GENERAL TERMS & CONDITIONS OF PERMIT

All work shall be performed as directed by the Director of Public Works. Work areas and excavations shall be maintained in a safe condition. This shall include erection of barricades, fencing, or any other protective devices required to safeguard the work area. The applicant assumes full and total liability for any and all accident claims and damage to public property arising from execution of the work authorized herewith.

EXCAVATIONS AFFECTING PAVEMENT & PAVEMENT APPURTENANCES

Limits of removal for pavement, curb and gutter, and PCC driveway and sidewalk, shall be saw-cut full depth. No. 5 dowel bars are required for PCC pavement and curb and gutter replacement.

Flowable fill conforming to Illinois Department of Transportation specifications shall be used to backfill all excavations beneath and within 3 feet of the outer edge of pavement, curb and gutter, or high-grade shoulders (bituminous or concrete). The use of clean granular material for backfill may be permitted when seasonal constraints preclude the use of flowable fill.

Replacement materials (including type and thickness) for pavement curb and gutter, shoulders, sidewalks and driveways, shall be as specified by the Director of Public Works. Unless otherwise approved, permanent pavement repairs must be performed with like materials. Repairing flexible pavements with rigid pavement (Portland cement concrete), and vice-versa, is not permissible in the absence of explicit approval by the Director of Public Works. Exceptions will be considered on a case-by-case basis and when certain materials are not available due to constraints.

All affected areas shall be shaped to original contours and covered with 4" of topsoil and reseeded or sodded.

PERFORMANCE WARRANTY

Restoration of public land and all affected appurtenances thereon are subject to a 24-month performance warranty. This includes subsidence due to improper backfilling. Repair of documented failures that occur during the warranty period are the sole responsibility of the Applicant, who by his or her signature affixed hereto acknowledges full understanding and acceptance of these provisions.
