

Parks and Recreation December Monthly Report

Winter programming continues to be busy as basketball games resumed this month with in person fans. K-2 registration wrapped up and we have a record number of 51 kiddos registered to start their season in the new year. That brings a grand total of 160 Winslow kids signed up for basketball. This is our largest number in 7 years. In January we have scheduled our rec program to have a skills clinic with the High School and special rec events at the High School games. Thank you to the volunteer coaches that help make the season a success.

Girls from the High School Team Helping at a 5/6 Girls Rec Practice - Previous Winslow Head Boys Coach Jared Browne helps at a 3/4 Practice

Cheering continues practicing and preparing for the competition season to begin in January. They are registered for 7 competitions this year that are taking place all over the state of Maine. We are still anxiously awaiting our purchased cheer mats that we have worked so hard to fundraise for.

Although it is winter, I do want to remind the council, community, and area athletes that our sports gear swap is available year-round at the rec center. This program is open to donations or if a Winslow kiddo finds themselves in need of an indoor fall sport opportunity.

Sadly, this month I received resignation from last year's Director and Assistant Director of Summer Fun Camp. I am excited for the opportunities Hunter and Beth have received but very sad to see them go.

Their positions will be posted in January with the hope of filling them by March. We have had a very high turnover rate in this position, which has made programming and running the SFC program difficult.

Respectfully Submitted,

Amanda McCaslin

Director of Parks and Recreation
