CITY COMMISSION MEETING MINUTES CITY OF TRUTH OR CONSEQUENCES, NEW MEXICO CITY COMMISSION CHAMBERS, 405 W. 3RD St. WEDNESDAY, SEPTEMBER 14, 2022

A. CALL TO ORDER:

The meeting was called to order by Mayor Amanda Forrister at 9:00 a.m., who presided and Angela A. Torres, City Clerk-Treasurer, acted as Secretary of the meeting.

B. INTRODUCTION:

1. ROLL CALL:

Upon calling the roll, the following Commissioners were reported present.

Hon. Amanda Forrister, Mayor Hon. Rolf Hechler, Mayor Pro-Tem Hon. Destiny Mitchell, Commissioner Hon. Merry Jo Fahl, Commissioner Hon. Shelly Harrelson, Commissioner

Also Present: Bruce Swingle, City Manager Angela A. Torres, City Clerk-Treasurer

There being a quorum present, the Commission proceeded with the business at hand.

2. SILENT MEDITATION:

Mayor Forrister called for fifteen seconds of silent meditation.

3. PLEDGE OF ALLEGIANCE:

Mayor Forrister called for Commissioner Hechler to lead the Pledge of Allegiance.

4. APPROVAL OF AGENDA:

Mayor Pro-Tem Hechler moved to approve the agenda as submitted. Commissioner Fahl seconded the motion. Roll call was taken by the Clerk-Treasurer. Motion carried unanimously.

C. PRESENTATIONS:

1. Certificate of Commendation presented by Chief of Police Rodriguez:

Chief of Police Rodriguez presented Certificates of Commendation and lifesaving pins to Officer Jude "Mike" Vega, and Office Shane Jeffers for courageously risking their own

personal safety to save the life of an individual experiencing crisis and prevent the individual from taking their own life. Your actions are a true reflection of what it means to be a public servant by risking your personal safety in the protection of others.

2. Presentation of City of Truth or Consequences Employee Service Anniversary Awards:

City Manager Swingle and Chief of Police Rodriguez presented an Employee Service Anniversary Award to Kaci Frazier for 2 years of service with the City of Truth or Consequences.

City Manager Swingle and Chief of Police Rodriguez presented an Employee Service Anniversary Award for Jaffee Blomquist for 5 years of service with the City of Truth or Consequences. Jaffee unfortunately was not able to attend the meeting.

City Manager Swingle presented an Employee Service Anniversary Award to Wesley Myers for 2 years of service with the City of Truth or Consequences.

City Manager Swingle and Andy Alvarez presented an Employee Service Anniversary Award to Melissa Toutcheque for 1 year of service with the City of Truth or Consequences.

City Manager Swingle presented an Employee Service Anniversary Award to Steven Smith for 2 years of service with the City of Truth or Consequences.

City Manager Swingle presented an Employee Service Anniversary Award to Elijah Martin for 1 year of service with the City of Truth or Consequences.

City Manager Swingle presented an Employee Service Anniversary Award to Thomas Bobelu for 7 years of service with the City of Truth or Consequences.

City Manager Swingle and City Clerk Torres presented an Employee Service Anniversary Award to Lisa Gabaldon for 4 years of service with the City of Truth or Consequences.

City Manager Swingle and Pete English presented an Employee Service Anniversary Award to Christina Ramos for 4 years of service with the City of Truth or Consequences.

City Manager Swingle presented an Employee Service Anniversary Award to Ruby Otero for 6 years of service with the City of Truth or Consequences.

City Manager Swingle presented an Employee Service Anniversary Award for Priscilla Fuentes for 7 years of service with the City of Truth or Consequences. Priscilla unfortunately was not able to attend the meeting.

City Manager Swingle presented an Employee Service Anniversary Award for Benny Fuentes for 24 years of service with the City of Truth or Consequences. Benny unfortunately was not able to attend the meeting.

D. PUBLIC COMMENT (3 Minute Rule Applies):

Terry Vanderventer addressed the Commission with comments related to:

(1) He would like the Commission to take another look at the increase that was put on the Golf Course Fees. Family dues went from \$1,788 and they went up to \$2,903. That is a 62% increase, and that seems like an awful lot when we are only receiving around a 6% increase in their income. Golfers are going to Sierra Del Rio because there is not much of a price difference. When Howie Tucker left 7 years, their course was the best it has ever been, and he has been playing it for 25 years, but after Howie left nothing has really been accomplished except for it going downhill. He however feels that the new Golf Course Manager Rick Artman will do a great job, and get the course back in shape if he sticks with it.

E. REPORTS:

City Manager Swingle reported the following:

- He just received word that James Bush who served on the Planning & Zoning Commission sadly passed away due to an automobile accident. If there is any silver lining here, it is that anyone who knew Jim knew that if he passed away in an auto accident that was his passion. His cars and auto meant a lot to him. He was a very good gentleman and he really served well on the Planning & Zoning Commission.
- We gave a lot of kudos to staff today, but we could never give them enough recognition. Everyone is working extremely hard. Our new Water/Waste Water Director started two weeks ago, and on his first day on the job he was out all day and night with a very significant water and waste water issue that they were dealing with. He was pulling every trick he had in the bag to address the problem, and by 2:00 a.m. they finally got it resolved, and he was back to work the very next day.
- He reminded the public that the infrastructure problems they have are going to continue. There has been lots of neglect over decades of time, and it's going to take an extended period of time for the Water and Wastewater Department to get a grip on those. They are very expensive. We are working on financing for the problems, but it is going to be a long-drawn-out process for us to deal with this problem. They are working their tails off day and night and weekends to address the problem so please have some understanding and patience. As of today, we probably have about 30 water leaks. They are taking care of the high priority ones. The large gushers, and those that are impacting residence and customer water use. They are doing the best they can.

- We have the general obligation bond coming up in the November ballot. There are 2 questions. \$1 million for streets, and \$2 million for water and wastewater. We had a conversation with the Chamber of Commerce. They voted to take the lead on promoting the bond questions and getting as much information out as possible to inform the public if the situation and the benefits to the bond.
- On September 3rd we received a letter from DFA that the city's budget had met all of the requirements, and the final budget has been approved. Congratulations to Carol Kirkpatrick and the Finance Department for the wonderful job that they did in getting that budget in.
- We still have vacancies on various city boards. We have two vacancies for the Airport Advisory Board. We have five vacancies on the Golf Course Advisory Board. We have two vacancies on the Lodgers Tax Advisory Board. We have two vacancies on the Impact Fee Advisory Board, and we have two vacancies on the Planning & Zoning Commission, and two vacancies on the Recreation Advisory Board.
- Textron Aviation has been doing some Beechcraft testing at the Airport with the Beechcraft King Air 300. They are doing some take off landings on the dirt runways. They are certifying the aircraft on runway operations. They concluded their work for this period, and they will be back later on to complete their certification testing.
- The New Mexico Department of Transportation has put out the Roundabout RFP, and they received and reviewed the bids, and they are much higher than expected so they requested a little over \$1 million dollars from the city to cover the increase in cost. There was a lot of protest discussed with them, and he has a conference call with them this afternoon. They may have found some other solutions for us and them to address this problem. Initially we were going to pay somewhere in the neighborhood of \$700,000. We've had to pay more than that as the project continues. The city's commitment to this project, and the revenues available have been fully met and obligated. We don't have the revenue for that. We will work with them, and he will update the Commission after the conference call.
- The Court Committee was scheduled to meet Monday, September 12th. Unfortunately one of the committee members could not make it and we rescheduled. It looks like we will have to reschedule it for September 26th at 9:00 a.m. here in the Commission Chambers.
- The Swimming Pool has been closed. Their plan was from Memorial to Labor Day. They completed that, and we had a pretty good year. We are still analyzing the revenue and attendance. He received a lot of requests from the community and mainly the seniors that are doing their water aerobics. They are wanting to continue and keep the pool open year round, but the numbers and the revenue just don't reflect that we should keep it open. It is just not financially feasible to do that.
- Our Chief of Police is retiring at the end of this month. He has had a number of calls and conversations from the community over how disappointed that the Chief is leaving. They tell me that he is doing a fantastic job, and we know he was doing a fantastic job. Lieutenant Venable is the heir for the interim Chief of

Police. We are just trying to work out the dynamic of the Chiefs departure, and the interim period until we have a Chief of Police on board. We are advertising quite aggressively around the Country for a Chief of Police. We've received a couple of resume's and applications at this point, but not enough to start setting up interviews. He will spend a little more time on this at our next meeting which will be the Chief's last meeting. He has done a fantastic job in the short time that he has been here.

City Attorney Rubin had no reports.

City Commission Reports:

Commissioner Mitchell reported the following:

- She gave her condolences to the friends and Family of Sara Frothingham and Collysue Lawson who we recently lost. They were very active members in the Friends of the Pool. Sara was at the pool every single day. She wanted to personally thank them and their families for all of their hard work keeping the pool open.
- They had their first Fiesta Meeting last week and they nominated some board member, and they discussed a new theme. Last year they went with the theme of through the years, and this year they are looking towards the future. Nothing is set in stone, but they wanted they definitely want to tie in with Spaceport and Virgin Galactic, and kind of promote the space theme of Sierra County in their signature annual event. They had a pretty good turnout with volunteers, and they are thankfully having a much earlier start than last year. They are hoping to get a steady board going so it won't be a City Commission ran thing, it will be an event ran by the community.

Commissioner Fahl reported the following:

 The City offered to have an advisory member from the Commission serve on the Geronimo Springs Museum Board. She has attended a few meetings and she is now the treasurer, but she can't vote anymore. It is exciting. September 24th is their 50th Anniversary. She encouraged everyone to attend. They will have activities, music, and free hot dogs and hamburgers.

Commissioner Harrelson reported the following:

- She invited the community to get out and see what is going on with our youth. We have a lot of sports going on right now, and come hungry because they have the concession stands that will support each team. The schedule for those events can be found on the Hot Springs High School website under the sports schedule.
- She gave a shout out to all of the kids that are at the State Fair in Albuquerque. They are doing a great job representing Sierra County.

Mayor Pro-Tem Hechler reported the following:

- He is looking forward to serving on the Fiesta Committee again this year. It is exciting, and it will be nice to get started early.
- They recently had a meeting with the Virgin Galactic CEO, and it was a very productive meeting. Mayor Forrister was there with them. He is really looking forward to the relationship they are going to have with Virgin Galactic.

Mayor Forrister reported the following:

- She gave kudos to our staff. It was really nice to see an audience full of them coming to support each other, and support the work that they do, and giving recognition those who deserve it. She shared Kaci Frazier's thing on Facebook, and the Principal talked to her at a game to commend her for her work that she is doing there so we really appreciate that.
- There is a lot of stuff going on with our youth, and it would be nice to have community presence there. Even if that isn't your thing, showing up and showing your support for our youth and community is very important.
- She agreed that their meeting with Virgin Galactic was very productive, and she is glad that Fiesta is going with that theme.

F. CONSENT CALENDAR:

- 1. City Commission Regular Minutes, August 24, 2022
- 2. August 2022 Accounts Payable
- 3. Take Home Vehicle Forms

Commissioner Fahl moved to approve the Consent Calendar as submitted. Commission Mitchell seconded the motion. Roll call was taken by the Clerk-Treasurer. Motion carried unanimously.

G. PUBLIC HEARINGS:

1. Public Hearing/Discussion/Action: Public Hearing and approval of the issuance of a Small Brewer Off-Site Liquor License for Sidekixx, located at 820 Cedar Street, Truth or Consequences, New Mexico:

City Clerk Torres: The T or C Brewing Company purchased Bedroxx which is the local bowling alley at 820 Cedar Street. They are applying for a Small Brewer Off-Site Liquor License. The new name of the business will be Sidekixx, and as you know, in order to move forward we will need to have a public hearing and approval from the Governing Body. If it is approved, the application will be sent back to the Alcohol and Gaming Division so they can proceed with their final approval process.

Mayor Forrister opened the public hearing.

CITY COMMISSION SEPTEMBER 14, 2022 REGULAR MEETING MINUTES

Mayor Pro-Tem Hechler: Mr. Masterson can you please step forward and give us a brief summary of the vision you have for Sidekixx so the Commission will understand what they are doing.

Proponents:

Applicant John Masterson: Their vision is to continue the Whiteheads vision of family friendly entertainment. We've got to keep the pizza the same, and they want to add delivery, and add cocktails. They want to also get a handle on the actual bowling alley operation, and get that open as soon as they can. Pretty much steady as she goes with a new name, and some new faces. They are hiring most of the people who currently work there. Their last day is Friday so get in there and buy the wine and give them a nice send off. Their goal for opening is October 7th. They need to close, clean, re-brand, and re-train, so if they can get it opened earlier then they will, but part of it is due to the state's license issuance process.

Mayor Forrister: That is only to open the bar and food portion? How about the bowing part.

Applicant John Masterson: As soon as they can. They had their first meeting about that and it is interesting.

Mayor Forrister: We're looking forward to it, and she's glad the pizza is staying the same because that is one of her favorite things there.

Commissioner Mitchell: So, it says a Small Brewer Off-Site Liquor License. What does that mean? Is there going to be a full bar?

Applicant John Masterson: That is just the State's name for when a Small Brewery establishes an off-site location, but it just so happens that in the legislature last year, they changed the Small Brewery law, and they are now allowed by law to serve hard liquor. They have chosen not to do that yet downtown. However, they do sell to go liquor at the Bodega next door to the Brewery. His wife is the CEO, and she makes the decisions of when they will start serving cocktails at the Bowling Alley, but it is on the radar.

Commissioner Mitchell: Well, I'm going to be texting her about getting whiskey at the Brewery.

Commissioner Fahl: Are you planning on retaining any of their ale there, or will you just have your own?

Applicant John Masterson: He believes they have 26 taps up there so that is a lot of variety. They already have 8 beers up there right now, and they will continue that for the foreseeable future and provide a broader array of ciders, and beers from other Brewery's.

CITY COMMISSION SEPTEMBER 14, 2022 REGULAR MEETING MINUTES

Mayor Forrister: Will you also be delivering beer there?

Applicant John Masterson: That is on the road map. They are allowed to get an alcohol delivery license that they can bolt onto a liquor license so hopefully by the end of the year they will be delivering beer and pizza.

City Manager Swingle: John and Marianne have done an excellent job with the Brewery. They took a very strategic, and planned out process at the Brewery. John has timelines of things and he has a very systematic approach. They did a great job with that and he thinks they will do a fantastic job with Sidekixx. Congratulations and we wish you nothing, but Godspeed.

Commissioner Fahl: When John came and opened up the Brewery, it opened up the dynamics of downtown so drastically. When she goes in there, she doesn't see people that she knows very often, but she doesn't care because she just thinks that it is exciting because now you go downtown and there is something going on. John you are a Godsend to our community, and we just want to thank you for what you have done for us.

Opponents:

None.

Mayor Forrister closed the public hearing.

Mayor Pro-Tem Hechler moved to approve the issuance of a Small Brewer Off-Site Liquor License for Sidekixx, located at 820 Cedar Street, Truth or Consequences, New Mexico. Commissioner Mitchell seconded the motion. Roll call was taken by the Clerk-Treasurer. Motion carried unanimously.

2. Public Hearing/Discussion/Action: Final Adoption of Ordinance No. 737 amending Sections 7-106 through Section 7-114 of our Municipal Code of Ordinances pertaining to Rental Spaces and Licensure:

Police Chief Rodriguez: This is a public hearing for the amendments that we made to the ordinance pertaining to Rental Spaces and Licensure. This pretty much evens the playing field and requires individuals to have business licenses, except for those activities that are covered under city recognized events or activities that are not occurring on a regular basis.

Mayor Forrister opened the public hearing.

Opponents:

There were no opponents.

Proponents:

There were no proponents.

Mayor Forrister closed the public hearing.

Jay Rubin: He had a really good conversation with the Chief yesterday. If you look at Sections 7-106. Letter (A) talks about license required, and then letter B also talks about license required. He was wondering at first if it is repetitive, but it is not, and as the Chief pointed out, letter (A) talks about the license being required of someone who is renting space to a seller, and B talks about the seller itself. The other thing they talked about is recommending a slight change in letter C on the 3rd line where it says "as long as they are participating" we think it should say "as long as they are a participating vendor."

Commissioner Fahl moved to approve adoption of Ordinance No. 737 amending Sections 7-106 through Section 7-114 of our Municipal Code of Ordinances pertaining to Rental Spaces and Licensure with the amendment noted by City Attorney Rubin. Commissioner Mitchell seconded the motion. Roll call was taken by the Clerk-Treasurer. Motion carried unanimously.

3. Public Hearing/Discussion/Action: Final Adoption of Ordinance No. 738 amending the City of Truth or Consequences Municipal Code of Ordinances, by adding a section 8-53 regulating the use of BB or pellet guns:

Police Chief Rodriguez: This one here does not prohibit discharging. What it does is make the individual pulling the trigger responsible of where the pellet or BB goes. You can still use them in town, but if you discharge them and break your neighbor's window or hit their dog, or whatever the case may be, this ordinance puts responsibility on that individual.

Mayor Forrister opened the public hearing.

Opponents:

There were no opponents.

Proponents:

There were no proponents.

Mayor Forrister closed the public hearing.

Commissioner Mitchell moved to approve adoption of Ordinance No. 738 amending the City of Truth or Consequences Municipal Code of Ordinances, by adding a section 8-53 regulating the use of BB or pellet guns. Commissioner Fahl seconded the motion. Roll call was taken by the Clerk-Treasurer. Motion carried unanimously.

4. Public Hearing/Discussion/Action: Final Adoption of Ordinance No. 739 amending the City of Truth or Consequences Municipal Code of Ordinances, by adding a section 8-149 of the code pertaining to closing of certain City Parks and Properties:

Police Chief Rodriguez: In the past you can recall that we had only two parks which he believes were Ralph Edwards and the camping area of Rotary Park that was subject to closure. Obviously, we have a lot more parks, and a lot more facilities, including the Golf Course, and so we wanted to make sure that our community had accessibility to partake in these public facilities, but within a reasonable time. We came up within 10:00 p.m. and 5:00 a.m. and there is really no reason for people to be in these areas and facilities within these hours with the exception of recognized events that are approved by the city. This is to protect our infrastructure, and also make sure that our community can access those facilities and reduce the amount of vandalism by allowing Officers to take enforcement action if there are any individuals on those properties between he prohibited time frame.

Mayor Forrister opened the public hearing.

Opponents:

There were no opponents.

Proponents:

There were no proponents.

Mayor Forrister closed the public hearing.

CITY COMMISSION SEPTEMBER 14, 2022 REGULAR MEETING MINUTES

Mayor Pro-Tem Hechler moved to approve adoption of Ordinance No. 739 amending the City of Truth or Consequences Municipal Code of Ordinances, by adding a section 8-149 of the code pertaining to closing of certain City Parks and Properties. Commissioner Fahl seconded the motion. Roll call was taken by the Clerk-Treasurer. Motion carried unanimously.

5. Public Hearing/Discussion/Action: Final Adoption of Ordinance No. 740 authorizing the issuance of the City of Truth or Consequences, New Mexico Water System Improvement revenue bonds, Series 2022 in the principal amount of \$750,000 for the purpose of pre-development financing:

Chris Muirhead: If you recall from the last meeting, this is first step of financing related to a large USDA finance Water System Improvement. The total is \$7,531,000. This is just the \$750,000 for pre-development costs which cover the PER/ER, design, final plans and specifications, obtained required easements, and required necessary permits. This is a \$750,000 loan with Bank of the Southwest at 5.75%. It has an 18-month maturity. There are no interim, principal or interest payments. It is all paid off at maturity in 18 months. The payoff is paid with the next level of financing which will be the interim construction financing which will be much larger that ties to the actual construction in the ground. The pledge is the net system revenues of the water system which is consistent with your outstanding utility debt. It is a special limited obligation, so it is not a general obligation of the community where you are looking at property tax or other gross receipts taxes. This is the first step to get that project rolling with the design.

Mayor Forrister opened the public hearing.

Opponents:

There were no opponents.

Proponents:

There were no proponents.

Mayor Forrister closed the public hearing.

Commissioner Fahl moved to approve adoption of Ordinance No. 740 authorizing the issuance of the City of Truth or Consequences, New Mexico Water System Improvement revenue bonds, Series 2022 in the principal amount of \$750,000 for the purpose of pre-development financing. Commissioner Mitchell seconded the motion. Roll call was taken by the Clerk-Treasurer. Motion carried unanimously.

H. ORDINANCES/RESOLUTIONS/ZONING:

1. Discussion/Action: Resolution No. 10 22/23 Budget Adjustment Resolution:

Assistant City Manager Alvarez reviewed the Budget Adjustments provided in the packet.

Commissioner Mitchell moved to approve Resolution No. 10 22/23 Budget Adjustment Resolution. Commissioner Fahl seconded the motion. Roll call was taken by the Clerk-Treasurer. Motion carried unanimously.

2. Discussion/Action: Publication of Ordinance No. 735 Amending Section 14-48 pertaining to the Customer Generated Renewable Energy Program:

City Manager Swingle: What you have before you is an item we've had on the agenda a couple of times, and each time we've had it on the agenda for publication there has been some questions asked, and some research was done. In our last Commission meeting Mayor Pro-Tem wanted some legal opinions on some matters.

City Attorney Rubin: We have a letter from Mr. Appel which is Attorney Client Privilege. Commissioners, do you want to make it open to the public so we can discuss it?

Mayor Pro-Tem Hechler made a motion to approve the letter of opinion provided by City Attorney Appel, and make it available to the public. Commissioner Harrelson seconded the motion. Roll call was taken by the Clerk-Treasurer. Motion carried unanimously.

City Attorney Appel reviewed the letter with the Commission. (Complete copy attached hereto and made a part hereof).

Commissioner Mitchell: It was mentioned that potentially we could have so many solar users that we wouldn't even need to buy that energy so would it be in the city's best interest to put some type of cap on how much solar we would purchase per year and make it a percentage base of some sort so we won't have people moving here with the incentive of getting a complete solar house and coming back and saying that they built solar and you're supposed to pay for solar. Should we have something that says that we are only going to purchase x amount of our electric usage from solar providers so we won't end up where we are today.

City Attorney Appel: It appears to him that some limit, or statement of limitation as to how much power the city would purchase would be appropriate. You described one

Good Morning, Bruce,

Attached is our memorandum on the questions the Commission raised. Jay and I have both reviewed this and agree in its contents. Hope this memo is helpful, and we stand ready to participate in discussion if that is requested when this comes before the Commission again.

John

Subject: Solar Ordinance

John: The commission asked me to forward the proposed solar ordinance from the PUAB. Two questions came up: 1) the city currently pays/credits solar customers a little over 13 cents per kwh. Our cost to purchase electricity is about 6 cents per kwh. Is it an anti-donation concern that we compensation solar customers at almost double the amount we pay for electricity. 2) Does changing the ordinance from the current ordinance, which limits the size of a solar system to (90% maximum) and paying/crediting customers at 13 cents per kwh to the proposed ordinance with unlimited size and paying/crediting customers at the actual cost we pay for purchasing electricity unnecessarily expose the city to liability?

Jay & Traci, I believe I listed the jest of the commission's questions.

Bruce Swingle City Manager City of Truth or Consequences

Re: Questions about Proposed Solar Ordinance (as presented 8/25/22) CLF No.: 4130.19

This memorandum contains our joint answers (Coppler Law Firm, P.C. and Jaime F. Rubin) to specific questions raised about the proposed solar ordinance amendments from the Public Utilities Advisory Board (PUAB) as presented to the City Commission on August 25, 2022. We understand that under present City ordinances and policies the City pays about \$0.13 per kwh to customers with solar generation systems that feed into the City's system, while the City's cost to obtain power from the statewide power grid is about \$0.06 per kwh. There is also at present a limit on the size of a private solar array feeding into the City's payment for customers with solar arrays to the amount that would be paid to purchase the same power from the grid (the "avoided cost").

Questions presented and our responses in brief are:

- 1. Does it present a concern under the Anti-Donation Clause that the City presently pays for customer-generated power at a rate double that of power acquired from the grid? -- No, this does not violate the Anti-Donation Clause, but it does appear to be somewhat at odds with federal policy regarding power purchased from small power production facilities.
- 2. Does the proposed change in the City's ordinance unnecessarily expose the City to liability?

It appears to us that this second question can be further subdivided into two parts:

- 2a. Does the new amending ordinance in itself unnecessarily expose the City to liability? -- Possibly, if it requires the City to purchase electric power that the City does not need. However, the new ordinance could provide protection against a potential challenge from customers who do not provide electric power to the City and pay higher rates because of the payments to those who do.
- 2b. Does the *change* from the present ordinance and policy to the new ordinance and the policy embodied in it present a risk (e.g., from those who presently have solar

arrays and will be paid less per kwh under the new ordinance)? -- No, the change does not violate any protected interest. If the City should choose to "grandfather" present rates paid to established providers, it would create an inequity that could possibly be challenged as violating equal protection.

The following discussion provides a more detailed analysis of our reasons for the opinions expressed above.

1. Does the present ordinance present a concern under the Anti-Donation Clause?

It is our opinion that paying \$0.13 per kwh to private suppliers of electric power *does not* violate the Anti-Donation Clause (N.M. Const. art. IX, § 14), even though the City could acquire the power more inexpensively from other sources. However, purchasing electric power at the higher rate does appear to be somewhat at odds with federal policy.

The Anti-Donation Clause prohibits the State and political subdivision from "directly or indirectly lend[ing] or pledg[ing] its credit or mak[ing] any donation to or in aid of any person, association or public or private corporation" except for certain specified programs. The Anti-Donation Clause is violated if the State or a political subdivision makes a gift to private enterprise and receives nothing in return. *State ex rel. Mechem v. Hannah*, 1957-NMSC-065, 63 N.M. 110, 314 P.2d 714; *Village of Deming v. Hosdreg Co.*, 1956-NMSC-111, ¶ 36, 62 N.M. 18, 28, 303 P.2d 920, 926-27. "However, contracts between municipalities and private enterprises that are beneficial to the community as a whole are not violative of article IX, section 14, when they do not involve municipal investment in the project through the lending of municipal funds." *Hotels of Distinction West, Inc. v. City of Albuquerque*, 1988-NMSC-047, ¶ 4, 107 N.M. 257, 259, 755 P.2d 595, 597. Because the City receives a commodity (electric power) in exchange for payments made to private solar power providers, we conclude that the exchange does not violate the Anti-Donation Clause, even though the rate paid is higher than could have been paid to acquire the same power from other sources.

However, Federal Energy Regulatory Commission policy regarding what are termed "qualifying cogeneration and small power production facilities" under Section 210 of the Public Utility Regulatory Policies Act of 1978 provides as follows:

Rates for purchases.

(1) Rates for purchases shall:

(i) Be just and reasonable to the electric consumer of the electric utility and in the public interest; and

(ii) Not discriminate against qualifying cogeneration and small power production facilities.

(2) Nothing in this subpart requires any electric utility to pay more than the avoided costs for purchases.

18 C.F.R. § 292.304(a) (2020).

The City's *avoided costs* for electric power purchased from small power suppliers (private solar arrays) rather than the grid are about \$0.06 per kwh. Section 292.304(a) does not *prohibit* paying twice as much for purchases from small suppliers, but it appears questionable to us whether paying twice the avoided cost for purchases from small suppliers is "just and reasonable" to the electric consumers, since those higher costs will of necessity be incorporated into the City's electric rates and paid by the City's electric customers generally.

2a. Does the new ordinance in itself unnecessarily expose the City to liability?

This is an economic and technical question as much as a legal question. The technological problem, of course, is that there is presently no economically feasible way to store large amounts of solar-generated power for later use when the sun is not shining. Obviously, the solar-power generators will all be providing power during essentially the same hours of the day, which may not be the hours when the City needs the power (and will in fact be the same hours when the City's own solar array will be producing power). If a sufficient number of potential providers choose to acquire solar panels and funnel power into the City's system, there is the possibility that the City could be faced with a situation in which it is forced to accept *more* power than is needed at the time. If the present limitation on solar power capacity is removed, it may in the future be necessary for the City has no need for the power. We do not see such a provision in the proposed ordinance amendments.

It should also be noted that the proposed ordinance amendments will probably help *protect* the City from a potential ratepayer suit alleging that City utility customers who do not have the capacity to provide power to the City are being unfairly charged a premium for their electric usage due to the high rates being paid to small solar electric suppliers, in excess of the avoided costs that would be incurred to acquire the power from other sources.

2b. Does the *change* from the present ordinance and policy to the new ordinance and the policy embodied in it present a risk (e.g., from those who presently have solar arrays and will be paid less per kwh under the new ordinance)?

As a purely legal matter, the policy change if the new ordinance is adopted does not present a significant risk to the City. While present suppliers of solar electric power to the City may be economically disadvantaged by the change, there is extensive legal authority to the effect that economic losses due to such changes in public policy are not compensable. *See, e.g., Citizens for Fair Rates & the Env't v. N.M. Pub. Regul. Comm'n*, 2022-NMSC-010, 503 P.3d 1138; *Bartlett v. Cameron*, 2014-NMSC-002, 316 P.3d 889; *Elephant Butte Alfalfa Ass'n v. Roualt*, 1926-NMSC-009, 33 N.M. 136, 262 P. 185; *U.S. Trust Co. of N.Y. v. State of New Jersey*, 431 U.S. 1, 97 S. Ct. 1505, 52 L. Ed.2d 92 (1977); *National R.R. Passenger Corp. v. Atchison, T. & S.F. Ry. Co.*, 470 U.S. 451, 105 S. Ct. 1441, 84 L. Ed.2d 432 (1985). Consequently, a supplier of solar electrical energy to the City from a privately owned solar system has no legal grounds to contest the change from a reimbursement rate of about \$0.13 per kwh to a rate of about \$0.06 per kwh as the avoided cost of purchasing from the grid.

The City *could*, if it wishes, provide that present suppliers are "grandfathered" at the rate paid under the present ordinance (if the proposed ordinance is amended to include such a provision). This could abate political opposition from present suppliers. However, it is our view that this could also present a potential legal risk to the City by arbitrarily creating two classes of small electrical power suppliers who are compensated differently. Article II, section 18 of the New Mexico Constitution provides that no citizen shall be denied equal protection of the laws. The provision is not self-executing, and until recently a citizen who believed that he or she had been denied equal protection under the State constitution had few avenues of recourse. However, the New Mexico Civil Rights Act, Chapter 41, Article 4A, NMSA 1978, effective July 1, 2021, now provides a process for an aggrieved person to pursue a claim alleging violation of rights guaranteed by Article II of the Constitution. Thus, for example, a person who under the amended ordinance is being paid \$0.06 per kwh for solar electric power could file suit to recover an additional \$0.07 per kwh on the grounds that his or her right to equal protection is violated by payment of \$0.13 per kwh to other providers similarly situated. The direct financial loss if the plaintiff is successful in such a suit would probably not be great, but it would force the City to equalize the rights paid to all providers.

Please do not hesitate to contact either of us if there are questions about anything addressed in this memorandum.

/s/ Jaime F. Rubin, Esq.

and

COPPLER LAW FIRM, P.C.

/s/ John L. Appel

CITY COMMISSION SEPTEMBER 14, 2022 REGULAR MEETING MINUTES

possibility of us only purchasing a certain amount of electric from private producers. Another possible way to structure it would be to say that the city's purchase will be limited at times when the city does not need power in the quantities that are being offered. The problem of course is that we don't have good ways yet, to store electrical power. The problem of course it at 3:00 p.m. on a July day with no thunder showers around, everybody produces power, including the city itself. Then at 8:00 that evening, nobody produces power and solar power, you are going to have to get it from the grid. It is really a time dependent question as to when the city would want to purchase the power and when the city wouldn't. He thinks that language could be added to this ordinance by an amendment that says that the city's agreement to purchase power from private producers would be limited to the extent if the city had any.

Mayor Pro-Tem Hechler: Just for clarification, 80 customers out of 4000 customers were originally told that they could only build their system to 90% of their utility bill. They were told this erroneously or illegally. He doesn't know what the best term is so when they were told this, the deal wasn't that bad when they knew they were getting 13 cents/kWh payment for their electric. These folks were then able to make that decision to invest \$16,000 to \$24,000 to build their system, but now what we are proposing is that these paying customers would now be given .06 cents/kWh instead of the 13 cents/kWh which cuts that in half. He feels that perhaps those 80 customers could have been grandfathered in or other allowances made because they were originally told that they could only build their systems at 90%.

City Attorney Appel: He understands that you are in a position with about 79 other customers. Legally, the Commission can change policy, and frankly you and the other 79 customers would be left out in the cold. You don't have a protected interest in continuing to get the rate that you have been getting previously. That is pretty well established in the law. They cite a number of cases in both New Mexico and Federal that Municipal Government can change policies. If the Commission should choose to add an amendment that affectively grandfathers previously built systems at the rate that they are presently getting, he frankly doesn't know if that would withstand a case brought by other rate payers or not. It probably does not make a significant amount of difference in the bills of the other several thousand rate payers, but at least theoretically one of those rate payers could bring a complaint against the city and say "you're purchasing power at a rate higher than you need to and it is causing my bill to be greater than it should be." Therefore, I think that you should refuse to purchase power at anything above the avoided cost. He doesn't know how such a suit would work out. He thinks it would be unlikely to be brought forward, but the possibility is there.

George Szigeti, Public Utility Advisory Board Chairman: Right now we have 80 out of 3,800 customers that produce their own electricity. The amount that is produced is a tiny fraction of electric consumption of the city. The solar farm on average only produces about 10% of the electricity that the city purchases. Any solar that is generated is energy that we don't need to buy from Sierra Electric. Any solar energy that is generated automatically decreases what is bought from Sierra Electric. We do however have a contractual obligation under the current contract to buy a certain amount of

CITY COMMISSION SEPTEMBER 14, 2022 REGULAR MEETING MINUTES

electricity every month and every year. We can displace energy that we buy from Sierra Electric up to the point to where we reach that obligated purchase amount. We would have to roughly have 1000 residential solar customers before we even get close to endangering that contract amount, and by the time we reach that level, that contract would have expired and we can look at where we are in our overall electrical situation when we renegotiate that contract and possibly change those limits. The solar generating customer gets full wholesale value for the electricity (every kWh) that they generate that offsets their usage each month so the value of that electricity does not decrease. It is only the value of the excess production that is reduced. Customers will no longer have to pay the GRT on the total amount of electricity delivered so that is a savings to that customer which partially offsets the decrease in the value of the electricity the city is purchasing back. The smaller the system is in relation of the customer's total consumption, the less of a financial hit they are taking.

City Attorney Rubin: Mr. Appel, I was looking at the ordinance that is on the table, and you made a comment that an amendment may be appropriate that says that the city's agreement to the purchase of power is limited to the city's need. Is that something that you think we should add to the draft?

City Attorney Appel: He would recommend that the city consider adopting such an amendment. We could draft with the help of city staff a proposed amendment to be considered when this comes back for final approval that might simply say that the city undertakes no obligation to purchase power at any time when the power is not needed to meet demand, and can thereupon discontinue its purchase from an individual producer.

City Attorney Rubin: We can also just go to publication with the changes that we discussed.

Commissioner Mitchell made a motion to approve Publication of Ordinance No. 735 Amending Section 14-48 pertaining to the Customer Generated Renewable Energy Program with the amendment noted by City Attorney Appel. Commissioner Harrelson seconded the motion. Roll call was taken by the Clerk-Treasurer.

Hon. Destiny Mitchell, Commissioner voted aye Hon. Merry Jo Fahl, Commissioner voted aye Hon. Shelly Harrelson, Commissioner voted aye Hon. Amanda Forrister, Mayor voted aye Hon. Rolf Hechler, Mayor Pro-Tem voted nay

Motion carried with a 4-1 vote.

I. NEW BUSINESS:

1. Discussion/Action: Approval of the Spaceport Visitors Center Memorandum of Understanding:

City Manager Swingle: What you have before you is a Memorandum of Understanding that we've had in place since 2017 with the Spaceport to use space at the Lee Belle Johnson Center for a Spaceport Visitors Center. It is time for a new agreement, and this is the document. He thinks that everyone agrees that the Spaceport Visitors Center has really not developed to what we believe it should be. Historically he believes that the State committed to building a Spaceport Visitors Center in Truth or Consequences and this is by proxy that visitor center as long as the City and the Spaceport continue to partner in the endeavor. The Spaceport is aware of the community's feelings that it hasn't really materialized into a true visitor center. They are making efforts to work with the Space Museum in Alamogordo to bring a lot of displays and exhibits that they have there to this facility to improve it. They are also looking at making some physical changes to the space to make it a little bit more pleasant, and a facility that will accommodate some of the designs that they want to bring in. Had they not been doing that, he would have really recommended that the Commission re-think this. If we are not going to make this a true Visitor Center, then what's the point? Let's give them the opportunity to turn this into a Visitor Center, and if not, let's bring it to their attention that will not satisfy, and go to a Plan B.

Commissioner Fahl moved to approve the Spaceport Visitors Center Memorandum of Understanding. Commissioner Mitchell seconded the motion. Roll call was taken by the Clerk-Treasurer. Motion carried unanimously

2. Discussion/Action: Approve Contract Package and Agreement between City of T or C and Smithco Construction Inc. for Main Street District (MSD) Water System Improvements Project:

Traci Alvarez, Assistant City Manager: The city issued a Notice of Award to Smithco Construction for the Main Street District (MSD) Water System Improvements Project. This is the contract package and agreement for this award, and the project is funded by a USDA Grant/Loan.

Commissioner Mitchell moved to approve the Contract Package and Agreement between City of T or C and Smithco Construction Inc. for Main Street District (MSD) Water System Improvements Project. Commissioner Fahl seconded the motion. Roll call was taken by the Clerk-Treasurer. Motion carried unanimously

3. Discussion/Action: Approval of Purchase Requisitions over \$20,000.

Traci Alvarez, Assistant City Manager reviewed the Purchase Requisitions over \$20,000 that was provided in the packet.

Commissioner Fahl moved to approve Purchase Requisitions over \$20,000. Commissioner Mitchell seconded the motion. Roll call was taken by the Clerk-Treasurer. Motion carried unanimously

4. Discussion/Action: Approval of Contract renewal with Wilson and Company Inc.:

Traci Alvarez, Assistant City Manager: As you know we went out to RFP for multiple engineering's under a single contract for on call engineering services. One of those awards went out to Wilson & Company. We usually do those as an annual renewal that we can renew for a 4 year contract. City staff is requesting to renew the contract for the 3 remaining years, and the reason for that is all of the projects that we do have in place with Wilson & Company are going to extend through that time. Every time we go through a contract renewal it requires her to submit it to the funding source which takes a really long time to get there approval so if we could just do this one time for the additional 3 years to finish off the projects we have funded that would be easier.

Mayor Pro-Tem Hechler moved to approve the Contract renewal with Wilson and Company Inc. Commissioner Fahl seconded the motion. Roll call was taken by the Clerk-Treasurer. Motion carried unanimously

5. Discussion/Action: Approval of the El Terrero Construction Company Rental Agreement:

City Manager Swingle: This agreement is in place due to the construction of the Williamsburg Bridge. The replacement of the existing bridge and the on and off ramps. This company was selected as the company to do most of the work out there. They would like to enter into a 2 year agreement at \$750 per month to use the space that is basically in front of, and slightly to the east of the solar field to use as a staging area and storage yard for their equipment, and materials that they are going to be bringing in. It is close in proximity to the project, and it will help decrease some of the costs of hauling materials and equipment back and forth. The project is scheduled for 2 years so we have the ability to continue to extend it for a few additional months if that becomes necessary based on the construction. They will hold the city harmless for anything that is done to the property or their equipment as a result of their actions. They are also for ensuring that there will not be any hazardous materials out there. They are also

CITY COMMISSION SEPTEMBER 14, 2022 REGULAR MEETING MINUTES

planning to move their construction command posts to this location so it will be in close proximity to the project. It is very likely that they will need to hook up to water and electricity, and they will pay the appropriate fees for those connections. They may want sewer, but haven't ironed that out yet. If they do we will charge them all of the appropriate fees for that.

Commissioner Fahl: The contract says when they are done they don't have to do any restoration. She knows that there's not much there, but you don't just want to leave it, and then we have a dust problem.

City Manager Swingle: What they are not going to do is re-seed it because there is no vegetation. The re-seeding issue is a NMDOT requirement that they ask upfront, and we confirm or reject the idea of re-seeding. They will restore it back to the condition it was.

Commissioner Fahl: She has dealt with noxious weeds for most of her career and that can be a problem with construction, and we have a number in New Mexico, and in our County that we are really trying to control. One is African Root. It is a highly evasive plant. Construction companies bring those in all the time from other place. She doesn't know if that is in their NMDOT contract, but most places when they do construction, they have a requirement to wash off when they are first coming to a site so that they don't have noxious weeds because it can be a real problem. She is not talking about tumble weeds or goat heads. The State of New Mexico are really trying to control the other noxious weeds. We can't change that now, but she is concerned as a natural resource issue that we don't have those become a problem. We don't want them to become what the salt cedar has become. They are not a big problem in Sierra County, but they are in Deming and other surrounding counties so if there is something we can do to abate that we should probably try to something about it.

City Manager Swingle: If you want to add that as one of the conditions, we can add it as a condition that they de-contaminate the noxious weeds from the equipment prior to bringing it to the site.

Commissioner Fahl moved to approve the El Terrero Construction Company Rental Agreement as amended per their discussion. Commissioner Mitchell seconded the motion. Roll call was taken by the Clerk-Treasurer. Motion carried unanimously

6. Discussion/Action: Approval of City Attorney Contract Renewal for Jaime F. Rubin, LLC:

City Manager Swingle: This is a contract extension for Jay Rubin to extend his contract for an additional year. The only language on the contract that has changed is that he is asking for a \$10 an hour increase. It is very similar to John Appel's contract renewal. It is to keep consistency with our City Council contracts. He doesn't know of the last time Jay has had an increase in his contract, but he does know that Jay under bills us in the first place, and he is definitely worthy of the \$10 increase.

Commissioner Mitchell moved to approve the Approval of the City Attorney Contract Renewal for Jaime F. Rubin, LLC including the aforementioned increase in rate. Commissioner Fahl seconded the motion. Roll call was taken by the Clerk-Treasurer. Motion carried unanimously

- J. EXECUTIVE SESSION:
 - 1. Threatened & Pending Litigation (Cloverleaf) pursuant to 10-15-1(H.7):

Mayor Pro-Tem Hechler made a motion to go into executive session at 11:15 a.m. to discuss threatened & Pending Litigation (Cloverleaf) pursuant to 10-15-1(H.7). Commissioner Mitchell seconded the motion. Roll call vote was taken by the Clerk-Treasurer. Motion carried unanimously.

Mayor Forrister reconvened the meeting in open session at 11:32 a.m.

Mayor Pro-Tem Hechler certified that only matters pertaining to threatened & Pending Litigation (Cloverleaf) pursuant to 10-15-1(H.7) was discussed in Executive Session.

No action was taken.

K. ADJOURNMENT:

Mayor Forrister adjourned the meeting at 11:34 a.m.

Passed and Approved this <u>28th</u>day of <u>September</u>, 2022.

Amanda Forrister, Mayor

CITY OF TRUTH OR CONSEQUENCES PUBLIC UTILITY ADVISORY BOARD MONDAY, AUGUST 15, 2022

MINUTES

REGULAR MEETING

Regular meeting of the Public Utility Advisory Board of the City of Truth or Consequences, New Mexico to be held in the City Commission Chambers, 405 W. Third, Truth or Consequences, New Mexico, on Monday, August 15, 2022 at 3:30 pm.

CALL TO ORDER:

The meeting was called to order by Chairman Szigeti.

ROLL CALL:

George Szigeti, Chairman Jeff Dornbusch, Vice-Chairman Ron Pacourek, Member Gil Avelar, Member Don Armijo, Member - LATE

ALSO PRESENT:

Bruce Swingle, City Manager Traci Alvarez, Assistant City Manager Lisa Gabaldon, Deputy Clerk

1. APPROVAL OF AGENDA:

Vice-Chairman Dornbusch made a motion to approve the agenda. Member Pacourek seconded the motion. Motion carried unanimously.

2. APPROVAL OF MINUTES:

a. Regular meeting of July 18, 2022.

Vice-Chairman Dornbusch made a motion to approve the minutes. Chairman Szigeti seconded the motion. Motion carried unanimously.

3. COMMENTS FROM THE PUBLIC: (3 Minute rule applies)

No comments.

4. OLD BUSINESS:

- a) Discussion/Action: Regular review of automatic utility rate increases
 - 1. Ordinance No. 648
 - 2. Ordinance No. 662
 - 3. Ordinance No. 712

Chairman Szigeti stated that there are more ordinances that pertain to Williamsburg in regards to the 5% increase and they will need to be modified as well; it will be a total of 5 ordinances. He is not looking for approval for any of these at this time. There are some items that he wanted to bring up for discussion on certain points, because it would affect how all of these ordinances will be handled. He began with Ordinance No. 712 – except with the changes to the terminology as pertaining to rates and fees, there's only the one sentence in paragraph A2 which refers to an annual increase equivalent to the CPI. He added a line to that: This A rate increase shall be regularly reviewed as outlined in section 14-79G. That refers to the paragraph in the ordinance which refers to 662; that would be where we actually describe the review process for the sewer rates. He went on to say that he did not make the changes to the sewer rates. He stated that they would want to push the review ones for the City utilities first and then come back once those are passed and run through as a separate set.

Member Pacourek advised that the word fee was added to the number 2 item and it was not in the original ordinance; by adding that it is not the intent of the original ordinance. He stated that Morris Madrid and a member of the PUAB said that the base charge fee should not change because that was for low income and people on fixed incomes. He is also the one who brought the CPI to the board; the board and City Commissioners agreed to that at that time. Adding the word 'fee' in that sentence is an admit ion that the last 2 billing cycles of the water billing cycles was increased inappropriately. He believes that the spirit of this ordinance that base customer fee was not to change, but now that we have 3 year thing in it, we can look at it at that time. He is asking that the word 'fee' be removed from that section.

Chairman Szigeti stated that the assumption was made that the original sentence applied to both the base fee and the usage rates. All this language does is clarify it by adding the words 'rates' and 'fees' and it is specifically stating what is actually being done.

Member Pacourek stated that this ordinance has the CPI in it and not the 5%. He's worried that it will cause a major problem and just wanted to point it out to the board and the City Manager.

Assistant City Manager Alvarez stated that this might be very easily answered by reviewing the water rate analysis report that was done at this time by USDA. There is a whole analysis and she will send the board a copy and it will define what the rates were, how the decision came to be the CPI and what they structured those rates for the next however many years, and you will be able to see whether or not the base fee was intended or not intended per the rate analysis. Regardless of how the wording looks or how it's being interpreted, the rate analysis is what we have to follow for USDA standards.

Chairman Szigeti stated that this was already reviewed by the City attorney who determined that the way it was worded, the increase applied to both the base fee and the usage rate. What we are trying to do here is to align the ordinances with what is actually being done.

Member Pacourek stated that he does not agree with this.

Member Pacourek made a motion to remove the word 'fee' from that section in the paragraph. No second. Motion dies.

Chairman Szigeti stated that they are not doing anything more with it at this time. He only had a question if setting it up like this was adequate so that they can use the same wording in the other ordinances dealing with Williamsburg utilities. He will go ahead and make those changes with the other utilities and then bring it back.

City Manager Swingle advised the board that they will not have this on the agenda for the next couple of meetings until this board has completed this.

Chairman Szigeti agreed and stated that nothing from here is going to the Commission; he wanted to clarify a number of issues that he came across while making changes. He then moved on to Ordinance No. 648 for solid waste. In the first paragraph, where it talks about collection rates, it talks about setting the rates via resolution rather than ordinance. Instead of having the table of rates on there, he'd rather have a line saying that solid waste collection fees will be set by resolution.

City Manager Swingle advised that is the preferred method to do rather than to change an ordinance every time.

Chairman Szigeti stated that when they go back and look at the other ordinance when it talks about the rates and fees, they can just put in a line stating that solid waste collection fees will be set by resolution and it will be stricken from the city code. Just below that it states that all fees shall be adjusted automatically; it's inclusive for everything that's within that section of the code. On the first part of the second page is the review process. On the third page where it says special service fees, there is a paragraph underneath that which says that they'll be adjusted automatically, and he referred it back to the previous paragraph talking about the review process. On the section referring to the exempt service collection, he thinks it should be written in the third person and not the second person, so he changed the wording. He then moved on to Ordinance No. 662; with adding the rates and fees in there, they would need to update them to the current values at the time they are reviewing the ordinance. He asked that if the rates would be set by ordinance, how much of the first page would they have to keep in there or can they just say that customer rates and fees would be set by resolution like they did for the solid waste.

City Manager Swingle asked if they could say that the service charges would be identified in a resolution.

Chairman Szigeti stated that paragraph A and B would be combined and state that they would be done by resolution. He stated that he will continue to work on these ordinances for the next meeting and then work on the ones that pertain to Williamsburg.

b) Discussion: Contingency Planning for City Utilities

Chairman Szigeti stated that there's not a lot that they can do about this at this time. They need the department heads and representatives to come in and talk to the board. He asked that the board members look at the Water Conservation Plan that was provided in the packet to get a better understanding of it, so when they do discuss the contingency plan for the water department. This has

been approved by the commission; this is their guidance for how to handle water supply contingencies and it would be in their best interest to understand what is in the document.

City Manager Swingle stated that he would like to have the utility department heads at the next meeting. He said he's not sure if the person they selected for the water/wastewater will attend the meeting, but Bo and Andy will be there.

Vice-Chairman Dornbusch mentioned that he thinks they should have a contingency plan for equipment; we could also benefit having another well.

Chairman Szigeti requested a copy of the report of the testing that been done on the north side of town.

City Manager Swingle and Assistant City Manager Alvarez stated they've never seen the report, but they will ask for it.

5. NEW BUSINESS:

a. Discussion/Action: Frequency of PUAB Meetings

Chairman Szigeti made a motion to keep the meetings monthly for the time being. Vice- Chairman Dornbusch seconded the motion. Motion carried unanimously.

6. REPORTS FROM THE BOARD:

Chairman Szigeti requested a template or style sheet published by the Clerk's office for the board to use to create ordinances.

City Manager Swingle advised the board that the City attorney writes all of the ordinances. He stated that he will get ahold of the template for them to follow.

7. REPORTS FROM STAFF:

City Manager Swingle stated that he is glad that they are not changing the frequency of the meetings at this time because he wants to run the bond question and a presentation before the board. He feels as though people and members of the board think that they don't need to raise rates on water and wastewater; it appears that they have enough revenue for water and wastewater to pay for operations; we are not generating enough revenue to pay for the infrastructure improvements. This has been a historical problem and it's continuing. We will never find enough grants and get enough funding; we have to have a plan in place with sufficient revenues to do it. He went on to say that they've been meeting weekly with Jesse and the supervisors since he announced his departure and we average between 15-20 water leaks a week. The system is crumbling; the long term answer is replacing the water lines in a reasonable time frame, but we don't have the revenue to do that.

Vice City Manager Alvarez reported that they have the Commission Meeting coming up next Wednesday; there might be some items on the agenda for Wilson & Company pertaining to some of the water projects. She is hoping that they will be in town to do a full project update on all of the various projects. There might be some items on the agenda and worth the board attending the meeting. They will be doing the bid award for the MSD project as well. She also forwarded the water rate study to the City Clerk's office so that can be distributed to the board; it very clearly states that he rate increases are for both base fees and the usage fees.

City Manager Swingle added the amendment to 735 that the board worked on a couple of months ago; that is ready to go before the commission now.

Member Pacourek stated that the board never gets to see the final product before it goes to the City Commission.

Chairman Szigeti asked if it was presented with the redlines in it.

City Manager Swingle answered yes.

Chairman Szigeti stated that he wanted to add a section number to the ordinance itself. He will make the change and get it back to them tomorrow.

8. ADJOURNMENT:

There being no further business to come before the Public Utility Advisory Board, *Chairman Szigeti* made a motion to adjourn the meeting. Member Avelar *seconded the motion*. Motion carried unanimously. The meeting was adjourned.

PASSED AND APPROVED ON THIS 19th DAY OF SEPTEMBER 2022.

George Szigeti, Chairman Public Utility Advisory Board

CITY OF TRUTH OR CONSEQUENCES

AGENDA REQUEST FORM

Agenda Item #: F.1

MEETING DATE: September 28, 2022

PURCHASE AGREEMENT

This Agreement is entered into on the 23rd day of March 2022, by and between THE CITY OF TRUTH OR CONSEQUENCES, a Municipal corporation (City), and NURSERY PROJECT LLC, (Buyer).

RECITALS

A. The parties desire to enter into an Agreement whereby the City will sell, transfer and convey all of its interest in and to the following described realty to the Buyer:

A 2.97 acre tract of undeveloped land described more fully in EXHIBIT A

B. For the sale of real property, the City is required to follow the provisions of §3-54-1,

C. The City obtained an appraisal dated January 22, 2022 from Karen Mundy, MAI certified appraiser. The appraised value of the property was \$94,500.00.

NOW THEREFORE, the parties agree as follows:

1. The City hereby sells, conveys and transfers all of its interest in the above-referenced realty to the Buyer for the agreed upon consideration.

2. Upon the execution of this Purchase Agreement, the Buyer shall pay to the City the sum of NINETY-FOUR THOUSAND, FIVE HUNDRED AND ONE DOLLARS

3. Immediately upon receiving the purchase price, the City shall deliver to buyer an executed quitclaim deed which shall convey the aforesaid property to the buyer.

4. The buyer is purchasing the property on an "as is" basis, and is not relying upon any warrants or representations made by City, either to the condition of the premises, the status of the title, or as to its feasibility of future development. The Buyer has been encouraged to obtain an appropriate title policy.

5. All recording fees and closing costs will be paid by Buyer.

OF TRUTH OR CONSEQUENCES Seller

NURSERY PROJECT LI

- Buver

ORDINANCE No. 729

AN ORDINANCE AUTHORIZING THE SALE OF REAL PROPERTY, PURSUANT TO SECTION 3-54-1 NMSA 1978.

A. WHEREAS, the City of Truth or Consequences, New Mexico (the "City") is a legally created, established, organized and existing incorporated municipality under the constitution and laws of the State of New Mexico; and

B. WHEREAS, the City owns certain real property located within its boundaries specifically described as follows:

A 2.97 acre tract of undeveloped land described more fully in **EXHIBIT** A attached.

C. WHEREAS, the City has negotiated a Purchase Agreement with NURSERY PROJECT LLC, ("BUYER") whereby the City shall convey its interest in and to the above-described property to the BUYER; and

D. WHEREAS, under Section 3-54-1 NMSA 1978, the City is required to obtain an appraisal from a qualified appraiser of any property to be sold, and said appraisal was prepared by Karen I. Mundy, MAI, dated January 18, 2022; and

E. The contemplated purchase price is \$94,501.00, which is substantially equal to the appraised value. The City Commission has determined that it is in the best interest of the City to complete this sale due to the following reasons:

(1) The City would be receiving a lump sum as consideration.

(2) The City has determined that the real property is not needed for any other purpose.

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COMMISSION OF THE CITY OF TRUTH OR CONSEQUENCES, NEW MEXICO:

Section 1. <u>Authority.</u> The City is authorized to convey interests in real property pursuant to the provisions of Section 3-54-1, N.M.S.A. (1978).

Section 2. <u>Material Terms Purchase Agreement</u>.

A. The City shall sell and convey the above-described property to the BUYER for the consideration of NINETY-FOUR THOUSAND, FIVE HUNDRED AND ONE DOLLARS (\$94,501.00) to be paid at closing. Attached hereto as EXHIBIT 1, is the Purchase Agreement.

the East One-Half (E 1/2) of Block Eight (8), Section 35, Township 13 South, Range 4 West. Save and Except:

A certain tract of land situate within projected Section 35, Township 13 South, Range 4 West, N.M.P.M, Pedro Armendaris Grant No. 33, City of Truth or Consequences, Sierra County, New Mexico and being more particularly described as follows:

Parts of Lots 4 & 5, Block 4, Mims III Subdivision (unapproved), and being further described as follows:

Beginning at the Northwest corner, WHENCE the closing corner between Sec. 27 & 34, T13S, R4W, a point on the West Line of Pedro Armendaris Grant No. 33 bears N 42°49'03" W, 977.67 Feet:

MICHELLE LUJAN GRISHAM GOVERNOR

> DONNIE J. QUINTANA DIRECTOR

DEBORAH K. ROMERO CABINET SECRETARY

STATE OF NEW MEXICO DEPARTMENT OF FINANCE AND ADMINISTRATION LOCAL GOVERNMENT DIVISION Bataan Memorial Building + 407 Galisteo St. + Suite 202 + Santa Fe, NM 87501 PHONE (505) 827-4950 + FAX (505) 827-4948

MEMORANDUM BFB #22-05

TO: New Mexico Counties and Municipalities

FROM: Brenda L. Suazo-Giles, Budget & Finance Bureau Chief Local Government Division

Brender J. Sugar Dila

DATE: May 3, 2022

SUBJECT: Object Codes for Reporting "Cannabis GRT" Created on LGBMS

In accordance with the "New Mexico's Cannabis Regulation Act", the New Mexico Department of Finance and Administration (DFA), Local Government Division (LGD) has updated the Local Government Budget Management System (LGBMS) chart of accounts (COA) to assist in tracking of Cannabis revenues and related expenditures. Using a standard COA allows LGD to analyze data more efficiently across the various local governments in order to compile statewide reports that are used by decision makers for determining state funding such as legislative appropriations, grants, and loans.

The New Mexico Taxation and Revenue Department (TRD) has added a new distribution code pertaining to Recreational Cannabis in the GRT distribution (RP-500 Report) and will also have a monthly distribution report for the Cannabis Excise Tax. Please refer to the attached TRD publication "FYI-260" for more information.

It is highly recommended <u>NOT</u> to budget any Cannabis revenues and expenditures in your Interim or Final FY2022-2023 Budget submission. We are requesting all municipalities and counties to wait until you attain one (1) Quarter's worth (3 months) of actual data to determine the forecasted revenue and expenditures and then submit a Budget Adjustment Request (BAR) for FY2022-2023 for governing body approval that you will then submit on LGBMS for LGD approval.

If you have pertaining to the Cannabis revenue distribution process, contact David Monteith at TRD, David.monteith@state.nm.us.

The Cannabis Control Division of the Regulation and Licensing Department is in partnership with the local governments and are more than happy to assist you with cannabis regulatory information by contacting them at <u>RLD.CannabisControl@state.nm.us</u> or (505) 476-4995.

We are requiring that participating counties and municipalities use the **following Fund "28000 Cannabis Regulation Act"**. Cannabis revenue does not have any expenditure restrictions, therefore, for reporting purposes, and to not lose its identity, LGD is requiring all Cannabis revenue and related expenditures be reported in the "28000 Fund". For expenditure support to all other funds, a <u>"transferout"</u> will be required using a BAR, after being approved by your governing body.

The goal of the guidelines contained in this memo is to achieve more comparable financial reporting among all counties and municipalities in the area of Cannabis budget and financial activity.

If you have any questions, contact your LGD budget analyst.

xc: David Monteith, TRD
 Victor Reyes, RLD, Deputy Superintendent
 Kristen Thomson, RLD, Cannabis Control Division

RESOLUTION NO. 46 21/22

A RESOLUTION DECLARING SURPLUS PROPERTY TO BE NONESSENTIAL FOR PUBLIC OR GOVERNMENT FUNCTIONS TO BE SOLD PURSUANT TO §3-54-2 NMSA

WHEREAS, the City Commission of the City of Truth or Consequences finds surplus property to be nonessential for public or government functions; and

Whereas, PURSUANT TO Section 3-54-2 of the New Mexico State Statues, 1978, Annotated, the City of Truth or Consequences serves notice that the City will use the online auction J.J. Kane Associates, Inc. dba J.J. Kane Auctioneers to sell various surplus property belonging to the City.

NOW THEREFORE BE IT RESOLVED THAT:

- The City of Truth or Consequences may sell personal property having a value of more than two thousand five hundred (\$2,500.00) at public or private sale. If a private sale is held under this subsection, such sale shall be held only after notice is published at least twice, pursuant to the provisions of Subsection J or Section 3-1-2 NMSA 1978, not less than seven days apart, with the last publication not less than fourteen days prior to the sale.
- If a public sale is held, the bid of the highest responsible bidder shall be accepted unless the terms of the bid do not meet the published terms and conditions of the municipality, in which event the highest bid which does meet the published terms and conditions shall be accepted; provided, however, a municipality may reject all bids. Terms and conditions for a proposed sale of lease shall be published at least twice, not less than seven days apart, with the last publication no less than fourteen days prior to the bid opening, and shall be published according to the provisions of Subsection J of Section 3-1-2 NMSA 1978.
- The City of Truth or Consequences may sell, at a private or public sale, exchange or donate real or personal property to the state, to any of its political subdivisions or to the federal government is such sale, exchange or gift is in the best interests of the public and is approved by the local government division of the department of finance and administration. The provisions of Section 6-6-11 NMSA 1978 shall not apply to such sale, exchange or a donation.

113 60 APPROVED AND ADOPTED this 9th day of February, 2022. handa Forriste) Mayor

Angela A. Torres, CMC, City Clerk

Proposal To:

City of Truth or Consequences Truth or Consequences, NM **RE:** Surveillance for Various Locations

Thank you for the opportunity to provide surveillance for your properties.

1. Scope of Work

I. Airport

Apex proposes to install a new surveillance system for your airport. Apex will provide a new customer server along with a total of 17 Cameras to Cover the Hangars, Common Areas and Airport Terminal. Apex will utilize sets of Point to Point Radios to connect outlaying buildings along with weatherproof locked boxes and POE Switches. Apex will require a 120V feed for each of the boxes located on perimeter buildings. Apex proposes a combination of 14 Megapixel 180 Degree Cameras along with 5 Megapixel outdoor cameras, two interior cameras for the Terminal and a Fisheye for the South Common Hangar. Apex will connect them into the network to be viewed from the PC in the office or remotely. Apex requires 120V to be provided at each of the Hangars and a Lift For the South Common Hangar.

2. Pricing

I.	Airport	
٠	1 each Customer 30TB Server	\$3,500.00
•	4 each 4 Port POE Switch	\$280.00
•	1 each 8 Port POE Switch	\$150.00
•	5 each UPS	\$420.00
•	7 each 14MP 180 Degree Cameras	\$14,000.00
•	4 each 4 Megapixel Fixed Wide Angel Cameras	\$2,000.00
•	3 each 5 Megapixel Zoom Camera for Gate	\$2,475.00
•	2 each Indoor 2 Megapixel Cameras	\$400.00
•	1 each 12 Megapixel Fisheye Camera with IR for Hangar	\$950.00
٠	4 each Weatherproof Enclosures	\$1,600.00
٠	17 Camera Licenses	\$2,125.00
٠	5 Radios	\$1,250.00
•	Wire	\$450.00
•	Labor, Installation and Training	\$5,350.00
٠	Tax on Labor	\$438.03
Airpo	rt Surveillance System:	<u>\$35,388.03</u>

Apex is a CES Authorized Vendor for the State of New Mexico, #2020-13N-C119-45678

3. Warranty

All surveillance equipment comes with 5 year manufacturer warranty, 90 day warranty on labor.

This proposal is valid until October 31st, 2022. The above prices, specifications and conditions are satisfactory and accepted. Apex Technologies is authorized to begin work as specified. Require a 65% deposit upon authorization with a balance of 35% due upon completion of installation and training. Invoices not paid within 30 days of completion of installation are subject to a 1.25% monthly finance charge.

RESOLUTION NO. 10 22/23

A RESOLUTION REQUESTING FINAL BUDGET ADJUSTMENTS IN THE REVENUE AND EXPENDITURE BUDGET FOR FISCAL YEAR 2022-2023.

WHEREAS, the final budget for was approved by the City Commission of the City of Truth or Consequences, New Mexico, pursuant to Chapter 6, Article 76 NMSA 1978; and

WHEREAS, the City Commission in and for the City of Truth or Consequences, State of New Mexico needs to adjust the current approved budget for Fiscal Year 2022-2023; and

WHEREAS, said budget was adjusted on the basis of need and through cooperation with all user departments, elected officials and other department supervisors; and

WHEREAS, the official meeting for the review of said documents was duly advertised in compliance with the State Open Meetings act; and

WHEREAS, it is the majority opinion of this Board that the adjusted budget meets the requirements as currently determined.

NOW THEREFORE, BE IT RESOLVED that the City Commission of the City of Truth or Consequences, State of New Mexico hereby adopts the budget adjustment hereinabove described and attached and respectfully requests approval from the Local Government Division of the Department of Finance and Administration.

PASSED, ADOPTED and APPROVED this 14th day of September, 2022.

DEPARTMENT OF HOMELAND SECURITY AND EMERGENCY MANAGEMENT

Tuesday, July 26, 2022

Paul Tooley Truth or Consequences 310 East 9th Street T or C, NM 87901

Ref: <u>1st</u> Fiscal Year 2023 (FY 23) Fire Protection Fund Distribution for the Truth or Consequences Fire Department.

Paul Tooley

The Department of Homeland Security will be distributing the Fire Protection Fund on a biannual basis for Fiscal Year 23.

NMFA payments, for outstanding department loans, are paid in full during the first funding

allocation.

The bi-annual distribution dates for the Fire Protection Fund Fiscal year 2023 will be as follows:

- 1st bi-annual allocation/distribution On August 15st a 50% distrubution of the total amount will be allocated to the municipality or district..
- 2nd bi-annual allocation/distribution On February 15st a 50% distrubution of the total amount will be allocated to the municipality or district.

The Bi-Annual Allocation/Distribution is based on the revenue received into the state of New Mexico for the FY 23 Fire Protection Fund.

The Bi-Annual The August 1st total 1st bi-annual Fiscal Year 2023 Fire Protection Fund allotment/distribution to your fire departments is enclosed in the amount of \$177,342.50

Please refer to the Table below for your complete FY 23 Fire Protection Fund <u>First Allotment</u> amounts.

4

.

Truth or Consequences

FY 23

First Bi-Annual Allotment

Fire Protection Fund Distribution

Fire Department	Total Distribution	NMFA Amount	Adjusted Total to Dept	Paid First Allotment August FY 23 50% of Original Total to Department	Second Allotment November FY 23 50% of Adjusted Total to Department
Truth or Consequences	\$378,060.00	\$23,375.00	\$354,685.00	\$177,342.50	\$177,342.50

The amount allocated covers the period from July 1st 2022, through June 30th 2023, and shall be expended only for the maintenance of the fire department, the purchase, construction, repair and operation of its fire stations, fire apparatus and equipment, the payment of insurance premiums on fire stations, substations, fire apparatus and equipment, and insurance premiums for injuries or death of firefighters as otherwise provided by law. Such funds are to be expended at the direction of the Chief of each fire department in accordance with the provisions of the Public Purchases Act, the Fire Protection Fund Act, and the State Fire Marshal's Rules and Regulations to the Act.

*Please be reminded that during the 2017 regular legislative session, House Bill 4 was enacted (Laws 2017, Chapter 1). Section 8 of House Bill 4 created requirements that the State Fire Marshal must follow in making a determination and certification of needs pursuant to Section 59A-53-3 NMSA 1978 and distributions pursuant to Sections 59A-53-4 and 59A-53-5.1, which pertain to the Fire Protection Fund. Specifically, the bill required the State Fire Marshal to coordinate with the Department of Finance and Administration (DFA), the New Mexico Finance Authority, Office of the State Treasurer, the New Mexico Municipal League and the New Mexico Association of Counties, regarding a periodic allotment schedules.

Please contact me if you have any questions or concerns, at 505-709-8150 or Randy.Varela@state.nm.us (Randy.Varela@state.nm.us).

Respectfully,

4

Hi Kevin,

I see that the payment you sent in June was applied for your 2022 payment, what is missing is \$116.26 that was short on Principal on the 2019 payment and \$3,264.00 for the 2020 Principal payment. Please see attached spreadsheet for your reference.

Please let me know if you need additional information or have further questions.

Thank you,

Delanne

CITY OF TRUTH OR CONSEQUENCES

AGENDA REQUEST FORM

Agenda Item #: F.2

MEETING DATE: September 28, 2022

SUBJECT: Approve Resolution 12 22/23 Adopting a Wastewater Sanitary Sewer Asset Management Plan.DEPARTMENT:Assistant City ManagerDATE SUBMITTED: September 22, 2022SUBMITTED BY:Traci AlvarezWHO WILL PRESENT THE ITEM: Alfredo Holguin Wilson & Company, Inc.

Summary/Background:

Determining the condition of these systems is important for the City in selecting which projects to pursue and in what order. When combined with a PER, this report can assist the City with providing a better explanation and rationale for applying for funding assistance from funding agencies. Targeting critical and deteriorate systems will also reduce system maintenance costs in the long term, as well as provide better service and efficiency for the system's customers while enhancing the City's ability to always maintain service.

To start, an inventory of assets both in tabular and map form will be provided to the City for the AMP. The map was created utilizing a geodatabase within a geographical information system (GIS). This database will need to be continuously updated and maintained by the City in order to remain effective for system monitoring. This AMP is intended as a starting point to continuing efforts in tracking system issues and identifying new problem areas as they emerge.

The AMP will also advise on the financial health of the current system, recommend funding paths, and evaluate the feasibility of the current rate schedule.

Recommendation:

Approve Resolution 12 22/23

RESOLUTION NO. 12 22/23

ADOPTING A MUNICIPAL WASTEWATER ASSET MANAGEMENT PLAN; ADOPTING A **RESERVE POLICY IDENTIFIYING AN ALLOCATION OF RESERVES TO FUND THE ASSET** MANAGEMENT PLAN; ESTABLISHING A RATE SCHEDULE ADEQUATE TO FUND THE **RESERVE; RATIFYING ACTIONS HERETOFORE TAKEN; REPEALING ALL ACTION** INCONSISTENT WITH THIS RESOLUTION; AND AUTHORIZING THE TAKING OF OTHER ACTIONS IN CONNECTION WITH THE IMPLEMENTATION OF THE ASSET MANAGEMENT PLAN, RESERVE POLICY AND RATE SCHEDULE FOR THE CITY OF **TRUTH OR CONSEQUENCES**

WHEREAS, the City Commission of the City Truth or Consequences (the "City") is a legally and regularly created, established, organized and existing city under the general laws of the State of New Mexico and more specifically, Section 3-45-5, NMSA 1978, as amended and supplemented;

WHEREAS, the City applied on March 16, 2020 to the New Mexico Finance Authority (the "Finance Authority") for partial financing of the development of a Municipal Wastewater Asset management plan (the "Plan") with a grant from the local government planning fund (the "Fund") established pursuant to Section 6-21-6.4, NMSA 1978, as amended and supplemented; and

WHEREAS, the City's request for partial financing of the Plan with a grant from the Fund was approved by the Board of Directors of the Finance Authority on May 28, 2020; and

WHEREAS, pursuant to its rules and policies, the Finance Authority requires that certain action be taken by the City prior to executing a Grant Agreement and disbursing the grant amount to City from the Fund; and

WHEREAS, the City adopted Resolution $\frac{#21\ 20/21}{20}$ on November 18, 2020, committing to the development of and implementation of the Plan, affirming use of the principles outlined in the New Mexico Environmental Center's A.M. Kan Work Manual in the development and implementation of the Plan, and designating an Asset Management Steering Committee and an Authorized Implementing Officer for the Plan; and

WHEREAS, the City desires to take all necessary action as required by the Finance Authority in order to be eligible to receive the grant amount from the Fund.

NOW, THEREFORE, BE IT RESOLVED BY THE City Commission of the City Truth or Consequences New Mexico:

Section 1. <u>Ratification</u>. All action heretofore taken (not inconsistent with the provisions of this Resolution) by the City, its officers and employees, directed toward the development, implementation and financing of the Plan shall be, and the same hereby is, ratified, approved and confirmed.

Section 2. <u>Adoption of the Plan</u>. The City Commission of the City Truth or Consequences hereby makes the following findings and adopts the Plan, attached hereto as Exhibit A.

- A. The Plan properly utilizes the principles outlined in the New Mexico Environmental Center's A.M. Kan Work Manual.
- B. The Asset Management Steering Committee and Authorized Implementing Officer have certified that the Plan is appropriate and complete.

Section 3. <u>Adoption of the Reserve Policy</u>. Pursuant to Finance Authority rules and policies, the City Commission of the City Truth or Consequences hereby agrees to continue its allocation to the existing Wastewater Emergency Reserve Fund, to assist in funding the Plan.

Section 4. <u>Establishment of Rate Schedule</u>. Pursuant to Finance Authority rules and policies, the City Commission of the City Truth or Consequences affirms that its rate schedule adequately covers the amount of the reserve outlined in the above Reserve Policy.

Section 5. <u>Amendment of Resolution</u>. This Resolution after its adoption may be amended without receipt by the City of any additional consideration, but only with the prior written consent of the Finance Authority.

Section 6. <u>Resolution Irrepealable</u>. After the Grant Agreement has been executed and delivered, this Resolution shall be and remain irrepealable until all obligations of the Grantee under the Grant Agreement shall be fully discharged, as herein provided.

Section 7. <u>Severability Clause</u>. If any section, paragraph, clause or provision of this Resolution shall for any reason be held to be invalid or unenforceable, the invalidity or unenforceability of such section, paragraph, clause or provision shall not affect any of the remaining provisions of this Resolution.

Section 8. <u>Repealer Clause</u>. All bylaws, orders, resolutions, ordinances, or parts thereof, inconsistent herewith are hereby repealed to the extent only of such inconsistency. This repealer shall not be construed to revive any bylaw, order, resolution or ordinance, or part thereof, heretofore repealed.

Section 9. Effective Date. Upon due adoption of this Resolution, it shall be recorded in the book of the City kept for that purpose, authenticated by the signatures of the Mayor and City Clerk of the City, and this Resolution shall be in full force and effect thereafter, in accordance with law; provided, however, that if recording is not required for the effectiveness of this Resolution, this Resolution shall be effective upon adoption of this Resolution by the City Commission of the City Truth or Consequences.

PASSED, APPROVED AND ADOPTED this 28th day of September 2022.

Amanda Forrister, Mayor

1 Overview

The City of Truth or Consequences is in Sierra County New Mexico, in the southwestern part of New Mexico (NM), about 72.4 miles northwest of Las Cruces. The collection system currently provides sewer service to the entirety of the City, an area of approximately seven and a half square miles. There are currently 3,491 active service connections, 167 of those connections are part of the vacuum sewer system at the Southeast end of the City. The City of Truth or Consequences has hired Wilson & Company, Inc., Engineers & Architects to develop an asset management plan to provide a information for decisions about how to operate, maintain, repair, rehabilitate, and replace assets. The Asset Management Plan (AMP) will assist in determining the most critical assets in the system at the highest risks and consequences of failure for future capital improvement projects. The AMP will cover the sewer system and will include the following components:

- Sewer Collection lines
 - o Typically pipes between manholes that collect wastewater through gravity method.
- Lift Stations
 - Wet-well structure with pumps, motors and controls associated with the station.
- Manholes
 - o Manhole structure with rim and collar
 - Wastewater Treatment Plant
 - Headworks
 - o Oxidation Ditch
 - o Clarifiers
 - o Drying beds
 - o UV System

Determining the condition of these systems is important for the City in selecting which projects to pursue and in what order. When combined with a PER, this report can assist the City with providing a better explanation and rationale for applying for funding assistance from funding agencies. Targeting critical and deteriorate systems will also reduce system maintenance costs in the long term, as well as provide better service and efficiency for the system's customers while enhancing the City's ability to always maintain service.

To start, an inventory of assets both in tabular and map form will be provided to the City for the AMP. The map was created utilizing a geodatabase within a geographical information system (GIS). This database will need to be continuously updated and maintained by the City in order to remain effective for system monitoring. This AMP is intended as a starting point to continuing efforts in tracking system issues and identifying new problem areas as they emerge.

The AMP will also advise on the financial health of the current system, recommend funding paths, and evaluate the feasibility of the current rate schedule.

1.1 Current Rehabilitation and Replacement Program for the Sewer System

Prior to the development of the AMP, there was no central database or dynamic system in use for identifying problems in the sewer system. Maintenance has historically been performed on an "as needed" basis by a small utility crew.

Currently, the City addresses sewer line issues such as a line break, blockages, pressure loss, and other issues on an as-needed basis. There have been several capital improvements projects recently completed aimed at increasing operational efficiency and replacement of critical components at the existing wastewater treatment plant including:

- Wastewater Treatment Plant Improvements Phase 2A
 - Replacement of clarifier units, new concrete emergency overflow basin, and rehabilitation of oxidation ditch and splitter box.
- Wastewater Treatment Plant and Lift Station Improvements Phase 2B
 - New aerobic digesters and construction upgrades.
- WWTP Improvements Phase 1
 - o Modifications to existing buildings and one new belt filter press metal building.

Development of an AMP will assist the City of Truth or Consequences with assessing the needs of the system as a whole more accurately, and help with the development of a system for preventative maintenance.

2 Sewer Asset Management Plan

The intent of an Asset Management Plan (AMP) is to provide a clear understanding of the system as a whole by looking at the individual elements (assets) within the system. The inspection and analysis of each asset takes into consideration three key factors:

- Condition The physical properties of the asset compared to new assets and other assets within the system.
- Functionality How well the asset works relative to new assets or other assets within the system. This includes operational reliability, efficiency, and ease of operation.
- Criticality The degree of damage caused by the failure of an asset.

The City of Truth or Consequences and Wilson & Company have worked collaboratively to develop the wastewater system AMP. The sewer system was evaluated as follows:

- The system inventory and map was developed by Wilson & Company based on a record drawings, existing system mapping that was provided by the City, and institutional knowledge. These documents provided information such as sewer line locations, size, and diameter of the sewer lines.
- The system's assets were then evaluated and assigned condition values. All sewer line conditions were determined based on institutional knowledge. Due to the limited amount of record drawings in existence, the age of existing lines was difficult or impossible to determine. An estimated age was assigned to each pipe based on a combination of pipe condition and pipe material. Lift Station conditions were assigned based on visual inspection by the City's utility superintendent and correlated with operator experience on the current condition of the individual system components. All assets in the system were assigned a "Consequence of Failure" (CoF) based on the criticality/importance of the asset. Generally, assets with a larger size or low redundancy were assigned higher CoF Values.
- All assets are prioritized in tabular format based on the total "risk" that each asset is assigned. The asset risk is assigned based on the asset condition score, multiplied by the asset CoF score. Highest risk assets are ranked at the top of the list for replacement as soon as possible.

This section of this report will provide additional detail on each system asset type, and the criteria used to evaluate each asset type.

3 Data Collection

The majority of data was provided by the City in the form of shape (.shp) and/or geodatabase file types and hard copy record drawings. Assets were assigned a condition based on a visual inspection and institutional knowledge by the City utility department. Assets confirmed by the City to be in "fair" condition were assumed to have an install date of 1990 for sewer lines, and 1975 for manholes. Facility conditions were also assigned based on a combination of visual inspection and institutional knowledge provided by system operations staff. Some of this data cannot be verified by Wilson & Company without physical inspections of the pipe lines, via excavation or robotic exploration, so information collected is assumed to be accurate enough for the purposes of this report.

All data in this report was compiled into a combined GIS database, for ease of system updates. All assets were assigned an asset ID (as explained in the following Section 3.2).

4 System GIS Model

The sewer system was developed into a single ESRI Geodatabase, which can be accessed using Arc Map (version 10.3 or greater) or other GIS software (such as Quantum GIS or Global Mapper). All system assets are stored in .shp or .gdb vector file format, and are represented by a point or line. Attributes assigned to each feature include pipe size, material, and year installed. These feature classes representing pipes, manholes, and lift stations are based on the existing PDFS and CAD files provided by the City as well as additions and corrections made through coordination with the City's Utility Department. Meetings with City staff were also held to identify or confirm size and pipe condition. These attributes were then exported from the GIS data in tabular form to build the asset management inventory, and integrated into the geodatabase. In order to provide operators with a more accessible database, different base maps can be chosen from a menu on the Arc GIS online depending on what information is desired. Key areas, such as schools, hospitals, and business areas can be identified depending on the base map. This information is necessary for pinpointing potentially critical assets.

All assets in the system are assigned a unique ID based on several factors, including which system the asset is part of, the asset type, and an asset number. The system assets are identified as follows:

(System)_(Asset Type)_ Asset Number)

System:

S – Assigned to all sewer system assets

Asset Type:

L - Assigned to distribution and collection lines (water and sewer)

LS – Assigned to all lift station assets

MH - Assigned to all manholes

Asset Number:

Assigned randomly to all assets on a section by section basis.

Example:

A manhole may have an asset ID as follows:

S_MH_420

The system model (and AMP) is intended to be frequently updated by the City in order to provide a useful tool for system management. This is intended to be a living database that will be frequently updated and used to provide justification for future projects and identify areas of the system that should be prioritized for repairs and improvements.

5 Basis of Evaluation

All system assets were evaluated using the same methods, regardless of asset category. All assets were evaluated on the following criteria in order to develop this AMP:

- Remaining Useful life
- Probability of Failure
- Consequences of Failure
- Criticality (PoF x CoF = Criticality)
- Asset Replacement Values and Current Values

Below is the basis for determining these criteria and their impact on the AMP.

5.1 Remaining Useful Life (RUL)

Asset ages are typically based on the Asset conditions determined in the previous section when no other information is available. The exceptions to this are manholes, sewer lines, valves, or any relatively new asset where the age is known by operators. City records combined with the utility superintendent knowledge was used to estimate the asset age as well.

RUL is solely based on the stated condition of the asset, as this is a more useful metric to determine if an asset needs replacing. Issues such as manufacturing defects, incorrect installation/construction, or asset abuse/misuse can drastically shorten the useful life of an asset. Conversely, assets that are installed properly, or only experience favorable conditions, may last significantly longer than is expected and this should be accounted for when determining RUL. For the purposes of this report, RUL is always based on the current asset condition (asset depreciated values are always based on real install dates where available).

Asset ages are estimated per EPA document 816-R-03-016 (2018), see Appendix D. This table provides the life expectancy ranges that are typical for all assets that are usually present in a system and was used as a starting point

for estimating the RUL of the system components. Additional data was added for collection/force main line ages based on pipe material that is not present in the original EPA document, to better estimate the pipeline RUL values. Based on the average lifetimes provided in the EPA tables, the RUL for each component was estimated based on the asset conditions that were developed earlier in this report. This provides an estimate for the remaining lifetime of all assets, independent of the actual install date. See **Figure 1** for a breakdown of all RUL assignments that have been developed in this report.

	and the second

Figure 1: RUL and Life Expectancy Table

City of Truth or Consequences, NM Asset Management Plan Prepared by : Wilson & Company Inc

5.2 Probability of Failure:

The current condition of the asset is based on several factors, depending on the accessibility of the asset. Condition evaluations for assets that are not visible are entirely based upon the experience and knowledge of systems operations staff. Visible assets, such as facilities, specialty valves, and manholes are evaluated on a case-by-case basis, as elaborated below:

- Facilities, Specialty Valves, pumps and motors, pipelines:
 - Information from system operators on system reliability
 - o Information on Installation dates (when available)
- Manholes, lift station structures, controls:
 - Evaluation by field crew for signs of rust or decay
 - Information from system operators on system reliability
 - o Information on Installation dates (when available)

All assets were assigned a Condition based on the following criteria, along with a corresponding "probability of failure score" from one to five (the lower the score the better), which is then used to calculate the criticality score for each asset.

Asset Conditions and Probability of Failure Score:

• Excellent

Excellent condition is assigned to newly installed assets with no signs of rust, wear, or decay. Score: 1

Good

Good condition is assigned to relatively new or newly rehabilitated assets with minor signs of rust, wear, or decay; and reliable operation. Score: 2

• Fair

Fair condition is assigned to mid-life assets with obvious (but not critical) signs of rust, wear, or decay; and reliable operation and unknown assets that are not visible, and otherwise inaccessible. Score: 3

• Poor

Poor condition is assigned to near end life assets with nearing critical signs of rust, wear, or decay; poor assets are beginning to fail.

Score: 4

• Very Poor

Very Poor condition is assigned to end life assets with critical signs of rust, wear, or decay; very poor assets have already failed and have been fixed/patched frequently. Score: 5

WILSON &COMPANY

5.3 Asset Consequence of Failure (CoF)

The Criteria used to evaluate the impacts on the system are each rated on a 0-5 scale of severity. The criteria used to evaluate all systems are as follows:

• Lack of Redundancy Single point of failure with no back-up. Score: 5

• Environmental Impact

High Risk areas for leaks (sewer assets have a base score of 3 in this category) <u>Score: 4</u>

- Permit Violations
 Areas where permit violations are likely, sewer assets are given a base score of 3 in this category <u>Score: 3</u>
- Public Safety
 Areas where service disruption can cause danger to life or health
 <u>Score: 3</u>
- High Cost of Repair Any areas that are difficult or expensive to fix Score: 3
- Public Inconvenience
 Could cause major public issues such as school closures, or long detours Score: 3
- High Public Visibility Issues that are visible to the public, or may end up on the News Score: 2
- Service Disruption Disruption to regular services for users Score: 1

WILSON & COMPANY

5.4 Asset Criticality (Risk Score)

Asset Criticality is based on the scores developed in the previous sections of this report and are calculated by multiplying the Probability of Failure and the Consequence of Failure. Criticality scores are ranked on a scale from 0-25. The Criticality ratings are assigned as follows:

- Low: Scores from 0-6
- Medium: Scores from 7-12
- High: Scores from 13-18
- Extreme: Scores greater than 19-25

Assets in the "High" rating group includes lines that are the sole source of collect for schools and hospitals, manholes located in heavily populated areas, and the WWTP that is a single point of failure. Generally if "High", the assets are also in poor condition and reaching its estimated useful life but can still be operating. This rating is given to the assets that will have a greater negative impact on the system and the population around it if to fail. The "Medium" rating is mainly comprised of assets in fair condition, and not quite at the end of its estimated useful life. Those assets classified as "Low" are in newer "good" condition and usually have a low amount of flow, less users, and have prior backups present and the system still functions.

See **Figure 2** for the Asset Criticality Matrix based on the Probability of Failure and Consequence of Failure. Scores for each component in the system can be found in Appendix C.

SANITARY SEWER CoF	EXCELLENT	GOOD	FIAR	POOR	VERY POOR
LACK OF REDUNDANCY	5	10	15	20	25
ENVIRONMENTAL IMPACT	4	8	12	16	20
PERMIT VIOLATIONS	3	6	9	12	15
PUBLIC SAFETY	3	6	9	12	15
HIGH COST OF REPAIR	3	6	9	12	15
PUBLIC INCONVENIANCE	3	6	9	12	15
HIGH PUBLIC VISIBILITY	2	4	6	8	10
SERVICE DISRUPTION	1	2	3	4	5

Figure 2:Asset Criticality Matrix

6 Physical Attributes and Cost Estimates

This section of the report provides summaries of all sub-sections of the sewer system. The basis for determining a rough age for all assets, remaining useful life, as well as depreciated values are explained in the following sections. The results of all calculations can be found in Appendix A, Asset Inventory. All estimates for replacement values, current values, and asset remaining life have been integrated back into the geodatabase for easy access.

The replacement costs are based on Wilson & Company's experience with the rehabilitation and construction of similar systems. It should be noted that the Corona virus (COVID-19) global pandemic has resulted in a drastic increase in material and labor prices. Although current industry speculation is that construction pricing will Page | 14 City of Truth or Consequences, NM Prepared

City of Truth or Consequences, NM Asset Management Plan Prepared by : Wilson & Company Inc normalize in the next couple years, the market will likely not return to pre-Corona prices. Therefore, current pricing is being utilized for estimate purposes and cost estimates should be updated based on market prices at time of construction. All costs estimates provided only include the immediate material and labor cost for individual/combined components. These do not include cost for additional engineering or contractor services that will be needed and should be estimated on a project-by-project basis due to the many variables involved.

6.1 Collection System (Pipes and Manholes)

The Collection system currently provides sewer service to the entirety of the City of Truth or Consequences, NM, an area of approximately seven and a half square miles. The database contains 1,268 entries for the collection system (including facilities), consisting of 61 miles (320,304 LF) of sewer lines. Sewer line age was estimated based on a combination of stated condition by the system operators and the installed pipe material (see Table 01, Appendix A for estimated age rating baselines, and de-rating criteria). Manhole ages were estimated based on correlation with associated pipes and system operator knowledge. The vast majority of the Collection System is made up of 8-inch pipe, followed by 4,6,10, 12, and 21-inch pipe. Pipe line sizes are based on the institutional knowledge of the systems' operators, and may vary from the actual pipe line diameters. See **Figure 3** for a detailed sewer diameter breakdown.

Because a portion of the collection system lines and manholes are considered to be in unknown condition, it is recommended that the City look into hiring a contractor for a CCTV inspection and report to confirm the condition and attributes of the unknown sections of the system.

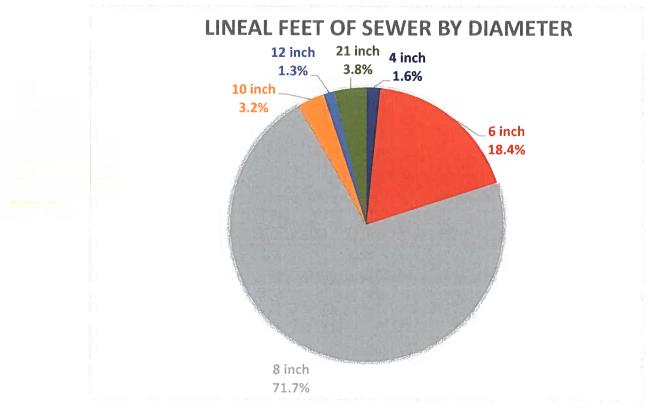

Figure 3: Sewer Line Diameter Distribution

The sewer pipeline assets are also broken down by material, as shown in **Figure 4**. The majority of the system is composed of PVC, with the next most common feature being vitrified clay (VC), and a small amount of asbestos cement (AC). As stated for the pipeline size distribution, this information as well as manhole information, is based on City provided maps and may vary from what is installed.

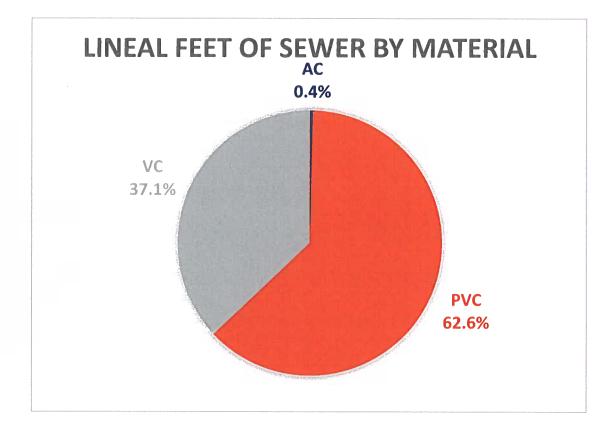

Figure 4: Sewer Material Distribution

Replacement values for the Sewer Collection System assets are broken up based on their condition, as shown below. All pipe line costs have asphalt replacement costs added, as well as trenching costs, for the final replacement cost estimate in addition to the unit prices shown in **Figures 5 & 6** below.

	UNIT	QTY	U	NIT PRICE	COST

Figure 6: Sewer Manhole Estimates

Estimating the current value of the Collection System's assets was done on a straight-line depreciation basis, with salvage values estimated for each type of asset (all collection piping is estimated at \$0.00 salvage value). When determining the value of an asset, the installation date is used if available, if the installation date is not present the installation date is estimated based on the stated asset condition and the EPA average lifespan table. Some portions of the system are well past their estimated life, so the current value is only equal to the salvage value of the asset (this does not mean that the asset needs replacing, but has \$0 value for accounting purposes). Assets past their expected useful life may still be in good and usable condition; however, for accounting purposes, they do not have any monetary value associated with them. See Appendix A for the estimated current values of all assets.

6.2 Lift Stations

Condition was based on the utility superintendent knowledge and recent upgrades.

Nickel Street Lift Station Site Assessment:

The Nickel Lift Station serves the East portion of the Village of Williamsburg and is located at the intersection of Veater Street and Nickel Street. This lift station includes a structural building, SCADA, valve vault, and wet well with (2) 10-HP submersible pumps, all with the corresponding piping. In 2019 improvements completed include new electrical controls and panels, rehabilitation to the wet well, new pipe supports, and a new concrete vault. Overall it can be said the lift station is in fair condition and does not require any improvements at this time.

Clancy Street Lift Station Site Assessment:

The Clancy Lift Station is located at the end of Clancy Street serving the main portion of the city, such as the downtown and South areas. The lift station was redone in 2019. These improvements include a rehabilitated bio-filter, new bar screen, and new CMU wall and gates. This lift station consists of a wet well with (3) 60-HP submersible pumps and corresponding piping, SCADA, a valve vault with corresponding piping, an office, and a yard hydrant. The City rates this facility and components as in good condition and does not require any improvements at this time.

North Date Street Lift Station Site Assessment:

The North Date Lift Station is located on the far North end of the city near I-25, serving more businesses than residents. It currently includes a wet well with (2) 10-HP submersible pumps, SCADA, a valve vault, and a pump control panel with corresponding fittings and valves. Improvements completed in 2019 include a new swing gate around the lift station, and rehabilitation to the wet well. It is rated by the City as in fair condition and does not require any improvements at this time.

WWTP Lift Station #1-Headworks Site Assessment:

Located at the headworks on the North side of the site, East of the solids processing pad. It receives influent from the City and discharges to the grit removal chambers. No recent improvements have been completed, it is rated by the City as in fair condition and does not require any improvements at this time.

WWTP Lift Station #2-Plant Drain Pump Station Site Assessment:

The second WWTP lift station is located on the East side of the site, receiving from the drain line in the UV chambers. No recent improvements have been completed. This lift station is in poor condition due to flooding and is in need of complete replacement. It is rated to be in poor condition.

ITEM	UNIT	QTY	UNIT PRICE	TOTAL PRICE
Furnish and Install Duplex Lift Station and matching Valve Vault	LS	1	\$150,000.00	\$150,000.00
Lift Station Pumps, 7.5 HP	LS	2	\$20,000.00	\$40,000.00
Building	SF	80	\$280.00	\$22,400.00
Lift Station Electrical Components,CIP	LS	1	\$2,250.00	\$2,250.00
			Total=	\$214,650.00

Figure 7:WWTP Drain Pump Lift Station Cost Estimate

WWTP Lift Station #3-Reuse Pump Station Site Assessment:

Located at the reuse pump station in the North-East corner of the WWTP. It provides reuse to the storage pond, and is in fair condition.

6.3 Vacuum Stations

Vacuum Stations are based on past engineering experience, past bids, and equipment quotes from an equipment supplier. Condition was based on the utility superintendent knowledge, record drawings and recent design analysis report completed for the rehabilitation of the station.

Riverside Street Vacuum Station Assessment:

The Riverside Vacuum Station provides sewer service to residents on North Riverside Street. This Service starts at Charlies Lane and goes East until Casa Rio Road. Overall, it can be said that the station is in poor condition but is still functional, due to the Utilities crew performing constant maintenance. 56 of the valve pits need constant repairs, and one vacuum and sewage pump are non-operational. One of each of the pumps still functions and 25 valve pits have been completely replaced including a new control panel.

ITEM	UNIT	QTY		JNIT PRICE	TOTAL PRICE
Vacuum Pump Equipment	EA		1	\$95,600.00	\$95,600.00
Sewage Pump Equipment	EA		1	\$47,800.00	\$47,800.00
Install new EAAC-Kit5 Remote Mount Sola	r.			1 March 1	1
EAAC Kit	EA		1	\$4,836.00	\$4,836.00
Can-Lite Active Odor Control Drum Filter	EA		1	\$449.00	\$449.00
			1000	Total =	\$148,685.00

Figure 8: Riverside St Vac Station Estimate

6.4 Wastewater Treatment Plant

Located in the Southwest corner of the city on Radium Street, the TorC Wastewater Treatment Plant is the only treatment plant and serves the entire city. The estimates, seen below in **Figure 9**, are based on past engineering experiences, past bids, and equipment quotes from an equipment supplier. In general, the treatment plant is functional and in fair condition with some major equipment replacements and improvements completed in 2019. Those improvements included construction of a new aerobic digesters that includes blowers, air diffuser equipment, controls, air piping, and valves.

Although some operational improvements have been made, portions of the plant and specific equipment are either in need of immediate repair or are near the end of their useful life. The weirs in the clarifier and the floating aerator are in need of repairs, as well as needing to implement an increased water tight UV system. The grit removal and aeration rotor are nonfunctional at this time and are in need of replacement.

ITEM	UNIT	QTY	UNIT PRICE	TOTAL PRICE
Mammoth Rotors	EA	6	\$21,000.00	\$126,000.00
Grit Removal	EA	1	\$10,500.00	\$10,500.00
Concrete Drying Bed	EA	4	\$68,500.00	\$274,000.00
Bar Screen & Rake Replacement	EA	1	\$500,000.00	\$500,000.00
			Total=	\$910,500.00

Figure 9:WWTP Estimate

7 Level of Service

The City of Truth or Consequences Level of Service Agreement outlines the goals and responsibilities of the utility. The City aims to maintain high standards for the continued operation of its wastewater facilities and utility service. Developing a level of service agreement along with the implementation of this AMP will help with keeping the system in working order and satisfy customers. The following goals are posted on the City's website.

The goals of the wastewater department are the following:

Goal	Target Level	Measuring Frequency	Met (Y or N)	Comments
Compliance with Federal, State and Local Regulations	Pass	Agency Dependent	Y	
Evaluate growth of community vs. WWTP capacity	1.06 MGD	Monthly		
Reduce amount of sewer back-ups	5	Monthly		
Have fewer than 3 complaints in a month.	5	Monthly		
Maintain wastewater infrastructure and	Daily Monitoring /Replace failed	Bi-Weekly	Y	

replace failed components in a timely manner to avoid customer dissatisfaction and environmental accidents.	components within 48 hours.			
Always give customers at least 48 hours notice of any scheduled outages	48 hours notice	Project Specific	Y	
Communicate with customers of upcoming major projects	As needed	As Needed	Y	

8 Condition and Risk Assessments of Assets

Generally, the entire collection system is at Low risk (due to a combination of a low CoF and/or good condition). The only high-risk assets are at the treatment plant, the lift station and the repairs mentioned before. Low and Medium risk assets are generally of least concern compared to the more critical assets. See **Figure 10** for a general distribution of all asset risk levels. The relatively low number of "extreme" risk assets is due to the fact that assets with a high CoF are generally fairly maintained, as they are either obvious Single Points of Failure, or located within busier parts of town.

The risk level is determined by multiplying the CoF score and Condition Score together to determine the total risk (See section 4.3, "Basis of Evaluation" for more detail). The risk scores can be heavily impacted by having a low CoF score; so while an asset may have a Poor (or Very Poor) condition score and require immediate replacement, it is still possible to have a relatively low "Risk" score. These low risk poor condition assets should not be ignored when considering what portions of the system require replacement or rehabilitation. See **Figure 11** for a full-system condition assessment. Generally, the system is in adequate condition.

8.1 Sewer System Asset Risk and Condition Levels

Condition

The sewer collection system can be classified as being in Fair to Poor condition, based on the City's utility department operator information. A significant portion of the system is classified as "unknown condition", due to manholes that either cannot be accessed due to being paved over or have not been accessed in a long time leading to a lack of operation knowledge about them. These manholes are assumed to be in Fair condition. See **Figure 11** for the full breakdown of the current system condition. The percentage breakdown includes the total linear foot of sewer lines and the total number of manholes corresponding to that condition category.

Sewer Collection System					
La cardina de las	Lines	Manholes	Total		
Excellent	0	0	0		
Good	139	29	168		
Fair	462	479	941		
Poor	131	89	220		
Very Poor	30	3	33		
Unknown	144	44	188		
Risk	Lines	Manholes	Tota		
Low	711	552	1263		
Medium	144	45	189		
High	21	1	22		
Extreme	0	0	0		

Figure 10:Risk and Condition Levels

Figure 11:Full System Condition Level

Risk

The high risk manholes and collection lines in the sewer system are generally located in critical areas, **Figure 12** has a breakdown of collection system categories, risk levels, as well as condition levels. The percentage breakdown includes the total linear foot of sewer lines and the total number of manholes corresponding to that risk category. As the AMP is updated and refined, and additional information is added, the risk levels will need to be constantly re-evaluated to determine critical areas in the system.

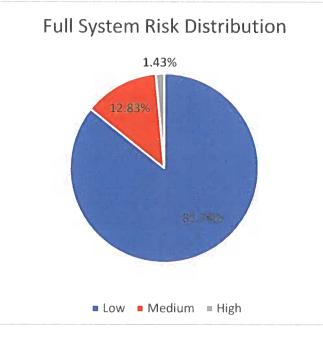

Figure 12: System Risk Distribution

Sewer Facility Risk and Condition Levels:

The sewer facilities evaluated in this report are generally low risk with the exception of the WWTP influent lift station, which is in poor condition and in need of replacement. This facility is still in operation despite the poor condition, and is a single point of failure in the system. The remaining lift stations either have a relatively low CoF due to low amount of flow, or are newly installed and in excellent condition. See **Figure 13** for Lift Station risk and condition levels.

Sewer	Facilities
Condition	Lift Stations
Excellent	2
Good	9
Fair	Ō
Poor	2
Very Poor	0
Unknow	0
Risk	Lift Stations
Low	11
Medium	2
High 💋	0
Extreme	0

City of Truth or Consequences, NM Asset Management Plan

9 Asset Financials and Capital Improvements Plan

9.1 Utility Budget

Wilson & Company has analyzed the anticipated upcoming expenses, within the next 10 years, based on an analysis of financial data provided by the City of Truth of consequences for 2017 through 2020. Future expenses were calculated by adjusting the current values for inflation at 2.8% based on the current annual inflation rate set by the BLS. See **Figure 14** on the next page for a yearly breakdown of expenses for the sewer system. The budget numbers show enough funding to largely self-fund minor upgrades and system maintenance, larger system upgrades will require grant or loan money to complete.

Year	Expenses (SAS)	Income Sewer	Rate Increase	Total Income	Net Revenue/Yr
2017	\$ (774,845.00)	\$ 1,022,161.00		\$ 1,022,161.00	\$ 247,316.00

Figure 14:City of Truth or Consequences Wastewater Budget

9.2 Capital Improvements Schedule

Utilizing the asset management database developed in the previous sections of the report, Wilson & Company has developed a replacement schedule for all assets in the system based on estimated age. The majority of the manholes and collection lines are in good condition, still many years from reaching their estimated life span. **Figure 15** below shows the estimated costs for each type of risk category based on the estimates from previous sections.

Recommended replacement dates are all based on a combination of factors, including asset useful life, condition and risk category. For instance, the components listed for immediate replacement are due to their poor condition and single point of failure. Their high probability of failure would also leave a large portion of the City either without service or unable to bypass flows leading to possibly wastewater spills.

ASSET	QTY	COST
High Risk Items (II	mmediately)	
Lift Station (WWTP)	1	\$176,650.00
Vacuum Station(Riverside)	1	\$148,685.00
Wastewater Treatment Plant Equipment	1	\$805,500.00
Manholes	1	\$25,980.00
a han di kanadan na di kana da sa sakanad di ka di kana di kanada ana Katata Tata ang sana di kanada na di kanada kanada kata di	Total=	\$1,156,815.00
Medium Risk and "Poor" Cond	lition Items (5-10 Years)	
Collection Lines	131	\$14,015,295.80
Manholes	89	\$356,322.01
	Total=	\$14,371,617.81
Medium Risk and "Fair" Condi	tion Items (10-15 Years)	
Collection Lines	462	\$40,217,808.57
Manholes	479	\$1,334,460.30
	Total=	\$41,552,268.87
Low Risk and "Good" Condit	ion Items (15-20 Years)	All Contractions
Collection Lines	139	\$12,100,163.19
Manholes and a second	29	\$80,791.95
	Total=	\$12,180,955.14

Figure 15: Cost Estimate based on Risk

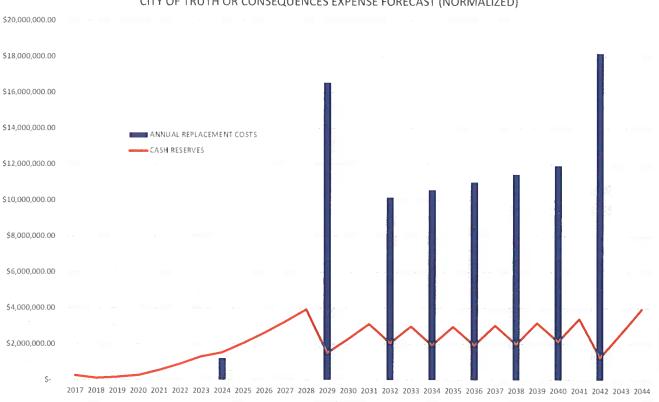

9.3 Capital Improvements Forecast

The following two Figures, **Figure 16** and **Figure 17** depict the potential expense forecast for future capital improvements. The forecast considers the net revenue available from the wastewater enterprise fund assuming the 2.8% increase in expenses per year with a 5 .0% increase in rates per year. The improvement cost estimates from **Figure 15** have been utilized, including a 2.0% per year increase to account for inflation. Based on the large capital costs required for these improvements, it is likely that the City would pursue a combination of state and federal funding sources. Based on this forecast, the City would need to secure a minimum of 81% in grants for each project in order to ensure a positive change in net position each year.

	Replacement Total (SAS)	Replacement Cost @ 2.0% Inflation/Year	let Income:	Surplus:		Grant Funding L% of Proj. Cost)	R	unning Total:
2017			\$ 247,316.00	\$ 247,316.00	1112.0		\$	247,316.00

Figure 16: Expense Forecast Table (Normalized)

CITY OF TRUTH OR CONSEQUENCES EXPENSE FORECAST (NORMALIZED)

Figure 17: Expense Forecast Graph (Normalized)

9.4 System Income

The system is funded entirely by metered rate payers paying at rates shown below (Figure 18). Based on Figure 17, rates are currently set at an acceptable level, and should be maintained with a minimum of a 3% rate increases per year, adjusted as necessary based on surpluses or expenses (this is in line with past rate increases). For supporting smaller projects and repairs these rates should be sufficient. For larger projects, grant or loan monies may be necessary, see Figure 19 for typical requirements for each funding source. The optimal funding source will need to be evaluated on a case-by-case basis. The best funding source will vary based on the economy, the project, which funding agency has money available, if funding requirements can be met, and other factors.

WILSON &COMPANY

10 Recommended Capital Improvement Projects

Based on information gathered in this report, 3 improvement project areas have been identified for immediate implementation. The WWTP lift station, the treatment plant itself, and the vacuum sewer on Riverside Street.

10.1 WWTP Lift Station

As reported by the City's crew, the lift station located at the wastewater treatment plant is in poor condition. This structure is a single point of failure and can cause a back-up of the entire system if it were to fail. It's failure leads to major backups, environmental hazards, and taxing conditions for the utilities crew.

10.2 WWTP

The treatment plant is functional, but portions of the plant and specific equipment are either in need of immediate repair or are near the end of their useful life. The weirs in the clarifier and the floating aerator are in need of repairs, the grit removal and aeration rotor are nonfunctional and need to be replaced. To avoid future problems an increased watertight UV system needs to be implemented.

10.3 Vacuum Station

The station is in poor condition but is still functional, due to the Utilities crew performing constant maintenance. 56 valve pits, one sewage pump, and one vacuum pump need to be replaced. Odor control also needs to be implemented. Its failure leads to many residents not having proper service and taxing conditions for the utilities crew.

11Conclusions and Recommendations

11.1 Current Rehabilitation and Maintenance

It is recommended that the City continue their proactive approach to maintenance and use (and improve) the asset inventory to identify maintenance projects that can be done to prolong the life of assets, or prevent problems before they happen. To implement this, it is essential to keep a good inventory of assets to generate work orders and prioritize maintenance items. As more information is input into the Asset Management database and it becomes more accurate (a large portion of the data is based on institutional knowledge and needs verification) it will become a self-improving tool to manage system maintenance, identify Capital Improvement Projects, and provide a solid justification to funding agencies.

11.2 Sewer System Asset Management

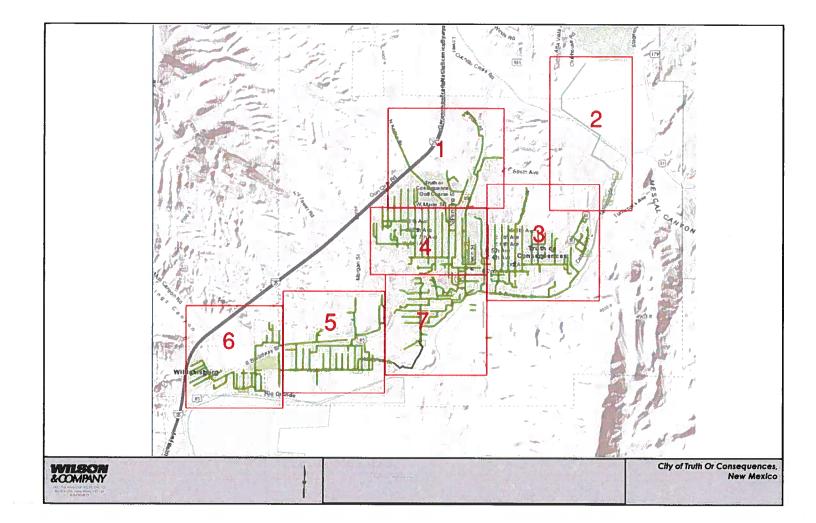

It is recommended that the City of Truth or Consequences has recently acquired GIS software to integrate the GIS data developed in this report into an asset management program of the City's choice. Asset management software is essential for maintaining the database and keeping it up to date, as well as for producing work orders and maintenance schedules for individual assets. An accurate and current system map is helpful for identifying large capital improvement projects and providing backup justification for funding agencies.

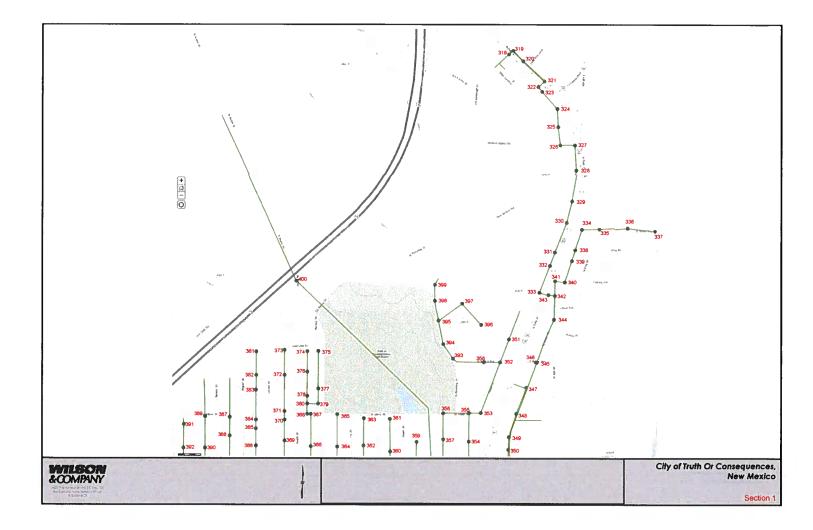

11.3 Capital Improvement / System Financials

Financially, the rates set by the City of Truth or Consequences are acceptable for the size of their system and region. It is recommended that the City continue to review their current rate schedule on a regular basis and continue a modest yearly rate increases to account for inflation and increase in O&M Costs at a minimum. The rates currently include the ability to fund a reserve capable of self-financing small projects within the system to address critical problems and to be utilized as a match component when seeking state and/or federal funding for larger capital projects. No changes to the current rate schedule or reserve are recommended at this time.

APPENDIX D

SUPPORTING DOCUMENTS

RESOLUTION NO. 21 20/21

AUTHORIZING ADOPTION OF RESOLUTION NO. 21 20/21; MUNICIPAL WASTEWATER ASSET MANAGEMENT PLAN FOR THE CITY OF TRUTH OR CONSEQUENCES

WHEREAS, the City Commission of the City Truth or Consequences is a legally and regularly created, established, organized, and existing city under the general laws of the State of New Mexico and more specifically, Section 3-45-5, NMSA 1978, as amended and supplemented; and

WHEREAS, the Governmental Unit applied on March 16, 2020 to the New Mexico Finance Authority (the "Finance Authority") for partial financing of the development of an asset management plan (the "Plan") with a grant from the local government planning fund (the "Fund") established pursuant to Section 6-21-6.4, NMSA 1978, as amended and supplemented; and

WHEREAS, the Governmental Unit's request for partial financing of the Plan with a grant from the Fund was approved by the Board of Directors of the Finance Authority on May 28, 2020; and

WHEREAS, the Governmental Unit has commenced the development of the Plan; and

WHEREAS, pursuant to its rules and policies, the Finance Authority requires certain action be taken by the Governmental Unit prior to closing and disbursing the grant amount to the Governmental Unit from the Fund, including adopting a resolution committing to the development and implementation of the Plan, affirming use of the Manual in the development and implementation of the Plan, and designating an asset management steering committee; and

WHEREAS, the Governmental Unit desires to take all necessary action as required by the Finance Authority in order to be eligible to receive the grant amount from the Fund.

NOW THEREFORE, BE IT RESOLVED THAT, the Governing Body of the City of Truth or Consequences, New Mexico, hereby ratifies and authorizes the development and implementation of The Plan; use of The Manual; and approves that City Manager Morris Madrid is hereby designated as the City's representative and is authorized as signatory authority and has designated the City Clerk as signatory in his absence and shall work with staff to execute, sign, and submit required documentation. This Resolution after its adoption may be amended without receipt by the Governmental Unit of any additional consideration, but only with the prior consent of the Finance Authority. If any section, paragraph, clause or provision of this Resolution shall for any reason be held to be invalid or unenforceable, the invalidity or unenforceability of such section, paragraph, clause or provision shall not affect any of the remaining provisions of the Resolution. All bylaws, orders, resolutions, ordinances, or parts thereof, inconsistent herewith are hereby repealed, but only to the extent of such inconsistency. This repealer shall not be construed to revive any by-law, order, resolution, or ordinance, or part thereof, heretofore repealed.

PASSED, APPROVED AND ADOPTED this 18th day of November 2020.

Sandra Whitehead, Mayor

Asset Management IQ

Section I: General Asset Management

A. Is Asset Management terminology understood throughout the organization? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	No one within the organization understands terminology nor has any knowledge of Asset Management concepts. (0 points)
0	One person within organization understands Asset Management concepts and terminology. (1 point)
0	Less than 50% of the organization's personnel (a few key people within the organization) understand Asset Management concepts and terminology. (2 points)
	More than 50% of the organization's personnel understand Asset Management concepts and terminology. (3 points)
0	All ¹ of the organization's personnel understand Asset Management concepts and terminology. (4 points)
0	Throughout the entire organization personnel would be able to state what Asset Management is and understand Asset Management concepts and terminology. (5 points)

¹All refers to greater than 90% of the organization's personnel.

B. Does the organization have a clearly defined Asset Management Plan? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	The organization does not have a written Asset Management Plan nor a concept of what the plan would include. (0 points)
	The organization has a concept of the plan but has not written the plan. (1 point)
\bigcirc	The organization has written less than 50% of the plan. (2 points)
0	The organization has written more than 50% of the plan. (3 points)
0	The organization has a written plan but has not distributed it within the organization. (4 points)
0	The organization has a written plan and it is distributed throughout the organization.(5 points)

F-2

C. Is Asset Management fully embraced by the elected officials or governing body of the organization? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

\bigcirc	The governing body opposes Asset Management. (0 points)
0	The governing body does not understand Asset Management, but is not opposing it. (1 point)
0	The governing body is aware of Asset Management, but is not yet ready to provide support. (2 points)
\bigcirc	The governing body supports Asset Management in general but has not mandated it for the organization in any way. (3 points)
0	The governing body has passed a resolution or has otherwise mandated asset Management and provides some support for the organization's Asset Management efforts, but has not provided sufficient funding for Asset Management and/or is not yet making decisions using Asset Management principals. (4 points)
	The governing body has passed a resolution or has otherwise mandated asset management and fully supports the organization's Asset Management efforts, including providing the funding for Asset Management and making decisions using Asset Management principals. (5 points)

D. Does the organization have a strategy for communicating the Asset Management strategy throughout the organization? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

_	
0	The organization has no strategy for communicating Asset Management throughout the organization. (0 points)
0	The organization has some ideas for communicating Asset Management but has not documented or implemented any of them. (1 point)
0	The organization has a written strategy and has implemented less than 50% of the communication strategies. (2 points)
	The organization has a written strategy and has implemented more than 50% of the communication strategies. (3 points)
0	The organization has a written communication strategy to share information with all levels of staff and it is fully implemented. (4 points)
0	The organization has a written communication strategy to share information with all levels of staff, it is fully implemented and feedback has been received. (5 points)

E. Does the organization have an overarching goal or mission statement for Asset Management? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	The organization does not have an overarching goal or mission statement. (0 points)
0	The organization recognizes the need for an overarching goal or mission statement but has not yet begun working on it. (1 point)
0	The organization is working on an overarching goal or mission statement. (2 points)
0	The organization has an overarching goal or mission statement for Asset Management that is accepted by the governing body, but it is not known at all levels of the organization, and is not clearly communicated to the public. (3 points)
0	The organization has an overarching goal or mission statement for Asset Management that is accepted by the governing body, and is known at all levels of the organization, but it is not clearly communicated to the public. (4 points)
•	The organization has an overarching goal or mission statement for Asset Management that is accepted by the governing body, known at all levels of the organization, and it is clearly communicated to the public. (5 points)

17	Your score for this section
17	Your cumulative score

Section II: Current State of the Assets

A. Does the organization have an asset inventory? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	There is no inventory of the assets of any kind. (0 points)
0	There is a limited asset inventory with no plans to complete the inventory. (1 point)
0	The organization is working towards a complete asset inventory with less than 50% of assets presently included. (2 points)
0	The organization is working towards a complete asset inventory with more than 50% of assets presently included. (3 points
0	There is a complete ¹ asset inventory of the organization's assets and it is used throughout the organization. The asset inventory is not done in a hierarchical structure or the inventory does not include the basic minimum attributes for the majority of the assets - asset ID, asset name, location, condition, useful life, replacement value, energy usage (if any,) probability of failure rating, and consequence of failure rating. (4 points)
	There is a complete ¹ asset inventory of the organization's assets and it is used throughout the organization. The asset inventory is done in a hierarchical structure. The asset inventory includes the following minimum attributes for the majority of the assets: asset ID, asset name, location, condition, useful life, replacement value, energy usage (if any,) probability of failure rating, and consequence of failure rating. (5 points)

Complete refers to greater than 90% of the assets

B. Does the organization have a map of asset locations? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	The organization does not have any type of map of asset locations. (O points)
0	The organization has some limited mapping with no plans to produce a complete systems map. (1 point)
0	The organization is working towards a complete map of the system with less than 50% of the current system presently mapped. (2 points)
0	The organization is working towards a complete map of the system with more than 50% of the system presently mapped. (3 points)
	The organization has a comprehensive map of the entire system. It is not linked to the asset inventory data. (4 points)
0	The organization has a comprehensive map of the entire system. It is in a GIS system that is linked to the asset inventory data. (5 points)

C. Does the organization have a process for condition assessment? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	The organization has no process to assess the condition of the assets. (0 points)
0	The organization has a process to assess the condition of the assets, but has not yet begun the process. (1 point)
0	The organization has assessed the condition of less than 50% of the assets. (2 points)
0	The organization has assessed the condition of more than 50% of the assets but has not recorded the information as part of the asset inventory. (3 points)
	The organization has assessed the condition of more than 50% of the assets and the condition results are recorded in the inventory system. (4 points)
0	The organization has assessed the condition of every ¹ asset in the inventory and has recorded these condition results along with the asset inventory. (5 points)

¹Every refers to greater than 90% of the assets

D. Does the organization have a means of estimating useful life? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	The organization has no means to estimate the useful life of assets. (0 points)
0	The organization has developed a process to establish the useful life of the assets, but has not yet begun to use the process. (1 point)
0	The organization has established the useful life of less than 50% of the assets. (2 points)
0	The organization has established the useful life of more than 50% of the assets but has not recorded the information as part of the asset inventory. (3 points)
	The organization has established the useful life of more than 50% of the assets and has recorded the information as part of the asset inventory. (4 points)
0	The organization has established the useful life of every ¹ asset in the inventory and has recorded these results along with the asset inventory. (5 points)

¹Every refers to greater than 90% of the assets

E. Has the organization determined asset replacement values? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	The organization has not determined any asset replacement values. (0 points)
0	The organization has developed an approach for determining replacement values but has not yet implemented it. (1 point)
0	The organization has estimated the asset replacement values for less than 50% of the assets. (2 points)
0	The organization has established the replacement value of more than 50% of the assets but has not recorded the information as part of the asset inventory.(3 points)
	The organization has established the replacement value of more than 50% of the assets and has recorded the information as part of the asset inventory. (4 points)
0	The organization has established the replacement value of every ¹ asset in the inventory and has recorded these results along with the asset inventory. (5 points)

¹Every refers to greater than 90% of the assets

21	Your score for this section
38	Your cumulative score

Section III: Level of Service

A. Does the organization have a means of communicating to the customers, including communicating the goals of the Level of Service? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	The organization does not communicate with the customers. (0 points)
0	The organization communicates through notices on billing statements, but does not inform the public of the Level of Service goals. (1 point)
0	The organization has done surveys or sought public input about Asset Management in general, but has not informed the public of the Level of Service goals or progress towards meeting those goals. (2 points)
0	The organization has a minimal program to inform customers of the Level of Service goals, but does not inform the public of progress towards meeting those goals. (3 points)
0	The organization has an active program to inform customers of the Level of Service goals and progress towards meeting those goals, but has no feedback mechanism for the customers to provide information to the organization. (4 points)
	The organization has an active program to inform customers of the Level of Service goals and progress towards meeting those goals, and has a feedback mechanism for the customers to provide information to the organization. (5 points)

B. Does the organization have clearly defined Level of Service goals and are they aligned with customer expectations/desires?
(Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	The organization does not have specific goals. (0 points)
0	The organization has goals but they are not written. (1 point)
0	The organization has some written goals but this process is not fully complete. Goals were not aligned with customer expectations/desires. (2 points)
0	The organization has clearly defined, written goals for the organization. They are well-known throughout the organization. They were not aligned with customer expectations. (3 points)
	The organization has clearly defined, written goals for the organization. They are well-known throughout the organization. One or two goals were aligned with customer expectations. (4 points)
0	The organization has clearly defined, written goals for the organization. They are well-known throughout the organization. All goals were aligned with customer expectations. (5 points)

F-8

C. Does the organization meet current regulatory requirements and, if not, does it have a plan to meet these requirements in the future? Does the organization anticipate future regulatory requirements and their impact on operations and infrastructure needs? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	The organization does not meet current regulatory requirements and currently has no plan to meet them in the future. (O points)
0	The organization does not meet current regulatory requirements, but has a plan to meet them in the future. (1 point)
0	The organization meets current regulatory requirements or has a plan to meet these requirements and has just begun to investigate future regulatory requirements. (2 points)
0	The organization meets current regulatory requirements or has a plan to meet these requirements and knows which and how future regulatory requirements are likely to impact the organization. (3 points)
0	The organization meets current regulatory requirements or has implemented a plan to meet these requirements. The organization has a clear plan to address the infrastructure and operational impacts of future regulatory requirements. (4 points)
	The organization meets current regulatory requirements and has a clear plan to address the infrastructure and operational impacts of future regulatory requirements. (5 points)

D. Does the organization measure progress towards meeting the goals of the Level of Service? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	The organization does not have specific goals. (0 points)
0	The organization has a written set of Level of Service goals but does not measure progress towards meeting the goals. (1 point)
0	The organization has a written set of Level of Service goals and measures progress towards the goals on an ad-hoc or non-routine basis. (2 points)
0	The organization has a written set of Level of Service goals and measures progress towards goals on a defined, routine, periodic basis. There is no regular process to adjust the goals, make improvements or otherwise address the lack of meeting the goals. (3 points)
0	The organization has a written set of Level of Service goals and measures progress towards goals on a defined, routine, periodic basis. There is a process in place to regularly adjust the goals, make improvements or otherwise address the lack of meeting the goals. The progress towards goals is not communicated to the governing body of the organization. (4 points)
	The organization has a written set of Level of Service goals and measures progress towards all goals on a defined, routine, periodic basis. The measurements are used to adjust goals, make improvements, and determine the progress of the organization. Progress towards goals is communicated to the governing body of the organization, who uses this information in decision-making processes. (5 points)

E. Does the organization analyze current and anticipated customer demands, including planning for future growth or population decline? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	The organization does not analyze current or anticipated customer demands. (0 points)
0	The organization analyzes current demands but not anticipated demands. (1 point)
0	The organization analyzes current and future demands, and uses the information to plan infrastructure investments to accommodate future growth or population decline. Planning is for less than a 5 year horizon. (2 points)
0	The organization analyzes current and future demands, and uses the information to plan infrastructure investments to accommodate future growth or population decline. Planning is for a 5 to 9 year horizon. (3 points)
•	The organization analyzes current and future demands, and uses the information to plan infrastructure investments to accommodate future growth or population decline. Planning is for a 10 – 19 year horizon. (4 points)
0	The organization analyzes current and future demands, and uses the information to plan infrastructure investments to accommodate future growth or population decline. Planning is for a 20 year or longer horizon. (5 points)

23	Your score for this section
61	Your cumulative score

Section IV: Assets Critical To Sustained Performance

A. Does the organization have a process to assess the probability of failure of assets? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

The organization has developed a process for establishing the probability of failure but has not yet begun to use it. (1 point)
The organization has established the probability of failure for less than 50% of the assets. (2 points)
The organization has established the probability of failure for more than 50% of the assets. (3 points)
The organization has established the probability of failure for all1 of the assets. (4 points)
The organization has established the probability of failure for all ¹ of the assets and uses the information in operating and managing the system. (5 points)

B. Does the organization have a process to assess the consequence of asset failure? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	The organization has no process to assess the consequence of failure of the assets. (0 points)
0	The organization has developed a process for establishing the consequence of failure but has not yet begun to use it. (1 point)
0	The organization has established the consequence of failure for less than 50% of the assets. (2 points)
	The organization has established the consequence of failure for more than 50% of the assets. (3 points)
0	The organization has established the consequence of failure for all1 of the assets. (4 points)
0	The organization has established the consequence of failure for all ¹ of the assets and uses the information in operating and managing the system. (5 points)

C. Does the organization have a process to rank assets according to the likelihood and consequences of asset failure (i.e. according to "overall risk")? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	The organization has no process to rank assets according to overall risk. (0 points)
0	The organization has some limited ranking of assets according to overall risk with no plans to put in place a system for ranking all assets. (1 point)
0	The organization has developed a process to rank assets according to risk and is working towards ranking all assets with less than 50% of them presently ranked. (2 points)
	The organization has developed a process to rank assets according to risk and is working towards ranking all assets with more than 50% of them presently ranked. (3 points)
0	The organization has ranked all ¹ of the assets according to risk but is not yet using this information in the process of operating and managing the system. (4 points)
0	The organization has ranked all ¹ of the assets according to risk and using this information in operating and managing the system. (5 points)
A	Il refers to greater than 90% of the assets

D. Do the likelihood and consequences of asset failure (i.e. the "overall risk") drive asset investment decisions?

(Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	The organization does not use risk to drive investment decisions. (0 points)
0	The organization is in the discussion stages regarding whether to use overall risk to drive asset investment decisions but has not yet started any activities in this area. (1 point)
0	The organization is developing an approach in which risk will drive asset investment decisions. (2 points)
0	The organization has completed development of a program for overall risk to drive asset investment decisions, but has not yet implemented it. (3 points)
0	The organization has a plan for how overall risk drives asset investment decisions and it is implemented. The risk ranking only plays a small role in the asset investment decision-making process for the organization. (4 points)
	The organization has a plan for how overall risk drives asset investment decisions and it is implemented. The risk ranking process is fully integrated into the asset investment decision-making process and overall risk plays a key role in the process. (5 points)

F-12

E. Does overall risk drive asset operation and maintenance (O&M) decisions? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	The concept of overall risk is not used to drive O&M decisions. (0 points)
0	The organization is considering using overall risk to drive O&M decisions. (1 point)
0	The organization is developing an approach in which risk will drive asset O&M decisions. (2 points)
0	The organization has completed development of a program for overall risk to drive asset O&M decisions, but has not yet implemented it. (3 points)
0	The organization has a plan for how overall risk drives asset O&M decisions and it is implemented. Not all decisions are yet based on this approach. (4 points)
	The organization has a plan for how overall risk drives asset O&M decisions and it is implemented. All decisions are based on this approach. (5 points)

19	Your score for this section
80	Your cumulative score

Section V: Life Cycle Cost

A. Is the organization moving from reactive maintenance to planned or predictive maintenance? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	The organization does not assess reactive vs. planned maintenance in any way. (O points)
0	The organization is developing a process to track reactive versus planned maintenance. (1 point)
0	The organization is currently implementing a process to track reactive versus planned maintenance. (2 points)
0	The organization's reactive versus planned predictive maintenance is currently being tracked. There is insufficient data to determine if there have been any improvements. (3 points)
	The organization's reactive versus planned predictive maintenance is tracked. Improvement in the ratio of reactive to planned maintenance has occurred. However, it is not yet in line with the industry best practice of 80% planned/predictive maintenance and 20% reactive maintenance. (4 points)
0	The organization's reactive versus planned predictive maintenance is tracked and it is in line with the industry best practice of 80% planned/predictive maintenance and 20% reactive maintenance. (5 points)

B. Does the organization have a program to fully consider all aspects of Life Cycle Costing when making infrastructure investment decisions, including initial capital cost, operation and maintenance, repair, and disposal? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	The organization only considers capital cost when making infrastructure investment decisions. (0 points)
C	The organization sometimes considers Life Cycle Costs when making infrastructure investment decisions. Doing so is not part of a standard process. (1 point)
0	The organization is developing a process to consider Life Cycle Costs but has not yet implemented it. (2 points)
C	The organization has developed a process to fully consider all aspects of Life Cycle Costing and has tested it on a few asset investment decisions. (3 points)
	The organization is implementing a process to fully consider all1 aspects of Life Cycle Costing on all ¹ asset investment decisions. The process is not yet used for all ¹ investment decisions. (4 points)
	All1 asset investment decisions are made using a process that fully considers all ¹ aspects of Life Cycle Costing. (5 points)

C. Does the organization have a long-term Capital Improvement Plan? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

-	
0	The organization does not have a long-term Capital Improvement Plan. (0 points)
0	The organization has a Capital Improvement Plan for the current year only.(1 point)
0	The organization has a Capital Improvement Plan that covers less than5 years of future needs. (2 points)
0	The organization has a long-term Capital Improvement Plan that covers 5 to 9 years of future needs. (3 points)
0	The organization has a long-term Capital Improvement Plan that covers 10-19 years of future needs. (4 points)
	The organization has a long-term Capital Improvement Plan that covers 20 years or longer of future needs. (5 points)

D. Does the organization have a validation¹ process for its capital projects that includes consideration of non-asset solutions as well as non-traditional approaches (i.e., green infra-structure, decentralized treatment, water conservation to reduce need for new sources)? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	The organization does not have a validation process and does not consider non-asset solutions nor non-traditional approaches. (0 points)
0	The organization sometimes investigates non-asset solutions or non-traditional approaches when evaluating capital projects. Doing so is not part of a standard validation process. (1 point)
0	The organization is developing a validation process for capital projects, but has not yet implemented it. (2 points)
0	The organization has developed a validation process for capital projects including the consideration of non-asset solutions or non-traditional approaches when evaluating capital projects. The process has been tested on a few capital projects. (3 points)
0	The organization is implementing a validation process that includes the consideration of non-asset solutions and non-traditional approaches. The validation process is not yet used for all capital projects. (4 points)
	All capital projects (or all projects greater than a set cost threshold) undergo a validation process that includes the consideration of non-asset solutions and non-traditional approaches. (5 points)

¹Validation means objectively looking at capital projects to determine if the proposed capital project is necessary, cost effective, and the appropriate solution. This process involves documenting potential operation and maintenance activities that could forestall the need for a capital project, examining a wide range of alternative approaches, and ensuring that the scope of the proposed project is appropriate.

E. Does the organization have a program to analyze the use of operation and maintenance processes to extend the life of the existing assets? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	The organization has no program to analyze the use of operation and maintenance processes to extend the life of the existing assets. (0 points)
0	The organization is currently developing a program to analyze the use of operation and maintenance processes to extend the life of the assets. (1 point)
0	The organization has a simple program to analyze the use of operation and maintenance processes to extend the life of existing assets. The organization has not yet used operation and maintenance practices to extend the life of assets. (2 points)
0	The organization has a simple program to analyze the use of operation and maintenance processes to extend the life of existing assets. The organization has used operation and maintenance practices to extend the life of assets when appropriate. (3 points)
0	The organization has a robust program to analyze the use of operation and maintenance processes to extend the life of existing assets. The organization has not yet used operation and maintenance practices to extend the life of assets. (4 points)
	The organization has a robust program to analyze the use of operation and maintenance processes to extend the life of existing assets. The organization has used operation and maintenance practices to extend the life of assets when appropriate. (5 points)

24	Your score for this section
104	Your cumulative score

Section VI: Financing

A. Does the organization maintain reserve funds/accounts? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	The organization maintains no reserve accounts. (O points)
0	The organization maintains one reserve account but it is not adequately funded. (1 point)
0	The organization maintains one reserve account and it is adequately funded for the purpose for which it was established. (2 points)
0	The organization maintains 2 reserve accounts (or a reserve account that satisfies 2 needs) and the reserve accounts are adequately funded. (3 points)
0	The organization maintains 3 reserve accounts (or a reserve account that satisfies 3 needs) and the reserve accounts are adequately funded. (4 points)
	The organization maintains reserve accounts for: repairs and replacement, emergencies, debt repayment, and capital improvements. All accounts are adequately funded and monies are used from the funds as required. (5 points)

B. Does the organization have a plan to fund capital improvements for the long term? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	The organization has no plan to fund capital improvements over the long term. (O points)
0	The organization recognizes the need for a plan to fund long term capital improvements, but has not yet begun to work on it. (1 point)
0	The organization is working on a plan to fund long term capital improvements, but it is not complete.(2 points)
0	The organization has a plan that considers funding needed for capital improvements over the next 5 to 9 years. The plan includes all sources of funding necessary. (3 points)
0	The organization has a plan that considers funding needed for capital improvements over the next 10 to 19 years. The plan includes all sources of funding necessary. (4 points)
۲	The organization has a plan that considers funding needed for capital improvements over 20 years or more. The plan includes all sources of funding necessary. (5 points)

C. Does the organization target its rates and other revenue streams to adequately fund all long term costs, including both operations and maintenance (O&M) and capital investment/capital debt needs?
 (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	The organization's rates and other revenue streams are not set based on anticipated expenses. (O points)
0	The organization's rate structure and other revenue streams are set to cover ongoing operation and maintenance expenses, but do not take other expenses into account. (1 point)
0	The organization's rate structure and other revenue streams are set to cover ongoing operation and maintenance expenses, as well as some extra revenue that is used for reserves and/or capital projects. The extent of revenue that is above O&M expenses is not tied to specific goals for funding reserves or capital projects. (2 points)
0	The organization's rate structure and other revenue streams are set to cover ongoing operation and maintenance expenses, as well as a targeted amount above that for funding reserves or capital projects. The target is not based on an assessment of long term asset investment needs. (3 points)
0	The organization's rate structure and other revenue streams are set to cover ongoing operation and maintenance expenses, as well as a targeted amount above that for funding reserves or capital projects. The target is based on an assessment of asset investment needs for the next 5 years or less. (4 points)
	The organization's rate structure and other revenue streams are set to cover ongoing operation and maintenance expenses, as well as a targeted amount above that for funding reserves or capital projects. The target is based on an assessment of asset investment needs longer than the next 5 years. (5 points)

D. Is investment in assets prioritized based on overall business risk? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

· ·	
0	Investments in assets are not based on overall business risk. (0 points)
0	The organization recognizes the need to make asset investments based on overall business risk, but has not yet begun to develop a process to implement this process. (1 point)
0	The organization is developing a process to make asset investments based on overall business risk. (2 points)
0	Some asset investments are prioritized based on the overall business risk to the organization. (3 points)
	The majority of asset investments are prioritized based on the overall business risk to the organization. (4 points)
0	All asset investments are prioritized based on the overall business risk to the organization. (5 points)

E. Does the organization provide a program for disadvantaged customers so that adequate rates are possible? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	The organization does not provide any programs for disadvantaged customers. (O points)
0	The organization is conducting an analysis to determine the need for a disadvantaged customer program. (1 point)
0	The organization has completed an analysis of the need for a disadvantaged program but has not developed the program. (2 points)
0	The organization is in the process of developing a program for disadvantaged customers. (3 points)
0	The organization has a program to provide for disadvantaged customers, but it has not yet been communicated to the customers. (4 points)
	The organization has a program to provide for disadvantaged customers, customers are fully aware of the program, and the organization provides outreach to help customers take advantage of the program. (5 points)

Asset Management IQ

Section I: General Asset Management

A. Is Asset Management terminology understood throughout the organization? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	No one within the organization understands terminology nor has any knowledge of Asset Management concepts. (0 points)
0	One person within organization understands Asset Management concepts and terminology. (1 point)
0	Less than 50% of the organization's personnel (a few key people within the organization) understand Asset Management concepts and terminology. (2 points)
	More than 50% of the organization's personnel understand Asset Management concepts and terminology. (3 points)
0	All ¹ of the organization's personnel understand Asset Management concepts and terminology. (4 points)
0	Throughout the entire organization personnel would be able to state what Asset Management is and understand Asset Management concepts and terminology. (5 points)
Constant in the second	All refers to greater than 0.0% of the organization's neuropeol

¹All refers to greater than 90% of the organization's personnel.

B. Does the organization have a clearly defined Asset Management Plan? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	The organization does not have a written Asset Management Plan nor a concept of what the plan would include. (0 points)
	The organization has a concept of the plan but has not written the plan. (1 point)
0	The organization has written less than 50% of the plan. (2 points)
0	The organization has written more than 50% of the plan. (3 points)
0	The organization has a written plan but has not distributed it within the organization. (4 points)
0	The organization has a written plan and it is distributed throughout the organization.(5 points)

C. Is Asset Management fully embraced by the elected officials or governing body of the organization? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

\bigcirc	The governing body opposes Asset Management. (0 points)
0	The governing body does not understand Asset Management, but is not opposing it. (1 point)
0	The governing body is aware of Asset Management, but is not yet ready to provide support. (2 points)
0	The governing body supports Asset Management in general but has not mandated it for the organization in any way. (3 points)
0	The governing body has passed a resolution or has otherwise mandated asset Management and provides some support for the organization's Asset Management efforts, but has not provided sufficient funding for Asset Management and/or is not yet making decisions using Asset Management principals. (4 points)
	The governing body has passed a resolution or has otherwise mandated asset management and fully supports the organization's Asset Management efforts, including providing the funding for Asset Management and making decisions using Asset Management principals. (5 points)

D. Does the organization have a strategy for communicating the Asset Management strategy throughout the organization? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	The organization has no strategy for communicating Asset Management throughout the organization. (0 points)
0	The organization has some ideas for communicating Asset Management but has not documented or implemented any of them. (1 point)
0	The organization has a written strategy and has implemented less than 50% of the communication strategies. (2 points)
	The organization has a written strategy and has implemented more than 50% of the communication strategies. (3 points)
0	The organization has a written communication strategy to share information with all levels of staff and it is fully implemented. (4 points)
0	The organization has a written communication strategy to share information with all levels of staff, it is fully implemented and feedback has been received. (5 points)

E. Does the organization have an overarching goal or mission statement for Asset Management? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	The organization does not have an overarching goal or mission statement. (0 points)
0	The organization recognizes the need for an overarching goal or mission statement but has not yet begun working on it. (1 point)
0	The organization is working on an overarching goal or mission statement. (2 points)
0	The organization has an overarching goal or mission statement for Asset Management that is accepted by the governing body, but it is not known at all levels of the organization, and is not clearly communicated to the public. (3 points)
0	The organization has an overarching goal or mission statement for Asset Management that is accepted by the governing body, and is known at all levels of the organization, but it is not clearly communicated to the public. (4 points)
	The organization has an overarching goal or mission statement for Asset Management that is accepted by the governing body, known at all levels of the organization, and it is clearly communicated to the public. (5 points)

Section II: Current State of the Assets

A. Does the organization have an asset inventory? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

	· · · · · · · · · · · · · · · · · · ·
0	There is no inventory of the assets of any kind. (0 points)
0	There is a limited asset inventory with no plans to complete the inventory. (1 point)
0	The organization is working towards a complete asset inventory with less than 50% of assets presently included. (2 points)
0	The organization is working towards a complete asset inventory with more than 50% of assets presently included. (3 points
0	There is a complete ¹ asset inventory of the organization's assets and it is used throughout the organization. The asset inventory is not done in a hierarchical structure or the inventory does not include the basic minimum attributes for the majority of the assets - asset ID, asset name, location, condition, useful life, replacement value, energy usage (if any,) probability of failure rating, and consequence of failure rating. (4 points)
	There is a complete ¹ asset inventory of the organization's assets and it is used throughout the organization. The asset inventory is done in a hierarchical structure. The asset inventory includes the following minimum attributes for the majority of the assets: asset ID, asset name, location, condition, useful life, replacement value, energy usage (if any,) probability of failure rating, and consequence of failure rating. (5 points)

Complete refers to greater than 90% of the assets

B. Does the organization have a map of asset locations? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	The organization does not have any type of map of asset locations. (0 points)
0	The organization has some limited mapping with no plans to produce a complete systems map. (1 point)
0	The organization is working towards a complete map of the system with less than 50% of the current system presently mapped. (2 points)
0	The organization is working towards a complete map of the system with more than 50% of the system presently mapped. (3 points)
	The organization has a comprehensive map of the entire system. It is not linked to the asset inventory data. (4 points)
0	The organization has a comprehensive map of the entire system. It is in a GIS system that is linked to the asset inventory data. (5 points)

C. Does the organization have a process for condition assessment? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	The organization has no process to assess the condition of the assets. (O points)
0	The organization has a process to assess the condition of the assets, but has not yet begun the process. (1 point)
0	The organization has assessed the condition of less than 50% of the assets. (2 points)
0	The organization has assessed the condition of more than 50% of the assets but has not recorded the information as part of the asset inventory. (3 points)
	The organization has assessed the condition of more than 50% of the assets and the condition results are recorded in the inventory system. (4 points)
0	The organization has assessed the condition of every ¹ asset in the inventory and has recorded these condition results along with the asset inventory. (5 points)

¹Every refers to greater than 90% of the assets

D. Does the organization have a means of estimating useful life? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	The organization has no means to estimate the useful life of assets. (0 points)
0	The organization has developed a process to establish the useful life of the assets, but has not yet begun to use the process. (1 point)
0	The organization has established the useful life of less than 50% of the assets. (2 points)
0	The organization has established the useful life of more than 50% of the assets but has not recorded the information as part of the asset inventory. (3 points)
	The organization has established the useful life of more than 50% of the assets and has recorded the information as part of the asset inventory. (4 points)
0	The organization has established the useful life of every ¹ asset in the inventory and has recorded these results along with the asset inventory. (5 points)

Every refers to greater than 90% of the assets

E. Has the organization determined asset replacement values? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

-	
0	The organization has not determined any asset replacement values. (0 points)
\bigcirc	The organization has developed an approach for determining replacement values but has not yet implemented it. (1 point)
0	The organization has estimated the asset replacement values for less than 50% of the assets. (2 points)
0	The organization has established the replacement value of more than 50% of the assets but has not recorded the information as part of the asset inventory.(3 points)
	The organization has established the replacement value of more than 50% of the assets and has recorded the information as part of the asset inventory. (4 points)
0	The organization has established the replacement value of every ¹ asset in the inventory and has recorded these results along with the asset inventory. (5 points)

¹Every refers to greater than 90% of the assets

Section III: Level of Service

A. Does the organization have a means of communicating to the customers, including communicating the goals of the Level of Service? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	The organization does not communicate with the customers. (O points)
0	The organization communicates through notices on billing statements, but does not inform the public of the Level of Service goals. (1 point)
0	The organization has done surveys or sought public input about Asset Management in general, but has not informed the public of the Level of Service goals or progress towards meeting those goals. (2 points)
0	The organization has a minimal program to inform customers of the Level of Service goals, but does not inform the public of progress towards meeting those goals. (3 points)
0	The organization has an active program to inform customers of the Level of Service goals and progress towards meeting those goals, but has no feedback mechanism for the customers to provide information to the organization. (4 points)
۲	The organization has an active program to inform customers of the Level of Service goals and progress towards meeting those goals, and has a feedback mechanism for the customers to provide information to the organization. (5 points)

B. Does the organization have clearly defined Level of Service goals and are they aligned with customer expectations/desires?
 (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	The organization does not have specific goals. (O points)
\bigcirc	The organization has goals but they are not written. (1 point)
0	The organization has some written goals but this process is not fully complete. Goals were not aligned with customer expectations/desires. (2 points)
0	The organization has clearly defined, written goals for the organization. They are well-known throughout the organization. They were not aligned with customer expectations. (3 points)
	The organization has clearly defined, written goals for the organization. They are well-known throughout the organization. One or two goals were aligned with customer expectations. (4 points)
0	The organization has clearly defined, written goals for the organization. They are well-known throughout the organization. All goals were aligned with customer expectations. (5 points)

C. Does the organization meet current regulatory requirements and, if not, does it have a plan to meet these requirements in the future? Does the organization anticipate future regulatory requirements and their impact on operations and infrastructure needs? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	The organization does not meet current regulatory requirements and currently has no plan to meet them in the future. (O points)
0	The organization does not meet current regulatory requirements, but has a plan to meet them in the future. (1 point)
0	The organization meets current regulatory requirements or has a plan to meet these requirements and has just begun to investigate future regulatory requirements. (2 points)
0	The organization meets current regulatory requirements or has a plan to meet these requirements and knows which and how future regulatory requirements are likely to impact the organization. (3 points)
0	The organization meets current regulatory requirements or has implemented a plan to meet these requirements. The organization has a clear plan to address the infrastructure and operational impacts of future regulatory requirements. (4 points)
	The organization meets current regulatory requirements and has a clear plan to address the infrastructure and operational impacts of future regulatory requirements. (5 points)

D. Does the organization measure progress towards meeting the goals of the Level of Service? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	The organization does not have specific goals. (0 points)
0	The organization has a written set of Level of Service goals but does not measure progress towards meeting the goals. (1 point)
0	The organization has a written set of Level of Service goals and measures progress towards the goals on an ad-hoc or non-routine basis. (2 points)
0	The organization has a written set of Level of Service goals and measures progress towards goals on a defined, routine, periodic basis. There is no regular process to adjust the goals, make improvements or otherwise address the lack of meeting the goals. (3 points)
0	The organization has a written set of Level of Service goals and measures progress towards goals on a defined, routine, periodic basis. There is a process in place to regularly adjust the goals, make improvements or otherwise address the lack of meeting the goals. The progress towards goals is not communicated to the governing body of the organization. (4 points)
	The organization has a written set of Level of Service goals and measures progress towards all goals on a defined, routine, periodic basis. The measurements are used to adjust goals, make improvements, and determine the progress of the organization. Progress towards goals is communicated to the governing body of the organization, who uses this information in decision-making processes. (5 points)

E. Does the organization analyze current and anticipated customer demands, including planning for future growth or population decline? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	The organization does not analyze current or anticipated customer demands. (O points)
0	The organization analyzes current demands but not anticipated demands. (1 point)
0	The organization analyzes current and future demands, and uses the information to plan infrastructure investments to accommodate future growth or population decline. Planning is for less than a 5 year horizon. (2 points)
0	The organization analyzes current and future demands, and uses the information to plan infrastructure investments to accommodate future growth or population decline. Planning is for a 5 to 9 year horizon. (3 points)
	The organization analyzes current and future demands, and uses the information to plan infrastructure investments to accommodate future growth or population decline. Planning is for a $10 - 19$ year horizon. (4 points)
0	The organization analyzes current and future demands, and uses the information to plan infrastructure investments to accommodate future growth or population decline. Planning is for a 20 year or longer horizon. (5 points)

23	Your score for this section
57	Your cumulative score

Section IV: Assets Critical To Sustained Performance

A. Does the organization have a process to assess the probability of failure of assets? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

The organization has developed a process for establishing the probability of failure but has not yet begun to use it. (1 point)
The second state is a state of the state of
The organization has established the probability of failure for less than 50% of the assets. (2 points)
The organization has established the probability of failure for more than 50% of the assets. (3 points)
The organization has established the probability of failure for all1 of the assets. (4 points)
The organization has established the probability of failure for all ¹ of the assets and uses the information in operating and managing the system. (5 points)
1 a 1 (

B. Does the organization have a process to assess the consequence of asset failure? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	The organization has no process to assess the consequence of failure of the assets. (0 points)
0	The organization has developed a process for establishing the consequence of failure but has not yet begun to use it. (1 point)
0	The organization has established the consequence of failure for less than 50% of the assets. (2 points)
	The organization has established the consequence of failure for more than 50% of the assets. (3 points)
0	The organization has established the consequence of failure for all1 of the assets. (4 points)
0	The organization has established the consequence of failure for all ¹ of the assets and uses the information in operating and managing the system. (5 points)

C. Does the organization have a process to rank assets according to the likelihood and consequences of asset failure (i.e. according to "overall risk")? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

The organization has no process to rank assets according to overall risk. (0 points)
The organization has some limited ranking of assets according to overall risk with no plans to put in place a system for ranking all assets. (1 point)
The organization has developed a process to rank assets according to risk and is working towards ranking all assets with less than 50% of them presently ranked. (2 points)
The organization has developed a process to rank assets according to risk and is working towards ranking all assets with more than 50% of them presently ranked. (3 points)
The organization has ranked all ¹ of the assets according to risk but is not yet using this information in the process of operating and managing the system. (4 points)
The organization has ranked all ¹ of the assets according to risk and using this information in operating and managing the system. (5 points)

D. Do the likelihood and consequences of asset failure (i.e. the "overall risk") drive asset investment decisions?

(Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	The organization does not use risk to drive investment decisions. (0 points)
0	The organization is in the discussion stages regarding whether to use overall risk to drive asset investment decisions but has not yet started any activities in this area. (1 point)
0	The organization is developing an approach in which risk will drive asset investment decisions. (2 points)
0	The organization has completed development of a program for overall risk to drive asset investment decisions, but has not yet implemented it. (3 points)
0	The organization has a plan for how overall risk drives asset investment decisions and it is implemented. The risk ranking only plays a small role in the asset investment decision-making process for the organization. (4 points)
	The organization has a plan for how overall risk drives asset investment decisions and it is implemented. The risk ranking process is fully integrated into the asset investment decision-making process and overall risk plays a key role in the process. (5 points)

F-12

E. Does overall risk drive asset operation and maintenance (O&M) decisions? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	The concept of overall risk is not used to drive O&M decisions. (0 points)
0	The organization is considering using overall risk to drive O&M decisions. (1 point)
0	The organization is developing an approach in which risk will drive asset O&M decisions. (2 points)
0	The organization has completed development of a program for overall risk to drive asset O&M decisions, but has not yet implemented it. (3 points)
0	The organization has a plan for how overall risk drives asset O&M decisions and it is implemented. Not all decisions are yet based on this approach. (4 points)
\bigcirc	The organization has a plan for how overall risk drives asset O&M decisions and it is implemented. All decisions are based on this approach. (5 points)

Section V: Life Cycle Cost

A. Is the organization moving from reactive maintenance to planned or predictive maintenance? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	The organization does not assess reactive vs. planned maintenance in any way. (O points)
0	The organization is developing a process to track reactive versus planned maintenance. (1 point)
0	The organization is currently implementing a process to track reactive versus planned maintenance. (2 points)
0	The organization's reactive versus planned predictive maintenance is currently being tracked. There is insufficient data to determine if there have been any improvements. (3 points)
•	The organization's reactive versus planned predictive maintenance is tracked. Improvement in the ratio of reactive to planned maintenance has occurred. However, it is not yet in line with the industry best practice of 80% planned/predictive maintenance and 20% reactive maintenance. (4 points)
0	The organization's reactive versus planned predictive maintenance is tracked and it is in line with the industry best practice of 80% planned/predictive maintenance and 20% reactive maintenance. (5 points)

B. Does the organization have a program to fully consider all aspects of Life Cycle Costing when making infrastructure investment decisions, including initial capital cost, operation and maintenance, repair, and disposal? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	The organization only considers capital cost when making infrastructure investment decisions. (0 points)
C	The organization sometimes considers Life Cycle Costs when making infrastructure investment decisions. Doing so is not part of a standard process. (1 point)
0	The organization is developing a process to consider Life Cycle Costs but has not yet implemented it. (2 points)
\bigcirc	The organization has developed a process to fully consider all aspects of Life Cycle Costing and has tested it on a few asset investment decisions. (3 points)
0	The organization is implementing a process to fully consider all1 aspects of Life Cycle Costing on all ¹ asset investment decisions. The process is not yet used for all ¹ investment decisions. (4 points)
	All1 asset investment decisions are made using a process that fully considers all ¹ aspects of Life Cycle Costing. (5 points)

C. Does the organization have a long-term Capital Improvement Plan? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

\bigcirc	The organization does not have a long-term Capital Improvement Plan. (0 points)
0	The organization has a Capital Improvement Plan for the current year only.(1 point)
0	The organization has a Capital Improvement Plan that covers less than5 years of future needs. (2 points)
0	The organization has a long-term Capital Improvement Plan that covers 5 to 9 years of future needs. (3 points)
0	The organization has a long-term Capital Improvement Plan that covers 10-19 years of future needs. (4 points)
	The organization has a long-term Capital Improvement Plan that covers 20 years or longer of future needs. (5 points)

D. Does the organization have a validation¹ process for its capital projects that includes consideration of non-asset solutions as well as non-traditional approaches (i.e., green infra-structure, decentralized treatment, water conservation to reduce need for new sources)? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	The organization does not have a validation process and does not consider non-asset solutions nor non-traditional approaches. (O points)
0	The organization sometimes investigates non-asset solutions or non-traditional approaches when evaluating capital projects. Doing so is not part of a standard validation process. (1 point)
0	The organization is developing a validation process for capital projects, but has not yet implemented it. (2 points)
0	The organization has developed a validation process for capital projects including the consideration of non-asset solutions or non-traditional approaches when evaluating capital projects. The process has been tested on a few capital projects. (3 points)
0	The organization is implementing a validation process that includes the consideration of non-asset solutions and non-traditional approaches. The validation process is not yet used for all capital projects. (4 points)
	All capital projects (or all projects greater than a set cost threshold) undergo a validation process that includes the consideration of non-asset solutions and non-traditional approaches. (5 points)

¹Validation means objectively looking at capital projects to determine if the proposed capital project is necessary, cost effective, and the appropriate solution. This process involves documenting potential operation and maintenance activities that could forestall the need for a capital project, examining a wide range of alternative approaches, and ensuring that the scope of the proposed project is appropriate.

E. Does the organization have a program to analyze the use of operation and maintenance processes to extend the life of the existing assets? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	The organization has no program to analyze the use of operation and maintenance processes to extend the life of the existing assets. (0 points)
0	The organization is currently developing a program to analyze the use of operation and maintenance processes to extend the life of the assets. (1 point)
0	The organization has a simple program to analyze the use of operation and maintenance processes to extend the life of existing assets. The organization has not yet used operation and maintenance practices to extend the life of assets. (2 points)
0	The organization has a simple program to analyze the use of operation and maintenance processes to extend the life of existing assets. The organization has used operation and maintenance practices to extend the life of assets when appropriate. (3 points)
0	The organization has a robust program to analyze the use of operation and maintenance processes to extend the life of existing assets. The organization has not yet used operation and maintenance practices to extend the life of assets. (4 points)
	The organization has a robust program to analyze the use of operation and maintenance processes to extend the life of existing assets. The organization has used operation and maintenance practices to extend the life of assets when appropriate. (5 points)

Section VI: Financing

A. Does the organization maintain reserve funds/accounts? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	The organization maintains no reserve accounts. (0 points)
0	The organization maintains one reserve account but it is not adequately funded. (1 point)
0	The organization maintains one reserve account and it is adequately funded for the purpose for which it was established. (2 points)
0	The organization maintains 2 reserve accounts (or a reserve account that satisfies 2 needs) and the reserve accounts are adequately funded. (3 points)
0	The organization maintains 3 reserve accounts (or a reserve account that satisfies 3 needs) and the reserve accounts are adequately funded. (4 points)
	The organization maintains reserve accounts for: repairs and replacement, emergencies, debt repayment, and capital improvements. All accounts are adequately funded and monies are used from the funds as required. (5 points)

B. Does the organization have a plan to fund capital improvements for the long term? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	The organization has no plan to fund capital improvements over the long term. (0 points)
0	The organization recognizes the need for a plan to fund long term capital improvements, but has not yet begun to work on it. (1 point)
0	The organization is working on a plan to fund long term capital improvements, but it is not complete.(2 points)
0	The organization has a plan that considers funding needed for capital improvements over the next 5 to 9 years. The plan includes all sources of funding necessary. (3 points)
0	The organization has a plan that considers funding needed for capital improvements over the next 10 to 19 years. The plan includes all sources of funding necessary. (4 points)
	The organization has a plan that considers funding needed for capital improvements over 20 years or more. The plan includes all sources of funding necessary. (5 points)

C. Does the organization target its rates and other revenue streams to adequately fund all long term costs, including both operations and maintenance (O&M) and capital investment/capital debt needs? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	The organization's rates and other revenue streams are not set based on anticipated expenses. (O points)
0	The organization's rate structure and other revenue streams are set to cover ongoing operation and maintenance expenses, but do not take other expenses into account. (1 point)
0	The organization's rate structure and other revenue streams are set to cover ongoing operation and maintenance expenses, as well as some extra revenue that is used for reserves and/or capital projects. The extent of revenue that is above O&M expenses is not tied to specific goals for funding reserves or capital projects. (2 points)
0	The organization's rate structure and other revenue streams are set to cover ongoing operation and maintenance expenses, as well as a targeted amount above that for funding reserves or capital projects. The target is not based on an assessment of long term asset investment needs. (3 points)
0	The organization's rate structure and other revenue streams are set to cover ongoing operation and maintenance expenses, as well as a targeted amount above that for funding reserves or capital projects. The target is based on an assessment of asset investment needs for the next 5 years or less. (4 points)
	The organization's rate structure and other revenue streams are set to cover ongoing operation and maintenance expenses, as well as a targeted amount above that for funding reserves or capital projects. The target is based on an assessment of asset investment needs longer than the next 5 years. (5 points)

D. Is investment in assets prioritized based on overall business risk? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	Investments in assets are not based on overall business risk. (O points)
0	The organization recognizes the need to make asset investments based on overall business risk, but has not yet begun to develop a process to implement this process. (1 point)
0	The organization is developing a process to make asset investments based on overall business risk. (2 points)
0	Some asset investments are prioritized based on the overall business risk to the organization. (3 points)
	The majority of asset investments are prioritized based on the overall business risk to the organization. (4 points)
0	All asset investments are prioritized based on the overall business risk to the organization. (5 points)

E. Does the organization provide a program for disadvantaged customers so that adequate rates are possible? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	The organization does not provide any programs for disadvantaged customers. (O points)
0	The organization is conducting an analysis to determine the need for a disadvantaged customer program. (1 point)
0	The organization has completed an analysis of the need for a disadvantaged program but has not developed the program. (2 points)
0	The organization is in the process of developing a program for disadvantaged customers. (3 points)
0	The organization has a program to provide for disadvantaged customers, but it has not yet been communicated to the customers. (4 points)
	The organization has a program to provide for disadvantaged customers, customers are fully aware of the program, and the organization provides outreach to help customers take advantage of the program. (5 points)

Asset Management IQ

Section I: General Asset Management

A. Is Asset Management terminology understood throughout the organization? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	No one within the organization understands terminology nor has any knowledge of Asset Management concepts. (0 points)
0	One person within organization understands Asset Management concepts and terminology. (1 point)
0	Less than 50% of the organization's personnel (a few key people within the organization) understand Asset Management concepts and terminology. (2 points)
	More than 50% of the organization's personnel understand Asset Management concepts and terminology. (3 points)
\bigcirc	All ¹ of the organization's personnel understand Asset Management concepts and terminology. (4 points)
0	Throughout the entire organization personnel would be able to state what Asset Management is and understand Asset Management concepts and terminology. (5 points)
Annal and and	All refers to greater than 90% of the organization's personnel

¹All refers to greater than 90% of the organization's personnel.

B. Does the organization have a clearly defined Asset Management Plan? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	The organization does not have a written Asset Management Plan nor a concept of what the plan would include. (0 points)
	The organization has a concept of the plan but has not written the plan. (1 point)
\bigcirc	The organization has written less than 50% of the plan. (2 points)
\bigcirc	The organization has written more than 50% of the plan. (3 points)
0	The organization has a written plan but has not distributed it within the organization. (4 points)
0	The organization has a written plan and it is distributed throughout the organization.(5 points)

C. Is Asset Management fully embraced by the elected officials or governing body of the organization? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

\bigcirc	The governing body opposes Asset Management. (0 points)
0	The governing body does not understand Asset Management, but is not opposing it. (1 point)
0	The governing body is aware of Asset Management, but is not yet ready to provide support. (2 points)
0	The governing body supports Asset Management in general but has not mandated it for the organization in any way. (3 points)
0	The governing body has passed a resolution or has otherwise mandated asset Management and provides some support for the organization's Asset Management efforts, but has not provided sufficient funding for Asset Management and/or is not yet making decisions using Asset Management principals. (4 points)
	The governing body has passed a resolution or has otherwise mandated asset management and fully supports the organization's Asset Management efforts, including providing the funding for Asset Management and making decisions using Asset Management principals. (5 points)

D. Does the organization have a strategy for communicating the Asset Management strategy throughout the organization? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	The organization has no strategy for communicating Asset Management throughout the organization. (0 points)
0	The organization has some ideas for communicating Asset Management but has not documented or implemented any of them. (1 point)
0	The organization has a written strategy and has implemented less than 50% of the communication strategies. (2 points)
	The organization has a written strategy and has implemented more than 50% of the communication strategies. (3 points)
0	The organization has a written communication strategy to share information with all levels of staff and it is fully implemented. (4 points)
0	The organization has a written communication strategy to share information with all levels of staff, it is fully implemented and feedback has been received. (5 points)

E. Does the organization have an overarching goal or mission statement for Asset Management? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	The organization does not have an overarching goal or mission statement. (O points)
0	The organization recognizes the need for an overarching goal or mission statement but has not yet begun working on it. (1 point)
0	The organization is working on an overarching goal or mission statement. (2 points)
0	The organization has an overarching goal or mission statement for Asset Management that is accepted by the governing body, but it is not known at all levels of the organization, and is not clearly communicated to the public. (3 points)
0	The organization has an overarching goal or mission statement for Asset Management that is accepted by the governing body, and is known at all levels of the organization, but it is not clearly communicated to the public. (4 points)
٢	The organization has an overarching goal or mission statement for Asset Management that is accepted by the governing body, known at all levels of the organization, and it is clearly communicated to the public. (5 points)

Section II: Current State of the Assets

A. Does the organization have an asset inventory? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	There is no inventory of the assets of any kind. (0 points)
0	There is a limited asset inventory with no plans to complete the inventory. (1 point)
0	The organization is working towards a complete asset inventory with less than 50% of assets presently included. (2 points)
0	The organization is working towards a complete asset inventory with more than 50% of assets presently included. (3 points
0	There is a complete ¹ asset inventory of the organization's assets and it is used throughout the organization. The asset inventory is not done in a hierarchical structure or the inventory does not include the basic minimum attributes for the majority of the assets - asset ID, asset name, location, condition, useful life, replacement value, energy usage (if any,) probability of failure rating, and consequence of failure rating. (4 points)
	There is a complete ¹ asset inventory of the organization's assets and it is used throughout the organization. The asset inventory is done in a hierarchical structure. The asset inventory includes the following minimum attributes for the majority of the assets: asset ID, asset name, location, condition, useful life, replacement value, energy usage (if any,) probability of failure rating, and consequence of failure rating. (5 points)

¹Complete refers to greater than 90% of the assets

B. Does the organization have a map of asset locations? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	The organization does not have any type of map of asset locations. (O points)
0	The organization has some limited mapping with no plans to produce a complete systems map. (1 point)
0	The organization is working towards a complete map of the system with less than 50% of the current system presently mapped. (2 points)
0	The organization is working towards a complete map of the system with more than 50% of the system presently mapped. (3 points)
	The organization has a comprehensive map of the entire system. It is not linked to the asset inventory data. (4 points)
0	The organization has a comprehensive map of the entire system. It is in a GIS system that is linked to the asset inventory data. (5 points)

C. Does the organization have a process for condition assessment? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	The organization has no process to assess the condition of the assets. (0 points)
0	The organization has a process to assess the condition of the assets, but has not yet begun the process. (1 point)
0	The organization has assessed the condition of less than 50% of the assets. (2 points)
0	The organization has assessed the condition of more than 50% of the assets but has not recorded the information as part of the asset inventory. (3 points)
٢	The organization has assessed the condition of more than 50% of the assets and the condition results are recorded in the inventory system. (4 points)
0	The organization has assessed the condition of every ¹ asset in the inventory and has recorded these condition results along with the asset inventory. (5 points)

¹Every refers to greater than 90% of the assets

D. Does the organization have a means of estimating useful life? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	The organization has no means to estimate the useful life of assets. (0 points)
0	The organization has developed a process to establish the useful life of the assets, but has not yet begun to use the process. (1 point)
0	The organization has established the useful life of less than 50% of the assets. (2 points)
0	The organization has established the useful life of more than 50% of the assets but has not recorded the information as part of the asset inventory. (3 points)
	The organization has established the useful life of more than 50% of the assets and has recorded the information as part of the asset inventory. (4 points)
0	The organization has established the useful life of every ¹ asset in the inventory and has recorded these results along with the asset inventory. (5 points)

¹Every refers to greater than 90% of the assets

E. Has the organization determined asset replacement values? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	The organization has not determined any asset replacement values. (O points)
0	The organization has developed an approach for determining replacement values but has not yet implemented it. (1 point)
0	The organization has estimated the asset replacement values for less than 50% of the assets. (2 points)
0	The organization has established the replacement value of more than 50% of the assets but has not recorded the information as part of the asset inventory.(3 points)
	The organization has established the replacement value of more than 50% of the assets and has recorded the information as part of the asset inventory. (4 points)
0	The organization has established the replacement value of every ¹ asset in the inventory and has recorded these results along with the asset inventory. (5 points)

¹Every refers to greater than 90% of the assets

17	Your score for this section
34	Your cumulative score

Section III: Level of Service

A. Does the organization have a means of communicating to the customers, including communicating the goals of the Level of Service? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	The organization does not communicate with the customers. (0 points)
0	The organization communicates through notices on billing statements, but does not inform the public of the Level of Service goals. (1 point)
0	The organization has done surveys or sought public input about Asset Management in general, but has not informed the public of the Level of Service goals or progress towards meeting those goals. (2 points)
0	The organization has a minimal program to inform customers of the Level of Service goals, but does not inform the public of progress towards meeting those goals. (3 points)
0	The organization has an active program to inform customers of the Level of Service goals and progress towards meeting those goals, but has no feedback mechanism for the customers to provide information to the organization. (4 points)
	The organization has an active program to inform customers of the Level of Service goals and progress towards meeting those goals, and has a feedback mechanism for the customers to provide information to the organization. (5 points)

B. Does the organization have clearly defined Level of Service goals and are they aligned with customer expectations/desires?
(Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	The organization does not have specific goals. (0 points)
0	The organization has goals but they are not written. (1 point)
0	The organization has some written goals but this process is not fully complete. Goals were not aligned with customer expectations/desires. (2 points)
0	The organization has clearly defined, written goals for the organization. They are well-known throughout the organization. They were not aligned with customer expectations. (3 points)
•	The organization has clearly defined, written goals for the organization. They are well-known throughout the organization. One or two goals were aligned with customer expectations. (4 points)
0	The organization has clearly defined, written goals for the organization. They are well-known throughout the organization. All goals were aligned with customer expectations. (5 points)

C. Does the organization meet current regulatory requirements and, if not, does it have a plan to meet these requirements in the future? Does the organization anticipate future regulatory requirements and their impact on operations and infrastructure needs? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	The organization does not meet current regulatory requirements and currently has no plan to meet them in the future. (0 points)
0	The organization does not meet current regulatory requirements, but has a plan to meet them in the future. (1 point)
0	The organization meets current regulatory requirements or has a plan to meet these requirements and has just begun to investigate future regulatory requirements. (2 points)
0	The organization meets current regulatory requirements or has a plan to meet these requirements and knows which and how future regulatory requirements are likely to impact the organization. (3 points)
0	The organization meets current regulatory requirements or has implemented a plan to meet these requirements. The organization has a clear plan to address the infrastructure and operational impacts of future regulatory requirements. (4 points)
	The organization meets current regulatory requirements and has a clear plan to address the infrastructure and operational impacts of future regulatory requirements. (5 points)

D. Does the organization measure progress towards meeting the goals of the Level of Service? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	The organization does not have specific goals. (0 points)
0	The organization has a written set of Level of Service goals but does not measure progress towards meeting the goals. (1 point)
0	The organization has a written set of Level of Service goals and measures progress towards the goals on an ad-hoc or non-routine basis. (2 points)
0	The organization has a written set of Level of Service goals and measures progress towards goals on a defined, routine, periodic basis. There is no regular process to adjust the goals, make improvements or otherwise address the lack of meeting the goals. (3 points)
0	The organization has a written set of Level of Service goals and measures progress towards goals on a defined, routine, periodic basis. There is a process in place to regularly adjust the goals, make improvements or otherwise address the lack of meeting the goals. The progress towards goals is not communicated to the governing body of the organization. (4 points)
	The organization has a written set of Level of Service goals and measures progress towards all goals on a defined, routine, periodic basis. The measurements are used to adjust goals, make improvements, and determine the progress of the organization. Progress towards goals is communicated to the governing body of the organization, who uses this information in decision-making processes. (5 points)

E. Does the organization analyze current and anticipated customer demands, including planning for future growth or population decline? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	The organization does not analyze current or anticipated customer demands. (0 points)
0	The organization analyzes current demands but not anticipated demands. (1 point)
0	The organization analyzes current and future demands, and uses the information to plan infrastructure investments to accommodate future growth or population decline. Planning is for less than a 5 year horizon. (2 points)
0	The organization analyzes current and future demands, and uses the information to plan infrastructure investments to accommodate future growth or population decline. Planning is for a 5 to 9 year horizon. (3 points)
	The organization analyzes current and future demands, and uses the information to plan infrastructure investments to accommodate future growth or population decline. Planning is for a 10 – 19 year horizon. (4 points)
0	The organization analyzes current and future demands, and uses the information to plan infrastructure investments to accommodate future growth or population decline. Planning is for a 20 year or longer horizon. (5 points)

23	Your score for this section
57	Your cumulative score

Section IV: Assets Critical To Sustained Performance

A. Does the organization have a process to assess the probability of failure of assets? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

The organization has developed a process for establishing the probability of failure
but has not yet begun to use it. (1 point)
The organization has established the probability of failure for less than 50% of the assets. (2 points)
The organization has established the probability of failure for more than 50% of the assets. (3 points)
The organization has established the probability of failure for all1 of the assets. (4 points)
The organization has established the probability of failure for all ¹ of the assets and uses the information in operating and managing the system. (5 points)

B. Does the organization have a process to assess the consequence of asset failure? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	The organization has no process to assess the consequence of failure of the assets. (0 points)
0	The organization has developed a process for establishing the consequence of failure but has not yet begun to use it. (1 point)
0	The organization has established the consequence of failure for less than 50% of the assets. (2 points)
	The organization has established the consequence of failure for more than 50% of the assets. (3 points)
0	The organization has established the consequence of failure for all1 of the assets. (4 points)
0	The organization has established the consequence of failure for all ¹ of the assets and uses the information in operating and managing the system. (5 points)
¹ All refers to greater than 90% of the assets	

C. Does the organization have a process to rank assets according to the likelihood and consequences of asset failure (i.e. according to "overall risk")? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

-	soore in the box next to that answerly
0	The organization has no process to rank assets according to overall risk. (0 points)
0	The organization has some limited ranking of assets according to overall risk with no plans to put in place a system for ranking all assets. (1 point)
0	The organization has developed a process to rank assets according to risk and is working towards ranking all assets with less than 50% of them presently ranked. (2 points)
	The organization has developed a process to rank assets according to risk and is working towards ranking all assets with more than 50% of them presently ranked. (3 points)
0	The organization has ranked all ¹ of the assets according to risk but is not yet using this information in the process of operating and managing the system. (4 points)
0	The organization has ranked all ¹ of the assets according to risk and using this information in operating and managing the system. (5 points)
1	All refers to areater than 90% of the assets

¹All refers to greater than 90% of the assets

D. Do the likelihood and consequences of asset failure (i.e. the "overall risk") drive asset investment decisions?

(Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	The organization does not use risk to drive investment decisions. (0 points)
0	The organization is in the discussion stages regarding whether to use overall risk to drive asset investment decisions but has not yet started any activities in this area. (1 point)
0	The organization is developing an approach in which risk will drive asset investment decisions. (2 points)
0	The organization has completed development of a program for overall risk to drive asset investment decisions, but has not yet implemented it. (3 points)
0	The organization has a plan for how overall risk drives asset investment decisions and it is implemented. The risk ranking only plays a small role in the asset investment decision-making process for the organization. (4 points)
	The organization has a plan for how overall risk drives asset investment decisions and it is implemented. The risk ranking process is fully integrated into the asset investment decision-making process and overall risk plays a key role in the process. (5 points)

E. Does overall risk drive asset operation and maintenance (O&M) decisions? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	The concept of overall risk is not used to drive O&M decisions. (0 points)
0	The organization is considering using overall risk to drive O&M decisions. (1 point)
0	The organization is developing an approach in which risk will drive asset O&M decisions. (2 points)
0	The organization has completed development of a program for overall risk to drive asset O&M decisions, but has not yet implemented it. (3 points)
0	The organization has a plan for how overall risk drives asset O&M decisions and it is implemented. Not all decisions are yet based on this approach. (4 points)
	The organization has a plan for how overall risk drives asset O&M decisions and it is implemented. All decisions are based on this approach. (5 points)

19	Your score for this section
76	Your cumulative score

Section V: Life Cycle Cost

A. Is the organization moving from reactive maintenance to planned or predictive maintenance? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	The organization does not assess reactive vs. planned maintenance in any way. (0 points)
0	The organization is developing a process to track reactive versus planned maintenance. (1 point)
0	The organization is currently implementing a process to track reactive versus planned maintenance. (2 points)
0	The organization's reactive versus planned predictive maintenance is currently being tracked. There is insufficient data to determine if there have been any improvements. (3 points)
	The organization's reactive versus planned predictive maintenance is tracked. Improvement in the ratio of reactive to planned maintenance has occurred. However, it is not yet in line with the industry best practice of 80% planned/predictive maintenance and 20% reactive maintenance. (4 points)
0	The organization's reactive versus planned predictive maintenance is tracked and it is in line with the industry best practice of 80% planned/predictive maintenance and 20% reactive maintenance. (5 points)

B. Does the organization have a program to fully consider all aspects of Life Cycle Costing when making infrastructure investment decisions, including initial capital cost, operation and maintenance, repair, and disposal? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	The organization only considers capital cost when making infrastructure investment decisions. (0 points)
0	The organization sometimes considers Life Cycle Costs when making infrastructure investment decisions. Doing so is not part of a standard process. (1 point)
0	The organization is developing a process to consider Life Cycle Costs but has not yet implemented it. (2 points)
0	The organization has developed a process to fully consider all aspects of Life Cycle Costing and has tested it on a few asset investment decisions. (3 points)
0	The organization is implementing a process to fully consider all1 aspects of Life Cycle Costing on all ¹ asset investment decisions. The process is not yet used for all ¹ investment decisions. (4 points)
	All1 asset investment decisions are made using a process that fully considers all ¹ aspects of Life Cycle Costing. (5 points)
1	All refers to greater than 90%

C. Does the organization have a long-term Capital Improvement Plan? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	The organization does not have a long-term Capital Improvement Plan. (0 points)
0	The organization has a Capital Improvement Plan for the current year only.(1 point)
0	The organization has a Capital Improvement Plan that covers less than5 years of future needs. (2 points)
0	The organization has a long-term Capital Improvement Plan that covers 5 to 9 years of future needs. (3 points)
0	The organization has a long-term Capital Improvement Plan that covers 10-19 years of future needs. (4 points)
۲	The organization has a long-term Capital Improvement Plan that covers 20 years or longer of future needs. (5 points)

D. Does the organization have a validation¹ process for its capital projects that includes consideration of non-asset solutions as well as non-traditional approaches (i.e., green infra-structure, decentralized treatment, water conservation to reduce need for new sources)? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	The organization does not have a validation process and does not consider non-asset solutions nor non-traditional approaches. (Opoints)
0	The organization sometimes investigates non-asset solutions or non-traditional approaches when evaluating capital projects. Doing so is not part of a standard validation process. (1 point)
0	The organization is developing a validation process for capital projects, but has not yet implemented it. (2 points)
0	The organization has developed a validation process for capital projects including the consideration of non-asset solutions or non-traditional approaches when evaluating capital projects. The process has been tested on a few capital projects. (3 points)
0	The organization is implementing a validation process that includes the consideration of non-asset solutions and non-traditional approaches. The validation process is not yet used for all capital projects. (4 points)
	All capital projects (or all projects greater than a set cost threshold) undergo a validation process that includes the consideration of non-asset solutions and non-traditional approaches. (5 points)

¹Validation means objectively looking at capital projects to determine if the proposed capital project is necessary, cost effective, and the appropriate solution. This process involves documenting potential operation and maintenance activities that could forestall the need for a capital project, examining a wide range of alternative approaches, and ensuring that the scope of the proposed project is appropriate.

E. Does the organization have a program to analyze the use of operation and maintenance processes to extend the life of the existing assets? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	The organization has no program to analyze the use of operation and maintenance processes to extend the life of the existing assets. (O points)
0	The organization is currently developing a program to analyze the use of operation and maintenance processes to extend the life of the assets. (1 point)
0	The organization has a simple program to analyze the use of operation and maintenance processes to extend the life of existing assets. The organization has not yet used operation and maintenance practices to extend the life of assets. (2 points)
0	The organization has a simple program to analyze the use of operation and maintenance processes to extend the life of existing assets. The organization has used operation and maintenance practices to extend the life of assets when appropriate. (3 points)
0	The organization has a robust program to analyze the use of operation and maintenance processes to extend the life of existing assets. The organization has not yet used operation and maintenance practices to extend the life of assets. (4 points)
•	The organization has a robust program to analyze the use of operation and maintenance processes to extend the life of existing assets. The organization has used operation and maintenance practices to extend the life of assets when appropriate. (5 points)

Section VI: Financing

A. Does the organization maintain reserve funds/accounts? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	The organization maintains no reserve accounts. (O points)
0	The organization maintains one reserve account but it is not adequately funded. (1 point)
0	The organization maintains one reserve account and it is adequately funded for the purpose for which it was established. (2 points)
0	The organization maintains 2 reserve accounts (or a reserve account that satisfies 2 needs) and the reserve accounts are adequately funded. (3 points)
0	The organization maintains 3 reserve accounts (or a reserve account that satisfies 3 needs) and the reserve accounts are adequately funded. (4 points)
	The organization maintains reserve accounts for: repairs and replacement, emergencies, debt repayment, and capital improvements. All accounts are adequately funded and monies are used from the funds as required. (5 points)

B. Does the organization have a plan to fund capital improvements for the long term? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	The organization has no plan to fund capital improvements over the long term. (0 points)
0	The organization recognizes the need for a plan to fund long term capital improvements, but has not yet begun to work on it. (1 point)
0	The organization is working on a plan to fund long term capital improvements, but it is not complete.(2 points)
0	The organization has a plan that considers funding needed for capital improvements over the next 5 to 9 years. The plan includes all sources of funding necessary. (3 points)
0	The organization has a plan that considers funding needed for capital improvements over the next 10 to 19 years. The plan includes all sources of funding necessary. (4 points)
۲	The organization has a plan that considers funding needed for capital improvements over 20 years or more. The plan includes all sources of funding necessary. (5 points)

C. Does the organization target its rates and other revenue streams to adequately fund all long term costs, including both operations and maintenance (O&M) and capital investment/capital debt needs? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	The organization's rates and other revenue streams are not set based on anticipated expenses. (O points)
0	The organization's rate structure and other revenue streams are set to cover ongoing operation and maintenance expenses, but do not take other expenses into account. (1 point)
0	The organization's rate structure and other revenue streams are set to cover ongoing operation and maintenance expenses, as well as some extra revenue that is used for reserves and/or capital projects. The extent of revenue that is above O&M expenses is not tied to specific goals for funding reserves or capital projects. (2 points)
0	The organization's rate structure and other revenue streams are set to cover ongoing operation and maintenance expenses, as well as a targeted amount above that for funding reserves or capital projects. The target is not based on an assessment of long term asset investment needs. (3 points)
0	The organization's rate structure and other revenue streams are set to cover ongoing operation and maintenance expenses, as well as a targeted amount above that for funding reserves or capital projects. The target is based on an assessment of asset investment needs for the next 5 years or less. (4 points)
	The organization's rate structure and other revenue streams are set to cover ongoing operation and maintenance expenses, as well as a targeted amount above that for funding reserves or capital projects. The target is based on an assessment of asset investment needs longer than the next 5 years. (5 points)

D. Is investment in assets prioritized based on overall business risk? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	Investments in assets are not based on overall business risk. (0 points)
0	The organization recognizes the need to make asset investments based on overall business risk, but has not yet begun to develop a process to implement this process. (1 point)
0	The organization is developing a process to make asset investments based on overall business risk. (2 points)
0	Some asset investments are prioritized based on the overall business risk to the organization. (3 points)
	The majority of asset investments are prioritized based on the overall business risk to the organization. (4 points)
0	All asset investments are prioritized based on the overall business risk to the organization. (5 points)

E. Does the organization provide a program for disadvantaged customers so that adequate rates are possible? (Choose the answer that most accurately describes your situation and record your score in the box next to that answer.)

0	The organization does not provide any programs for disadvantaged customers. (0 points)
0	The organization is conducting an analysis to determine the need for a disadvantaged customer program. (1 point)
0	The organization has completed an analysis of the need for a disadvantaged program but has not developed the program. (2 points)
0	The organization is in the process of developing a program for disadvantaged customers. (3 points)
0	The organization has a program to provide for disadvantaged customers, but it has not yet been communicated to the customers. (4 points)
۲	The organization has a program to provide for disadvantaged customers, customers are fully aware of the program, and the organization provides outreach to help customers take advantage of the program. (5 points)

<image001.gif> Hi Traci,

RE: Water and Sewer Rates

1) Current rate sheet attached.

2) Water rates

2020 to present: as shown on rate sheet

2010 – 2020: \$8.15 monthly service fee, and \$1.75/K for usage 1,000-7,000, \$1.93/K for usage 7001-30,000, \$2.12/K for usage 30,001 – 50,000; \$2.33/K for usage 50,001 and more.

3) Sewer rates

2020 to present as shown on rate sheet.

2019 TorC \$11.21 monthly service fee and \$3.79/K, Williamsburg \$17.89 monthly service fee and \$3.79/K, commercial bathhouse \$37.38 monthly, residential bathhouse \$12.16 monthly.

2018 TorC \$10.68 monthly service fee and \$3.61/K, Williamsburg \$17.04 monthly service fee and 3.61/K, commercial bathhouse \$35.60 monthly, residential bathhouse \$11.58 monthly.

2017 TorC \$10.17 monthly service fee and \$3.44/K, Williamsburg \$16.23 monthly service fee and \$3.44/K, commercial bathhouse \$33.90 monthly, residential bathhouse \$11.03 monthly.

2016 TorC and Williamsburg \$9.69 monthly service fee and \$3.28/K, commercial bathhouse 32.29, residential bathhouse \$10.50.2015 October update TorC and Williamsburg \$9.23 monthly service fee and \$3.12/K, commercial bathhouse \$30.75 monthly, residential bathhouse \$10.00 monthly.

2015 July update TorC \$9.23 monthly service fee and \$3.12/K, Williamsburg monthly service fee \$8.75 and \$1.60/K, commercial bathhouse \$30.75 monthly, residential bathhouse \$10.00 monthly.

2010 – 2014 TorC monthly service fee \$7.10 and \$2.40/K, Williamsburg monthly service fee \$8.75 and \$1.60/K, commercial bathhouse \$30.75 monthly, residential bathhouse \$10.00 monthly.

Effluent water is 1.35/K plus \$25.00 monthly fee if used. The rate has stayed the same over the years.

4) The water rate on the City's web site is inaccurate. The \$15.50 monthly service fee includes 2K of water usage. Therefor the \$2.71 per thousand is not "for first 7,000 gallons".

Please feel free to let me know if I may be of further assistance. Thank you.

Sincerely,

Silke

CITY OF TRUTH OR CONSEQUENCES

ORDINANCE NO. 741

AN ORDINANCE OF THE CITY OF TRUTH OR CONSEQUENCES, PROVIDING THAT THE CODE OF ORDINANCES, CITY OF TRUTH OR CONSEQUENCES, BE AMENDED BY AMENDING ARTICLE VIII SECTION 7-202 PERTAINING TO THE COLLECTION OF LODGER'S TAX:

Section One. That section 7-202 of the Lodger's Tax Ordinance shall be amended to read as follows:

SEC. 7-202. - COLLECTION OF THE TAX AND REPORTING PROCEDURES.

- (a) Every vendor providing lodgings shall collect the tax thereon on behalf of the Municipality and shall act as a trustee therefor.
- (b) The tax shall be collected from vendees and shall be charged separately from the rent fixed by the vendor for the lodgings.
- (c) Each vendor licensed under this article shall be liable to the Municipality of Truth or Consequences tax provided herein on the rent paid for lodging at his respective place of business.
- (d) Each vendor shall make a report by the 25th day of each month, on forms provided by the City Clerk, of the receipts for lodging in the preceding calendar month, and shall submit the proceeds of the lodgers' tax to the Municipality and include sufficient information to enable the Municipality to audit the reports and shall be verified on oath by the vendor.
- (e) For transactions where a vendor uses a Marketplace Provider to facilitate the sale of lodgings, the City may use a "Marketplace Provider" as follows:
 - 1. Definition: A Marketplace Provider means any person who facilitates a retail sale by a vendor by listing or advertising for sale or furnishing by the vendor, in any manner, rooms, lodging, or other accommodations through agreements or arrangements with 3rd parties.
 - 2. Marketplace Providers shall be responsible for collecting all applicable lodgers taxes and remitting the same to the City. The marketplace provider shall be considered an agent of the vendor for purposes of lodgers tax collections and remittance responsibilities as set forth in this ordinance.

3. A Marketplace Provider operating exclusively on the internet, who operates in compliance with subsection 2 above, shall be presumed to be in compliance with this ordinance, except that the marketplace provider remains responsible for compliance with the administrative penalty provisions described in this section.

Section two. All Ordinances or Resolutions, or parts thereof, inconsistent herewith are hereby repealed to the extent only of such inconsistency. This Repealer shall not be construed to revive any Ordinance or Resolution or part thereof, heretofore repealed.

Section three. This Ordinance shall take effect on the ____ day of _____ 2022.

PASSED, APPROVED, and ADOPTED by the GOVERNING BODY of the CITY OF TRUTH OR CONSEQUNCES this _____day of _____, 2022.

Amanda Forrister, Mayor

SUBJECT: Consideration of appointment of Greg D'Amour to the Sierra Vista Hospital Governing Board.DEPARTMENT:City Clerk's OfficeDATE SUBMITTED: September 23, 2022SUBMITTED BY:Angela A. Torres, Clerk-TreasurerWHO WILL PRESENT THE ITEM: City Manager Swingle

Summary/Background:

The city has a vacancy for a city representative to serve on the Sierra Vista Hospital Governing Board. This vacancy is usually filled by a member of the public, and is appointed by our Governing Body. This vacancy has been advertised, posted on Facebook, and has been announced during the past few Commission Meetings. Greg D'Amour submitted a letter of interest to serve as a city representative on the board, and no other letters were received.

Recommendation:

Appoint Greg D'Amour to serve as a city representative on the Sierra Vista Hospital Governing Board.

Honorable Mayor Amanda Forrister, City Manager Bruce Swingle, Councilors' Mitchell, Fahl, Harrelson, and Hechler

It has come to my attention that the City of Truth of Consequences may have an opening for representation on the Sierra Vista Hospital Board.

It would honor me greatly if You the commission would consider me to serve on this Board.

I will work diligently to promote positive governance at the hospital for the citizens of our community.

Quality healthcare is my passion.

I believe my experience as a healthcare provider in the community, my history at the hospital, both as an employee and a governing board member, will serve me well in being a team member on the hospitals governing board.

I have attached my Curriculum Vitae for review

Thank You for Your consideration Respectfully

Dr. Greg D'Amour

- Commission for Certification in Geriatric Pharmacy/Board of Pharmaceutical Specialties (2000-present)
- American Society of Consultant Pharmacists 2000-present Council Member 2004-2014

Objective

Quality chronic disease management! I have come to realize that the majority of chronic disease management treatment is pharmacy based. Today's healthcare world is studying outcomes and evaluating quality of life. With ongoing education, the ability to monitor treatments, assessment of patient disease status, and utilization of evidence based medical practice places pharmacists, properly trained and credentialed, in the center of the health care team as a partner to promote improved quality of life.

Accreditations

- Pharmacist Clinician
- Board Certified Geriatric Pharmacist
- Pharmaceutical Care for Patients with Diabetes

Proposal To:

City of Truth or Consequences Truth or Consequences, NM *RE*: Surveillance for Various Locations

Thank you for the opportunity to provide surveillance for your properties.

1. Scope of Work

I. Airport

Apex proposes to install a new surveillance system for your airport. Apex will provide a new customer server along with a total of 17 Cameras to Cover the Hangars, Common Areas and Airport Terminal. Apex will utilize sets of Point to Point Radios to connect outlaying buildings along with weatherproof locked boxes and POE Switches. Apex will require a 120V feed for each of the boxes located on perimeter buildings. Apex proposes a combination of 14 Megapixel 180 Degree Cameras along with 5 Megapixel outdoor cameras, two interior cameras for the Terminal and a Fisheye for the South Common Hangar. Apex will connect them into the network to be viewed from the PC in the office or remotely. Apex requires 120V to be provided at each of the Hangars and a Lift For the South Common Hangar. 2. Pricing

I.	Airport	
٠	1 each Customer 30TB Server	\$3,500.00
•	4 each 4 Port POE Switch	\$280.00
•	1 each 8 Port POE Switch	\$150.00
٠	5 each UPS	\$420.00
•	7 each 14MP 180 Degree Cameras	\$14,000.00
•	4 each 4 Megapixel Fixed Wide Angel Cameras	\$2,000.00
•	3 each 5 Megapixel Zoom Camera for Gate	\$2,475.00
•	2 each Indoor 2 Megapixel Cameras	\$400.00
•	1 each 12 Megapixel Fisheye Camera with IR for Hangar	\$950.00
٠	4 each Weatherproof Enclosures	\$1,600.00
٠	17 Camera Licenses	\$2,125.00
٠	5 Radios	\$1,250.00
٠	Wire	\$450.00
٠	Labor, Installation and Training	\$5,350.00
٠	Tax on Labor	\$438.03
Airpo	rt Surveillance System:	<u>\$35,388.03</u>

Apex is a CES Authorized Vendor for the State of New Mexico, #2020-13N-C119-45678

3. Warranty

All surveillance equipment comes with 5 year manufacturer warranty, 90 day warranty on labor.

This proposal is valid until October 31st, 2022. The above prices, specifications and conditions are satisfactory and accepted. Apex Technologies is authorized to begin work as specified. Require a 65% deposit upon authorization with a balance of 35% due upon completion of installation and training. Invoices not paid within 30 days of completion of installation are subject to a 1.25% monthly finance charge.

CITY OF TRUTH OR CONSEQUENCES

AGENDA REQUEST FORM

MEETING DATE: September 28, 2022

Agenda Item #: <u>G.3</u>

SUBJECT: Discussi	on/Action – Approve recommendation from the Recreation Advisory Board to amend the
Municipal Code of	Ordinance to combine the Golf Advisory Board with Recreation Advisory Board
DEPARTMENT:	Community Services
DATE SUBMITTED	: September 16, 2022
SUBMITTED BY:	O.J. Hechler
WHO WILL PRESE	NT THE ITEM: O.J. Hechler
Summary/Backgro	
Golf Course Adviso	ory Board has not had enough applicants to enact the board. Recreation Advisory Board

voted on and recommends combining the two boards. If approved to proceed, staff would present a draft amendment of the code for review and recommendation from the Rec Board and then present final draft to Commission for approval to publish.

Recommendation:

Approve staff to proceed with steps to amend the code as noted

Attachments:

- Sections of the Municipal Code pertaining to the boards
- Minutes from the 9-12-22 Recreation Advisory Board meeting

CITY CLERK'S USE ONLY - COMMISSION ACTION TAKEN

Resolution No. -Ordinance No. -Continued To: -Referred To: -ApprovedDeniedOther: -File Name: CC Agendas 9-28-2022

DIVISION 1. - GOLF COURSE ADVISORY BOARD

Sec. 2-211. - Board created; members.

- (a) There is hereby created a Golf Course Advisory Board for the City, consisting of five members, two of which must be female members. From these five members, a chairman, vice chairman and secretary/treasurer will be selected. The initial term for all members shall expire on June 30, 1994. Beyond the initial term, the chairman, vice chairman and secretary/treasurer shall all serve two years and the other two members shall serve one year.
- (b) The members of the Board shall be selected by the City Commission after receiving recommendations from the Board. The Board shall make its recommendations by a vote from its membership. Each term shall expire on June 30, provided, however, that any member of the Board shall continue to hold his office until his successor is appointed and qualified.
- (c) The City Commission shall fill vacancies on the Board. Prior to the filling of any vacancy, the Board shall make a recommendation to the City Commission based upon a majority vote of the Board membership.

(Ord. No. 406, 4-12-93; Ord. No. 456-97, § 3, 5-11-98)

Sec. 2-212. - Powers and duties.

- (a) The Board shall make reasonable rules and regulations for the use and care of the facilities under its jurisdiction. Such rules, when adopted, shall not become effective until approved by the City Commission.
- (b) Working with the pro/manager, the Board shall make recommendations to the City Commission concerning the maintenance and supervision of the facilities as well as expenditures to be made in connection with the golf course. Such recommendations shall be made through the City Manager who shall then promptly refer the same to the City Commission.
- (c) The golf course pro/manager, with the assistance of the Board, shall annually, upon the request of the City Manager, prepare and submit a requested budget for the operation of the facilities.
- (d) The Board shall keep records and accounts of all the activities and make reports to the City Manager or to the City Commission upon request.

(Ord. No. 406, 4-12-93; Ord. No. 489, § 1, 3-12-01)

Sec. 2-213. - Meetings.

In the performance of their duties and in the exercise of the powers set forth in this Chapter, the Board shall hold meetings at such time and place as may be specified in the notice for such meetings which may be called by the Chairman of the Board, the City Manager or by a majority of the City Commission.

(Ord. No. 406, 4-12-93)

Sec. 2-214. - Vacancies; election of officers.

The City Commission may remove members of the Board. Prior to the removal of any officer, the Board shall make a recommendation to the City Commission based upon a majority vote of the Board membership. A chairman, vice chairman and secretary/treasurer shall serve for one calendar year upon being selected by the City Commission.

DIVISION 8.5 - RECREATION ADVISORY BOARD

Sec. 2-356. - Board created; members.

There is hereby created a Recreation Advisory Board consisting of seven members. Two of the members shall be the City Recreation Director and the City Parks Director. Neither the City Recreation Director nor the City Park Director shall be voting members. The other five members of the Board shall be appointed by the City Commission and shall be voting members. These five original members shall serve staggered terms and thereafter there shall be appointed by the City Commission members of the Board who shall each serve two-year terms. The terms of the members of the Board (with the exception of City Recreation Director and City Park Director) shall expire on June 30; provided, however, that any member of the Board shall continue to hold his office until his successor is appointed and qualified. Members of the Board shall make recommendations to the City Manager and the Commission for City supported recreation opportunities and concerning City recreation facilities.

(Ord. No. 474, § 1, 7-10-00)

Sec. 2-357. - Powers and duties.

- (a) The Board shall make recommendations to the City Commission concerning the facilities and recreation programs within its jurisdiction including budget and rates to be charged in connection with such facilities and programs. Specifically excluded from its jurisdiction are the Municipal Golf Course and Municipal Airport. Such recommendations shall be made through the City Manager who shall then refer the same promptly to the City Commission.
- (b) The Board shall keep records and accounts of all its activities and make reports to the City Manager or to the Commission upon request.

(Ord. No. 474, § 2, 7-10-00; Ord. No. 488, § 1, 3-12-01)

Sec. 2-358. - Meetings.

In the performance of its duties and in the exercise of the powers set forth in this division, the Board shall hold meetings at least quarterly or at such other times as may be deemed necessary, at such time and place as may be specified in the notice for such meetings which may be called by the Chairman of the Board, the City Manager, or by a majority of the Commission. A quorum requires at least three of the five voting members of the Board to be present. In order for a vote to be valid on a particular issue, a quorum must actually vote regarding the measure. For purposes of clarification, a member who abstains or recuses himself from voting is not deemed to have voted on that particular issue.

(Ord. No. 474, § 3, 7-10-00)

Sec. 2-359. - Vacancies; election of officers.

Members of the Board may be removed by a majority vote of the total membership of the Commission. Vacancies on the Board shall be filled by the Commission. The Board shall elect a Chairman, Vice-Chairman, and Secretary.

(Ord. No. 474, § 4, 7-10-00)

Sec. 2-360. - Reserved.

CITY OF TRUTH OR CONSEQUENCES RECREATION ADVISORY BOARD MINUTES OF THE REGULAR MEETING September 12, 2022

CALL TO ORDER: The meeting was called to order at 5:55 p.m. by Vice Chair, David Dawdy

ROLL CALL:

David Dawdy, Vice Chair Jeni Neeley, Secretary Carole Wheeler, Board Member

OTHERS IN ATTENDANCE: Sean Barnes, OJ Hechler, Tracy Alvarez, Chuck Wentworth.

THE PLEDGE OF ALLEGIANCE WAS RECITED.

The Agenda was approved with a motion by Carole and seconded by Jeni.

The Minutes of the Regular Meeting held August 8, 2022 were approved with a motion by Jeni and seconded by Carole.

COMMENTS FROM THE PUBLIC: None.

NEW BUSINESS:

a. Discussion/Action: A proposal for the City Golf Course to come under the jurisdiction of the Parks and Recreation Advisory Board, as the Golf Course has remained without a quorum to take any actions for a long period of time.

Carole motioned to request to the City Commission to combine the Golf Course Advisory Board with the Recreational Advisory Board. Jeni seconded this motion. OJ volunteered to oversee this task.

b. Discussion/Action: In order to better inform the public, A report is requested from The City Parks and Recreation Department to date on the status of:

-all grants and designs for improvements to the Ralph Edwards Park

- any draft proposals for the design of the playgrounds, the bathrooms, and the skate park, and the pavilion,

-the budget allocated for each improvement, a copy of the designs themselves,

-the bids submitted and contracts accepted to accomplish the improvements including a timeline for any improvements.

OJ explained that a the City submitted a proposal for the "Regional Recreation Center & Quality of Life" grant on August 12th for a total of \$450,000 in funding, with an \$16,000 match. This request for improvements to Ralph Edwards Park includes playground equipment for recommended ages 2-12 years old, Fitness equipment for adults, and skate park equipment. OJ also expressed that the city will soon receive \$213,000 in capital outlay funds from the state in appropriations for gazebo and bathroom restoration efforts. Color photos of the proposed improvements were shared with meeting attendees.

Jeni asked if surveillance equipment will be included in the park improvements. OJ replied that quotes for a surveillance system are between \$18,000-\$25,000.

c. Discussion/Action: A report on the health of the trees in Ralph Edwards Park, any plans for treating some of them, replacing them, including genus and species, and an estimate of the costs of such replacement.

Sean reported that he plans to meet with an arborist in the next few months to assess the trees at Ralph Edwards Park and other locations around T or C. Sean has also been working with the Sierra Soil & Water Conservation District to acquire 15 new trees to replace older trees. David volunteered to help locate grants, funding, and other opportunities to acquire new trees.

d. Discussion/Action: Any information that is available on any funding for a riverfront walking trail, benches and improvements for Ralph Edwards Park, and any other plans for extending a recreation trail along the river through the city of T or C.

Sean noted that new paths will conjoin with existing health & wellness paths. \$1,600 has been approved from the Clean & Beautiful grant for the purchase of benches to be placed along these pathways.

e. Discussion/Action: A copy of the downtown master plan only as it relates to the Parks and Recreation Department. OJ encouraged RAB members to review the detailed plans for this project on the City of T or C website under the "community development" section.

REPORTS FROM THE BOARD:

Carole commended the City of T or C Parks Department for developing a consistent maintenance schedule for the dog park. She reported that the dog park is doing well.

Jeni inquired if the pool would be undergoing any improvement projects while the facility is closed for the winter months. OJ shared that the pool staff is working on a "spring cleaning list" consisting of deep-cleaning, organizing, painting, and other tasks to prepare the facility for a spring inspection.

REPORTS FROM STAFF:

Sean announced that he now has a full staff (Yay!) and they work great with each other to complete a variety of tasks. Sean and his crew are working diligently to control the weeds at numerous facilities.

ADJOURNMENT - The meeting was adjourned at 6:38 p.m.

AGREEMENT BETWEEN THE COUNTY OF SIERRA AND THE CITY OF TRUTH OR CONSEQUENCES REGARDING THE ADMINISTRATION AND ENFORCEMENT OF THE CITY'S FLOODPLAIN MANAGEMENT REGULATIONS

THIS AGREEMENT ("Agreement") by and between the City of Truth or Consequences ("Truth or Consequences") and the County of Sierra ("County").

RECITALS:

WHEREAS, the Truth or Consequences was incorporated as a municipality after an election wherein the residents of the area approved incorporation pursuant to NMSA 1978, Section 3-2-1 *et seq*; and,

WHEREAS, Truth or Consequences is located completely within the physical boundaries of the County of Sierra, however, after incorporation the County of Sierra no longer has jurisdiction to provide services in the incorporated area; and,

WHEREAS, Truth or Consequences and the County are both participating communities in the National Flood Insurance Program and the County has adopted floodplain management regulations in accordance with 44 CFR (Code of Federal Regulations – Title 44: Emergency Management and Assistance) and Sections 3-18-7 and 4-37-1 NMSA 1978; and

WHEREAS, Truth or Consequences desires to utilize the services of the Floodplain Administrator for the County to administer and enforce floodplain management regulations for the City.

NOW, THEREFORE, IT IS AGREED BETWEEN THE PARTIES:

1. PURPOSE: The purpose of this Agreement is to set forth those services relating to the administration and implementation of the City of Truth or Consequences' floodplain management regulations by the County.

2. COMMON POWER: The common powers to be exercised is the power pursuant to NMSA 1978, Section 3-18-1 (1972) for municipalities, and also counties pursuant to NMSA 1978, Section 4-37-1 (1995), to "protect generally the property of its municipality and its inhabitants" and to "preserve peace and order".

3. SCOPE OF SERVICES & GENERAL PARTY OBLIGATIONS:

The County will make available to the City the services of its Floodplain Manager as provided herein. The parties agree that the City shall continue to apply its policies and procedures, reviewing all proposed projects for compliance with its zoning ordinance and other applicable land use regulations. The City shall continue to provide its own zoning code enforcement. All enforcement of regulations, drainage requirements and zoning ordinances remain with the City of Truth or Consequences and not with Sierra County. The Sierra County Floodplain Manager shall act as the City's floodplain administration agent by reviewing and recommending cases within the

limits of the City's jurisdiction. The Sierra County Floodplain Manger shall provide the services at the County Offices, located at 1712 N. Date St. Suite D, Truth or Consequences, NM 87901. The City of Truth or Consequences shall provide services at the Planning and Zoning Office, located at 401 McAdoo, Truth or Consequences, NM 87901.

4. OBLIGATIONS OF TRUTH OR CONSEQUENCES

- A. The designated Floodplain Administrator of the County shall be designated by the governing body of the City to administer and implement the provisions of the floodplain management regulations that were adopted in accordance with 44 CFR (Code of Federal Regulations Title 44: Emergency Management and Assistance) and Sections 3-18-7 and 4-37-1 NMSA 1978; and
- B. The City shall establish an appeal board to hear and render judgment on requests for variances from the requirements of the floodplain management regulations of the County. The appeal board shall hear and render judgment on an appeal only when there is an error in any requirement, decision, or determination made by the Floodplain Administrator in the enforcement or administration of the floodplain management regulations of the County.
- C. Truth or Consequences shall commission and issue commission cards to all Sierra County Employees enforcing municipal ordinances on behalf of Sierra County, as appropriate.
- D. Truth or Consequences agrees and understands that, in regard to the serviced described in this Agreement, the County has a statutory responsibility to first provide services to the unincorporated area of the County and can only provide the described services to Truth or Consequences if there is available manpower and resources.

5. PAYMENT FOR SERVICES:

Truth or Consequences shall submit an annual payment in the amount of five thousand dollars (\$5,000.00) to the Sierra County Floodplain Manager for the provision of such services as described herein.

6. LIABILITY:

A. No Party shall be responsible for liability, beyond the obligation to provide insurance coverage, incurred as a result of any other Party's acts or omissions in connection with this Agreement. Any liability incurred in connection with this Agreement is subject to the immunities and limitations of the New Mexico Tort Claims Act.

A. All employees or contractors engaged in any of the work or services performed pursuant to this Agreement shall at all times and in all places be subject to the County's supervision and control and said County shall be solely responsible for the conduct and performance of these individuals.

7. THIRD PARTY BENEFICIARY: This Agreement shall not create or confer on any other person or entity any right or benefit, substantive or procedural, enforceable at law or otherwise, against any party or their officers, directors, officials, employees, agents, representatives, contractors, subcontractors, consultants or advisors.

8. **PROPERTY:** No property shall be acquired as a result of this Agreement, which does not involve the disposition, division, or distribution of any property. The disposition of records generated by performance of this Agreement shall be decided by the parties upon termination.

9. SURPLUS FUNDS: After completion of the Agreement's purpose, any surplus money on hand shall be returned in proportion to the contributions made.

10. STRICT ACCOUNTABILITY OF ALL RECEIPTS AND DISBURSEMENTS: Each party shall be strictly accountable for all receipts and disbursements under this Agreement.

11. AMENDMENT: This Agreement shall not be altered, changed, or amended except by instrument in writing executed by the parties and approved by the Department of Finance Administration.

12. APPROPRIATIONS: Performance under this Agreement is contingent upon sufficient authority and appropriations.

13. GOVERNING LAW: This Agreement shall be governed by the laws of the State of New Mexico.

14. EFFECTIVE DATE, TERM AND TERMINATION OF AGREEMENT.

- A. This Agreement shall become effective September 28, 2022.
- B. This Agreement shall terminate on June 30, 2026, unless extended by mutual agreement of both parties hereto.
- C. This Agreement may be terminated by any Party upon not less than (30) days written notice. Upon termination all obligations incurred under this Agreement shall terminate, except for any payment obligations under section 4.

15. HEADINGS. The headings of the sections of this Agreement are inserted only for convenience or reference and are not intended or to be construed to modify, define, limit or expand the intent of the Parties.

16. SEVERABILITY. If any provision of this Agreement shall be found by a court of competent jurisdiction to be illegal, in conflict with any law of the State of New Mexico or otherwise unenforceable, the validity and enforceability of the remaining provisions shall not be affected and the rights and obligations of the parties shall be construed and enforced as if this Agreement did not contain the particular provision found to be illegal, invalid or otherwise unenforceable.

17. FURTHER ASSURANCES. Each party hereto agrees to do all acts and things and to make, execute and deliver such written instruments as shall from time to time be reasonably required to carry out the terms and provisions of this Agreement.

18. NOTICES. Notice required pursuant to this Agreement may be effectuated by submitting a certified letter to the following:

County:

Sierra County Floodplain Manager 1712 N. Date St. Suite D Truth or Consequences, NM 87901

City:

City of Truth or Consequences Manager 505 Sims Truth or Consequences, NM 87901

IN WITNESS WHEREOF, each Party has executed this Agreement effective upon the approval of both parties.

Approved, adopted and passed this 20th day of September 2022.

AGENDA REQUEST FORM

MEETING DATE: September 28, 2022

Agenda Item #: G.5

SUBJECT: Discussion/Action – Approve amending the NMDOT Utility Cooperative Agreement and Landscaping
Agreement for the NMDOT I-25 Business Loop Roundabout Project
DEPARTMENT: Assistant City Manager
DATE SUBMITTED: September 22, 2022
SUBMITTED BY: Traci Alvarez
WHO WILL PRESENT THE ITEM: Bruce Swingle
Summary/Background:
The City entered into agreements allocating funding to relocate utilities within the roundabouts as well as
landscaping the roundabouts. Per NMDOT Bids received exceeded the available funding submitted by the City.
NMDOT will move some of the funds allocated by the City for the Landscaping to the Utility Relocation funds to
make up the shortfall. NMDOT will cover the shortfall created in the Landscaping allocation with additional
NMDOT funding. Both agreements will require amendments to reflect reallocation of funding. No additional
costs will be incurred by the City.
Recommendation:
Approve amendments to the agreements as noted

Experimental Aircraft Association (EAA) Chapter 1615 Proposal for Campsites at the TorC airport

Overview

- 1. Many folks (administration and general public) look at the airport as a playground for wealthy pilots and an expense for the city rather than as a hub for economic activity and development. We all need to educate them in order to foster a change in that perspective.
- Improving the airport makes it more attractive to pilots which will bring outside dollars to the city through increased activity in the area, not just fuel sales.
- 3. Funding sources are available and the city needs to increase efforts to access these as part of the overall plan for improvements at the airport.
- 4. Many of the pilot/plane owners at the airport are willing to help to improve the airport. They need to be viewed as part of the team and the solution.

Planned Improvement:

What: Three campsites with aircraft parking/tie down, shade/shelter, picnic table and fire ring.

Why:

- 1. Many pilots prefer to tent camp while traveling. Airports with campsites are attractive to these pilots and provide another reason to overnight here. This has a positive economic impact thru fuel sales, dining, and visiting local attractions and businesses.
- 2. Truth or Consequences airport is an entry point to the Gila Wilderness area and many of the New Mexico backcountry airstrips. From TCS, the MeOwn backcountry airstrip is 40 miles, Beaverhead is 48 miles, Negrito is 70 miles, and Rainy Mesa is 75 miles. We believe many pilots would take advantage of these campsites as they enter the backcountry or use them as their base of operation while visiting the New Mexico backcountry. TCS should consider the opportunities that would be created by becoming 'the gateway to the Gila.'
- 3. Many backcountry pilots operate aircraft with large tires that prefer soft field runways. Operating with these tires on a paved surface causes a great deal of wear and tear that these pilots go to great lengths to avoid. Our dirt runways provide another incentive for these pilots to utilize our airport. Adding campsites makes our airport even more attractive.
- 4. The more resources we can provide, the healthier and more vibrant the airport will become. This will create additional opportunities.

Where

- 1. At the south end of the ramp area in the unpaved area between the ramp and the tetrahedron.
- 2. The campsites will measure 50' x 50' to accommodate the size of aircraft that would typically be utilizing these resources.
- 3. The centerline of taxiway Bravo is 100 feet from the edge of the nearest campsite.

How

- 1. EAA chapter 1615 volunteer labor. The members are willing and able to construct and install the shade structures, tie downs, & fire rings. We have the necessary knowledge and skills.
- 2. The New Mexico Department of Transportation, Aviation Division provides funding for airport improvements such as this. Funding requests must come from the operating authority so it would be the responsibility of the airport to request this funding. We expect that these dollars could be used for all aspects of this project.
- 3. Existing city resources.

- a. Fire rings from spare/surplus pipe.
- b. Surface preparation using road grader.
- c. Surplus concrete.
- d. Surplus steel.

Materials/Resources Needed

- Surface preparation which may include fill material, grading, and compacting. Based on our survey of the campsite area, we believe it can be brought up to acceptable grade using existing, on-site materials and some blade work. However; if additional material and labor is required, our worst case estimate is \$2,200.00 in materials and \$2,500.00 in labor. Assuming worst case, we believe funding from the NM Aviation Division would cover these costs.
- 2. Tie-downs. Source: Use existing surplus materials.
- 3. Three fire rings approximately 3 feet in diameter and 1 foot high. Use existing surplus materials from the city.
- 4. Three picnic tables. Using existing surplus picnic tables from the city would be the best option. Otherwise; purchasing new tables would be necessary. We estimate \$2,500.00 and believe that funding from the NM Aviation Division would cover this cost.
- Three 10' x 10' foot sun shades, approximately 8 feet tall. Use existing surplus materials + new. We estimate \$1,000.00 of new materials and believe funding from the NM Aviation Division would cover this cost.
- 6. Three heavy duty trash cans with lids. Cans and lids secured. We estimate \$500.00 to procure and secure the trash cans. We believe funding from the NM Aviation Division would cover this cost.

Engineering Thoughts

 Drainage would remain consistent with ramp/taxiway. All drainage is to the south and east. The campsite area is a low spot and a drainage problem. A pond exists a few hundred feet southeast of the tetrahedron. This pond has nowhere to drain so excess water runs across the dirt runways. We believe existing material could be moved into the campsite area to raise the elevation so that water does not settle in the campsites but continues to drain in the same direction as it does now.

Other Mentions

- 1. Most GA pilots are not wealthy and tent camping is desired by many of them as an affordable option.
- 2. Campsites are not "taking business from the hotels/motels." The pilots that would use the campsites are going to camp somewhere if not here then another airport. Getting them to use our airport will result in a positive economic impact thru fuel sales, dining, and use of other businesses (hot springs, grocery stores, attractions, etc.). These are outside dollars coming into the community.
- 3. Marketing of the aviation resources available at TCS is needed. The campsites, courtesy car, self-serve fuel, variety of runways, etc. are all desired by the pilot community. TCS is losing opportunities by not marketing these resources and making them known. The city website is not where pilots look for information the typical aviation sources are.
- Many resources are available to help in these endeavors (including dollars, time, and materials). These improvements need to be as viewed as investment opportunities verses just "spending more money". A different attitude and approach is necessary.
- 5. This project will possibly require an ordinance change permitting camping at the airport for other than special occasions and users having to obtain prior permission before camping.

AGREEMENT

May 1, 2022

This AGREEMENT is entered into by and between the City of Truth or Consequences, a municipality corporation (hereinafter referred to as "City") and the Experimental Aircraft Association, (hereinafter referred to as "Association").

RECITALS

A. The City owns and operates the City of Truth or Consequences Municipal

B. The Association provides services to the City and the community.

Airport.

C. The airplane assigned to the Association's hangar is described as below: Aircraft Make, Model & Serial Number 1946 Toy for Craft # 9708 FAA Registration (N#): N95308

D. The parties desire to enter into this Agreement whereby the Association will be allowed to house the aforesaid airplane at a hangar within the City's Airport in exchange for services described below.

NOW THEREFORE, in consideration for the mutual promises contained herein, the parties hereby agree as follows:

1. The City does hereby allow and permit the Association to house their airplane at a City Airport hangar. The specific hangar has already been agreed to by the parties.

2. In consideration for the above, the Association shall provide services to the City to be agreed upon by the parties. The services shall include, but not necessarily limited to the following:

a. The Association will develop and submit a plan to the Airport Advisory Board to construct camp sites at the airport for transient pilots. Camp sites will provide additional incentive for pilots to refuel at the airport.

b. The Association will establish a Young Eagle Flight Program for youths ages 8-17. The program will conduct one event to introduce and inspire kids to the world of aviation.

c. The Association will host a community fly-in event at the airport.

3. The term of this Agreement shall be for 1 year, commencing on May 1, 2022 and ending on April 30, 2023. This Agreement can be renewed up to three (3) additional years upon the mutual consent of the parties.

4. Either party may terminate this Agreement by giving thirty (30) days to the other party.

5. The Association agrees to hold the City free and harmless from any claims for damages arising out of the housing of the aforesaid airplane at the City's Airport, unless such damage resulted form intentional conduct.

AGREEMENT FOR ALCOHOL TESTING

This Agreement is entered into by and between THE CITY OF TRUTH OR CONSEQUENCES, ("City") and the SIERRA ELECTRIC COOPERATIVE ("SEC").

RECITALS

A. The SEC desires to develop a procedure to allow for random alcohol testing of its CDL operators.

B. The City's Police Department has the proper equipment and personnel to provide for breath alcohol testing.

C. The parties desire to enter into an agreement whereby the SEC can arrange with the City for a breath alcohol test for SEC's CDL operators.

NOW THEREFORE, the parties agree as follows:

1. Subject to the provisions below, the City will allow the SEC to use City equipment and personnel for the purpose of obtaining a breath alcohol test for SEC CDL operators.

2. The City agrees to make the service available to SEC Monday through Friday from 8 a.m. to 4 p.m.

3. The SEC must give the City al least 24 hours notice of its intent to seek a breath alcohol test. The SEC shall be responsible for having its subject appear at the City's Police Department for such tests.

4. In consideration for the service, the SEC agrees to pay to the City the sum of \$10.00 per test.

5. This scope of this Agreement is limited to SEC CDL operators.

6. The City agrees to be responsible for obtaining proper certifications for its equipment and personnel. If the City loses its certifications, whether equipment or personnel, the City will not preform CDL tests, until proper certifications are obtained.

7. This Agreement shall commence upon both parties executing this Agreement. Either party may terminate this Agreement by giving thirty (30) days notice to either party.

SUBJECT: Vehicle Pursuit		APPROVED BY: <u>Chief</u> Michael S. ApodacaVictor Rodriguez, Chief		
NMLEA STANDA	RDS: OPR.01.09			

I. PURPOSE:

To establish department written guidelines governing the pursuit of motor vehicles.

II. POLICY:

It is the policy of the Truth or Consequences Police Department <u>that a police officer</u> to<u>may initiate and engage</u> in vehicle pursuits to <u>apprehend an offender only</u> when <u>the</u> <u>police officeran officer</u> has reasonable grounds to believe that the offender presents an <u>ongoing clear and immediate threat</u> of death or injury to others, or to the safety of other motorists or the public, which is ongoing and occurred prior to the pursuit beginning, or the offender has committed, or is committing a <u>seriousviolent</u> felony. Officers should not pursue for traffic offenses. Officers should operate department vehicles exercising due care as **protection of life is the paramount goal** of the department.

III. PROCEDURE:

1: DEFINITIONS

The following definitions shall apply for the purpose of this policy:

- A: PURSUIT An active attempt by an authorized emergency vehicle to apprehend a suspect who is fleeing or evading apprehension, providing the officer reasonably believes that the suspect is refusing to stop and is a clear and immediate serious threat, or who has committed or is committing a <u>violentserious</u> felony. Pursuits shall be conducted only with emergency equipment activated. An attempt to stop a vehicle that is not fleeing, or attempts to stop a vehicle that is refusing to stop while still obeying traffic control devices and not exceeding the speed limit by more than ten miles per hour is not a pursuit.
- B: EMERGENCY DRIVING: That driving in response to a life-threatening or other serious incident (based on available information) which requires emergency equipment in operation. Emergency responses shall be conducted only with activated emergency equipment.
- C: EMERGENCY EQUIPMENT: Emergency flashing lights and an audible siren, as is outlined in (NMSA 66-7-6.C).

Page 1 of 87

- D: PRIMARY PURSUIT VEHICLE: The police vehicle operated by the officer initiating the pursuit or another police vehicle which assumes the lead pursuit position.
- E: VEHICLES ALLOWED TO ENTER INTO PURSUITS: Only police vehicles that have their emergency equipment activated are allowed to enter into a pursuit. Vehicles should be mechanically sound or not enter into any pursuit
- F: CLEAR AND IMMEDIATE SERIOUS THREAT: For the purpose of this policy is a threat which is present prior to or during a **PRIOR TO** the pursuit and which represents a willful disregard by the occupants of the vehicle of the rights and safety of others which reasonably places the public in imminent danger of injury great bodily harm or death.
- G: <u>VIOLENTSERIOUS</u> FELONY: For the purpose of this policy a violentserious felony consists of violence or the threat of violence to another person, or the use or threat of physical force to another. Examples may include but are not limited to: homicide, rape, robbery, kidnapping, false imprisonment, and felony aggravated battery or aggravated assault-inflicting great bodily harm, and aggravated assault with a firearm or motor vehicle. For this policy, any crime involving the display or use of a firearm, including misdemeanors involving firearms, is a violent felony.

2: Guidelines and Consideration

Pursuit must be considered as a potentially dangerous act, for the officer, the suspect and the general public. When a police officer initiates pursuit of a fleeing vehicle, they may tend to consider only themselves and the occupants of the fleeing vehicle. This is not adequate.

It must be remembered that other citizens using public highways do not expect their travel to be interrupted by a high speed chase and may become involved in an accident due to over-reaction. Also, children playing on the side of a street are likely to be drawn toward a police vehicle with the emergency lights and siren activated.

In order to diminish the likelihood of a pursuit, officers intending to stop a vehicle should, whenever possible, be within close proximity to the violator's vehicle before activating the police vehicle's emergency lights to initiate a traffic stop. This practice is intended to reduce the violator's temptation to elude police contact.

Officers are responsible to see that all pursuits are done in accordance with NMSA 66-7-6. Section "d" of this section is very important where it states..." THIS SECTION DOES NOT RELIEVE THE DRIVER OF AN AUTHORIZED EMERGENCY VEHICLE FROM THE DUTY TO DRIVE WITH DUE REGARD FOR THE SAFETY OF ALL PERSONS NOR DOES IT PROTECT THE DRIVER FROM THE CONSEQUENCES OF HIS RECKLESS DISREGARD FOR THE SAFETY OF

Page 2 of <u>8</u>7

OTHERS.". Although this statue authorizes disregard of traffic regulations, this does not relieve the driver or the department from civil liability for failure to use reasonable care in such operation.

3: Initiating Officer's Responsibilities:

The primary concern in pursuit situations is the protection and safety of all citizens and officers. Death or permanent injury to police officers or citizens can result without warning. The seriousness of the possible outcome of a pursuit demands the police officer to weigh many factors when deciding whether or not to initiate pursuit. This decision is based on known circumstances and includes, but is not limited to, the following:

- A: The initiating officer has cause to believe <u>that a violent serious crime felony</u> has been or is being committed;
- B: The initiating officer has reasonable grounds to believe that the suspect presents a clear and immediate serious threat to the safety of others that may result in injury or death to others;
- C: The necessity of immediate apprehension outweighs the level of inherent danger created by the pursuit;
- D: There is a possibility of apprehension to include the identity of the fleeing driver;
- E: The geographic location, time of day, and present population density, taking into consideration school zones, residential streets, congested business districts, etc.;
- F: Traffic and road conditions;
- G: Weather conditions;

- H: Condition of the police vehicle.
- 4: Pursuit Initiation Procedures

The initiating officer, once it is apparent the operator of the suspect vehicle is attempting to resist apprehension, <u>shall</u> immediately activates the police vehicle's emergency lights to include and siren, and continuously uses both throughout the pursuit. The officer notifies the <u>Central Dispatch</u> <u>Communications</u> <u>Center</u> as soon as reasonably possible that a pursuit is underway and provides the following information:

- A: The officer, identified by call number, is in pursuit;
- B: The location, direction of travel, and the speed of the vehicle being pursued;
- C: The description of the vehicle being pursued, including the license plate number, if known;
- D: The specific reason for the pursuit, including the type of violating which initiated the pursuit;

F: The number of occupants of the vehicle being pursued, if known.

The initiating officer <u>shall request Central Dispatch to notify must then receive</u> authorization from a supervisor or command staff <u>to advise them of the pursuit to include</u> the details<u>in</u> order to continue the pursuit. If authorization is not given within a reasonable amount of time, At any time during a pursuit, the initiating officer can **must** terminate <u>it the pursuit and shall base his or her decision whether or not to terminate the</u> <u>pursuit based on known circumstances as provided by the examples outlined in Section 3</u> of this policy. Reasonableness is based on the seriousness of the reason for the pursuit.

5: Supervisor/Command Staff Responsibilities

Upon being notified of a pursuit, the supervisor/command staff verifies the following information with the Communications CenterCentral Dispatch.

- A: Identification numbers of all police vehicles involved in the pursuit;
- B: Location, direction, and speed;
- C: The reason the pursuit was initiated;
- D: When no supervisor is on duty, the on-call supervisor should be notified as soon as possible by dispatch and then take control of the situation.

The supervisor/command staff makes the decision to continue or terminate the pursuit and relays that information to the initiating officer. The supervisor/command staff must shall give authorization for the pursuit to continue.

The supervisor/command staff continuously monitors and, when appropriate, directs the pursuit, determining the merits of the pursuit based on the information available. They have the ultimate responsibility and authority for the decision to continue or terminate the pursuit.

This does not relieve the officer(s) involved in the pursuit from exercising good judgment based on existing conditions and Department Policy and Procedure to make the decision to terminate the pursuit.

<u>Central Dispatch The Communications Center</u> continuously updates the supervisor/command staff and other field units of the direction and progress of the pursuit by repeating all relevant information received from the pursuit vehicles over the primary radio channel.

At the conclusion of the pursuit, it is the responsibility of the <u>initiating officer</u> field supervisor/command staff to ensure all <u>necessary relevant</u> paperwork is done. The supervisor/command staff member advised of the pursuit shall ensure the Chief of Police

Page 4 of 87

or designee is advised of the pursuit and that all necessary relevant paperwork has been completed. -including a Pursuit Report form.

6: Pursuit Operation Procedures:

The initiating pursuit vehicle is responsible for the conduct of the pursuit, unless such vehicle is unable to remain close enough to the pursued vehicle to prevent losing visual contact, or becomes disabled. When a secondary pursuit vehicle replaces the initial pursuit vehicle, that vehicle becomes the primary pursuit vehicle and is responsible for the pursuit and continues in that capacity until the pursuit is terminated or the primary pursuit vehicle is again replaced. The primary pursuit vehicle retains operational responsibility for the pursuit unless relieved by the field supervisor.

The authority of the primary pursuit vehicle is at all times subordinate to the command of the supervisor.

The primary pursuit vehicle provides updated information to <u>Central Dispatch_the</u> Communications Center concerning the direction of travel, speed and pursued vehicle's actions as such information becomes available.

The primary vehicle may request the secondary vehicle to provide all communications with <u>Central Dispatch the Communications Center</u>, in order to safely operate the police vehicle. If the primary pursuit vehicle is a two-man unit, the passenger operates the radio, whenever possible.

An officer will not forcibly stop or attempt to forcibly stop a pursued vehicle unless authorized to do so by the supervisor directing the pursuit.

7: Secondary Pursuit Vehicle Responsibilities:

No officer enters a pursuit without first activating the police vehicle's emergency lights and siren and notifying the Communications CenterCentral Dispatch of their involvement.

No officer enters a pursuit in which two police vehicles are already involved unless otherwise authorized by a supervisor.

The secondary pursuit vehicle maintains a safe distance behind the primary pursuit vehicle, but remains close enough to render back-up assistance and retain visual contact. They must avoid intersecting the path of an on-coming pursued vehicle.

If the secondary pursuit vehicle assumes the primary pursuit vehicle position, they immediately notify <u>Central Dispatch the Communications Center</u>.

8: Vehicles Qualified to Enter a Pursuit

Only police vehicles equipped with emergency lights and siren are to enter a pursuit. Police vehicles not so equipped should attempt to maintain visual contact with any

Page 5 of <u>8</u>7

fleeing vehicle without using excessive speed, and provide all relevant information to <u>Central Dispatch the Communications Center</u>.

POLICE OFFICERS SHOULD NOT ENTER A PURSUIT WITH NON SWORN PERSONNEL IN THE POLICE VEHICLE.

9: Pursuits Leaving Truth or Consequences Police Department Jurisdiction

Should a vehicle from the affected jurisdiction actively enter the pursuit, the Truth or Consequences Police Department vehicles <u>shall</u> relinquish the primary pursuit vehicle position to that agency's vehicle, whenever safely possible as the new jurisdiction agency has a better knowledge of the area, resources, and communication abilities. At any time, the primary pursuit, supervisor, or command staff member believes he or she can no longer continue the pursuit in a safe manner due to their unfamiliarity of the new jurisdiction, they shall terminate the pursuit.

Participation in the pursuit by Truth or Consequences Police Department vehicles is terminated by the officer under any of the following circumstances, unless otherwise directed by the supervisor:

If <u>a</u>A secondary pursuit vehicle from the affected agency enters the pursuit, unless the eircumstances of the pursuit make such termination hazardous to officer safety. (Tthe primary Truth or Consequences Police Department vehicle may proceed in a safe manner to the scene of the termination of the pursuit) and they shall assist as needed by the affected agency;

The primary pursuit vehicle should consider terminating the pursuit if he or she no longer has readable Rradio contact with Central Dispatch or the new jurisdiction agency's communication center. In these situations, the primary or secondary pursuit vehicle should switch over to statewide law enforcement network frequencies as soon as possible in an attempt to maintain readable communications.the Communications Center or affected agency's units is lost or is unreadable;

The Truth or Consequences Police Department units, unassisted by any other agencies' units, enter any area unfamiliar to them that could result in the officer being unable to notify the Communications Center of their exact location.

10: Pursuits Entering Truth or Consequences Police Department Jurisdiction

If a pursuit is moving towards the Truth or Consequences city limits on interstate 25, it is our main objective to ensure it does not enter our city if possible. Units will be parked in such a manner as to persuade the violator to not enter the city limitscontinue straight on the interstate. Should any unit discover a pursuit initiated by another agency has entered the Truth or Consequences Police Department jurisdiction, that unit should do the following:

Notify <u>Central Dispatch the Communications Center</u>, providing all relevant information including the number of police vehicles actively involved in the pursuit; enter the pursuit

Page 6 of <u>8</u>7

only if requested and the pursuit meets our criteria for a pursuit. Any non-pursuit assistance may be provided as the circumstances dictate.

11: Forcible Stopping of Pursued Vehicles

The Chief of Police and or the Deputy Chief/Lieutenant are the only authorized personnel that may make tThe primary officer, supervisor or command staff member can make the decision to authorize theto forcible forcibly stopping of a pursued vehicle to include the use of a . The use of a vehicle disabling devise such as a tire deflation device or is one acceptable method of forcibly stopping a vehicle. (See Stop Stick Policy 112)

Forcible stopping <u>a pursued vehicle</u> by any other means <u>shall be in accordance with the</u> <u>department's stop stick</u>, use of force or other <u>applicable policies</u>. is only authorized in <u>cases involving circumstances justifying the use of deadly force in compliance with the</u> Truth or Consequences Police Department Use of Force policy.

Forcible stopping tactics are governed by the following additional guidelines:

Due to the extreme and obvious dangers inherent with the use of roadblocks in pursuit situations, the setting up of roadblocks for the purpose of terminating a pursuit is prohibited;

The Ddischarging of a weapon at or from a moving vehicle shall be in accordance with the department's use of force policy. is prohibited, except in cases justifying the use of deadly force in compliance with the Use of Force Policy 111 page 4.

Once the pursuit has entered another jurisdiction, if officers from that jurisdiction enter the pursuit, Truth or Consequences officers shall cease their emergency driving, turn off emergency equipment, and follow the pursuit while observing all posted speed limits and traffic control devices as authorized by the Chief of Police and or Deputy Chief/Lieutenant.

12: Termination of the Pursuit

As previously stated, the decision to terminate the pursuit rests with both the primary pursuit officer and the field-supervisor/command staff member.

No officer or supervisor will be criticized or disciplined for their decision to terminate a pursuit based on their judgment. A pursuit should be terminated under any of the following circumstances:

In the opinion of the primary pursuit officer or the supervisor there is a clear and unreasonable danger to the officer, suspect or general public created by the pursuit which outweighs the necessity of immediate apprehension;

Page 7 of <u>8</u>7

The suspects' identity has been established to the point that later apprehension can be accomplished, and there is no longer a need for immediate apprehension;

The traffic, roadway or environmental conditions create a dangerous or hazardous condition for the pursuit;

The officer knows, or is reasonably certain that the pursued vehicle is operated by a juvenile, there are no conditions constituting a clear and immediate threat to the general public, such as driving while intoxicated, and the safety factors involved are considered greater than the juvenile can cope with;

A person has been injured during the pursuit and <u>the officer has stopped to render aid</u> <u>until no</u> medical or police personnel are able to provide help;

The pursuit vehicles are no longer in visual contact with the pursued vehicle.

<u>Once</u> The termination of a pursuit <u>occurs</u>, <u>officers shall not does not prohibit the</u> following <u>officers at withoutan</u> excessive speed, <u>or with emergency</u> lights activated. <u>-orOfficers may</u> remaining in an area to reinitiate a pursuit if the opportunity and conditions permit.

13: Documentation of the Pursuit

Following the termination of **all pursuits**, the officer responsible for the paperwork fills out an incident report and forward it through the chain of command, along with all other appropriate paperwork. This should contain:

- A: Names of all officers involved, including other agencies;
- B: Supervisor in charge of pursuit;
- C: Narrative of pursuit including how it ended;
- D: Any tactics used to stop suspect vehicle;
- E: Any damage or injury; and,
- F: Offenses for which the suspect was charged.

NUMBER: 360	SUPERSEDES: NEW	EFFECTI	VE DATE:	PAGE 1 of 1
SUBJECT: Retired Law Enforcement Officers Concealed Carry			APPROVED BY: Victor J. Rodriguez, Chief	
NMLEA STANDA	ARDS:			

I. PURPOSE:

To establish guidelines outlining the criteria and qualifications necessary for sworn law enforcement officers that previously retired in good standing from the Truth or Consequences Police Department thus allowing the retired law enforcement officers to carry concealed firearms as allowed under the Law Enforcement Officer's Safety Act (LEOSA) of 2004 as Pub. L. 108-277 and is coded as 18 U.S. Code 926C.

II. POLICY:

Retired law enforcement officers, who are retired from this department are authorized to carry firearms in accordance with federal, state, local laws, and Department policies. The decision to carry a firearm is a matter of good judgment based on circumstances. Discretion and safety shall be exercised while handling firearms. The purpose of this procedure is to provide general guidelines and procedures for retired law enforcement officers pursuant to the Law Enforcement Officer's Safety Act of 2004.

III. PROCEDURE:

- 1. The Truth or Consequences Police Department will comply with LEOSA. The act permits the nationwide carrying of concealed handguns by qualified retired law enforcement officers and amends the Gun Control Act to exempt qualified retired law enforcement officers from state and local laws prohibiting the carry of concealed firearms.
- 2. This authorization will not supersede or limit the laws of any state that:

a. Permit private persons or entities to prohibit or restrict the possession of concealed firearms on their property.

b. Prohibit or restrict the possession of firearms on any state or local government property, installation, building, base or park.

3. A "qualified retired law enforcement officer" means an individual who:

a. Retired in good standing from the Truth or Consequences Police Department as a law enforcement officer, to include any service-connected disability, unless the reasons for separation involved mental instability.

b. Before such retirement, the retired law enforcement officer was authorized by law to engage in or supervise the prevention, detection, investigation, or prosecution of, or the incarceration of any person for any violation of law, and had statutory powers of arrest.

c. Before such retirement, the retired law enforcement officer was regularly employed as a law enforcement officer for an aggregate of 10 years or more (in any combination with any other federal, state, or local law enforcement agency) and retired from service with the Truth or Consequences Police Department after completing the applicable probationary period as determined by the City of Truth or Consequences.

d. Has met New Mexico Department of Public Safety Law Enforcement Academy standards for training and qualification for law enforcement certification and/or firearms qualifications.

e. Is not prohibited by federal or state law from receiving or possessing a firearm or involved in an incident where the firearm was negligently used, carried, or possessed to include while being under the influence of any intoxicating liquors and/or intoxicating or hallucinatory drug or substance drugs.

4. The identification card required by the Truth or Consequences Police Department shall be:

a. A photographic identification card labeled "RETIRED POLICE OFFICER" issued by the Truth or Consequences Police Department.

b. Proof and submission of a New Mexico Department of Public Safety police officer certification.

- 5. The retired law enforcement officer shall be required to qualify with each handgun firearm that the retiree will carry under the LEOSA authority at their own expense.
- 6. The retired law enforcement officer shall be required to complete a written affidavit specifying they are qualified to carry a concealed firearm under LEOSA authority and what handgun firearms that the retire will carry under the LEOSA authority.
- 7. The retired law enforcement officer may be required by the Chief of Police or their designee, to obtain a medical or psychological healthcare provider clearance upon notification of credible information that the retired law enforcement officer is medically or psychologically unfit to carry a firearm or complete firearms qualifications.
- 8. Firearms qualification standards for retired law enforcement officers shall include the successful yearly completion of State of New Mexico standardized qualification day and night courses for each type of firearm that the retired law enforcement officer wishes to carry.
- 9. In addition, the retired law enforcement officer shall abide by the following:

a. The retired law enforcement officer shall notify the Truth or Consequences Department of their intention to qualify with a weapon to be carried under LEOSA authority.

b. Yearly firearms qualifications will be scheduled by retired law enforcement officer with a department's firearms instructor and records of such qualifications shall be provided by the retired law enforcement officer to be kept on file with the department. The Chief of Police or their designee may allow the retired law enforcement officer to complete their yearly firearms

qualifications with non-department New Mexico Department of Public Safety firearms certified instructor.

c. The minimum qualifying firearms score will be in accordance with New Mexico Department of Public Safety Law Enforcement Academy standards.

d. Since the retired law enforcement officer's separation in good standing from the Truth or Consequences Police Department, the retired law enforcement officer has not been involved in any action, event or condition, that, if considered prior to their separation from the Truth or Consequences Police Department, would have prevented me from retiring in good standing.

- 10. Retired law enforcement officers shall sign a waiver of liability with the City of Truth or Consequences prior to qualification for all acts taken related to the carrying of a concealed firearm. This wavier will acknowledge their personal responsibility as a private citizen when carrying, possessing, or discharging a concealed firearm and not as a former employee of the City of Truth or Consequences or the police department. The waiver shall release the City of Truth or Consequences and any of its departments from any claim or action resulting from any injury suffered during the qualification activities.
- 11. A retired law enforcement officer that fails to adhere to section contained in this policy to include the proper and timely submission of required documentation may result in their Retired Police Officer identification card being revoked and immediately returned back to the Truth or Consequences Police Department.

Truth or Consequences Police Department

Professionalism, Respect, and Integrity

Retired Law Enforcement Request to Carry Concealed Firearm Affidavit

I,

_, a resident of

(address including city, state and zip code), and a qualified retired law enforcement officer of the Truth or Consequences Police Department duly swears that:

1. I successfully completed an approved New Mexico Department of Public Safety Law Enforcement Academy firearms qualifications day and night course(s) for the below listed firearms (include caliber and serial number for each firearm) with an approved firearms instructor and have attached proof of such firearms qualifications:

2. I separated from the Truth or Consequences Police Department as a sworn law enforcement officer and at the time possessed a New Mexico Department of Public Safety Law Enforcement Academy police officer certification;

3. My separation from the agency listed in Paragraph 2, above, was not for reasons of any mental disability;

4. At the time of my separation from the agency listed in Paragraph 2, above, I was in good standing with said agency;

5. Prior to the time of my separation from the agency listed in Paragraph 2, above, I was authorized by law to engage in or supervise the prevention, detection, investigation, or prosecution of, or the incarceration of any person, any violation of law, and had statutory powers of arrest;

6. Prior to my separation from the agency listed in Paragraph 2, above, I was regularly employed as a law enforcement officer for an aggregate of 10 years or more (in any combination with any other federal, state, or local law enforcement agency); or, retired from service with such agency, after completing any applicable probationary period as determined by such agency;

7. I will not possess, carry, or discharge a firearm to include doing so in a negligent manner while I am under the influence of alcohol or another intoxicating or hallucinatory drug or substance;

8. I am not prohibited by federal or state law from receiving, or possessing a firearm; and

9. Since my separation in good standing from the agency listed in Paragraph 2, above, I have not been involved in any action, event or condition, that, if considered prior to my separation, would have prevented me from retiring in good standing.
