 6-9-22 MOTION TO APPROVE PURCHASE

Motion by Dilg, supported by Kennedy

Motion to approve the purchase of a new raw sewage pump for the wastewater treatment plant for \$32,721.00 under line item 592-557-972

ROLL CALL VOTE:

Kurtzweil- Yes

Hansen- Yes

Mosier- Yes

Dilg- Yes

Kennedy- Yes

Kivell- Yes

Pelchat- Yes

MOTION CARRIED UNANIMOUSLY

3. Purchase of scheduled and budgeted pump maintenance for the water treatment plant
Superintendent Varney stated the water treatment plant needs preventative maintenance performed on two pumps this year based on hours and use. This is a scheduled purchase for this year's budget. The expenditure will be purchased from the building and equipment maintenance account 592-556-931 for the amount of \$40,570.17. Peerless Midwest is our contractor to perform this service. The price includes: pulling two pumps and complete motor overhauls along with all new pump head components. The price also includes startup and testing for both refurbished pumps. Councilmember Hansen asked about the warranty. Superintendent Varney thinks it is 12 months. Councilmember Kurtzweil asked why we aren't doing competitive bidding. Superintendent Varney stated we are very familiar with them and they are familiar with our plant and they do all our pump maintenance for us and we have tried a different contractor for a short time, but we decided to go back to Peerless.

CM 6-10-22 MOTION TO WAIVE BIDDING PROCESS

Motion by Kennedy, supported by Hansen

Motion to waive Sec 2-224 of the City of South Lyon Code of Ordinances, "approval for purchases or contracts over \$2,000; competitive bidding for purchases or bidding over \$5,000" because "no advantage to the city will result" from competitive bidding

ROLL CALL VOTE:

Hansen- Yes

Mosier- Yes

Kurtzweil- Yes

Kivell- Yes

Dilg- Yes

Kennedy- Yes

Pelchat- Yes

MOTION CARRIED UNANIMOUSLY

CM 6-11-22 MOTION TO APPROVE PURCHASE

6/27/22

Motion by Kennedy, supported by Hansen

Motion to approve the purchase and installation of 2 newly refurbished pumps for water treatment plant for \$40,570.17 under line item 592-556-931.

ROLL CALL VOTE:

Kivell- Yes

Dilg- Yes

Mosier- Yes

Hansen- Yes

Kennedy- Yes

Kurtzweil- Yes

Pelchat- Yes

MOTION CARRIED UNANIMOUSLY

BUDGET

Councilmember Dilg stated she heard the schools aren't going to use our SRO and how that affects our budget. City Manager Zelenak stated our budget was passed on revenues and expenditures and one of the revenues was for the SRO. He then stated the schools are looking at Oakland County Sheriff's office for that, but we haven't heard that has passed, so we are waiting to hear from the schools before it comes before Council. Councilmember Hansen asked if there is any negotiating since our original ask, and if it is more or less, would it cause another budget amendment. City Manager Zelenak stated it could because the budget was based upon discussions and the SRO for the upcoming years. If anything changes, it would have to come before Council again. Mayor Pelchat stated he and other Councilmembers began receiving numerous emails from concerned residents and staff at the school district. He stated after the conversations that were held at this table, he thought we may be able to make it happen. He further stated he began reaching out to people to see if that was the case, what we could do to correct the matter or help the school district decide to stick with SLPD and Officer Walton. He further stated he was less impressed with the response from the administrative team. He understands it is a tough situation, but he is willing to take a certain amount of responsibility to be where it is because his communications with people on this side of the building and the other, were not what they should have been. He then said if they haven't made a deal with the county, he fully expects them to reach out to us, and if the decision has been made that they are going in a different direction, he will know we have done everything we can to provide slightly to moderately better service based on the information he has. Councilmember Kurtzweil stated everyone has opinions on the SRO. She then reminded everyone, including the townships, they are not the only ones providing assistance with respect to aiding in the safety and security of the students. She had the opportunity to speak with Chief Sovik and the township doesn't have an understanding of a risk management plan, which she has been researching with for a long time. She then stated one of the things missing from the discussion at the school district is they failed to communicate to the community and the parents. A risk management plan gives you all the risks on a continuum. When you're talking about a school district, you have kids that are arriving at the bus in the morning, which is a risk. You have children gathering at a school, getting on the bus after school is the event of a risk. There are other opportunities of risk once the kids are in the school, which is where the SRO comes in. When you look at a defined risk management plan, you define all of the risks on a continuum. That includes children crossing a street, people sitting in a parking lot that are doing nothing, that is all risks. How do you manage all those risks? The City of South Lyon is managing risks for the school district by having two highly paid officers every day go over to the schools watch the students get off the bus, they monitor the parking lot, they also are watching and observing when they are getting on the bus. Those events of risk, the City of South Lyon is paying officers to do. It is coming from our Police Department. The wage time, not including benefits is roughly \$18,000 to \$20,000 dollars. If you include benefits, with estimated 300 hours, that our officers are spending on the continuum, early in the day and late in the day are paying.

6/27/22

for that. That is roughly \$25,000 to \$28,000 which the city is paying for. Then during the officers do a walk through each school. The school district has not acknowledged that these are risks the city is paying for because they don't understand a risk management plan. Lyon Township is intervening on the risk management plan at a continuum in the middle of the day. That is where Lyon Township has chosen to give financial assistance in managing risk for the schools. The city is managing risks throughout the day, morning and after school. She stated she found out the city is also paying close to \$20,000 for crossing guards. That is risk management and coming out of the city's budget. We could ask the school district to pay for that, but we haven't. When you add it all together, it is approximately \$50,000 which is already coming out of our budget. She further stated we are in a different place in the risk management plan than where the school district wants us to be. The school district has not given the city credit for everything it deserves for already being part of the risk management plan which clearly, they're not aware of. We are addressing risk and managing and assisting risk in the elementary schools. Now they are wanting more of a contribution on top of that so that would push the city approximately \$70,000.00 We need to look at the total risk management costs that we are providing the school district, which is why she thinks we need to recover some costs. She is offended when Lyon Township says they are thinking of the children as if nobody else is. She is going to do something different than they did. She is thanking everybody in South Lyon, the taxpayers have been funding this risk management level for the students. She has spoken with parents over the last month and a half and the most important thing to them is having the Police Officers at the schools at arrival and departure. That makes them feel safe. She then thanked them again for going the extra mile. She then thanked Lyon Township and Green Oak. Councilmember Dilg stated she agrees with Councilmember Kurtzweil. When you talk about risk and what you're willing to pay for. We're looking at it playing out in front of us. All the questions that are happening talking about what happened in Uvalde and who was in charge and who was supposed to make the call, what was the plan. We don't want to be in that position, and she feels like it is short sighted from what she has heard that its about a \$15,000 difference which works out to about \$375.00 a week in the difference in getting a tenured South Lyon Police Officer in the schools as opposed to a deputy that may not have the kind of knowledge that our Police Officer has. She would not want to be the one that had to answer to parents and teachers and lawyers that the decision was made based on \$375.00 per week. Councilmember Kennedy stated the South Lyon School District agreed to pay \$115,000 to the Oakland County Sheriff for an SRO at South Lyon High School. The City offered to put one officer at the two middle schools for \$98,000.00 and if you read the contract between Lyon Township and the school district was to cover wages, benefits and other associated costs. He is sure the other associated costs were the cost of their car, maintenance on the car, fuel for the car, and all the equipment that comes with that officer. We discussed this previously and we did not include that in our offer. ~~If you go through the budget, it's really easy to come up with an~~ approximate cost. That in turn would have been an additional \$15,000.00 to \$17,000.00 that we didn't include in the offer. He further stated that is a cost the taxpayers in the city are paying to cover the cost of safety in the school whether it is realized or recognized by the schools or not. Councilmember Kivell stated we have had the conversations about the drive throughs during the drop off and pick up and it all boils down to the schools should be making us whole across the board. That is the only way across the breadth of the school district. For them to fund us doing this and he has always thought we should be giving them the real numbers, not to cut corners to be able to squeeze ourselves in there. We know what kind of product we have and we know the benefits of the proximity to the locations that we'd be protecting with the rest of our force. Our people would end up engaging whatever was going on substantially faster than the sheriffs will have an opportunity to do. Nonetheless, it all boils down to the equitable thing and the correct thing is for the schools to do the assessment how much it costs us to provide that service and put it through the district, not some little pocket thing we are negotiating with. He doesn't think that makes sense. The only way everyone is paying their fair share is to go through the school. Councilmember Kurtzweil stated it is her understanding the school district wants to keep all their

SRO officers from one law enforcement agency, and that makes sense. They all go to the same staff meetings, they get the same memo, they have the same training. We have to be careful telling the school district how to handle this issue. It is their risk management plan. They will decide, it is their decision in terms of who they will put in the schools. She stated 5-6 years from now, this will be a non-issue. The individuals will probably be employees of the school district. She thinks they will be union employees. She further stated Detroit has already done this, they have their own police force just for the schools. She believes down the line, this discussion will be moot and we won't have to deal with this. She then stated you have to look at the continuum of risk. Regardless if the schools choose us or not, the city are providing part of their security of the kids. The school district has yet to thank us.

PUBLIC COMMENT- No comments were made

MANAGER'S REPORT

City Manager Zelenak stated in an upcoming meeting we will be discussing the ARPA funds; we are waiting for more information. He stated Michigan Seamless Tube will be drilling additional monitoring wells on the south side of their property. Several wells are drilled and we do have signs on the trail letting people know they are working in that area. He then stated we have a new roof on City Hall, and they will be adding gutters and fascia this summer. They are planning on the parking lot and sidewalks later this fall. He said we will be conducting training tomorrow morning for the staff at city hall; therefore, city hall will be closed from 8:30-Noon. It is posted so everyone should be aware. He then stated we received a \$200,000.00 grant for the trails at the path at 9 Mile and it is a matching grant, so it will be \$400,000.00 We will be going to bid soon for that work. He then stated there was a sidewalk installed connecting the Whipple Street parking lot and the school parking lot to the north. The work was done by the schools and he only received one notice about 6 months ago. He was not informed when the work was bid out or when the work would be done. He further stated he had conversations with the schools about not being informed. City Manager Zelenak stated we will be having the road bond public informational meetings in July; one will be July 12 4pm-7pm and July 23 11am-2pm. Councilmember Kurtzweil stated she is interested in why MST is adding additional monitoring wells. City Manager Zelenak stated he was not informed why; he was informed by EGLE. He further stated if it is beginning to move, they will let us know. Councilmember Hansen stated there is a sign at Peter's True Hardware saying to not block the intersection. He has been asked to find out if the same sign can be placed at 10 Mile and N. Mill. City Manager Zelenak stated they are monitoring the area and they will continue to look at this. If there is a need, we will have to go through the road commission. Councilmember Kivell asked when DTE will be replacing the poles, they are everywhere and there are some in big piles. City Manager Zelenak stated he has not been contacted by DTE, but they may have contacted DPW.

COUNCIL COMMENTS

Councilmember Kivell asked if the sidewalk at the early education center turned out to the way it was discussed in the email? City Manager Zelenak stated the original discussion was about this particular building and they asked if it would be something we'd be willing to do. They wanted it for overflow parking and it works out for us so people can walk down to see the additional parking. He further stated he was never informed of when it was going to take place. He was not given a design before the work was done. Councilmember Kivell stated his concern was someone maybe looking to redevelop the corridor along Lafayette and try to compact all the detention into that area. If you see where the overflow is now, it is feet higher than the detention area and would end up having to be completely separate. City Manager Zelenak stated he had discussions with the school district regarding the area that's immediately to the east of the new sidewalk and what the potential would be for future use. They were open to that for drainage, it is hard to redesign an existing detention or retention basin and redesign it when all the pipe is

laid for the current storm sewer and to have something go to adjoining properties and to cut underneath parking lot and changing levels. That particular area is a third of the size.

Councilmember Mosier stated she had the opportunity to attend the Veterans Memorial and the First Responders Monument meeting and the group did a really good job and they're coming up with other fundraising ideas. They have wristbands for sale at the Farmers Market and they have some good things in place, we just have to get the funding. She then thanked everyone on the board and especially Dayna and Craig Johnston. They did a great job getting the First Responders Day at the Farmers Market and Dayna bought all of the wristbands.

Councilmember Kennedy congratulated the Salem-South Lyon District Library for their Touch-a-Truck event that took place on Wednesday, June 22nd, as well as the DDA and their Farmers Market First Responder event on Saturday. Both events were well attended and the fire truck, police vehicle and front-end loader always had lines of kids waiting to climb aboard. He then thanked our South Lyon Fire Department, our South Lyon Police Department and our DPW for providing the vehicles and their personnel for both of these events. The kids always enjoy it. Is a great part of living in a small town. He then reminded everyone that there is no Concert in the Park for this Friday, July 1st. The next Concert will be on Friday, July 8th when we will be entertained by the group "Nobody's Business." So, we'll see you on that Friday at 7pm.

Councilmember Kurtzweil thanked the sponsors of the Lake Street Cruise In. She then thanked Lake Street Tavern, Performance Creative Solutions, Wixom Towing and Advanced Capital Management. She stated she hopes everyone will support those businesses. She then stated everyone should support Operation Injured Soldiers, they are having a huge event in Lyon Park on July 9th at 11:00. It will include a motorcycle ride and a car show. She then reminded everyone that the arts commission is having the arts commissioner show on July 9th, and it will be out for 2 months. It will be interesting because all the commissioners will have some of their work displayed in terms of what they do. So, you will be able to see the creative background of the commissioners. There is also a surprise in the show and encourages everyone to join.

Councilmember Hansen stated in the past week we had the Touch a Truck event and it was a great event, and over a couple hundred kids were there. We had multiple trucks and the sponsors really came through for the kids and they had a great day. They had a great time climbing in the trucks and blowing the horns. He then stated on July 9th is the South Lyon Pride Event at McHattie Park from noon to 4pm. It is sponsored by Toarmina's Pizza and other business. It is a family friendly event with drag queen story time, face painting with flare, art activities with traveling brushes, kids rainbow run sponsored by the British Swim School, and some other events.

Councilmember Dilg stated the Pride Event is a family friendly event and unfortunately Toarmina's Pizza has been harassed by some people for sponsoring the event. She hopes that was a one-off incident and it is not indicative of how this will be received. She knows the organizers personally and the Chief will keep an eye out and there is nothing to be angry about this event. This event is about love and happiness and she hopes if there are people that aren't happy about find something else to do. She hopes it goes smoothly.

Mayor Pelchat thanked the cable commission for all their work for helping us transition from the old media room equipment. When we were having electronic meetings, it was fine, but when we came back

to meet in person, the old equipment just wasn't working. Although we were able to work with the cable commission to have our meetings recorded, and we thank them for that. It has been a long time coming. He then congratulated his parents on their 40th wedding anniversary. He then reminded everyone that he will not be at the first meeting in July, but Mayor Pro Tem Kennedy will run the meeting.

ADJOURNMENT

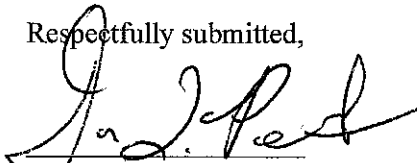

CM 6-12-22 MOTION TO ADJOURN

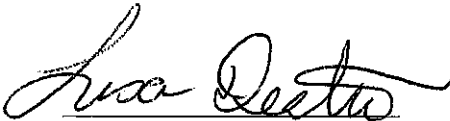

Motion by Kurtzweil

Motion to adjourn meeting at 8:46 p.m.

MOTION CARRIED

Respectfully submitted,

Mayor Dan Pelchat

City Clerk/Treasurer Lisa Deaton
