The ICIP is a document instituted by the State of New Mexico designed to assist local governments in preparing for the long range infrastructure needs of the Community. It also helps identify the potential funding sources in order to fund these needs. The ICIP Plan presents a long range picture of the City's goals in development of the physical assets of the Community. The ICIP assists the City in the pursuit of funding from outside sources in that it presents to other entities the long range plans of the City and allows other entities to assist in the fulfillment of those goals; Bill Slettom, ACM/CDD.
