

LIFT STATION 87 WET WEATHER FLOW TRANSFER PROJECT

KEY ★ Pasadena Master Pump Station ★ New Lift Station 87 — Proposed Pipeline Route

Project Benefits

The new 3.5-million gallon per day Lift Station 87 project will connect to the Pasadena Master Pump Station via a new 16-inch diameter pipeline. Project benefits include:

- **Protect the environment**
- **Minimize wet weather overflows**
- **Improve system reliability** during wet weather events
- **Optimally located** between the Northwest Water Reclamation Facility and the Southwest Water Reclamation Facility
- **Bi-directional flow** so operators can send wet weather flows to either facility

This \$12 million project is being funded with dollars on hand in the City's Water Resources Capital Projects Fund.

Construction will begin in either late 2021 or early 2022. Estimated completion is June 2022. For more information, please email StPeteLS87@gmail.com or call (813) 486-0361.
