**BICYCLE ROUTE TYPES**

- **Paved Bike Lane**: Portion of roadway marked for one-way and exclusive use of bicycles and other micro-mobility devices.
- **Shared Lane Making (“Sharrow”)**: Bicycle symbol and arrows painted on the roadway remind all that bicyclists should be expected traveling on the roadway in the direction and position shown.
- **Neighborhood Greenway**: Two-way bicycle traffic with physical separation from travel lanes. Routes shown may be shared with people on foot or using other non-motorized modes of travel.
- **Separated Bike Lane**: Dedicated, marked lane for people on bikes that is physically separated from vehicles and pedestrian traffic by white posts, planters, or parked vehicles.
- **Trail**: Two-way bicycle traffic with physical separation from travel lanes. Routes shown may be shared with people on foot or using other non-motorized modes of travel.

**ST. PETE BIKE MAP**

**RULES OF THE ROAD**

Bicyclists are considered vehicles and must follow the same rules of the road as all other vehicles, which includes riding on the right hand side in the direction of traffic and following all traffic signs and signals.

Bicyclists are legally allowed to ride in the center of traffic lanes in St. Pete when there is no bike lane.

Bicycles may also be legally operated on any sidewalk in St. Pete, though they must yield to anyone on foot and follow all pedestrian rules and signals.

**SAFE BICYCLING**

- **Bicycle on the right-hand side with the direction of traffic**
- **Bicycle in a predictable straight line, away from hazards at the roadway edge**
- **Follow all traffic signs and signals**
- **Use lights when bicycling at night – white in the front and red in the rear**
- **Look over your shoulder and use hand signals to communicate where you are going**
- **Yield to people walking and follow all pedestrian rules and signals when bicycling on the sidewalk**
- **Check to ensure that vehicles in all lanes have stopped at a crossing with flashing yellow lights**
- **Slow down and ring your bell before passing people on trails**

**REGIONAL TRAIL NETWORK**

对未来高架桥的追求和规划。300英里长的人行道和自行车道网络，连接着米德兰和托尔湖。该网络包括了多个自行车道和人行道，方便市民和游客出行。

**ABOUT THIS GUIDE**

We want riding a bicycle to be a comfortable part of daily life for people of all ages and abilities. St. Pete offers a connected grid of quiet streets, bike lanes, and trails, making it an excellent place for recreational riders and cycling commuters alike.

As our city continues to grow, we aim to provide safe, affordable, and connected transportation options for people who live, work, and play in St. Pete.
