OUTLINE

- Budget Review and Legislative Session
- Site and Customer Status
- Business Development Update
- Capital Projects Update

NMSA BUDGET

NMSA BUDGET

- After analysis, the NM Legislature concluded it was in the best interest of the state to replace the excess pledged revenue (EPR) previously used for operations.
- A \$1M supplemental was appropriated for shortfalls this year, with \$1.7M appropriated from the GF for FY23.
- Filling the budget allows the Spaceport to continue 24/7 site activities, hire to approved FTE levels, and continue work on non-revenue generating goals such as STEM, workforce development outreach, as well as supporting other aerospace economic growth initiatives in the state.
- A shortage of employees has been our main impediment to handling increased business development tasks and operations.

NMSA BUDGET VS ACTUAL (THOUSANDS)

Item	FY21 Actual	FY22 Projected	FY23 Budgeted	Notes
Operating Revenue	5,603	6,743	6,859	From customers (fees, leases, utilities, fuel)
General Fund	1,917	2,091	3,791	FY23 includes increased appropriation
Revenue Total	7,520	8,834	10,650	
200 Personal Services	2,120	2,282	2,607	
300 Contract Services	4,550 (1,750)*	4,478	5,638	Expenses transferred to capital fund
400 Other Costs	1,968	2,591	2,405	
Expense Total	6,888*	9,351	10,650	
Supplemental		1,000		To replace GRT EPR
Net Result	632	483		

SPA is projecting to be 64% customer funded for FY23

* Partial contractual expenses in the amount of \$1,750M were transferred to Capital Projects Fund, as directed by Legislature. Actual expenses for FY21 were \$8,638

State Fight: New Mexico's growing reputation as a space state

by Debra Werner — February 19, 2022

Federal space funding flows to New Mexico. The state is home to the U.S. Air Force Research Laboratory, the U.S. Space Systems Command Innovation and Prototyping Directorate, the U.S. Space Force Rapid Capabilities Office and the U.S. Army White Sands Missile Range. Additional space-related research is conducted at the Energy Department's Sandia and Los Alamos National Laboratories.

Still, New Mexico was not often in the conversation about key space states until Virgin Galactic named Spaceport America its flight operations center in 2009. The nonprofit NewSpace New Mexico was established in 2018 to encourage the growing commercial space ecosystem.

"New Mexico has a lot of research and development, but it needs to be put into play to help companies move from concept to products to sales to money," said Casey DeRaad, NewSpace New Mexico founder and CEO.

Section 2. Preparations for High-altitude Test Flight

Following the successful low-altitude test flights that verified basic safety, HAPSMobile took the next steps required to prepare for high-altitude test flights. Spaceport America (SpA), located in New Mexico, USA, was chosen as the venue. Ahead of transporting the aircraft, the airport's facilities were reserved and prepared for exclusive use. As a stratospheric flight tends to be a long-hours mission, various facilities were also prepared for the crew, making certain that appropriate measures had been taken and everything was in place.

“Normally, these tests are made over the Pacific Ocean. And to test a new piece of technology on a rocket takes years of planning with the DOD and can cost more than \$100 million. But by partnering with private companies, the Lab can conduct these tests much more frequently and at a fraction of the cost within the State of New Mexico. The flight at New Mexico’s Spaceport America on August 11, cost only \$1 million and occurred only 15 months after the initial concept.”

Public Comment 3/23/2022

Good morning,

My name is William Troup, and I am from Truth or Consequences, NM. I have spent most of my life here, and consider this place home. This region is known for its resources, including many recreational activities, and today I would like to discuss one of these resources.

[Click here for park photos](#)

Louis Armijo Park is host to a BMX track, that according to my research was put into place late 2014-early 2015. (Google Earth historic images show that this track was not in place in 2014 and was in 4/15). The track consists of several piles of dirt, arranged in a track.

These piles of dirt are not composed or configured appropriately, with the dirt apparently being un-graded fill dirt from the nearby solar project (also completed in this same time frame, per the same evidence above.)

In reaching out to the local community to discuss this park, several community members relayed their experiences in trying to go use this facility and having their children's' bicycles damaged, with one person reporting that they had even taken a video of their child getting hurt due to the lack of initial build-effort and following maintenance.

Below is a picture of the T or C BMX track, followed by another regional BMX track in Las Cruces, NM.

I reached out to several regional BMX tracks to provide some images of our track and get possible feedback.

Jordan Rupe, Recreation supervisor for Durango, Co, had this to say about the track

"-that is some rocky dirt! And if its sand in between that is the worst for BMX and/or bike parks. The rocks make for a bump and potentially hazardous Experience while the sand doesn't compact and nothing holds shape and offers poor traction."

He goes on to say

"It's clearly not a track designed for BMX racing with Start hill and Finish line."

Truth or Consequences, NM BMX Track

It is apparent that the best interest of our community is not being served with this resource. While the path from what sits in piles at Armijo Park and an ABA BMX track is long and unlikely, I am here to suggest an alternative solution.

A community built and maintained (with the correct supplies, and dirt, as well as input from individuals familiar with this sort of facility) pump track, consisting of one or two larger, smooth hills at each end of the park, and several smaller features in the center region, creating a 'bike park' similar to those that exist in Bernalillo and the like.

Below you will find an image of the public-maintained Bernalillo bike park.

[Here](#) you will find a link to a public website used to show the effort and progress at the Bernalillo Bike Park.

In this setting, the city provides the correct dirt (graded, free from rocks and cinderblocks, and of the right composure to build with), piles it, and it is shaped by local volunteers, an effort I believe could be emulated with great success in Truth or Consequences.

We as a community have a tremendous breadth and depth of knowledge and abilities. We absolutely have the resources, ideas, and technology to make our community better, one resource at a time, and I hope to encourage these efforts.

Thank you for your time,
William Troup

CITY COMMISSION MARCH 23, 2021 REGULAR MEETING MINUTES

- We are waiting on quotes for the Mainstreet Foch Street Project. We had an architect provide a design, and the cost of design and project was a little more than what Mainstreet was able to solicit so they went out and got additional funding for that project. We actually reduced the scope of the project, as well as increased the funding to make sure that we have sufficient funding for the project.
- Utility billing is continuing to be problematic. We have a consultant auditing firm coming in to assist us with that. They are experts in utility audits, as well as the Tyler program. We tried a pilot with an individual with solar, and it was a disaster in billing. Not only did it not work out with the solar account, but it also impacted water accounts, and other things that weren't even involved in the scope of the work. There are some issues that we need to get through, and the auditors will help us a lot in identifying what those challenges are.
- We have been involved in the budget process for a couple of months now. Staff is working with departments, and will be refining budgets, and getting prepared for the budget workshop with the Commission in the very near future. The budget is the most important policy decision that the Commission will engage in on an annual basis.
- At the last meeting we talked about installing a porta potty at the dog park. We are looking at about \$300 a month for a handicap accessible porta potty at the dog park. Our cost will go up to \$15,600 annually for porta potties within the city.
- The softball league wants to start their season, and we have had some issues out there. He would like to get the Commissioners thoughts on how they would like to proceed.

City Attorney Rubin reported the following:

- He reported on the money that was found by the Police Department. They received a call from a concerned citizen alerting us to the fact that there was a suspicious package at the Rotary Park. It was found that there was \$47,000 in the package. The money stayed in the Police Department evidence for the last few years, and when City Manager Swingle and Chief Rodriguez came on board, they took a proactive stance to do something with the money. We found that there is a state statute under 29-1-14 that addresses this type of issue. We published a notice in the local newspaper for two consecutive weeks that said that anyone who had a claim to this money had to show up at the Police Department on such and such date, and show proof of identity and ownership. Nobody showed up, so the next step was for him to file a petition with the Sierra County District Court asking for a disposition of the found money stating that once we completed the process, the funds would revert to the city to be used for general purposes. He gave his presentation to the District Court, and an Order of Disposition was entered that same day for the found money to be paid to the City Clerk-Treasurer of the City of Truth or Consequences to be credited into the General Fund.
- He reported on the process of condemned properties, and liens we put on the property for costs associated with removing the debris from the premises. He

CITY COMMISSION MARCH 23, 2021 REGULAR MEETING MINUTES

explained that there are several instances where he will file a lawsuit to ask to foreclose on the liens after liens are filed.

- He commented on Ron Fenn's comment regarding the lawsuit, and explained when we get a lawsuit it is automatically referred to the New Mexico Self Insurers Fund, and once that happens it is really up to the New Mexico Self Insurers Fund to determine how the defense is going to be handled. Most of the time their attorneys handle the cases, but he is kept current with the case.

City Manager Swingle stated that City Attorney Rubin did a great job of presenting his argument regarding the \$47,000 that was found at Rotary Park.

City Commission Reports:

Commissioner Mitchell reported the following:

- The Fiesta brunch was very successful. They almost sold out, and they are working on setting up the cash party.
- William Troup contacted her regarding the BMX track, and she saw many suggestions on Facebook about the BMX track.

Commissioner Fahl reported the following:

- She asked if they could carpool to the Newly Elected Officials Training.
- Jornada has been leading the Turtleback Trails Network Project. They have been meeting for 3 years now, and most of that time has been with public outreach. They are getting down to writing the various components of the plan. There is a section on the actual trails portion on the other side of the river, and John Masterson is completing that. There is a group called The River Trail, and they are almost done with their plan which covers places to get in and get out of the river, and what some of the obstacles are. Her section has to do with natural resources, and education section which is almost completed. Emergency response has also been discussed with Police Chief Rodriguez and Fire Chief Tooley. John Masterson found somebody local to write the plan, and he said he would fork out half of the money to pay for it. However, someone from the National Parks Service offered to pay for writing the whole thing.

Commissioner Harrelson had no reports.

Mayor Pro-Tem Hechler reported the following:

- We may have a rodeo during Fiesta weekend on Friday and Saturday night from 7pm – 9pm. It will complement our Fiesta Events because it will be over by 9pm, and then folks can join us for the Fiesta activities.

Mayor Forrister reported the following:

- She thanked everyone who is involved in Fiesta. A lot of people are talking about it, and they are excited about it.
- She went on the department tour, and she thanked the departments and the department heads. They are really doing the best they can with what they have.

CITY COMMISSION MARCH 23, 2021 REGULAR MEETING MINUTES

She asked that the community be patient while we try to address issues that didn't happen overnight.

- She spoke with our local Children Youth & Families (CYFD) Supervisor, and she indicated that we do not have any licensed Foster Homes here in Sierra County, so if anyone is interested in becoming a licensed foster parent, please contact them and make a difference for our local children.

G. PUBLIC HEARINGS:

- 1. Public Hearing/Discussion/Action: Final Adoption of Ordinance No. 728 authorizing the sale of Real Property on 2nd and Locust (Section 33, Township 13 South, Range 4 West) Pursuant to Section 3-54-1 NMSA 1978; Sale of Real Property:**

Assistant City Manager Alvarez explained that the city received an offer to purchase real property owned by the city. The proposed purchase price is \$64,600.00, which is equal to the appraised value. Pursuant to Section 3-54-1, the proposed agreement must be approved by ordinance. The ordinance was approved for publication on February 23, 2022, and now it is being presented for a public hearing and final adoption.

Mayor Forrister opened the public hearing.

City Attorney Rubin explained that the statutory provisions that guides this type of transaction under 3-54-1 requires that you go through the ordinance procedure when you have a public sale of property at an appraised value in excess of \$25,000. We published this ordinance a month ago, and now we are coming back for a public hearing and final approval. The rule once the Commission approves the ordinance is that there is a 45 day waiting period before it becomes effective. He reviewed a problem he noticed when he was getting ready for this. There is a street on the north east corner which comes in off of Second Avenue, and it comes into the property about 1/3 of the way down, and then it curves and exits out where Lincoln Street is. Lincoln Street leads you into Matson Street, and eventually into Broadway. He thinks that portion is a dedicated street, and it is a street that is frequently used for vehicular traffic and foot traffic. He explained that there should have been a sentence added to the legal description that says that it saves and accepts that particular street. The buyer is aware of the situation, and we will be able to come back with a legal description that addresses

the issue. However, we can still go through with the public hearing today, and during the 45 day period we will work with the Surveyor to incorporate the correct language into the legal description.

The proposed purchase price is \$94,501.00, which is above appraised value of \$94,500.00. Pursuant to Section 3-54-1, the proposed agreement must be approved by ordinance. *(The property was donated to the city in 2016 by Cathie and Marcia Burford with the condition that in the event the property is sold the city will memorialize the donation by using funds to purchase 3 benches to be installed at a city park bearing the names of Scott Burford, Michael Burford and Morry Burford).* The ordinance was approved for publication on February 23, 2022, and it is now being presented for a public hearing and final adoption.

6. Discussion/Action: Review, Approve, and Allocate Fiscal Year 2021/2022 Lodgers Tax Funding for MainStreet T or C:

City Manager Swingle explained that this is a request from MainStreet for funding of \$4,000 for a Hot Springs District Mural to be designed and painted on the side of Bullock's Grocery Store. The request was reviewed, and the entire amount was approved by the Lodgers Tax Advisory Board.

Mayor Forrister asked City Manager Swingle to explain where we get the Lodgers Tax funds from, and who would be eligible for funding.

City Manager Swingle explained that the fund is generated through Airbnb's and people staying in our hotels. There is a percentage that the city charges and collects on a monthly basis. The city divides that funding into two shares. 60% of the funding goes to the Lodgers Tax Board to be allocated, the city keeps 40% for city lodgers tax uses, and 1% of the city's portion goes to the Arts Board so they can do public arts. The lodger's

CITY COMMISSION MARCH 23, 2021 REGULAR MEETING MINUTES

tax funds have to be used within 3 years of the time that they are collected. You have a lot of marketing that is paid for out of our percentage. Sierra County, Elephant Butte, and the City of Truth or Consequences use the same marketing company that does the promotions on a state wide, and national level. The Lodgers Tax Board uses their portion on projects from local groups who are interested in using lodgers tax funding. Their applications are submitted to the city, and reviewed by the Lodgers Tax Board, and they make a decision on whether or not they will fund the project. They may also reduce the funding based on their understanding of the project, and then the board's recommendation comes to the Commission for final approval. The city's lodgers tax fund requests come directly to the Commission for approval.

NEW BUSINESS:

- a) Discussion/Update – Airport Advisory Board rules of procedure

City Manager Swingle addressed the board by saying that there are a lot of things going on at the airport from the City's perspective, they need to be routed to the advisory board. The advisory board then makes recommendations to the Commission. With everything that's going on at the airport, they want to make sure that the people that are out there and are engaged in any activities, run this by the advisory board and not try to accomplish these things on their own. They've been recently contacted where members of the airport, likely pilots at the airport, are wanting to install campgrounds and picnic tables and such to put out there. City Manager Swingle does not have an aversion to doing that, but this is something that absolutely needs to be routed to the board and it needs to be a recommendation from you all, you make the decision on whether you think that it needs to go there and then from there it goes to the Commission. We are getting more and more of these types of inquiries from hangars out at the facility, that needs to be taken up with the board, and then you give the Commission the recommendation. We cannot have several people out there working against one another, particularly working against this board. He just wants to make it clear that we need to get a grip on that. The issue is the membership that's not complying with the requirements, that it goes to this board first and then you make the determinations of what you would like to pursue. You need to look at the whole picture not just a project by project picture.

Chairman Shipley asked if that when they're communicating, is it that we're seeing that there is no communication or that they are happening and what's the role of our current airport manager in dealing with what we have going on?

City Manager Swingle stated that the airport manager was involved in any of those discussions. As far as creating another wing of hangars, we find out from state aviation, because a pilot is contacting them about looking for grants and things of that nature. That is absolutely not their role. If they have that idea or concept, they need to take it to this board and let this board make that determination. We are not going to move and act and react to the actions of individual members that are out there in the community with respect to the airport, they need to respond to you.

Chairman Shipley asked what would be the procedure for the picnic tables. In his opinion, it would be simpler if whoever had the idea could put something on paper that they could look at and then the City Commission could approve it. Everyone needs to know where it's gonna be and what it's gonna be and how it's gonna affect airport operations. He thinks it's a great idea. They could even call a special meeting

at any time if something big came up and they wanted to present it to the board. But the board needs to present it to the City Commission in a manner that is understandable.

City Manager Swingle stated that he thinks the board should flush out the idea with the individual that would want this. He just wants them to follow the proper chain of command. Everything needs to go through the board.

Member Mullenax stated that the airport manager had told him 6 months ago that he was gonna look into getting the picnic tables and put in camp sites and nothing ever happened. A couple of months ago, the EAA said that they would be willing to get involved and help in getting it done. Chuck and Larry were looking into items that the City was going to sell at an auction. They saw the picnic tables and thought that it would be useful with what they were trying to do. They just wanted to help with getting the camp sites. It wasn't something they were starting on their own, Chad said he was going to do it, they were just offering to help.

Airport Manager Chad stated that the camp sites on his mind and wanted to be done. They have cleared out some weeds and such in an area and started taking measurements. They have been dealing with other things at the airport that needed attention more than that. The camp sites have been looked at, we haven't done anything that would eventually do planning and to show everybody what's going to be done and where, measurements, funding and everything else that they are planning for those spaces and bring them to the advisory board.

Chairman Shipley repeated what Chad had said. That he had done some preliminary, clearing out, worked with EAA with some ideas on some ideas of what he wants to do, but nothing has been done and that his plan was to create a plan to bring to the board so that they can decide and talk about it.

Airport Manager Chad stated that's the same thing for a number of different items.

Chairman Shipley stated that they want to be able to have the comings and goings of the airport to be able to have good communication but also good decision making.

City Manager Swingle just wants everything to go through the advisory board not through the EAA or anyone else.

Chairman Shipley asked if the pilots are going to the City, circumventing?

City Manager Swingle answered yes. He tells them to take it up with the advisory board.

b) Discussion/Action – Agreement pertaining to local chapter of the EAA (Experimental Aircraft Association)

City Manager Swingle addressed the board and said that they have the EAA's agreement for the hangar is expired and they need to find out if it's in the best interest of the airport to continue the relationship at donating the hangar to the EAA and if so, what is in the public interest here? For it not to be an anti-donation issue there has to be a public benefit. And we need to include that in the language of the contract.

Vice-Chairman Senn responded that he is a member of the EAA. It does promote aviation, they can work with the schools, they're gonna do projects, they actually have a plane that is being donated to them, and he thinks that they're gonna bring in kids and get them interested in maintenance and talk about flying and that kind of thing. It is a promotion as it gives the kids something different to do, something different to look at and I know they work with education. The pilot base is dwindling and we need to keep it going. He thinks it is a great benefit and promotion of the airport, promotion of aviation, and that's one of the goals of the EAA.

Member Mullenax stated the he is the president of the local chapter and he has a conflict of interest because he's in both positions.

Chairman Shipley stated that they have an expired agreement and he proposes that they ask the chairperson of the EAA to present a plan of action that shows the board where they want to go.

Member Mullenax stated that they are to meet next week and they will lay out some of the prospects of working towards aviation. He stated that he and Chuck have gone to the high school and talked to the students about aviation.

City Manager Swingle said that the item is an action item and they feel that they need to enter into a contract with the EAA or that they don't.

Vice Chairman Senn stated that he is a member of the EAA and doesn't think that he can decide on the motion.

Chairman Shipley stated that would like to know more about what their plans are for the future and he wants to extend it. He wants to promote the plan and what parts the board can play in assisting with it.

City Manager Swingle stated that they can table the item and set it up for the next meeting.

Chairman Shipley made a motion to table the item in lieu of preparation for a plan of a presentation.

Vice Chairman Senn seconded the motion.

c) Discussion/Update – Hanger door replacement/repair insurance claim for repairs

City Manager Swingle stated that the accident had happened before he took over office but was immediately informed. He is absolutely embarrassed that it has not been repaired as of yet. The City has made many phone calls in trying to get a contractor to do the work on the door and they were unavailable. The insurance company was also having a very difficult time. They found a contractor now; they were not able to get a local contractor that was interested in the work. They found a contractor out of Las Cruces.

Vice Chairman Senn stated that his experience with the insurance company has been great as he's had to deal with them since it was his plane that was damaged. He said that they are doing the best that they can and they are good people. He is very impressed with them.

City Manager Swingle apologized for the situation taking so long.

Member Mullenax stated that Carl, the local iron man, received one phone call from the insurance adjuster but that the voicemail was muffled and he couldn't understand the number and was unable to call them back.

City Manager Swingle stated that they have a contractor available to fix the hangar door.

Chairman Shipley thanked everyone for their help with the situation.

Member Mullenax stated that the EAA gave David Senn their hangar door since he didn't have one and that is why their hangar is empty.

d) Discussion/Update – Pippen Hanger. What is currently happening with this hanger

City Manager Swingle stated that the Pippen Hanger is part of the contract obligation package for the current airport manager/supervisor Chad. By contract, it is currently assigned to him and he is using it at his pleasure.

Airport Manager Chad stated that he has his aircraft in there right now and Larry has one and another aircraft is in there as well. What it's being used for right now is, anytime we don't have hangar space for somebody that's on the list, the Pippen Hanger is offered up for free to that person. Anyone that is on the hangar waiting list is offered that hangar to keep their aircraft at until as t-hangar comes up.

e) Discussion/Update – Current status of the Airport manager contract

City Manager Swingle stated that they currently have a contract with Chad to provide the airport management services. It will be on the agenda of the next Commission meeting to extend his contract through the end of June.

Chairman Shipley asked Chad how everything is working out for him.

Airport Manager Chad stated that everything that he's been doing remotely, he will continue doing, he will be traveling back to make sure that everything is being kept up. He will continue as they see fit.

City Manager Swingle stated that they did put out an RFP for that service, however they rescinded it.

They had 2 candidates actually respond to the RFP. They didn't receive any proposals. They stopped the process in the interim. We want to get out to a much larger audience. We will be sending out an RFI

which is a request for information, of trying to get a third party to run the airport. In another proposal, an RFP will be going out for this service. We have 6 months to get this out and make a selection. Traci has reached out to several different areas including Raton. Several people have said that they are a very good model.

- f) Discussion/Update – Airport advisory board minutes to be read at the city council meeting prior to being approved

Chairman Shipley stated that one of his concerns that a lot of times it's easy to receive from another advisory board minutes and all the things that are talked about. He feels that they really need some backing with the city with decisions so that they are understood. He wants the minutes read or discussed, not just approved at City Commission meetings or create action items from the minutes. City Manager Swingle stated that he will talk to the Commission about that, however, the minutes are approved by the Commission at every meeting that they have the minutes. They are reviewing them, they are reading them. They are not read publicly for everyone to hear, but they have 11-13 advisory boards that meet monthly or quarterly. If they have any issues, they'll certainly talk about it. Chairman Shipley stated that he's been told that the airport is a great spot and that he gets compliments all the time about how great of a location they have.

- g) Discussion/Update – Current condition of the septic systems and what is being done for the current cesspool attached to the FBO

Chairman Shipley shared that that had a sewer backup at the FBO. They know that there is another septic system there; they just don't know where it is. It's attached to the house and the other bathrooms that are outside. He met with David Johnson and they uncovered the tank and what potentially appeared to be a tank but was not. The current system that is there to handle the sewage waste coming from the FBO is not compliant. He is more than happy to pass the job on to someone else due to the conflict of interest. He is passionate about the environment and the situation. It is fairly a low cost replacement system. It needs to be brought to compliance. It's submitting an application to the NMED, receiving approval from them an installation.

City Manager Swingle stated that he was aware that they went out there and vacuumed out the tank, a septic tank. What he understands now, is that it was not a septic tank.

Chairman Shipley stated that he has pictures.

City Manager Swingle asked for a ball park figure.

Chairman Shipley stated that it will be about \$1500 to get each system registered and there are 3 of them.

COMMENTS FROM THE BOARD:

Member Mullenax asked about the mogas. He stated that he's looked into it and there are no regulations preventing them from offering auto gas at the airport. His aircraft uses auto gas as well as several other pilots. He spoke to Tim at B&H and he stated that he could bring some out to the airport and see how the demand is for the auto gas.

Airport Manager Chad stated that there was a state law to reverse that they could not sell non-aviation gasoline at the airport. In order to get that on, they would need a letter from the state, stating that it is ok, just in case they are missing something. They would need to get approval from the board and the City Commission. He will talk to the higher up to see what he can find out and do to get it addressed.

City Manager Swingle asked is it a convenience for the pilots or is it something that will actually generate revenue for the airport?

Chairman Shipley stated that when you're a pilot and you're flying, you get to see what all the fuel at all the airports are in comparison. Pilots will fly in specifically to airports where mogas is available. Mogas is cheaper than the other.

Airport Manager Chad stated that the only way to get mogas at the airport was to have a club own the fuel and then it was delivered outside of the gate and then the truck brought it out for club members. Chairman Shipley asked if this was something that they want to consider, is it going to be economically viable for our airport, would it be a draw for pilots to come to our airport because we're selling it and we're providing it.

Member Mullenax stated that he was thinking of taking a 70 gallon drum to the airport for his personal use on his aircraft.

Chairman Shipley stated that having the mogas would be the draw to bring more pilots to our airport. City Manager Swingle said that is an analysis that needs to be done.

Chairman Shipley suggested that they fill up one of the existing trucks that are already at the airport in order to test the waters to promote it and see how it does. He wants to use the current infrastructure that is already in place without having to add extra cost.

Airport Manager Chad stated that he will take action into looking into this a little bit more.

Vice-Chairman Senn wanted to thank Gerald for the airport car that he donated. He said it's a beautiful car and they are all very appreciative and grateful to finally have one there for the pilots to use. He wants to put it on the website that there is a car available for other pilots to use in order to promote the airport.

4. PUBLIC HEARING:

Special Note: Dawn C. Barclay, Deputy City Clerk swore in all parties including staff who will be speaking during the scheduled hearings in accordance with the "Battershell Procedure". After all parties and staff were sworn in, the hearings commenced.

a. Public Hearing/Discussion/Action: Request for a Summary Plat Amendment and Variance Request at 101 Austin, Truth or Consequences, NM, pursuant to Chapter 15, Sec. 15-17. Traci Alvarez, Assistant City Manager

Traci Alvarez, Assistant City Manager – Mr. Chairman and Members of the board. This first public hearing is a request for a summary plot amendment and a variance request at 101 Austin Street. In your agenda packet, you will see 101 Austin Street. If you look at the parcel map you can see his lot is split up into many sections. Applicant is requesting to make this parcel into one whole parcel so he can develop properly when he is ready to do so development. The way it is split up, he currently cannot meet our required setbacks. He is not expanding or doing anything, just requesting all the lot lines within the parcels be removed. With that, I will stand for any questions.

Member Bush – I don't have any questions. It seems straightforward to me. It seems like all required documents have been submitted.

Dawn C. Barclay, Deputy City Clerk – Are there any other questions from the Board?

Chairman Hogg – Everything seems to be in order to me. However, the property is not publicly explicitly identified. It is pretty simple, it's at the beginning of the street. I am in support of it.

Traci Alvarez, Assistant City Manager – At this time you would open up the public hearing portion for anyone who wants to speak for or against.

Dawn C. Barclay, Deputy City Clerk – So the board does not have any more questions for Ms. Alvarez?

Rebecca Otero, 558 Mims Street – I looked for an identification factor on the property being discussed, I didn't find anything. I am not very clear which property is 101 Austin Street. Secondly, my property joins Riverbend. When I moved into my property in 2015 or about, I had a private survey done which I paid an essential amount of money, I also had hired an attorney because the property marked "unknown owner" has used it for storage all these years, I have a photograph of what it looks like. When I initiated moving a storage shed they blocked my path and thereafter built a fence to claim adverse possession in the future, I presume. It is filled with an old Airstream, rocks, and other stuff. I am very suspicious, that is all I have to say. I'm very emotional about it, I went through a lot of trouble hiring a lot of attorneys. One attorney said here in town that it was a conflict of interest because they were on the Zoning Board. I have a copy of the survey that proves that there was an unknown owner when I purchased the property and they literally confiscated it. So, I don't have any right to park a car there, or if I have family members

over for a party because it's overcrowded, and they claim it's theirs. (She provided a copy of her survey be made parts of the minutes)

Vice-Chairman Sisney – Are you on the other side of the road?

Rebecca Otero, 558 Mims Street – That's what I don't know. I don't know where 101 Austin is.

Vice-Chairman Sisney – It's Mike Foerstner's property.

Traci Alvarez, Assistant City Manager – It's across the street from Riverbend Hot Springs.

Rebecca Otero, 558 Mims Street – Well that makes a big difference. I didn't know, that's why I'm here asking. Thank you so much.

Special Note: Kathe Bachtel & Joan F. Gooding both signed up to speak but had their questions answered when Ms. Otero spoke. Neither Ms. Bachtel nor Ms. Gooding spoke at the podium.

Dawn C. Barclay, Deputy City Clerk – It looks like those two questions have been answered.

Member Bush – Because they are not pertinent to what we are discussing.

Traci Alvarez, Assistant City Manager – So this time staff would request approval for the Summary Plat Amendment for 101 Austin.

Member Bush made a motion to approve the request for a Summary Plat Amendment and Variance request at 101 Austin, Truth or Consequences, NM. Vice-Chairman Sisney seconded the motion. Roll call was taken.

Michael Hogg – Voted Aye.

Chris Sisney – Voted Aye.

James Bush – Voted Aye.

Motion passed with a 3 to 0 vote in favor.

- b. Public Hearing/Discussion/Action: Request for a Summary Plat Amendment and Variance Request at 1616 N Riverside, Truth or Consequences, NM, pursuant to Chapter 15, Sec. 15 17. Traci Alvarez, Assistant City Manager**

Traci Alvarez, Assistant City Manager – Mr. Chairman and Members of the board. This is a request at 1616 N Riverside. You will see in your agenda packet the applicant owns two separate parcels. He is in the process of having plans submitted for a site-built house at this location. What he is requesting is to make

two parcels into one parcel so he can continue to build his house and has met all the setback requirements.

He owns both parcels and would like to make it all one. With that, I stand for any questions.

Member Bush – I have read what we have here, and I have no questions. Looks like everything is in order.

Dawn C. Barclay, Deputy City Clerk – Are there any other questions from the board for Ms. Alvarez?

Dawn C. Barclay, Deputy City Clerk - Called Ms. Bachtel to the podium to speak.

Kathe Bachtel, 1614 N Riverside Drive – I have two items that I would like an answer for. Number 1; what is this Ordinance No. 726 that was dealing with RVs. The people that own that property have been living in the RV for over a year. I spoke to Ms. Alvarez and apparently, she had several conversations with them because they put up a fence to block me from their RV because I got tired of looking at it, and their dogs were barking.

Traci Alvarez, Assistant City Manager – This public hearing is whether or not you oppose or support the lot split. I will answer those questions. Ms. Bachtel is correct, the current owner has been living in their RV. They have been going through some plan changes. The recent change to the Municipal Code does allow RV as a dwelling unit when someone has submitted their plans. He signed off on the development agreement and met all the applicable development fees and our engineer is currently reviewing the development plan. We are on hold with the development plan until we go through this summary plot. If this is not approved at this level or the City Commission level, we will have to start the development plan process over. He had originally submitted some time ago, but as we know the cost of materials went to a horrific height because of Covid, so he requested and it was approved at the P&Z office to wait until some of the cost went down in materials. Costs went down and he submitted his plans and proceeded forward with the development with the site built home. So he is within all allowances of our City code.

Kathe Bachtel, 1614 N Riverside Drive - That is as of now, what about the year he was there when he wasn't supposed to be?

Traci Alvarez, Assistant City Manager – He was allowed, he has received permission to park there, but that is not what this hearing is about.

Kathe Bachtel, 1614 N Riverside Drive - So that new Ordinance gives people permission to live on-site in their RV?

Traci Alvarez, Assistant City Manager – The public hearing is not about the Ordinance, I will be happy to have that conversation with you, but yes the new Ordinance does allow somebody to live in their RV on their lot as long as they have submitted all required to develop plans, signed the development agreement, sign the zoning approval application, and proceeding forward with the review of building and development plans. That is what the new Ordinance says.

Dawn C. Barclay, Deputy City Clerk - Called Ms. Otero to the podium to speak.

Rebecca Otero, 558 Mins St – I think I know what property you're talking about. It really would have been very nice to have some public display so it would be clear. Because not everybody is reading the maps. I think that belongs to Richard, with the Firewater Lodge.

Traci Alvarez, Assistant City Manager – Were talking about 1616 N Riverside that is off of Third Street?

Rebecca Otero, 558 Mins St – I can't comment on that. I thought I was all for it, but I don't know about it. I do apologize.

Dawn C. Barclay, Deputy City Clerk - Called Ms. Gooding to the podium to speak. She declined to speak, she stated she was only there to listen to the public hearing.

Traci Alvarez, Assistant City Manager – If you notice in your agenda packet there is an email from a neighboring property in support, they were unable to attend. Staff requests approval of the Summary Plat Amendment for 1616 N Riverside. I stand for any further questions.

Member Bush – I have no questions.

Vice-Chairman Sisney – I have no questions.

Chairman Hogg – I tried to look at this property for this hearing and I could not find it. It's not clearly marked.

Traci Alvarez, Assistant City Manager – I didn't have any problems finding it, even though Google Maps. You are more than welcome to call the Planning and Zoning office and to get assistance prior to our meetings. It's very simplified, the gentleman has two parcels side-by-side, and he is building a site-built house and he just wants to vacate the center line and make it one large parcel. It wouldn't be under normal duties for Planning & Zoning members to acutely be driving out to properties that is why I submit the documents in the agenda packet. You are always welcome to come into my office and we can look at it on the map and discuss it.

Member Bush – I drove by it and I understand what the property owners are trying to do.

Traci Alvarez, Assistant City Manager – It's on the corner of N Riverside and Third. It is a commercial property, but by all rights, you can have a dwelling on a commercial property.

Member Bush made a motion to approve the request for a Summary Plat Amendment and Variance request at 1616 N Riverside Drive, Truth or Consequences, NM. Vice-Chairman Sisney seconded the motion. Roll call was taken.

James Bush – Voted Aye.
Chris Sisney – Voted Aye.
Michael Hogg – Voted Aye.

Motion passed with a 3 to 0 vote.

5. NEW BUSINESS:

a. Discussion/Update: Final Adoption of Ordinance No. 725 Amending Chapter 3 Pertaining to Animals.

Traci Alvarez, Assistant City Manager advised the board that on February 9, 2022, the City Commission approved a revision on the animal ordinance. In the near future, kennel permits will now come before the board for approval. Property owners hosting more than four animals (any combination of dogs or cats) will be required to apply for two types of city permits. One will be a “Kennel Permit” which has been in effect for several years and the owner of the property was required to request a special use permit from the Planning & Zoning Commission for approval. This procedure was never implemented allowing “Kennel Permits” to be issued without approval from the P&Z Commission. The “Kennel Permit” now includes all 501(c)(3) and commercial businesses.

The other permit is a “Multi Animal” permit for a private owner that would like to own more than four animals (any combination of dogs or cats). The procedure for both permits will warrant a public hearing with the Planning & Zoning Commission and the notification of neighboring properties.

Applicants will be going through the Animal Control Office to apply for both types of permits. Once the application is received, the Animal Control Officer will visit the property to insure

Ms. Alvarez asked the board to please become familiar with the attached ordinance and special use guidelines. She did not want the board to be caught off guard when an animal public hearing was scheduled. She also extended an invitation for the board to contact her for any questions or clarifications.

6. REPORTS FROM THE BOARD:

There were no reports from the staff.

7. REPORTS FROM STAFF:

Traci Alvarez, Assistant City Manager reported several requests for quotes have gone out for the Revision to our Municipal Codes to be updated. Due to the prices received back, the City will now be doing the updates in-house. Ms. Alvarez and the Chief of Police, Victor Rodriguez will be working on the updates as most will pertain to Planning and Zoning and Code Enforcement. Once the changes go through the Ordinance approval and adoption, Ms. Alvarez will report back with an update as to what was approved or disapproved.

8. ADJOURNMENT:

There being no further business to come before the Planning & Zoning Commission. Member Bush made a motion to adjourn the meeting. Vice-Chairman Sisney seconded the motion. Motion carried unanimously. Meeting was adjourned.

THIS MEMORANDUM OF UNDERSTANDING (MOU) is entered into on this _____ day of _____, 2022 By and Between SIERRA COUNTY GOVERNMENT NEW MEXICO, TRUTH OR CONSEQUENCES POLICE DEPARTMENT NEW MEXICO, AND THE OLIVE TREE BEHAVIORAL HEALTH COMMUNITY CENTER regarding the Law Enforcement Assisted Diversion Program (LEAD).

WHEREAS a program grounded in harm reduction and de-escalation may provide better results than traditional methods; and

WHEREAS harm reduction and treatment are a public health philosophy and an intervention measure that seeks to reduce the harms associated with substance use issues.

SECTION A – GENERAL PROVISIONS

1. General

(a) This Agreement represents the entire and integrated Agreement between the OWNER and the ENGINEER for the Project and supersedes all prior negotiations, representations or agreements, either written or oral. In the event, any provisions of this Agreement or any subsequent amendment shall be held to be invalid and unenforceable, the remaining provisions shall be valid and binding upon the parties. One or more waivers by either party of any provision, term, condition or covenant shall not be construed by the other party as a waiver of a subsequent breach of the same by the other party. The General provisions of this Agreement supersede any conflicting SPECIAL PROVISIONS.

(b) The OWNER and the ENGINEER each is bound and the partners, successors, executors, administrators and legal representatives of the OWNER and the ENGINEER are hereby bound to the other party to this Agreement and to the partners, successors, executors, administrators and legal representatives of such other party, in respect to all covenants, agreements, and obligations of the Agreement. Neither the OWNER nor the ENGINEER may assign, sublet, or transfer any rights under or interest (including, but without limitation, moneys that are due or may become due) in the Agreement without written consent of the other, except to the extent that any assignment, subletting, or transfer is mandated or restricted by law. Unless specifically stated to the contrary in any written consent of an assignment, no assignment will release or discharge the assignor from any duty or responsibility under this Agreement. Unless expressly provided otherwise in this Agreement:

(1) Nothing in this Agreement shall be construed to create, impose, or give rise to any duty owed by the OWNER or the ENGINEER to any Contractor, Contractor's subcontractor, supplier, other individual or entity, or to any surety for or employee of any of them; and

(2) All duties and responsibilities undertaken pursuant to this Agreement will be for sole and exclusive benefit of the OWNER and the ENGINEER and not for the benefit of any other party.

(c) The ENGINEER will work closely with the OWNER to confirm all Funding Agency requirements are met.

(d) The ENGINEER will attend conferences and public hearings with the OWNER, at which representatives of the Funding Agency and interested parties will also be in attendance, and provide assistance in connection with such undertakings as provided for in the scope of work detailed in the Attachments.

2. Approvals

(a) This Agreement shall not become effective until reviewed and approved by the Funding Agency. Such approval shall be evidenced by the signature of a duly authorized representative of the Funding Agency in the space provided in the Attachments to this Agreement. The approval shall in no way commit the Funding Agency to render financial assistance to the OWNER. The Funding Agency is without liability for any payment hereunder, but in the event such assistance is provided, the approval shall signify that the provisions of this Agreement are consistent with the requirements of the Funding Agency.

(b) Review or approval of documents by or for the Funding Agency under this Agreement is

for administrative purposes only and does not relieve the ENGINEER or OWNER of their responsibilities to design, construct and operate the Project as required under law, regulations, permits and good management practices.

3. Responsibilities of the ENGINEER

(a) The ENGINEER shall be responsible for the professional quality, technical accuracy, timely completion, and the coordination of design drawings, specifications, reports, and other services furnished by the ENGINEER under this Agreement. If this Agreement involves environmental measures or data generation, the ENGINEER shall comply with EPA quality assurance requirements that can be found on their website at <http://www.epa.gov/quality/index.html>. The ENGINEER shall keep the OWNER informed of the performance of the ENGINEER'S duties under this Agreement. The ENGINEER shall, promptly and without additional compensation, correct or revise errors or omissions in the design drawings, specifications, reports, and other services provided by ENGINEER under terms of this Agreement.

(b) The ENGINEER shall perform the professional services necessary to accomplish the work specified in this Agreement, in accordance with this Agreement and applicable Funding Agency requirements in effect on the date of execution of any assistance agreement for this Project.

(c) The OWNER or Funding Agency review or approval of design drawings, specifications, reports, and other services furnished hereunder shall not in any way relieve the ENGINEER of responsibility for the technical adequacy of the work. Neither the OWNER nor Funding Agency review, approval or acceptance of, nor payment for any of the services shall be construed as a waiver of action arising out to the performance of this Agreement.

(d) The ENGINEER shall be, and shall remain, liable to the proportionate extent, in accordance with applicable law, for damages to the OWNER caused by the ENGINEER's negligent performance of any of the services furnished under this Agreement, except for errors, omissions or other deficiencies to the extent attributable to the OWNER or OWNER-furnished data. The ENGINEER shall not be responsible for any time delays in the Project caused by circumstances beyond the ENGINEER'S control.

(e) The ENGINEER'S opinions of probable Construction Cost are to be made on the basis of the ENGINEER'S experience and qualifications and represent ENGINEER'S best judgment as an experienced and qualified professional generally familiar with the construction industry. However, since the ENGINEER has no control over the cost of labor, materials, equipment, or services furnished by others, or over Contractor's methods of determining prices, or over competitive bidding or market conditions, the ENGINEER cannot and does not guarantee that proposals, bids, or actual Construction Cost and project schedules will not vary from opinions of probable Construction Cost prepared by the ENGINEER. If the OWNER wishes greater assurance as to probable Construction Cost, the OWNER shall employ and independent cost estimator.

(f) During the Construction Phase, the ENGINEER shall not at any time supervise, direct, or have control over the Contractor's work, nor shall the ENGINEER have authority over or responsibility for the means, methods, techniques, sequences, or procedures of construction selected or used by the Contractor, for security or safety at the Site, for safety precautions and programs incident to the Contractor's work in progress, nor for any failure of the Contractor to

comply with Laws and Regulations applicable to the Contractor's furnishing and performing the Work.

(g) The standard of care of all professional engineering and related services performed or furnished by the ENGINEER under this Agreement will be the care and skill ordinarily used by members of subject profession practicing under similar circumstances at the same time and in the same locality. The ENGINEER makes no warranties, expressed or implied, under this Agreement or otherwise, in connection with the ENGINEER'S services.

(h) The ENGINEER's obligations under this clause are in addition to the ENGINEER's other express or implied assurances under this Agreement or State law and in no way diminish any other rights that the OWNER may have against the ENGINEER for faulty materials, equipment, or work.

4. Responsibilities of the OWNER

(a) The OWNER shall designate in writing a person authorized to act as the OWNER's representative. The OWNER or its representative shall receive and examine documents submitted by the ENGINEER, interpret and define the OWNER's policies and render decisions and authorizations promptly in writing.

(b) The OWNER shall be responsible for, and the ENGINEER may rely upon, the accuracy and completeness of all requirements, programs, instructions, reports, data, and other information furnished by the OWNER to the ENGINEER pursuant to this Agreement. The ENGINEER may use such requirements, programs, instructions, reports, data, and information in performing or furnishing services under this Agreement without responsibility for verifying accuracy of the OWNER furnished data and information.

(c) The OWNER shall provide to the ENGINEER full and free access to enter upon all property required for the performance of the ENGINEER's services under this Agreement.

(d) The OWNER may make and retain copies of documents for information and reference in connection with use on the Project by the OWNER. Such documents are not intended or represented to be suitable for reuse by the OWNER or others on extensions of the Project or on any other project. Any such reuse or modification without written verification or adaptation by the ENGINEER will be at the OWNER's sole risk and without liability or legal exposure to the ENGINEER. Any verification or adaptation as stated above, will entitle the ENGINEER to further compensation at rates to be agreed upon by the OWNER and the ENGINEER.

5. Changes

(a) The OWNER and the ENGINEER may, at any time, with prior approval of the Funding Agency, make changes within the general scope of this Agreement in the services or work to be performed. Any such change must be in writing and approved by both parties to this Agreement. If such changes cause an increase or decrease in the ENGINEER's cost or time required to perform any services under this Agreement, whether or not changed by any order, the OWNER shall make an equitable adjustment and modify this Agreement in writing. The ENGINEER must assert any claim for adjustment under this clause in writing within thirty (30) calendar days from the date it receives the OWNER's notification of change, unless the OWNER grants additional time before the date of final payment.

(b) No services for which the ENGINEER will charge an additional compensation shall be furnished without the written authorization of the OWNER.

(c) All changes to the scope, cost or time of this Agreement and services described in the Attachments must be in writing and documented in Attachment VI – Amendment to Agreements for Engineering Services.

6. Termination of Contract

(a) This Agreement may be terminated in whole or in part by either party in the event of substantial failure by the other party to fulfill its obligations under this Agreement through no fault of the terminating party. Any termination must be in writing. No such termination may be effected unless the other party is given: 1) not less than fourteen (14) calendar days written notice (delivered by certified mail, return receipt requested) of intent to terminate; and 2) an opportunity to cure the default with the terminating party before termination.

(b) This Agreement may be terminated in whole or in part in writing by the OWNER for its convenience, provided that the ENGINEER is given: 1) not less than fourteen (14) calendar days written notice (delivered by certified, return receipt requested) of intent to terminate; and 2) an opportunity for consultation with the OWNER prior to termination.

(c) If termination for default is effected by the OWNER, an equitable adjustment in the price provided for in this agreement shall be made, but: 1) no amount shall be allowed for anticipated profit on unperformed services or other work; and 2) any payment due to the ENGINEER at the time of termination may be adjusted to cover any additional costs to the OWNER because of the ENGINEER's default. If the ENGINEER effects termination for default, or if the OWNER effects termination for convenience, the equitable adjustment shall include a reasonable profit for services or other work performed. The equitable adjustment for any termination shall provide for payment to the ENGINEER for services rendered and expenses incurred prior to the termination, in addition to termination settlement costs reasonably incurred by the ENGINEER relating to commitments which had become firm prior to the termination.

(d) Upon receipt of a termination action under paragraphs (a) or (b) above, the ENGINEER shall: 1) promptly discontinue all affected work (unless the notice directs otherwise); and 2) deliver or otherwise make available to the OWNER within fourteen (14) calendar days copies of all data, design drawings, specifications, reports, estimates, summaries and such other information and materials as may have been accumulated by the ENGINEER in performing this Agreement, whether completed or in process.

(e) Upon termination under paragraphs (a) or (b) above, the OWNER may take over the work and may award another party an Agreement to complete the work under this Agreement.

(f) If, after termination for failure of the ENGINEER to fulfill contractual obligations, it is determined that the ENGINEER had not failed to fulfill contractual obligations, the termination shall be deemed to have been for the convenience of the OWNER. In such event, adjustment of the Agreement price shall be made as provided in paragraph 6(c) of this clause.

7. Payment

(a) The ENGINEER will submit to the OWNER for services rendered an itemized bill showing charges for such services accompanied by any additional documentation requested by the OWNER. Such invoices are limited to no more than one per month. Compensation will be based on the lump sum or standard hourly rate with a maximum method of payment as detailed

in the Attachments.

(b) The OWNER shall pay the ENGINEER applicable gross receipt taxes and reimbursable expenses at the rates set forth in the appropriate Attachment. The amounts payable to the ENGINEER for reimbursable expenses will be the project-related internal expenses, such as reproduction, and all invoiced external reimbursable expenses allocatable to the project, including consultants, multiplied by a factor of 1.1 (1.1 MAXIMUM). Mileage will be reimbursed at the current federally approved IRS rate. Mileage and per diem will not be multiplied by a factor. Reimbursable expenses shall not exceed the estimate in the Attachments without prior written approval of the OWNER, with Funding Agency concurrence. Copies of invoices from consultants, mileage logs, and receipts for which the ENGINEER is requesting reimbursement must accompany the ENGINEER'S invoice.

(c) The OWNER shall notify the ENGINEER of any disputed amounts in the invoices within fourteen (14) calendar days of receipt. If the OWNER contests an invoice, the OWNER may withhold only that portion so contested, and must pay the undisputed portion.

(d) Final Payment under this Agreement, or settlement upon termination of this Agreement, shall not constitute a waiver of the OWNER's claims against the ENGINEER under this Agreement.

(e) If the OWNER fails to make any payment due to the ENGINEER within forty-five (45) calendar days after the OWNER's receipt of the ENGINEER's invoice, the amount due to the ENGINEER shall be increased at the rate of 1.5% per month from said forty-fifth day. Any payment of interest under this contract is not reimbursable from grant or loan funds. In addition, after ten (10) calendar days' prior written notice, the ENGINEER may suspend services under this Agreement until the ENGINEER is paid in full. The OWNER waives any and all claims against the ENGINEER for any such suspension.

8. Time

(a) PROGRESS AND COMPLETION

1. The ENGINEER has prepared and the OWNER has approved a schedule for the performance of the ENGINEER's services. This schedule is reflected in the contract time(s) as detailed in the Attachment(s) and represents reasonable times in which to complete the services. The schedule includes reasonable times required for the OWNER and other applicable parties to the agreement to provide necessary information, provide any applicable services not included in the ENGINEER's Scope of Work and make decisions necessary for completion of the work. The schedule also includes reasonable allowances for review and approval times required by the OWNER and by public authorities having jurisdiction over the Project. The schedule shall be equitably adjusted as the Project progresses, allowing for changes in scope, character or size of the Project requested by the OWNER, or for delays or other causes beyond the ENGINEER's reasonable control.
2. The ENGINEER shall proceed expeditiously, consistent with professional skills, with adequate forces to achieve completion within the Contract Time.
3. The OWNER shall not be liable to the ENGINEER for additional time or money if the ENGINEER submits a progress report expressing an intention to achieve completion of the Work prior to the Contract Time and then is not able to achieve intended accelerated

schedule regardless of the reason.

4. If the ENGINEER is delayed at any time in the commencement or progress of the Work by an act or negligence of the OWNER, changes in the Work as agreed upon by the OWNER and the ENGINEER in writing, or other causes beyond the ENGINEER'S control, then the Contract Time may be extended per Section 5 of this Agreement. Extensions of time not associated with modifications or changes to the Work shall not be allowed to increase the Contract amount for overhead or for any other reason and shall strictly apply toward liquidated damages, as found in Subsection (b) of this Section.
5. The ENGINEER shall promptly notify the OWNER in writing of any conditions that may delay delivery of work beyond the Contract Time.
6. The OWNER shall make decisions and carry out its other responsibilities in a timely manner so as not to delay the ENGINEER'S performance of its Services.

(b) CONTRACT TIME AND LIQUIDATED DAMAGES

1. The ENGINEER agrees that the Services being provided under this Agreement will be performed regularly, diligently and without interruption at such rate of progress as will provide for completion within the Contract Time. It is expressly understood and agreed, by and between the ENGINEER and the OWNER, that the Contract Time is a reasonable time for completion of the Services, taking into consideration the usual conditions for performing the Services. The ENGINEER agrees to promptly notify the OWNER of delays in completing the services under this Agreement that are beyond ENGINEER's control and for which a Contract Time extension will be requested. If the ENGINEER neglects, fails, or refuses to complete the Services within the Contract Time, including any time extension granted by the OWNER, then the ENGINEER agrees to pay the OWNER the amount specified in the Attachments, not as a penalty, but as liquidated damages.
2. The parties agree that the amount of the likely damages to the OWNER for such delay is difficult to ascertain at the time of execution of this Agreement, but that a reasonable estimate of such damages may be deducted from any monthly payments due to the ENGINEER, or from other monies being withheld from the ENGINEER, when a reasonable estimate of the expected date of completion can be determined by the OWNER.
3. Final accounting of liquidated damages shall be determined at completion and the ENGINEER shall be liable for any liquidated damages over and above unpaid balances held by the OWNER.
4. The OWNER and the ENGINEER agree that reasonable liquidated damages for delay (but not as a penalty) due from the ENGINEER to the OWNER are \$100.00 (minimum one-hundred dollars [\$100.00] per day) for each calendar day that expires after the Contract Time specified in the Agreement until the Work is complete and accepted by the OWNER. The OWNER shall have no more than ten (10) calendar days to accept or reject the Work.

9. Project Design

Unless otherwise approved by the OWNER and Funding Agency, the ENGINEER shall specify materials, equipment, and processes that are readily available through competitive procurement and consistent with State and Federal regulations.

10. Audits and Access to Records

(a) The ENGINEER shall maintain books, records, documents, and other evidence directly pertinent to performance on work under this Agreement in accordance with generally accepted accounting principles and practices consistently applied, and Funding Agency regulations in effect on the date of execution of this Agreement. The ENGINEER shall also maintain the financial information and data used by the ENGINEER in the preparation of the cost submission required under EPA regulations in effect on the date of execution for any negotiated agreement or amendment thereof, and a copy of the cost summary submitted to the OWNER. The Funding Agency, the Comptroller General of the United States, the U.S. Department of Labor, the OWNER, and the State water pollution control agency, or their duly authorized representatives, shall have access to such books, records, documents, and other evidence for inspection, audit, and copying during normal business hours. The ENGINEER will provide proper facilities for such access and inspection.

(b) The ENGINEER agrees to make paragraphs (a) through (f) applicable to agreements it awards in excess of \$10,000, at any tier, and to make paragraphs (a) through (f) of this clause applicable to all amendments directly related to Project performance.

(c) Audits conducted under this provision shall be in accordance with generally accepted auditing standards and established procedures and guidelines of the reviewing or audit agency(ies) and the General Accounting Office.

(d) The ENGINEER agrees to disclose all information and reports resulting from access to records under paragraphs (a) and (b) of this clause to any of the agencies referred to in paragraph (a) upon their request.

(e) Records under paragraphs (a) and (b) above shall be maintained and made available by the ENGINEER during performance of services under this Agreement and for three (3) years from the date of final Federal/State assistance payment to the OWNER for the Project. In addition, those records which relate to any controversy arising under this Agreement, litigation, the settlement of claims arising out of such performance or to costs or items to which an audit exception has been taken shall be maintained and made available by the ENGINEER until three (3) years after the date of resolution of such appeal, litigation, claim or exception.

(f) This right of access clause applies to financial records pertaining to agreements (except formally advertised, competitively awarded, fixed price agreements) and agreement amendments regardless of the type of agreement. In addition, this right of access applies to records pertaining to all agreements and agreement amendments:

1. To the extent the records pertain directly to Agreement performance; or
2. If there is any indication that fraud, gross abuse or corrupt practices may be involved; or
3. If the Agreement is terminated for default or for convenience.

11. Subcontracts

(a) Any subcontractors and outside associates or consultants required by the ENGINEER in connection with services under this Agreement will be limited to such individuals or firms as were specifically identified and agreed to during negotiations of this Agreement. The OWNER must give prior approval for any substitutions, additions or deletions to such subcontractors, associates, or consultants but will not dictate whom the ENGINEER must hire.

(b) The ENGINEER may not subcontract services to subcontractors or consultants in excess of thirty (30) percent of the total phased compensation due to the ENGINEER and detailed in the Attachments without prior written approval of the OWNER and funding agency.

12. Insurance

The ENGINEER agrees to obtain and maintain, at their expense, such insurance as specified in Attachment I.

13. Environmental Condition of Site

(a) The OWNER has disclosed to the ENGINEER in writing the existence of all known and suspected Asbestos, PCBs, Petroleum, Hazardous Waste, Radioactive Material, hazardous substances, and other Constituents of Concern located at or near the Site, including type, quantity, and location.

(b) The OWNER represents to the ENGINEER that to the best of its knowledge no Constituents of Concern, other than those disclosed in writing to the ENGINEER, exist at the Site.

(c) If the ENGINEER encounters an undisclosed Constituent of Concern, then the ENGINEER shall notify: 1) the OWNER; and 2) appropriate governmental officials if the ENGINEER reasonably concludes that doing so is required by applicable Laws or Regulations.

(d) It is acknowledged by both parties that the ENGINEER'S scope of services does not include any services related to Constituents of Concern. If the ENGINEER or any other party encounters an undisclosed Constituent of Concern, or if investigative or remedial action, or other professional services, are necessary with respect to disclosed or undisclosed Constituents of Concern, then the ENGINEER may, at its option and without liability for consequential or any other damages, suspend performance of services on the portion of the Project affected thereby until the OWNER: 1) retains appropriate specialist consultant(s) or contractor(s) to identify and, as appropriate, abate, remediate, or remove the Constituents of Concern; and 2) warrants that the Site is in full compliance with applicable Laws and Regulations.

(e) If the presence at the Site of undisclosed Constituents of Concern adversely affects the performance of the ENGINEER'S services under this Agreement, then the ENGINEER shall have the option of: 1) accepting an equitable adjustment in its compensation or in the time of completion, or both; or 2) terminating this Agreement for cause on 30 calendar days' notice.

(f) Owner acknowledges that the ENGINEER is performing professional services for the OWNER and that the ENGINEER is not and shall not be required to become an "arranger," "operator," "generator," or "transporter" of hazardous substances, as defined in the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), as amended, which are or may be encountered at or near the Site in connection with the ENGINEER'S activities under this Agreement.

14. Mutual Waiver

To the fullest extent permitted by law, the OWNER and the ENGINEER waive against each other, and the other's employees, officers, directors, agents, insurers, partners, and consultants, any and all claims for or entitlement to special, incidental, indirect, or consequential damages arising out of, resulting from, or in any way related to the Project.

15. Independent Contractor

The ENGINEER will, at all times during the performance of this Agreement and in connection with the Services, be deemed to be an Independent Contractor. No relationship of employer-employee or agency or other fiduciary capacity is created by this Agreement or by the ENGINEER'S performance of the Services.

16. Equal Employment Opportunity

The ENGINEER shall comply with U.S. Executive Order 11246, entitled "Equal Employment Opportunity", as amended by U.S. Executive Order 11375, and as supplemented in Department of Labor regulations 41 CFR Part 60.

17. Gratuities

(a) If the OWNER find that the ENGINEER or any of the ENGINEER's agents or representatives offered or gave gratuities (in the form of entertainment, gifts, or otherwise), to any official, employee, or agent of the OWNER or the Funding Agency in an attempt to secure this Agreement, or favorable treatment in awarding, amending or making any determinations related to the performance of this Agreement, the OWNER may, by written notice to the ENGINEER, terminate this Agreement. The OWNER may also pursue other rights and remedies that the law or this Agreement provides. However, the existence of the facts on which the OWNER bases such findings shall be in issue and may be reviewed in proceedings under the Remedies clause of this Agreement.

(b) In the event this Agreement is terminated as provided in Subsection (a) of this Section, the OWNER may pursue the same remedies against the ENGINEER as it could pursue in the event of a breach of the Agreement by the ENGINEER. As a penalty, in addition to any other damages to which it may be entitled by law, the OWNER may pursue exemplary damages in an amount (as determined by the OWNER) which shall be not less than three nor more than ten times the costs the ENGINEER incurs in providing any such gratuities to any such officer or employee.

18. Covenant Against Contingent Fees

The ENGINEER represents that no person or selling agency has been employed or retained to solicit or secure this Agreement upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, excepting bona fide employees or bona fide established commercial or selling agencies maintained by the ENGINEER for the purpose of securing business. For breach or violation of this assurance the OWNER shall have the right to annul this Agreement without liability or, at its discretion, to deduct from the contract price or consideration, or otherwise recover, the full amount of such commission, percentage, brokerage, or contingent fees.

19. Cost and Pricing Data on Federally-funded Projects (delete section if not applicable)

The ENGINEER and its subcontractor(s) confirm that cost and pricing data submitted for

evaluation with respect to negotiation of prices for negotiated agreements, lower tier subagreements, or amendments are based on current, accurate, and complete data supported by their books and records. If the OWNER, or Funding Agency determines that any price (including profit) negotiated in connection with this Agreement, any lower tier subagreement, or any amendment thereunder was increased by any significant sums because the data provided was incomplete, inaccurate, or not current at the time of submission, then such price or cost or profit shall be reduced accordingly; and this Agreement shall be modified in writing to reflect such action. Failure to agree on a reduction shall be subject to the Remedies clause of this Agreement.

20. Remedies

Unless otherwise provided in this Agreement, all claims, counter-claims, disputes, and other matters in question between the OWNER and the ENGINEER arising out of or relating to this Agreement or the breach of it will be decided by non-binding mediation or arbitration if the parties mutually agree, or in a court of competent jurisdiction within the State in which the OWNER is located.

21. Assurance Against Debarment

The ENGINEER confirms that it and its subcontractors have not been suspended or debarred by EPA, USDA, or the State of New Mexico.

SECTION B –ENGINEERING SERVICES

The ENGINEER shall furnish ENGINEERING SERVICES as follows in accordance with the GENERAL PROVISIONS of the Agreement and as authorized by the appropriate Attachment to this Agreement:

1. The ENGINEER shall complete the ENGINEERING SERVICES described in Attachment II – Engineering Services During the Planning Phase within the time specified from the date of written authorization to proceed unless otherwise mutually agreed to in writing by both parties.
2. The ENGINEER shall complete the ENGINEERING SERVICES described in Attachment III – Engineering Services During the Design Phase within the time specified from the date of written authorization to proceed unless otherwise mutually agreed to in writing by both parties.
3. ENGINEER shall complete the ENGINEER SERVICES described in Attachment IV – Engineering Services During the Construction Phase within the time specified from the date of written authorization to proceed unless otherwise mutually agreed to by both parties.
4. The ENGINEER shall complete the ENGINEERING SERVICES described in Attachment V – Engineering Services During the Operation Phase within the time specified from the date of written authorization to proceed unless otherwise mutually agreed to in writing by both parties.

SECTION C – SPECIAL PROVISIONS OR MODIFICATIONS TO THE STANDARD LANGUAGE IN THIS AGREEMENT

(Mark those that apply or describe, attach or indicate "None")

☐ None

1. Contract times as defined in Attachments II, III, IV are based upon assumed agency review times of 30- calendar days, with a 30-calendar day second review for approval. Contract times may be stopped or extended to accommodate additional agency review time as needed.

☐ For Planning Grant Funds from NMFA Insert the note: For Preliminary Engineering Reports or other documents paid for using NMFA Planning Grant Funds, the community can only submit one reimbursement request. This request for payment must be based on a final invoice and can only occur after the document is approved by the pertinent reviewing agency. Interim payments to the engineer will be at the discretion of the community as agreed upon in this contract.

☐ The terms of this Agreement are contingent upon sufficient appropriations and authorization being made by the Legislature of New Mexico for the performance of this Agreement. If sufficient appropriations and authorization are not made by the Legislature, the OWNER may immediately terminate this Agreement by giving the ENGINEER written notice of such termination. The OWNER's decision as to whether sufficient appropriations are available shall be accepted by the ENGINEER and shall be final. The ENGINEER hereby waives any rights to assert an impairment of contract claim against the OWNER or NMED or the State of New Mexico in the event of immediate or Early Termination of this Agreement by the OWNER or the Department

☐ This contract is funded in whole or in part by funds made available under a NMED Grant Agreement. Should the NMED early terminate the grant agreement, the OWNER may early terminate this contract by providing the ENGINEER written notice of such termination. In the event of termination pursuant to this paragraph, the OWNER's only liability shall be to pay the ENGINEER or vendor for acceptable goods delivered and services rendered before the termination date.

☐ MODEL CONTRACT CLAUSE FOR ENGINEERING AGREEMENTS used for Clean Water State Revolving Fund (CWSRF) or Drinking Water State Revolving Fund (DWSRF) projects.

1. PRIVITY OF CONTRACT

This contract is expected to be funded in part with funds from the U.S. Environmental Protection Agency. Neither the United States nor any of its departments, agencies or employees is, or will be, a party to this contract or any lower tier contract. This contract is subject to the applicable EPA procurement regulations in effect on the date of the assistance award for this project.

2. CHANGES

1. The OWNER may at any time, by written order make changes within the general scope of this contract in the services to be performed. If such changes cause an increase or decrease in the ENGINEER'S cost or time required to perform any services under this contract, whether or not changed by any order, the OWNER shall make an equitable adjustment and modify this contract in writing. The ENGINEER must assert any claim for adjustment under this clause in writing within 30 days from the date it receives the OWNER'S notification of change, unless the OWNER grants additional time before the date of final payment.
2. No claim by the ENGINEER for an equitable adjustment shall be allowed if made after final payment under this contract.
3. No services for which the ENGINEER will charge an additional compensation shall be furnished without the written authorization of the OWNER.

3. TERMINATION

- a. This contract may be terminated in whole or in part in writing by either party in the event of substantial failure by the other party to fulfill its obligations under this contract through no fault of the terminating party, provided that no termination may be effected unless the other party is given (1) not less than ten (10) calendar days written notice (delivered by certified mail, return receipt requested) of intent to terminate, and (2) an opportunity for consultation with the terminating party prior to termination.
- b. This contract may be terminated in whole or in part in writing by the OWNER for its convenience, provided that the ENGINEER is given: 1) not less than ten (10) calendar days' written notice (delivered by certified mail, return receipt requested) of intent to terminate, and; 2) an opportunity for consultation with the terminating party prior to termination.
- c. If termination for default is effected by the OWNER, an equitable adjustment in the price provided for in this contract shall be made, but: 1) no amount shall be allowed for anticipated profit on unperformed services or other work; and 2) any payment due to the ENGINEER at the time of termination may be adjusted to cover any additional costs to the OWNER because of the ENGINEER'S default. If the ENGINEER effects termination for default, or if the OWNER effects termination for convenience, the equitable adjustment shall include a reasonable profit for services or other work performed. The equitable adjustment for any termination shall provide for payment to the ENGINEER for services rendered and expenses incurred prior to the termination, in addition to termination settlement costs reasonably incurred by the ENGINEER relating to commitments which had become firm prior to the termination.
- d. Upon receipt of a termination action under paragraphs (a) or (b) above, the Engineer shall (1) promptly discontinue all affected work (unless the notice directs otherwise), and (2) deliver or otherwise make available to the Owner all data, drawings, specifications, reports, estimates, summaries and such other information and materials as may have been accumulated by the Engineer in performing this contract, whether completed or in process.
- e. Upon termination under paragraphs (a) or (b) above, the Owner may take over the work and may award another party a contract to complete the work under this contract.
- f. If, after termination for failure of the Engineer to fulfill contractual obligations, it is determined that the Engineer had not failed to fulfill contractual obligations, the termination shall be deemed

to have been for the convenience of the Owner. In such event, adjustment of the sub-agreement price shall be made as provided in paragraph (c) of this clause.

4. REMEDIES

Unless otherwise provided in this contract, all claims, counter-claims, disputes and other matters in question between the OWNER and the ENGINEER arising out of, or relating to, this contract or the breach of it will be decided, if the parties mutually agree, by arbitration, mediation, or other alternative dispute resolution mechanism; or in a court of competent jurisdiction within the State in which the OWNER is located.

5. AUDIT; ACCESS TO RECORDS

a. The ENGINEER shall maintain books, records, documents and other evidence directly pertinent to performance on EPA funded work under this contract in accordance with generally accepted accounting principles and practices consistently applied, and the applicable EPA regulations in effect on the date of execution of this contract. The ENGINEER shall also maintain the financial information and data used in the preparation or support of any cost submission required under applicable regulations for negotiated contracts or change orders and a copy of the cost summary submitted to the OWNER. The United States Environmental Protection Agency, the Comptroller General of the United States, the United States Department of Labor, the OWNER, and [the State] or any of their authorized representatives shall have access to all such books, records, documents and other evidence for the purpose of inspection, audit and copying during normal business hours. The ENGINEER will provide proper facilities for such access and inspection.

b. If this is a fixed price contract awarded through sealed bidding or otherwise on the basis of effective price competition, the ENGINEER agrees to make paragraphs (a) through (f) of this clause applicable to all negotiated change orders and contract amendments affecting the contract price. In the case of all other types of prime contracts, the ENGINEER agrees to make paragraphs (a) through (f) applicable to all contract awards in excess of \$10,000, at any tier, and to make paragraphs (a) through (f) of this clause applicable to all change orders directly related to project performance.

c. Audits conducted under this provision shall be in accordance with generally accepted auditing standards and with established procedures and guidelines of the reviewing or audit agency(ies).

d. The ENGINEER agrees to disclose all information and reports resulting from access to records under paragraphs (a) and (b) of this clause to any of the agencies referred to in paragraph (a).

e. Access to records is not limited to the required retention periods. The authorized representatives designated in paragraph (a) of this clause shall have access to records at any reasonable time for as long as the records are maintained.

f. This right of access clause applies to financial records pertaining to all contracts (except for fixed price contracts awarded through sealed bidding or otherwise on the basis of effective price competition) and all contract change orders regardless of the type of contract, and all contract amendments regardless of the type of contract. In addition, this right of access applies to all records pertaining to all contracts, contract change orders and contract amendments:

1. To the extent the records pertain directly to contract performance;
2. If there is any indication that fraud, gross abuse or corrupt practices may be involved; or
3. If the sub-agreement is terminated for default or for convenience.

6. COVENANT AGAINST CONTINGENT FEES

The ENGINEER assures that no person or selling agency has been employed or retained to solicit or secure this contract upon an agreement or understanding for a commission, percentage, brokerage or contingent fee excepting bona fide employees or bona fide established commercial or selling agencies maintained by the ENGINEER for the purpose of securing business. For breach or violation of this assurance, the OWNER shall have the right to annul this agreement without liability or, at its discretion, to deduct from the contract price or consideration, or otherwise recover the full amount of such commission, percentage, brokerage or contingent fee.

7. GRATUITIES

a. If the OWNER finds after a notice and hearing that the ENGINEER or any of the ENGINEER'S agents or representatives offered or gave gratuities (in the form of entertainment, gifts or otherwise) to any official, employee or agent of the OWNER, the State or EPA in an attempt to secure a contract or favorable treatment in awarding, amending or making any determinations related to the performance of this contract, the OWNER may, by written notice to the ENGINEER, terminate this contract. The OWNER may also pursue other rights and remedies that the law or this contract provides.

b. In the event this contract is terminated as provided in paragraph (a), the OWNER may pursue the same remedies against the ENGINEER as it could pursue in the event of a breach of the contract by the ENGINEER, and as a penalty, in addition to any other damages to which it may be entitled by law, be entitled to exemplary damages in an amount (as determined by the Owner) which shall be not less than three nor more than ten times the costs the ENGINEER incurs in providing any such gratuities to any such officer or employee.

8. FINAL PAYMENT

Upon satisfactory completion of the work performed under this contract, as a condition before final payment under this contract or as a termination settlement under this contract the ENGINEER shall execute and deliver to the OWNER a release of all claims against the OWNER arising under, or by virtue of, this contract, except claims which are specifically exempted by the ENGINEER to be set forth therein. Unless otherwise provided in this contract, by State law or otherwise expressly agreed to by the parties to this contract, final payment under this contract or settlement upon termination of this contract shall not constitute a waiver of the OWNER'S claims against the ENGINEER under this contract.

9. 40 CFR Part 33

The contractor shall not discriminate on the basis of race, color, national origin or sex in the performance of this contract. The contractor shall carry out applicable requirements of 40 CFR part 33 in the award and administration of contracts awarded under EPA financial assistance

agreements. Failure by the contractor to carry out these requirements is a material breach of this contract which may result in termination of this contract or other legal available remedies.

IN WITNESS THEREOF, the parties hereto have executed, or caused to be executed, by their duly authorized officials, this Agreement on the respective dates indicated below.

The parties further certify by their signatures below that no modifications have been made to the standard language of this Agreement, other than those detailed in Section C.

IN WITNESS WHEREOF, the Parties have executed this Agreement as of the date of the signature by the required approval authorities below.

Exhibit A – Scope of Work

The City of Truth or Consequences water distribution system has two pressure zone, the lower zone (southern portion) and the upper zone (northern portion). The Morgan Booster Station which feeds the lower zone is only functioning on a single pump and without SCADA due to a flood. Currently operators are running the station manually switching the single pump on as needed. The Cielo Vista Station is also being run manually because of failed pressure transducers and issues with the control panel. The Austin St waterline is a small 4" AC pipe rated in poor condition. The pipe, because of its diameter is not capable of handling fire flows.

The scope of work will include a complete design package consisting of Contract documents, technical specifications and Design Plan set along with design review meetings with the City. Project will also include NMED DWB Permit application, and NMED CPB coordination and approval.

The scope of work for the construction phase of the project consists of:

- Bidding Services- To commence upon final approval of design plans and conclude once Letter of Recommendation of Award is issued to the Client
 - Distribution of plans and project manuals to Bidders.
 - Issue advertisement for bids to papers
 - Facilitate pre-bid meeting
 - Respond to contractors' questions and issue addenda
 - Facilitate bid-opening
 - Review bids, prepare bid tabulation, and recommendation of award.
- Construction Administration- Engineering efforts and office services required during construction:
 - Conform construction documents for awarded contractor
 - Facilitate Pre-construction conference
 - Review shop drawing submittals
 - Respond to contractors RFI's during construction (assume 10 total)
 - Review of contractor's application for payment (assume 6 total)
 - Issue clarifications and field directives (assume 4 total)
 - Review change order proposals and make recommendations (assume 3)
 - Attend bi-weekly construction progress meetings (Assume 1-hr/ea.)
 - Attend substantial completion walk through, prepare punchlist
 - Attend final completion walk through
 - Develop record drawings from contractor markups
 - QA/QC of record drawings
- Construction Observation (assume 2 months)- Field services required during construction
 - Field observation
 - Prepare daily field reports
 - Review and verification of quantities (3 times)

Construction for the Morgan Booster Station as proposed in the Design Analysis Report will be the installation of two 75 hp vertical multistage centrifugal pumps on the existing skid units. Included with the new pumps will be necessary appurtenances, variable frequency drives and control panels.

At the Cielo Vista Booster Station construction will include installation of a new packaged duplex booster pump skid with two 5 hp vertical multistage centrifugal pumps. The installation also includes an expansion tank, control panel, hot box, pressure transducers, and all necessary valves, fittings and appurtenances.

Construction of the Austin St Waterline will be the replacement of 450 feet of mostly AC pipe with 8" HDPE pipes by method of pipe bursting. This method eliminates the need for very invasive and costly open trenches.

ATTACHMENT I – Insurance

The ENGINEER agrees to obtain and maintain, at the ENGINEER's expense, such insurance as will protect the ENGINEER from claims under the Workman's Compensation Act and such comprehensive general liability and automobile insurance as will protect the OWNER and the ENGINEER from all claims for bodily injury, death, or property damage which may arise from the performance by the ENGINEER, or by the ENGINEER's employees, for the ENGINEER's functions and services required under this Agreement. Such insurance shall be in an amount not less than \$1,000,000 for injury to any one person and \$1,000,000 on account of any one accident and in the amount of not less than \$1,000,000 for property damage. The ENGINEER further agrees to procure and maintain professional liability (errors and omissions) insurance in an amount not less than \$1,000,000 per claim and in the aggregate. Prior to commencement of any work, the ENGINEER shall furnish to the OWNER a certificate that complies with this paragraph. The certificate shall provide that the policy shall not be canceled until at least ten (10) calendar days prior written notice shall have been given to the OWNER. ENGINEER shall provide annual updates of the certificate to demonstrate the policy remains in effect for the duration of this Agreement.

Booster Station and Austin St. Improvements

City of Truth or Consequences 2020 Water Trust Board Application

FUNDING REQUEST \$712,146.00

SCOPE

The request is for the **design and construction** of two booster station improvements to include the replacement of a critical distribution line segment in order to adequately provide a reliable source of water to community residents and critical infrastructure including hospitals and schools.

SUMMARY

Recent failures at the Morgan and Cielo Vista booster stations have caused water outages and increased operation costs. Both stations are currently relying on a single pump, with no redundancy and under manual operation. Approximately 1,000 residents plus the City's Hospital, Schools and several commercial establishments rely on these stations for water supply. The existing 4-in asbestos-cement waterline on Austin St. lacks the ability to provide peak demand flows without a substantial loss in pressure. This line also sees major pressure surges during booster station operation causing leaks and breaks. The proposed improvements will replace failed components, provide redundancy, increase the water system's overall resiliency and reduce operations costs.

Chairman Hogg – Ms. Alvarez will you please stat your first item for consideration.

Traci Alvarez, Assistant City Manager – Thank you Chairman and Members of the board. Sierra County is requesting to vacate Hide Street located between South Broadway and Cook Street.

Specifically, this is the small section of Hike that runs between the fair barn and the Albert J Lyon Center. They would like to have vacate done, so they can have their entire parcel. They own the fair barn and the Albert J Lyon parcels. I think at some point they would like to limit the traffic going into the fair barn. This still leaves access for everybody on Cook Street to have access through Myrtle Avenue as well as Cook Street and South Broadway. I will now stand for any questions.

Member Bush made a motion to Vacate on Hyde Street between South Broadway and Cook Street. Vice-Chairman Sisney seconded the motion. Roll call was taken.

Michael Hogg – Voted Aye.

Chris Sisney – Voted Nye. Because of the report from the Streets Department and the Utilities Department at this time.

James Bush – Voted Aye.

Motion was a 2 to 1 vote in favor.

The Planning and Zoning Commission shall review an administrative action of the designated Zoning Administrator when it is alleged that there is an error in the order, requirement, determination, or refusal made by the designated Zoning Administrator and reverse, affirm, or modify the administrative action.
 2. The Commission shall interpret this Code when the designated Zoning Administrator is in doubt as to the exact meaning of the text.
 3. The Commission shall interpret the Official Planning and Zoning District Map in accordance with the standards set forth in the Comprehensive Planning and Zoning Code when the designated Zoning Administrator is uncertain as to the exact boundary of a District shown on the Official Planning and Zoning District Map.
- C. Powers and duties.**
1. Recommend to the City Commission either approval, denial or modification of a request for annexation, special use permit, variance, subdivision, zoning, amendment of this Code, or any other land use consideration within the planning and zoning jurisdiction of the City.

Eligibility requirements for membership shall be established by the City Commission. Members shall serve staggered terms of two (2) years each. The recording secretary shall not be a member of the Planning and Zoning Commission and shall be only responsible for those duties requested by the Planning and Zoning Commission and approved by the City Manager.

- C. **Processes of vacation:** Vacations of plat that result in the decrease in the number of lots by not more than one lot may be processed using the Alternate Summary Process.
- D. **Statement of vacation:**
 - 1. The vacation of all or a portion of a final plat by the owners of land within a subdivision may be initiated by submittal to the City's Zoning Administrator of the statement of vacation bearing the acknowledged signatures of all owners of record of property within the subdivided land to be vacated.

 - 1. Action shall be taken in a public meeting;

Re: Communications Facility located at Kopra Street Section 28 Township 13S Range 4W, Truth Or Consequences, NM 87901

Contract #: 49044 / FA#: 10093217

Dear Landlord,

As you are aware, AT&T Mobility ("AT&T") has partnered with MD7 to work with you to facilitate certain modifications to the cell site lease on your property. These modifications will allow AT&T to meet current business requirements and enhance your site's value to the network.

Changes in the Wireless Industry

Recent industry developments are changing how wireless telecommunications carriers operate. In the past, carriers focused on rapidly building out their networks in order to provide the best coverage. Today, while consumers are enjoying greater services and better coverage than ever before, operating costs continue to escalate. As a result, the wireless industry is also focusing on operating networks as efficiently as possible.

Eliminating Risk and Increasing Value

AT&T is addressing this shift by reviewing its cell site portfolio. AT&T has partnered with MD7 to offer selected landlords like you the opportunity to minimize the business risks associated with industry uncertainties and to increase the value of your cell site lease.

Criteria for Cellular Site Retention

AT&T is willing to offer the following option to secure a longer-term lease with you:

- \$456.25 per month, commencing May 1, 2022
- 10% rent increase every 5 years, commencing May 1, 2030
- Extension of Lease through October 20, 2060

- Right of First Refusal

"Notwithstanding any other provisions contained in the Agreement, if at any time after the Effective Date, Landlord receives a bona fide written offer from a third party seeking any sale, conveyance, assignment or transfer, whether in whole or in part, of any property interest in or related to the Premises, including without limitation any offer seeking an assignment or transfer of the Rent payments associated with the Agreement or an offer to purchase an easement with respect to the Premises ("Offer"), Landlord shall immediately furnish Tenant with a copy of the Offer. Tenant shall have the right within ninety (90) days after it receives such copy to match the financial terms of the Offer and agree in writing to match such terms of the Offer. Such writing shall be in the form of a contract substantially similar to the Offer, but Tenant may assign its rights to a third party. If Tenant chooses not to exercise this right or fails to provide written notice to Landlord within the ninety (90) day period, Landlord may sell, convey, assign or transfer such property interest in or related to the Premises pursuant to the Offer, subject to the terms of the Agreement. If Landlord attempts to sell, convey, assign or transfer such property interest in or related to the Premises without complying with this paragraph, the sale, conveyance, assignment or transfer shall be void. Tenant shall not be responsible for any failure to make payments under the Agreement and reserves the right to hold payments due under the Agreement until Landlord complies with this paragraph. Tenant's failure to exercise the right of first refusal shall not be deemed a waiver of the rights contained in this paragraph with respect to any future proposed conveyances as described herein."

■ **Sale of Property**

(a) "Landlord shall not be prohibited from the selling, leasing or use of any of the Property or the surrounding Property except as provided below.

(b) If Landlord, at any time during the Term of the Agreement, decides to rezone or sell, subdivide or otherwise transfer all or any part of the Premises, or all or any part of the Property or surrounding Property, to a purchaser other than Tenant, Landlord shall promptly notify Tenant in writing, and such rezoning, sale, subdivision or transfer shall be subject to the Agreement and Tenant's rights hereunder. In the event of a change in ownership, transfer or sale of the Property, within ten (10) days of such transfer, Landlord or its successor shall send the documents listed below in this subsection (b) to Tenant. Until Tenant receives all such documents, Tenant shall not be responsible for any failure to make payments under the Agreement and reserves the right to hold payments due under the Agreement.

- i. Old deed to Property
- ii. New deed to Property
- iii. Bill of Sale or Transfer
- iv. Copy of current Tax Bill
- v. New IRS Form W-9
- vi. Completed and Signed AT&T Payment Direction Form
- vii. Full contact information for new Landlord including phone number(s)

(c) Landlord agrees not to sell, lease or use any areas of the Property or surrounding Property for the installation, operation or maintenance of other wireless communications facilities if such installation, operation or maintenance would interfere with Tenant's Permitted Use or communications equipment as determined by radio propagation tests performed by Tenant in its sole discretion. Landlord or Landlord's prospective purchaser shall reimburse Tenant for any costs and expenses of such testing. If the radio frequency propagation tests demonstrate levels of interference unacceptable to Tenant, Landlord shall be prohibited from selling, leasing or using any areas of the Property or the surrounding Property for purposes of any installation, operation or maintenance of any other wireless communications facility or equipment.

(d) The provisions of this paragraph shall in no way limit or impair the obligations of Landlord under the Agreement, including interference and access obligations."

■ **Removal/Restoration**

"In addition to the terms set forth in the Agreement, Landlord agrees that the Communications Facility and any related equipment brought to the Premises by Tenant, its agents, contractors, predecessors in interest or subTenants, shall be and remain Tenant's personal property or the personal property of its subTenant(s), as the case may be. Landlord waives any and all rights it may have, including any rights it may have in its capacity as Landlord under the Agreement to assert any liens, encumbrances or adverse claims, statutory or otherwise, related to or in connection with the Communications Facility or any portion thereof. Tenant, in its sole discretion, may remove the Communications Facility or any portion of the Communications Facility at any time during the Term of the Agreement, without notice to Landlord and without Landlord's consent. Notwithstanding any terms to the contrary, Tenant will not be responsible for the replacement of any trees, shrubs or other vegetation, nor will Tenant be required to remove from the Premises or the Property any foundations or underground utilities. Tenant, may, in its sole discretion, transfer any improvements or alterations to the Premises to Landlord at any time during the Term of the Agreement without notice to the Landlord and without the Landlord's consent."

This letter of understanding is subject in all respects to the preparation, execution and delivery of a definitive amendment in form and substance mutually agreeable to each of us. This letter will not be legally binding between us with respect to the proposed business relationship, but instead serves as a statement of our mutual intent to work toward entering into such an amendment.

AT&T values its affiliation with you and hopes to continue a long and mutually profitable relationship in the years to come. After having reviewed these options, please contact me prior to **February 15, 2021**.

Thank you for your consideration.

Sincerely,

MD7

LEASE OF PREMISES.** Landlord leases to Tenant a certain portion of the Property containing approximately 900.8 square feet and grants such easements as are necessary for installation of all equipment required or advisable to connect Tenant's antennas located on the antenna structure owned by Antenna Landlord with the Communication Facility (as such term is defined in Paragraph 2 below) located in such portion of the Property, all as described on attached Exhibit 1, together with unrestricted access for Tenant's uses from the nearest public right-of-way along the Property to the Premises as described on the attached Exhibit 1 (collectively, the "Premises").
- 2. PERMITTED USE.** Tenant may use the Premises in accordance with paragraph 1 for the construction, maintenance, operation, repair, replacement and upgrade of its communications fixtures and related equipment, cables, accessories and improvements, which may include l beams, equipment shelters or cabinets and fencing and any other items necessary to the successful and secure use of the Premises (collectively, the "Communication Facility"), as well as the right to test, survey and review title on the Property; Tenant further has the right but not the obligation to add, modify and/or replace equipment in order to be in compliance with any current or future federal, state or local mandated application, including, but not limited to, emergency 911 communication services, at no additional cost to Tenant or Landlord (collectively, the "Permitted Use"). Landlord and Tenant agree that any portion of the Communication Facility that may be conceptually described on Exhibit 1 will not be deemed to limit Tenant's Permitted Use. If Exhibit 1 includes drawings of the initial installation of the Communication Facility, Landlord's execution of this Agreement will signify Landlord's approval of Exhibit 1. Tenant has the right to install and operate transmission cables from the equipment shelter or cabinet to the antenna structure which is located on the Property or adjacent property, electric lines from the main feed to the equipment shelter or cabinet and communication lines from the main entry point to the equipment shelter or cabinet, and to make Property improvements, alterations, upgrades or additions appropriate for Tenant's use ("Tenant Changes"). Tenant Changes include the right to construct a fence around the Premises and undertake any other appropriate means to secure the Premises. Tenant agrees to comply with all applicable governmental laws, rules, statutes and regulations, relating to its use of the Communication Facility on the Property. Tenant has the right to modify, supplement, replace, upgrade, expand the equipment or relocate the Communication Facility within the

Premises at any time during the term of this Agreement. Tenant will be allowed to make such alterations to the Property in order to accomplish Tenant's Changes or to insure that Tenant's Communication Facility complies with all applicable federal, state or local laws, rules or regulations. In the event Tenant desires to modify or upgrade the Communication Facility, and Tenant requires an additional portion of the Property (the "Additional Premises") for such modification or upgrade, Landlord agrees to lease to Tenant the Additional Premises, upon the same terms and conditions set forth herein, except that the Rent shall increase, in conjunction with the lease of the Additional Premises by a reasonable amount consistent with rental rates then charged for comparable portions of real property being in the same area. Landlord agrees to take such actions and enter into and deliver to Tenant such documents as Tenant reasonably requests in order to effect and memorialize the lease of the Additional Premises to Tenant.

3. TERM.

(a) The initial lease term will be five (5) years ("Initial Term"), commencing on the Effective Date. The Initial Term will terminate on the fifth (5th) annual anniversary of the Effective Date.

(b) This Agreement will automatically renew for four (4) additional five (5) year term(s) (each five (5) year term shall be defined as the "Extension Term"), upon the same terms and conditions unless the Tenant notifies the Landlord in writing of Tenant's intention not to renew this Agreement at least sixty (60) days prior to the expiration of the existing Term.

(c) If, at least sixty (60) days prior to the end of the fourth (4th) extended term, either Landlord or Tenant has not given the other written notice of its desire that the term of this Agreement end at the expiration of the fourth (4th) extended term, then upon the expiration of the fourth (4th) extended term this Agreement shall continue in force upon the same covenants, terms and conditions for a further term of one (1) year, and for annual terms thereafter until terminated by either party by giving to the other written notice of its intention to so terminate at least six (6) months prior to the end of any such annual term. Monthly rental during such annual terms shall be equal to the rent paid for the last month of the fourth (4th) extended term. If Tenant remains in possession of the Premises after the termination of this Agreement then Tenant will be deemed to be occupying the Premises on a month to month basis (the "Holdover Term"), subject to the terms and conditions of this Agreement.

(d) The Initial Term, the Extension Term and the Holdover Term are collectively referred to as the Term ("Term").

4. RENT.

(a) Commencing on the first day of the month following the date that Tenant commences construction (the "Rent Commencement Date"), Tenant will pay the Landlord a monthly rental payment of Three Hundred and No/100 Dollars (\$300.00) ("Rent"), at the address set forth above, on or before the fifth (5th) day of each calendar month in advance. In partial months occurring after the Rent Commencement Date, Rent will be prorated. The initial Rent payment will be forwarded by Tenant to Landlord within thirty (30) days after the Rent Commencement Date.

(b) In the event this Agreement is extended for additional five (5) year terms, the annual rent for each successive five (5) year term shall be paid as follows:

First Extended Term: \$4,140.00

Second Extended Term: \$4,761.00

Third Extended Term: \$5,475.00

Fourth Extended Term: \$6,296.50

Said payments shall be made in equal monthly installments.

5. APPROVALS.

(a) Landlord agrees that Tenant's ability to use the Premises is contingent upon the suitability of the Premises for Tenant's Permitted Use, Tenant's ability to secure a lease with Antenna Landlord for space on Antenna Landlord's antenna structure and such lease remaining in full force and effect during the Term hereof, and Tenant's ability to obtain and maintain all governmental licenses, permits, approvals or other relief required of or deemed necessary or appropriate by Tenant for its use of the Premises, including without limitation applications for zoning variances, zoning ordinances,

amendments, special use permits, and construction permits (collectively, the "Government Approvals"). Landlord authorizes Tenant to prepare, execute and file all required applications to obtain Government Approvals for Tenant's Permitted Use under this Agreement and agrees to reasonably assist Tenant with such applications and with obtaining and maintaining the Government Approvals. In addition, Tenant shall have the right to initiate the ordering and/or scheduling of necessary utilities.

(b) Tenant has the right to obtain a title report or commitment for a leasehold title policy from a title insurance company of its choice and to have the Property surveyed by a surveyor of Tenant's choice. In the event Tenant determines in its sole discretion, due to the title report results or survey results that the condition of the Premises is unsatisfactory, Tenant will have the right to terminate this Agreement upon notice to Landlord.

(c) Tenant may also perform and obtain, at Tenant's sole cost and expense, soil borings, percolation tests, engineering procedures, environmental investigation or other tests or reports on, over, and under the Property, necessary to determine if the Tenant's use of the Premises will be compatible with Tenant's engineering specifications, system, design, operations or Government Approvals.

6. **TERMINATION.** This Agreement may be terminated, without penalty or further liability, as follows:

(a) by either party on thirty (30) days prior written notice, if the other party remains in default under Paragraph 15 Default and Right to Cure of this Agreement after the applicable cure periods;

(b) by Tenant upon written notice to Landlord, if Tenant is unable to obtain, or maintain, any required approval(s) or the issuance of a license or permit by any agency, board, court or other governmental authority necessary for the construction or operation of the Communication Facility as now or hereafter intended by Tenant; or if Tenant determines in its sole discretion that the cost of obtaining or retaining the same is commercially unreasonable;

(c) by Tenant upon written notice to Landlord, if Tenant is unable to obtain a lease, license or similar agreement with Antenna Landlord for space on Antenna Landlord's antenna structure, if Tenant determines in its sole discretion that the cost of obtaining a lease, license or similar agreement with Antenna Landlord for space on Antenna Landlord's antenna structure is commercially unreasonable, or if the lease, license or similar agreement between Tenant and Antenna Landlord for space on Antenna Landlord's antenna structure expires or is terminated for any reason;

(d) by Tenant upon written notice to Landlord for any reason, at any time prior to commencement of construction by Tenant; or

(e) by Tenant upon sixty (60) days prior written notice to Landlord for any reason, so long as Tenant pays Landlord a termination fee equal to three (3) months Rent, at the then current rate, provided, however, that no such termination fee will be payable on account of the termination of this Agreement by Tenant under any one or more of Paragraphs 5(b) Approvals, 6(a) Termination, 6(b) Termination, 6(c) Termination, 6(d) Termination, 8 Interference, 11(d) Environmental, 18 Severability, 19 Condemnation or 20 Casualty of this Agreement.

7. **INSURANCE.**

(a) Tenant will carry during the Term, at its own cost and expense, the following insurance: (i) "All Risk" property insurance for its property's replacement cost; (ii) commercial general liability insurance with a minimum limit of liability of \$2,500,000 combined single limit for bodily injury or death/property damage arising out of any one occurrence; and (iii) Workers' Compensation Insurance as required by law. The coverage afforded by Tenant's commercial general liability insurance shall apply to Landlord as an additional insured, but only with respect to Landlord's liability arising out of its interest in the Property.

8. **INTERFERENCE.**

(a) Where there are existing radio frequency user(s) on the Property, the Landlord will provide Tenant with a list of all existing radio frequency user(s) on the Property to allow Tenant to evaluate the potential for interference.

(b) Landlord will not grant, after the date of this Agreement, a lease, license or any other right to any third party for use of the Property, if such use may in any way adversely affect or interfere with the Communication Facility, the operations of Tenant or the rights of Tenant under this Agreement. Landlord will notify Tenant in writing prior to granting any third party the right to install and operate communications equipment on the Property.

(c) Landlord will not use, nor will Landlord permit its employees, tenants, licensees, invitees or agents to use, any portion of the Property in any way which interferes with the Communication Facility, the operations of Tenant or the rights of Tenant under this Agreement. Landlord will cause such interference to cease within twenty-four (24) hours after receipt of notice of interference from Tenant. In the event any such interference does not cease within the aforementioned cure period then the parties acknowledge that Tenant will suffer irreparable injury, and therefore, Tenant will have the right, in addition to any other rights that it may have at law or in equity, for Landlord's breach of this Agreement, to elect to enjoin such interference or to terminate this Agreement upon notice to Landlord.

9. INDEMNIFICATION.

(a) Tenant agrees to indemnify, defend and hold Landlord harmless from and against any and all injury, loss, damage or liability (or any claims in respect of the foregoing), costs or expenses (including reasonable attorneys' fees and court costs but excluding real property or personal property taxes) arising directly from the installation, use, maintenance, repair or removal of the Communication Facility or Tenant's breach of any provision of this Agreement, except to the extent attributable to the negligent or intentional act or omission of Landlord, its employees, agents or independent contractors.

(b) Landlord agrees to indemnify, defend and hold Tenant harmless from and against any and all injury, loss, damage or liability (or any claims in respect of the foregoing), costs or expenses (including reasonable attorneys' fees and court costs but excluding real property or personal property taxes) arising directly from the actions or failure to act of Landlord or its employees or agents, or Landlord's breach of any provision of this Agreement, except to the extent attributable to the negligent or intentional act or omission of Tenant, its employees, agents or independent contractors.

(c) Notwithstanding anything to the contrary in this Agreement, Tenant and Landlord each waives any claims that each may have against the other with respect to consequential, incidental or special damages.

10. WARRANTIES.

(a) Tenant and Landlord each acknowledge and represent that it is duly organized, validly existing and in good standing and has the right, power and authority to enter into this Agreement and bind itself hereto through the party set forth as signatory for the party below.

(b) Landlord represents and warrants that: (i) Landlord solely owns the Property as a legal lot in fee simple, or controls the Property by lease or license; (ii) the Property is not encumbered by any liens, restrictions, mortgages, covenants, conditions, easements, leases, or any other agreements of record or not of record, which would adversely affect Tenant's Permitted Use and enjoyment of the Premises under this Agreement; (iii) as long as Tenant is not in default then Landlord grants to Tenant sole, actual, quiet and peaceful use, enjoyment and possession of the Premises; (iv) Landlord's execution and performance of this Agreement will not violate any laws, ordinances, covenants or the provisions of any mortgage, lease or other agreement binding on the Landlord; and (v) if the Property is or becomes encumbered by a deed to secure a debt, mortgage or other security interest, Landlord will provide promptly to Tenant a mutually agreeable Subordination, Non-Disturbance and Attornment Agreement.

11. ENVIRONMENTAL.

(a) Landlord represents and warrants that the Property is free of hazardous substances as of the date of this Agreement, and, to the best of Landlord's knowledge, the Property has never been subject to any contamination or hazardous conditions resulting in any environmental investigation, inquiry or remediation. Landlord and Tenant agree that each will be responsible for compliance with any and all environmental and industrial hygiene laws, including any regulations, guidelines, standards, or policies of any governmental authorities regulating or imposing standards of liability or standards of conduct with regard to any environmental or industrial hygiene condition or other matters as may now or at any time hereafter be in effect, that are now or were related to that party's activity conducted in or on the Property.

(b) Landlord and Tenant agree to hold harmless and indemnify the other from, and to assume all duties, responsibilities and liabilities at the sole cost and expense of the indemnifying party for, payment of penalties, sanctions, forfeitures, losses, costs or damages, and for responding to any action, notice, claim, order, summons, citation, directive, litigation, investigation or proceeding which is related to (i) the indemnifying party's failure to comply with any environmental or industrial hygiene law, including without limitation any regulations, guidelines, standards or policies of

any governmental authorities regulating or imposing standards of liability or standards of conduct with regard to any environmental or industrial hygiene conditions or matters as may now or hereafter be in effect, or (ii) any environmental or industrial hygiene conditions that arise out of or are in any way related to the condition of the Property and activities conducted by the party thereon, unless the environmental conditions are caused by the other party.

(c) The indemnifications of this Paragraph 11 Environmental specifically include reasonable costs, expenses and fees incurred in connection with any investigation of Property conditions or any clean-up, remediation, removal or restoration work required by any governmental authority. The provisions of this Paragraph 11 Environmental will survive the expiration or termination of this Agreement.

(d) In the event Tenant becomes aware of any hazardous materials on the Property, or any environmental or industrial hygiene condition or matter relating to the Property that, in Tenant's sole determination, renders the condition of the Premises or Property unsuitable for Tenant's use, or if Tenant believes that the leasing or continued leasing of the Premises would expose Tenant to undue risks of government action, intervention or third-party liability, Tenant will have the right, in addition to any other rights it may have at law or in equity, to terminate the Agreement upon notice to Landlord.

12. **ACCESS.** At all times throughout the Term of this Agreement, and at no additional charge to Tenant, Tenant and its employees, agents, and subcontractors, will have twenty-four (24) hour per day, seven (7) day per week pedestrian and vehicular access to and over the Property, from an open and improved public road to the Premises, for the installation, maintenance and operation of the Communication Facility and any utilities serving the Premises. Landlord grants to Tenant an easement for such access and Landlord agrees to provide to Tenant such codes, keys and other instruments necessary for such access at no additional cost to Tenant. Upon Tenant's request, Landlord will execute a separate recordable easement evidencing this right. In the event any public utility is unable to use the access or easement provided to Tenant then the Landlord agrees to grant additional access or easement either to Tenant or to the public utility, for the benefit of Tenant, at no cost to Tenant.

13. **REMOVAL/RESTORATION.** All portions of the Communication Facility brought onto the Property by Tenant will be and remain Tenant's personal property and, at Tenant's option, may be removed by Tenant at any time during the Term. Landlord covenants and agrees that no part of the Communication Facility constructed, erected or placed on the Premises by Tenant will become, or be considered as being affixed to or a part of, the Property, it being the specific intention of the Landlord that all improvements of every kind and nature constructed, erected or placed by Tenant on the Premises will be and remain the property of the Tenant and may be removed by Tenant at any time during the Term. Within one hundred twenty (120) days of the termination of this Agreement, Tenant will remove all of Tenant's above-ground improvements and Tenant will, to the extent reasonable, restore the Premises to its condition at the commencement of the Agreement, reasonable wear and tear and loss by casualty or other causes beyond Tenant's control excepted. Notwithstanding the foregoing, Tenant will not be responsible for the replacement of any trees, shrubs or other vegetation, nor will Tenant be required to remove from the Premises or the Property any foundations or underground utilities.

14. **MAINTENANCE/UTILITIES.**

(a) Tenant will keep and maintain the Premises in good condition, reasonable wear and tear and damage from the elements excepted. Landlord will maintain and repair the Property and access thereto, in good and tenantable condition, subject to reasonable wear and tear and damage from the elements.

(b) Tenant will be responsible for paying on a monthly or quarterly basis all utilities charges for electricity, telephone service or any other utility used or consumed by Tenant on the Premises. In the event Tenant cannot secure its own metered electrical supply, Tenant will have the right, at its own cost and expense, to submeter from the Landlord. When submetering is necessary and available, Landlord will read the meter on a monthly or quarterly basis and provide Tenant with the necessary usage data in a timely manner to enable Tenant to compute such utility charges. Failure by Landlord to perform this function will limit utility fee recovery by Landlord to a 12-month period. Landlord will fully cooperate with any utility company requesting an easement over, under and across the Property in order for the utility

company to provide service to the Tenant. Landlord will not be responsible for interference with, interruption of or failure, beyond the reasonable control of Landlord, of such services to be furnished or supplied by Landlord.

15. DEFAULT AND RIGHT TO CURE.

(a) The following will be deemed a default by Tenant and a breach of this Agreement: (i) non-payment of Rent if such Rent remains unpaid for more than thirty (30) days after receipt of written notice from Landlord of such failure to pay; or (ii) Tenant's failure to perform any other term or condition under this Agreement within forty-five (45) days after receipt of written notice from Landlord specifying the failure. No such failure, however, will be deemed to exist if Tenant has commenced to cure such default within such period and provided that such efforts are prosecuted to completion with reasonable diligence. Delay in curing a default will be excused if due to causes beyond the reasonable control of Tenant. If Tenant remains in default beyond any applicable cure period, Landlord will have the right to exercise any and all rights and remedies available to it under law and equity.

(b) The following will be deemed a default by Landlord and a breach of this Agreement. Landlord's failure to perform any term, condition or breach of any warranty or covenant under this Agreement within forty-five (45) days after receipt of written notice from Tenant specifying the failure. No such failure, however, will be deemed to exist if Landlord has commenced to cure the default within such period and provided such efforts are prosecuted to completion with reasonable diligence. Delay in curing a default will be excused if due to causes beyond the reasonable control of Landlord. If Landlord remains in default beyond any applicable cure period, Tenant will have the right to exercise any and all rights available to it under law and equity, including the right to cure Landlord's default and to deduct the costs of such cure from any monies due to Landlord from Tenant.

16. ASSIGNMENT/SUBLEASE. Tenant will have the right to assign this Agreement or sublease the Premises and its rights herein, in whole or in part, without Landlord's consent. Upon notification to Landlord of such assignment, Tenant will be relieved of all future performance, liabilities and obligations under this Agreement.

17. NOTICES. All notices, requests, demands and communications hereunder will be given by first class certified or registered mail, return receipt requested, or by a nationally recognized overnight courier, postage prepaid, to be effective when properly sent and received, refused or returned undelivered. Notices will be addressed to the parties as follows:

If to Landlord: City of Truth or Consequences
Attn: City Clerk
505 Simms Street
Truth or Consequences, NM 87901

Either party hereto may change the place for the giving of notice to it by thirty (30) days prior written notice to the other as provided herein.

18. **SEVERABILITY.** If any term or condition of this Agreement is found unenforceable, the remaining terms and conditions will remain binding upon the parties as though said unenforceable provision were not contained herein. However, if the invalid, illegal or unenforceable provision materially affects this Agreement then the Agreement may be terminated by either party on ten (10) business days prior written notice to the other party hereto.

19. **CONDEMNATION.** In the event Landlord receives notification of any condemnation proceedings affecting the Property, Landlord will provide notice of the proceeding to Tenant within forty-eight (48) hours. If a condemning authority takes all of the Property, or a portion sufficient, in Tenant's sole determination, to render the Premises unsuitable for Tenant, this Agreement will terminate as of the date the title vests in the condemning authority. The parties will each be entitled to pursue their own separate awards in the condemnation proceeds, which for Tenant will include, where applicable, the value of its Communication Facility, moving expenses, prepaid Rent, and business dislocation expenses, provided that any award to Tenant will not diminish Landlord's recovery. Tenant will be entitled to reimbursement for any prepaid Rent on a prorata basis.

20. **CASUALTY.** Landlord will provide notice to Tenant of any casualty affecting the Property within forty-eight (48) hours of the casualty. If any part of the Communication Facility or Property is damaged by fire or other casualty so as to render the Premises unsuitable, in Tenant's sole determination, then Tenant may terminate this Agreement by providing written notice to the Landlord, which termination will be effective as of the date of such damage or destruction. Upon such termination, Tenant will be entitled to collect all insurance proceeds payable to Tenant on account thereof and to be reimbursed for any prepaid Rent on a prorata basis. If notice of termination is given, or if Landlord or Tenant undertake to rebuild the Communications Facility, Landlord agrees to use its reasonable efforts to permit Tenant to place temporary transmission and reception facilities on the Property at no additional Rent until such time as Tenant is able to secure a replacement transmission location or the reconstruction of the Communication Facility is completed.

21. **WAIVER OF LANDLORD'S LIENS.** Landlord waives any and all lien rights it may have, statutory or otherwise, concerning the Communication Facility or any portion thereof. The Communication Facility shall be deemed personal property for purposes of this Agreement, regardless of whether any portion is deemed real or personal property under applicable law, and Landlord consents to Tenant's right to remove all or any portion of the Communication Facility from time to time in Tenant's sole discretion and without Landlord's consent.

22. **TAXES.** Landlord shall be responsible for payment of all ad valorem taxes levied upon the lands, improvements and other property of Landlord. Tenant shall be responsible for all taxes levied upon Tenant's leasehold improvements (including Tenant's equipment building and tower) on the Leased Property. Landlord shall provide Tenant with copies of all assessment notices on or including the Leased Property immediately upon receipt, but in no event less than three (3) business days after receipt by Landlord. If Landlord fails to provide such notice within such time frame, Landlord shall be responsible for all increases in taxes for the year covered by the assessment. Tenant shall have the right to contest, in good faith, the validity or the amount of any tax or assessment levied against the Leased Property by such appellate or other proceedings as may be appropriate in the jurisdiction, and may defer payment of such obligations, pay same under protest, or take such other steps as Tenant may deem appropriate. This right shall include the ability to institute any legal, regulatory or informal action in the name of Landlord, Tenant, or both, with respect to the valuation of the Leased Property. Landlord shall cooperate in the institution and prosecution of any such proceedings and will execute any documents required therefore. The expense of any such proceedings shall be borne by Tenant and any refunds or rebates secured as a result of Tenant's action shall belong to Tenant.

23. **SALE OF PROPERTY.**

(a) If during Term of this Agreement Landlord decides to subdivide, sell, or change the status of the zoning of the Premises, Property or any of Landlord's contiguous, adjoining or surrounding property (the "Surrounding Property,") or in the event of foreclosure, Landlord shall immediately notify Tenant in writing. Any sale of the Property

shall be subject to Tenant's rights under this Agreement. Landlord agrees that during the Term of this Agreement Landlord shall not initiate or consent to any change in the zoning of the Premises, Property or Surrounding Property or impose or consent to any other restriction that would prevent or limit Tenant from using the Premises for the uses intended by Tenant as set forth in this Agreement.

(b) If Landlord, at any time during the Term of this Agreement, decides to sell, subdivide or rezone any of the Premises, all or any part of the Property or Surrounding Property, to a purchaser other than Tenant, Landlord shall promptly notify Tenant in writing, and such sale, subdivision or rezoning shall be subject to this Agreement and Tenant's rights hereunder. Landlord agrees not to sell, lease or use any areas of the Property or Surrounding Property for the installation, operation or maintenance of other wireless communications facilities if such installation, operation or maintenance would interfere with Tenant's Permitted Use or communications equipment as determined by radio propagation tests performed by Tenant in its sole discretion, any such testing to be at the expense of Landlord or Landlord's prospective purchaser, and not Tenant. If the radio frequency propagation tests demonstrate levels of interference unacceptable to Tenant, Landlord shall be prohibited from selling, leasing or using any areas of the Property or the Surrounding Property for purposes of any installation, operation or maintenance of any other wireless communications facility or equipment. Landlord shall not be prohibited from the selling, leasing or use of any of the Property or the Surrounding Property for non-wireless communication use. In the event the Property is transferred, the new landlord shall have a duty at the time of such transfer to provide Tenant with a completed IRS Form W-9, or its equivalent, and other related paper work to effect a transfer in Rent to the new landlord. The provisions of this Paragraph 23 shall in no way limit or impair the obligations of Landlord under Paragraph 8 above.

24. MISCELLANEOUS.

(a) **Amendment/Waiver.** This Agreement cannot be amended, modified or revised unless done in writing and signed by an authorized agent of the Landlord and an authorized agent of the Tenant. No provision may be waived except in a writing signed by both parties.

(b) **Memorandum/Short Form Lease.** Either party will, at any time upon fifteen (15) business days prior written notice from the other, execute, acknowledge and deliver to the other a recordable Memorandum or Short Form of Lease. Either party may record this Memorandum or Short Form of Lease at any time, in its absolute discretion.

(c) **Bind and Benefit.** The terms and conditions contained in this Agreement will run with the Property and bind and inure to the benefit of the parties, their respective heirs, executors, administrators, successors and assigns.

(d) **Entire Agreement.** This Agreement and the exhibits attached hereto, all being a part hereof, constitute the entire agreement of the parties hereto and will supersede all prior offers, negotiations and agreements with respect to the subject matter of this Agreement.

(e) **Governing Law.** This Agreement will be governed by the laws of the state in which the Premises are located, without regard to conflicts of law.

(f) **Interpretation.** Unless otherwise specified, the following rules of construction and interpretation apply: (i) captions are for convenience and reference only and in no way define or limit the construction of the terms and conditions hereof; (ii) use of the term "including" will be interpreted to mean "including but not limited to"; (iii) whenever a party's consent is required under this Agreement, except as otherwise stated in the Agreement or as same may be duplicative, such consent will not be unreasonably withheld, conditioned or delayed; (iv) exhibits are an integral part of the Agreement and are incorporated by reference into this Agreement; (v) use of the terms "termination" or "expiration" are interchangeable; and (vi) reference to a default will take into consideration any applicable notice, grace and cure periods.

(g) **Estoppel.** Either party will, at any time upon twenty (20) business days prior written notice from the other, execute, acknowledge and deliver to the other a statement in writing (i) certifying that this Agreement is unmodified and in full force and effect (or, if modified, stating the nature of such modification and certifying this Agreement, as so modified, is in full force and effect) and the date to which the Rent and other charges are paid in advance, if any, and (ii) acknowledging that there are not, to such party's knowledge, any uncured defaults on the part of the other party hereunder, or specifying such defaults if any are claimed. Any such statement may be conclusively relied upon by any prospective purchaser or encumbrancer of the Premises. The requested party's failure to deliver such a

statement within such time will be conclusively relied upon by the requesting party that (i) this Agreement is in full force and effect, without modification except as may be properly represented by the requesting party, (ii) there are no uncured defaults in either party's performance, and (iii) no more than one month's Rent has been paid in advance.

(h) **No Electronic Signature/No Option.** The submission of this Agreement to any party for examination or consideration does not constitute an offer, reservation of or option for the Premises based on the terms set forth herein. This Agreement will become effective as a binding Agreement only upon the handwritten legal execution, acknowledgment and delivery hereof by Landlord and Tenant.
