3. PRESENTATIONS

3.1. Mayor Marx will present an update on the Williamson County Bond Project for North and South Barker.

Mayor Marx gave an update on the bond project. Mayor met with the City Engineer, Williamson County, and other entities to discuss the details and timeline of this project. Mayor Marx said the North and South Barker Street project is going to happen and we'll have about \$850,000 to a million dollars to spend. The first thing is going to be the channel, they will come in and clean it out, concrete it, as well as survey the channel and everything will be legal going back to the 10 feet easement. Along the concrete wall there will be a 4-foot chain link fence put in. This is the first part of the project. The second part of the project will be working with Stiles Farm to access property to allow the connectivity of North and South Barker instead of doing

the crossover that is currently there. The third part of the project will be the streets, coming in and repaving them, widening them as much as possible, unfortunately we don't have a lot of room because the properties are close to the right of way. They will also be putting culverts in the driveways. The fourth part of the project will be restoring the terraces to assist with the water flow through the channel, towards the water plant, and assist with keeping the water within the channel and slowing the water down. The preliminary plans should be available in June or July of this year. This project would start between February and May of next year by the time they do the drawings, surveying, and go out for bids. This project could possibly change the FEMA Floodplain by improving it. Mayor Marx said that once the preliminary drawings are available that he'll bring them to the council to see.
