October 7, 2015

Last night the Stafford Economic Development Commission hosted a very successful Business "Meet & Greet" at Basil's Restaurant & Bar. Basil's did an outstanding job and was prepared to accommodate us at a reserved location if needed, Thank You again Alex!!

It was great to have the local businesses gathered together to network. Information was shared about the Utility Expansion/Economic Development Initiative and questions were answered. The Businesses were positive and all expressed a commitment to this community here in Stafford, and continued attendance as well as sponsorship in future Business meetings! What a great way to see a community come together!!! That is what we want the future of Stafford to represent!

A plaque was given to Stafford Savings Bank for their continued generosity and commitment to the residents of Stafford with their annual donation for the fireworks display for July 4<sup>th</sup> celebration. The Economic Development Commission would like to continue to recognize those businesses that are committed to Stafford.

Representatives elected by you were present. These are your voices and they were there to show their support. The Economic Development Commission would like to express a **Thank You** to; First Selectman Richard Shuck, State Representative for the 52nd District Kurt Vail, and State Senator Anthony Guglielmo.

Invitations were sent to the businesses located along the 190 corridor where the Utility Expansion project will run. There was also an invitation to the Local Businesses in the September 10<sup>th</sup> Reminder Newspaper.

For those businesses who did not attend. There will be another Business "Meet & Greet" scheduled for January 2016, we hope to see you at the next one and with continued support this will be a quarterly event.

Sincerely,

Sal Titus

Chairman, Stafford Economic Development Commission
