

Generating Facilities with Rated Capacities Greater than 10kW up to 10MW

Application Process and Instructions

Introduction

This interconnection application process is available to any City of Truth or Consequences (City) Customer-Generator applicant ("Applicant") proposing to interconnect its Generating Facility to the City's Utility. This is for Generators, Co-Generators, and Small Power Producers rated greater than 10kW up to 10 MW. Applicants are advised to review NMPRC Rule 568 and The Interconnection Manual along with NMPRC Rule 570. These documents are the basis for interconnecting to utilities and metering in the State of New Mexico.

Instructions

1. Obtain a *Standard Interconnection Application, Generating Facilities with Rated Capacities Greater than 10kW*.
2. Complete the Application along with the required attachments then contact the City's Building Inspection Department and arrange for a pre-review meeting of the Application package with the City.
3. An application fee must accompany the Application for Interconnection. Please attach a non-refundable check made payable to the City of Truth or Consequences in the appropriate amount at the time the Application is submitted.
 - Application fee for interconnection of a generator, co-generator, or small power producer with a rated capacity greater than 10 kW and less than or equal to 100 kW - \$100.00
 - Application fee for interconnection of a generator, co-generator, or small power producer with a rated capacity greater than 100 kW and less than or equal to 10 MW - \$100.00 + \$1.00 for every kW above 100 kW.

An application is complete when it provides all applicable information required. Additional information to evaluate the request for interconnection may be required and will be requested from the Applicant by the City if necessary.

Forms and Documents

Forms and documents available from the City:

- *Standard Interconnection Application, Generating Facilities with Rated Capacities Greater than 10kW*
- *Exhibit 3B, Interconnection Agreement, Generating Facilities with Rated Capacities Greater than 10kW and Not Qualified for Simple Interconnection* (reference - The Interconnection Manual and NMPRC Rule 568)
- *PRC Rule 17.9.568*
- *PRC Rule 17.9.570*
- *The Interconnection Manual*
