## Independent Auditors' Report

To Brian S. Colón, Esq.  
New Mexico State Auditor

City Commission  
City of Truth or Consequences

### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, the aggregate remaining fund information and the budgetary comparison for the General Fund of the City of Truth or Consequences (the "City"), as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

### *Management's Responsibility for the Financial Statements*

The City's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### *Auditor's Responsibility*

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Housing Authority, which represents 14 percent, 8 percent, and 0.10 percent, respectively, of the assets, net position, and revenues of the City. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amount included in the Housing Authority, is based solely on the report of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are

NEW MEXICO | Albuquerque

appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### ***Opinions***

In our opinion, based on the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of the City, as of June 30, 2020, and the respective changes in financial position, and where applicable, cash flows, and the respective budgetary comparison for the general fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### ***Other Matters***

#### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the *Schedules of the City's Proportionate Share of the Net Pension Liability and Net OPEB Liability*, and *Schedules of City Contributions* on pages 61-65 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

*Management has omitted the Management's Discussion and Analysis* that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial

reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

#### *Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements, the combining and individual fund financial statements, and the budgetary comparisons that collectively comprise the City's basic financial statements. The other schedules required by 2.2.2 NMAC as noted in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Schedule of Expenditures of Federal Awards other schedules required by 2.2.2 NMAC as noted in the table of contents, are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Expenditures of Federal Awards and the schedules required by 2.2.2 NMAC as noted in the table of contents, are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

#### **Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated December 14, 2020 on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

**Net Change in Fund Balances - Total Governmental Funds  
(Statement of Revenue, Expenditures, and Changes  
in Fund Balances)**

\$ 1,469,607

Amounts reported for governmental activities in the statement of activities are different because:

Change in net position of internal service funds (2,538)

Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense.

Capital expenditures	204,279	
Transfers and deletions	23,304	
Depreciation expense	<u>(429,133)</u>	(201,550)

Revenues in the governmental funds that provide current financial resources are not included in the Statement of Activities because they were recognized in a prior period.

Change in unavailable revenue related to property taxes receivable 27,658

Governmental funds report City pension and other pension benefit (OPEB) contributions as expenditures. However, in the Statement of Net Activities, the cost of pension benefits and other postemployment benefits earned net of employee contributions is reported as pension and OPEB expense:

Pension expense	(500,875)
OPEB expense	583,592

The issuance of long-term debt (e.g. bonds, loans, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction; however, has any effect on net position.

The following table represents the changes in long-term debt for the fiscal year:

Change in bonds, notes, and loans payable	(614,298)
Change in compensated absences	(33,512)
Change in accrued interest on long-term debt	<u>7,600</u>

**Change in net position in governmental activities**

**STATE OF NEW MEXICO  
CITY OF TRUTH OR CONSEQUENCES  
NOTES TO FINANCIAL STATEMENTS  
June 30, 2020**

**NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**A. Financial Reporting Entity**

The City of Truth or Consequences, (City), New Mexico, which was incorporated in 1917, operates under a Commission / Manager form of government. Five commissioners are elected at large and one of the commissioners serves as Mayor. This reporting entity consists of the primary government, organizations for which the primary government is financially accountable and other organizations for which the nature and significance of their relationship with the primary government are such that exclusion could cause the City's financial statements to be misleading or incomplete.

In evaluating how to define the government, for financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the reporting entity was made by applying the criteria set forth in generally accepted accounting principles (GAAP). Blended component unit, although legally separate entities, are in substance part of the government's operations. Each discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that is legally separate from the government.

The basic (but not the only) criteria for including a potential component unit within the reporting entity is the governing body's ability to exercise oversight responsibility. The most significant manifestation of this ability is financial interdependency. Other manifestations of the ability to exercise oversight responsibility include, but are not limited to, the selection of governing authority, the designation of management, the ability to significantly influence operations, and accountability for fiscal matters. A second criterion used in evaluating potential component units is the scope of public service. Application of this criterion involves considering whether the activity benefits the government and/or its citizens, or whether the activity is conducted within the geographic boundaries of the government and is generally available to its citizens. A third criterion used to evaluate potential component units for inclusion or exclusion from the reporting entity is the existence of special financing relationships, regardless of whether the government is able to exercise oversight responsibilities. Based upon the application of these criteria, the City has one component unit required to be reported under GASB Statements No. 14, No. 39, and No 61.

The Truth or Consequences Housing Authority (The Authority) has been determined to be a component unit of the City that should be discretely presented in the City's financial statements pursuant to the criteria described above. The authority was audited by another auditor and has separately issued financial statements and all exhibits, schedules and footnotes are included in those financial statements. Excerpts of the component unit's activities that we deemed material are included in the City's financial report. The Authority's separately issued financial statements may be obtained directly from their administrative office as follows: Executive Director, Truth or Consequences Housing Authority, 108 South Cedar, Truth or Consequences, New Mexico 87901.

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the activities of the primary government and its component units. The effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely fees and charges for support.

**NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**B. Government-wide and fund financial statements**

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment, are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Indirect costs are not allocated to functions in the statement of activities. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

**C. Measurement focus, basis of accounting and financial statement presentation**

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements and the fiduciary fund – agency financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Derived tax revenues (gross receipts taxes, cigarette taxes and gas taxes) are recognized when the underlying transaction takes place. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the City.

The City reports the following major governmental funds:

The **General** fund is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

C. Measurement focus, basis of accounting and financial statement presentation  
(Continued)

The **Debt Service Fund** was created to account for the accumulation of resources for, and the repayment of general long-term principal, interest, and related costs of the general obligation bonds. Revenues for this fund are taxes generated by sources designated in bond obligations. The fund is required by bond-obligation requirements.

The government reports the following major proprietary funds:

The **Joint Utility Office** fund accounts for the provision of water, electric, sewer and wastewater services to the residents of the city. All activities necessary to provide such services are accounted for in this fund, including, but not limited to, administration, operations, maintenance, financing and related debt service, billing and collection.

The **Electric** fund accounts for the provision of electric services to the residents of the city. All activities necessary to provide such services are accounted for in this fund, including, but not limited to, administration, operations, maintenance, financing and related debt service, billing and collection.

The **Water** fund accounts for the provision of water services to the residents of the city. All activities necessary to provide such services are accounted for in this fund, including, but not limited to, administration, operations, maintenance, financing and related debt service, billing and collection.

The **Waste Water Treatment Plant** fund accounts for the provision of sewer and waste water services to the residents of the city. All activities necessary to provide such services are accounted for in this fund, including, but not limited to, administration, operations, maintenance, financing and related debt service, billing and collection.

The **Airport Fund** used to account for the operations and maintenance of the airport. Financing is provided by fuel sales and fees for services. The fund is authorized by City Commissioner.

The **Solid Waste** fund accounts for the activities of the City's solid waste services.

The **Impact Fee** fund is authorized by City Ordinance No. 563, 11-14-06, and states the City may enact or impose development impact fees on land within its municipal boundaries. An impact fee may be imposed only to pay the following specified costs of constructing capital improvements or facility expansions: 1) estimated capital improvements plan costs; 2) planning, surveying and engineering fees paid to an

independent qualified professional who is not a City employee for services provided for and directly related to the construction of capital improvements or facility expansions; 3) fees actually paid or contracted to be paid to an independent qualified professional, who is not a City employee, for the preparation or updating of capital improvements plan; and 4) up to three percent of total impact fees collected for administrative costs for City employees who are qualified professionals.

Additionally, the City maintains one individual internal service fund. A description of the fund is as follows:

The ***Internal Service*** fund accounts for the costs of maintaining the City's vehicle and equipment fleet. The fund bills various City departments to cover the cost of maintaining the City's fleet.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the City's utility and various other functions of the City. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided 2) operating grants and contributions and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

**D. Assets, Liabilities and Net Position**

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the City's enterprise funds and internal service funds are charges to customers for sales and services. The utilities also recognize as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is City policy to use restricted resources first, then unrestricted resources as they are needed.

CITY OF TRUTH OR CONSEQUENCES  
NOTES TO FINANCIAL STATEMENTS  
June 30, 2020**

**NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**D. Assets, Liabilities and Net Position (Continued)**

**Deposits and Investments.** The City's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

State statutes authorize the City to invest in obligations of the U.S. Treasury, repurchase agreements, Certificates of Deposits, and the State Treasurer's Investment Pool. Investments for the City are reported at fair value. The State Treasurer's Investment Pool operates in accordance with appropriate state laws and regulations and is not SEC registered. The reported value of the pool is the same as the fair value of the pool shares. Generally, investment income earned as a result of pooling is distributed to the appropriate funds utilizing a formula based on the average daily balance of cash and investments of each fund. All investment in such pool is voluntary.

**Receivables and Payables.** Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds". Any residual balances outstanding between the governmental activities and business- type activities are reported in the government-wide financial statements as "internal balances."

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources in the event they are not received within 60 days at year end.

The joint utility enterprise fund is responsible for billing and collecting electric, water, and wastewater charges using a cycle billing system. No billing cycles are billed in advance of services. Metered accounts are billed in arrears and have been accrued. The only unearned revenue is customer payments for prepaid electric distribution construction. Customers are required to pay 100% of the estimate prepared by the electric director. When the job is complete the actual costs of the job are prepared and the customer is either refunded the overpayment or billed for the shortage. These payments for construction are then reported as increases in net assets at the end of the fiscal year. All trade receivables are shown net of an allowance for uncollectible accounts. The City is required to provide service and grant credit to a diverse customer base within its service territory. The City may require security deposits prior to providing service to customers depending upon an assessment of credit worthiness.

All receivables are reported at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible. In the government-wide and governmental fund financial statements, delinquent property taxes are recorded when levied. Property taxes are considered to be 100 % collectible.

**STATE OF NEW MEXICO  
CITY OF TRUTH OR CONSEQUENCES  
NOTES TO FINANCIAL STATEMENTS  
June 30, 2020**

**NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**D. Assets, Liabilities and Net Position (Continued)**

Property taxes are levied on November 1 based on the assessed value of property as listed on the previous January 1 and are due in two payments by November 10th and April 10th. Property taxes uncollected after November 10th and April 10th are considered delinquent and the City may assess penalties and interest. The taxes attach as an enforceable lien on property thirty (30) days thereafter, at which time they become delinquent. Property taxes are collected by Sierra County and remitted monthly to the City.

The City estimates the allowance for uncollectible accounts based on the days delinquent. The City has estimated all accounts that are greater than 120 days to be uncollectible.

**Restricted Assets:** Restricted assets consist of those funds expendable for operating purposes but restricted by donors or other outside agencies as to the specific purpose for which they may be used and restricted for future debt service payments, capital projects, customer deposits and other restrictions.

**Inventories and Prepaid Items.** Inventories are by the City and the Joint Utility, Airport, and Solid Waste Funds and are valued at cost using the first-in/first-out (FIFO) method. Certain payments to vendors reflect costs applicable to future accounting periods wide and are recorded as prepaid items in both government-wide and fund financial statements.

**Capital Assets.** Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items) are, reported in the applicable governmental or business- type activities columns in the government-wide financial statements. Capital assets are defined by the City as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. Such assets, including infrastructure, have higher limits that must be met before they are capitalized. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. Computer software costs, whether externally purchased or developed in-house, shall be capitalized if the total cost of the software equals or exceeds \$5,000 and has a life of at least two years. Library books and periodicals are estimated to have a useful life of less than one year or are under the capitalization threshold and are expensed when purchased.

**STATE OF NEW MEXICO  
CITY OF TRUTH OR CONSEQUENCES  
NOTES TO FINANCIAL STATEMENTS  
June 30, 2020**

**NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**D. Assets, Liabilities and Net Position (Continued)**

Property, plant, and equipment of the primary government have the following threshold levels to be capitalized and are depreciated using the straight line method over the following estimated useful lives:

	<u>Estimated Useful Life</u>
Buildings and improvements	10-50 years
Equipment	5-25 years
Infrastructure including golf course and airport	10-50 years
Vehicles	5-10 years
Utility plant	20-40 years

**Compensated Absences.** Each employee of the City may accumulate a total of thirteen to twenty-six days of vacation per year. Employees may accumulate up to thirty days of vacation and carry leave forward from calendar year to calendar year. Upon termination, employees will be paid up to thirty days of accrued vacation pay leave. All vacation pay is accrued when incurred in the government-wide and proprietary fund financial statements. A liability is reported in the governmental funds only if they have matured.

Vested or accumulated vacation leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental or proprietary fund that will pay it. In prior years, substantially all of the related expenditures have been liquidated by the general fund. Amounts of vested or accumulated vacation leave that are not expected to be liquidated with expendable available financial resources are reported in the government-wide statement of net position.

*Sick Leave* – Each employee of the City may accumulate a total of thirteen days of sick leave per year. Sick leave can be carried forward from calendar year to calendar year. Upon separation of employment, an employee with five or more continuous years of service will be compensated for one third of the first 480 accrued sick leave hours for a total of 160 hours. Employees with less than five years of continuous service forfeit all accrued sick leave at separation of employment. Employees cannot donate sick leave at time of separation.

**Deferred Outflows/Inflows of Resources.** In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. Also, in addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. Deferred inflows are reported in the governmental funds regarding property taxes. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

**NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**D. Assets, Liabilities and Net Position (Continued)**

**Long-Term Obligations.** In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs related to insurance, are amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs other than related insurance are expensed in the year incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs related to insurance, during the current period. The face amount of debt issued is reported as other financing sources. Bond premium and discounts are reported as other financing uses. Issuance costs, even if withheld from actual net proceeds received, are reported as debt service expenditures.

**Pension.** For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Public Employees Retirement Association (PERA) and additions to/deductions from PERA's fiduciary net position have been determined on the same basis as they are reported by PERA's. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

**Postemployment Benefits Other Than Pensions (OPEB):** For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the New Mexico Retiree Health Care Authority (NMRHCA) and additions to and deductions from NMRHCA's fiduciary net position have been determined on the same basis as they are reported by NMRHCA. For this purpose, NMRHCA recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value.

**Fund Equity Flow Assumptions.** In the fund financial statements, governmental funds report restricted and unassigned fund balances. Restricted fund balances represent amounts that are constrained externally by creditors (such as debt covenants), grantors, contributors, or laws of other governments. Sometimes the City will fund outlays for a particular purpose from both restricted and unrestricted resources. In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the City's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

**Fund Balances.** In the fund financial statements, fund balances of the governmental funds are classified as follows:

Nonspendable – amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact.

Restricted – amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.

Committed – amounts that can be used only for specific purposes determined by a formal action of the City Commission. City Commission is the highest level of decision-making authority for the City. Commitments may be established, modified, or rescinded only through ordinances or resolutions approved by the City Commission.

Assigned – amounts that are constrained by the City’s intent to use them for a specific purpose, but are neither restricted nor committed. The City has not established a policy regarding the assignment of funds, so this category of fund balance represents the residual amounts not otherwise reported as unspendable, restricted, or committed in governmental funds outside of the general fund.

Unassigned – all other spendable amounts.

**Use of Estimates.** The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

**NOTE 2. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY**

**A. Budgetary Information**

Annual budgets are adopted for all funds. All budgets are consistent with generally accepted accounting principles (GAAP). All annual appropriations lapse at fiscal year-end. Carryover funds must be appropriated in the budget of the subsequent fiscal year. Because the budget process in the State of New Mexico requires that the beginning cash balance be appropriated in the budget of the subsequent fiscal year, such appropriated balance is legally restricted and is therefore presented as a reserved portion of fund balance.

Actual expenditures may not exceed the budget on a fund basis. Budgets may be amended by City Commission resolution with approval by the State Department of Finance and Administration. City department heads may make transfers of appropriations within a fund. The legal level of budgetary control is the fund level. Increases or decreases of appropriations between funds require the approval of the governing Commission.

**NOTE 2. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY (CONTINUED)**

**A. Budgetary Information (Continued)**

The city follows the follows the following procedures in establishing the budgetary data reflected in the financial statements:

The City follows the following procedures in establishing the budgetary data reflected in the financial statements:

1. Prior to June, the City Manager submits to the City Commission a proposed operating budget for preliminary approval for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing them. A budget is prepared for each fund.
2. Prior to September 1, the budget is legally enacted through passage of a resolution and the Local Government Division of the State Department of Finance and Administration approves the final budget.
3. After the budget is adopted any supplemental appropriations must be approved by the City Commission

The budgetary basis and GAAP basis are the same for all governmental fund types. Budgets for proprietary enterprise funds are adopted on a non-GAAP basis, using the spending measurement focus as in governmental fund types.

**B. Excess of Expenditures over Appropriations**

As of June 30, 2020, the City did not over expend the budget in any fund.

**NOTE 3. DEPOSITS AND INVESTMENTS**

State statutes authorize the investment of the City funds in a wide variety of instruments including certificates of deposit and other similar obligations, state investment pool, money market accounts, and United States Government Obligations. All invested funds of the City properly followed State investment requirements as of June 30, 2020.

Deposits of funds may be in interest or non-interest bearing checking accounts in one or more banks or savings and loan associations within the geographical boundaries of the City. Deposits may be made to the extent that they are insured by an agency of the United States or by collateral deposited as security or by bond given by the financial institution.

The rate of interest in non-demand interest-bearing accounts shall be set by the State Board of Finance, but in no case shall the rate of interest be less than one hundred percent of the asked price on United States Treasury bills of the same maturity on the date of deposit.

Excess of funds may be temporarily invested in securities which are issued by the State of by the United States government, or by their departments or agencies, and which are either direct obligations of the State of the United States or are backed by the full faith and credit of those governments.

**NOTE 3. DEPOSITS AND INVESTMENTS (CONTINUED)**

As of June 30, 20, the City had the following deposits and investments:

Demand deposits	\$	8,770,007
Certificates of deposit		2,752,489
State Treasurer's LGIP		1,377,068
Cash with fiscal Agent		<u>1,771,625</u>

Governmental funds	\$	6,012,314
Proprietary funds		<u>8,658,875</u>
Total	\$	<u>14,671,189</u>

The City has investments in the State Treasurer external investment pool (the Local Government Investment Pool). The investments are valued at fair value based on quoted market prices as of June 30, 2020. The State Treasurer Local Government Investment Pool (LGIP) is not SEC registered. Section 6-10-10 I, NMSA 1978, empowers the State Treasurer, with the advice and consent of the State Board of Finance, to invest money held in the short-term investment fund in securities that are issued by the United States government or by its departments or agencies and are either direct obligations of the United States or are backed by the full faith and credit of the United States government or are agencies sponsored by the United States government. The Local Government Investment Pool investments are monitored by the same investment committee and the same policies and procedures that apply to all other state investments. The pool does not have unit shares. Per Section 6-10-10.1F, NMSA 1978, at the end of each month all interest earned is distributed by the State Treasurer to the contributing entities in amounts directly proportionate to the respective amounts deposited in the fund and the length of time the amounts were invested. Participation in the local government investment pool is voluntary. The LGIP has been rated by Standard & Poor's and has received an AAAM rating.

Investment Type	Weighted Average Maturities	Fair Value	Rating*

		<u>\$ 1,377,068</u>	

\*Based off Moody's rating

In addition to the investment in LGIP above there are \$2,752,489 of certificates of deposit that are greater than 90 days and therefore are considered investments in the Statement of Net Position.

**Interest Rate Risk.** The risk that interest rate variations may adversely affect the fair value of an investment. An acceptable method for reporting interest rate risk is weighted average maturity (WAM). The State Treasurer's Office uses this method for reporting purposes for the Local Government Investment Pool. As of June 30, 2020 the LGIP WAM (R) was 25 days and WAM (F) was 77 days. The City does not have a formal policy limiting investment maturities that would help manage its exposure to fair value losses from increasing interest rates.

The City does not have a formal policy limiting investment maturities that would help manage its exposure to fair value losses from increasing interest rates.

**Credit Risk.** As directed by State Statute 6-10-36, E. and F., excess funds may be invested in securities backed by the full faith and credit of the United States Government, such as treasury notes, bills and bonds; in securities of Agencies that are guaranteed by the United States Government; bonds or negotiable securities of the State of New Mexico or of any county, municipality or school district in the State of New Mexico which has a taxable valuation of real property for the last preceding year of at least one million dollars (\$1,000,000) and has not defaulted in the payment of any interest or sinking fund obligation or failed to meet any bonds at maturity at any time within five years last preceding. The LGIP is exempt from this reporting requirement.

**Custodial Credit Risk (Deposits) - City.** Custodial credit risk is the risk that in the event of a bank failure, the City’s deposits may not be returned to it. State statute requires that the bank deposits be 50% collateralized and repurchase agreements be 102% collateralized. The City’s accounts at an insured depository institution, including all non-interest bearing transaction accounts, will be insured by the FDIC up to the standard maximum deposit insurance amount of \$250,000 for demand deposit accounts and \$250,000 for time and savings accounts. At June 30, 2020, \$0 of the City’s bank balances of \$11,797,791, was exposed to custodial credit risk. The collateral pledged is listed in the table of contents of this report and as listed below.

	<b>First Saving Bank</b>
<b>Deposits in Bank</b>

<b>Excess (Deficiency)</b>	<u>\$ 6,441,762</u>

**Custodial Credit Risk (Deposits) - Component.** Custodial credit risk is the risk that in the event of a bank failure, the Housing Authority deposits may not be returned to it. The Housing Authority does not have a deposit policy for custodial credit risk, other than following state statutes as put forth in the Public Money Act (Section 6-10-1 to 6-10-63 NMSA 1978). At June 30, 2020, \$780,587 of the Housing Authority’s bank balance of \$1,676,127 was exposed to custodial credit risk. Although the \$780,587 was uninsured, all of that amount was collateralized by collateral held by the pledging bank’s trust department, not in the Housing Authority’s name. None of the Housing Authority’s deposits were uninsured and uncollateralized at June 30, 2020.

**Custodial Credit Risk (Investments).** In the case of investments, this is the risk that in the event of the failure of the counterparty, the City will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The LGIP is exempt from this reporting requirement.

**Collateral.** Only securities backed by the full faith and credit of the United States Government will be accepted as collateral. The City may make an exception and accept as collateral securities from a governmental entity within the State of New Mexico as described by State Statute 6-10-16-A. All securities pledged as collateral shall be held by a third-party financial institution. Any change in the institution holding the collateral must have prior approval of management.

**Concentration of Credit Risk – Investments.** For an investment, concentration of credit risk is when any one issuer is 5% or more of the investment portfolio of the City. The investments in New Mexico State LGIP represent 100%, of the investment portfolio. The City’s policy related to concentration credit risk is to comply with the state statute as put forth in the Public Money Act (Section 6-10-63, NMSA 1978).

GASB Statement No. 72 requires investment to be presented at fair value. This statement provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under GASB Statement No. 72 are described as follows:

**Basis of Fair Value Measurement –**

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Quoted prices in markets that are not considered to be active or financial instruments without quoted market prices, but for which all significant inputs are observable, either directly or indirectly.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The following table sets forth by level, within the fair value hierarchy, the City’s assets had a fair value as of June 30, 2020:

Investment in	Investment Assets at Fair Value as of June 30, 2020

**NOTE 9. COMMITMENTS AND CONTINGENCIES**

**Risk Management.** The City is also exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; errors and omission; and natural disasters. In addition, the City is party to numerous pending or threatened lawsuits, under which it may be required to pay certain amounts upon final disposition of these matters. The City has historically retained these risks, except where it has determined that commercial insurance is more cost beneficial or legally required. The City has covered all claim settlements and judgments out of its General Fund resources, except where specifically identifiable to an enterprise fund. The City currently reports substantially all of its risk management activities, except worker's compensation, in its General Fund. Claims expenditures and liabilities are reported when it is probable that a loss has occurred, and the amount of that loss can be reasonably estimated. Current liabilities are reported when the liability has matured. These losses include an estimate of claims that have been incurred but not reported.

**Contingent Liabilities.** Amounts received or receivable from grant agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures that may be disallowed by the grantor cannot be determined at this time, although the government expects such amounts, if any, to be immaterial.

All assets accumulated may be used to pay benefits, including refunds of member contributions, to any of the plan members or beneficiaries, as defined by the terms of this plan. Certain coverage plans are only applicable to a specific division. Eligibility for membership in the Public Employees Retirement Fund is set forth in the Public Employees Retirement Act (Chapter 10, Article 11, NMSA 1978). Except as provided for in the Volunteer Firefighters Retirement Act (10-11A-1 to 10-11A-7, NMSA 1978), the Judicial Retirement Act (10-12B-1 to 10-12B-19, NMSA 1978), the Magistrate Retirement Act (10-12C-1 to 10-12C-18, NMSA 1978), and the Educational Retirement Act (Chapter 22, Article 11, NMSA 1978), each employee and elected official of every affiliated public employer is required to be a member in the Public Employees Retirement Fund, unless specifically excluded.

**Benefits Provided.** Benefits are generally available at age 65 with five or more years of service or after 25 years of service regardless of age for TIER I members. Provisions also exist for retirement between ages 60 and 65, with varying amounts of service required. Certain police and fire members may retire at any age with 20 or more years of service for Tier I members. Generally, the amount of retirement pension is based on final average salary, which is defined under Tier I as the average of salary for the 36 consecutive months of credited service producing the largest average; credited service; and the pension factor of the applicable coverage plan. Monthly benefits vary depending upon the plan under which the member qualifies, ranging from 2% to 3.5% of the member's final average salary per year of service. The maximum benefit that can be paid to a retiree may not exceed a range of 60% to 90% of the final average salary, depending on the division. Benefits for duty and non-duty death and disability and for post-retirement survivors' annuities are also available.

**Tier II.** The retirement age and service credit requirements for normal retirement for PERA state and municipal general members hired increased effective July 1, 2013 with the passage of Senate Bill 27 in the 2013 Legislative Session. Under the new requirements (Tier II), general members are eligible to retire at any age if the member has at least eight years of service credit and the sum of the member's age and service credit equals at least 85 or at age 67 with 8 or more years of service credit. General members hired on or before June 30, 2013 (Tier I) remain eligible to retire at any age with 25 or more years of service credit. Under Tier II, police and firefighters in Plans 3, 4 and 5 are eligible to retire at any age with 25 or more years of service credit. State police and adult correctional officers, peace officers and municipal juvenile detention officers will remain in 25-year retirement plans, however, service credit will no longer be enhanced by 20%. All public safety members in Tier II may retire at age 60 with 6 or more years of service credit. Generally, under Tier II pension factors were reduced by .5%, employee Contribution increased 1.5 percent

***Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions:*** At June 30, 2020, the City reported a liability of \$6,936,858 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2018. The total pension liability was rolled-forward from the valuation date to the plan year ending June 30, 2019 using generally accepted actuarial principles. Therefore, the employer’s portion was established as of the measurement date of June 30, 2019. There were no significant events or changes in benefit provision that required an adjustment to the roll-forward liabilities as of June 30, 2019. The City’s proportion of the net pension liability was based on a projection of the City’s long-term share of contributions to the pension plan relative to the projected contributions of all participating entities, actuarially determined.

***For PERA Fund Division Municipal General,*** at June 30, 2020, the City reported a liability of \$4,923,246 for its proportionate share of the net pension liability and the . At June 30, 2019, the City’s proportion was .2844% percent, which was a decrease of 0.0206% from its proportion measured as of June 30, 2018.

**Actuarial assumptions:** The total pension liability in the June 30, 2019 actuarial valuation was determined using the following significant actuarial assumptions, applied to all periods included in the measurement.

Actuarial valuation date	June 30, 2018
Actuarial cost method	Entry age normal
Amortization method	Level Percentage of Pay
Amortization period	Solved for based on statutory rates
Asset valuation method	4 Year smoothed Market Value
Actuarial assumptions	
Investment rate of return	7.25% annual rate, net of investment expense
Projected benefit payment	100 years
Payroll growth	3.00%
Projected salary increases	3.25% to 13.50% annual rate
Includes inflation at	2.50%
	2.75% all other years
Mortality assumption	The mortality assumptions are based on the RPD-2014 Blue Collar mortality table with female ages set forward one year. Future improvement in mortality rates is assumed using 60% of the MP-2017 projection scale generationally. For non-public safety groups, 25% of in-service deaths are assumed to be duty related and 35% are assumed to be duty-related for public safety groups.
Experience study dates	July 1, 2008 to June 30, 2017 (demographic) and July 1, 2010 through June 20, 2018 (economic)

The total pension liability, net pension liability, and certain sensitivity information are based on an actuarial valuation performed as of June 30, 2018. The total pension liability was rolled-forward from the valuation date to the plan year ended June 30, 2019. These assumptions were adopted by the Board use in the June 30, 2018 actuarial valuation.

NOTES TO FINANCIAL STATEMENTS  
June 30, 2020**

**NOTE 11. PENSION PLAN – PUBLIC EMPLOYEES RETIREMENT PLAN (CONTINUED)**

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<b>Asset Class</b>	<b>Target Allocation</b>	<b>Long-Term Expected Real Rate of Return</b>
Global Equity	42.33%	7.48%
Risk Reduction & Mitigation	21.37%	2.37%
Credit Oriented Fixed Income	15.0%	5.47%
Real Assets	20.0%	6.48%
Multi-Risk Allocation	1.30%	
Total	<u>100.0%</u>	

**Discount rate:** A single discount rate of 7.25% was used to measure the total pension liability as of June 30, 2019. This single discount rate was based on a long-term expected rate of return on pension plan investments of 7.25%, compounded annually, net of expense. Based on the stated assumptions and the projection of cash flows, the plan’s fiduciary net position and future contributions were projected to be available to finance all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The projections of cash flows used to determine this single discount rate assumed that plan member and employer contributions will be made at the current statutory levels.

**Sensitivity of the Employer’s proportionate share of the net pension liability to changes in the discount rate:** The following presents the City’s proportionate share of the net pension liability calculated using the discount rate of 7.25 percent, as well as what the City’s proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25 percent) or 1-percentage-point higher (8.25 percent) than the current rate:

Investment rate of return	7.25%, net of OPEB plan investment expense and margin for adverse deviation including inflation
Health care cost trend rate	8% graded down to 4.5% over 14 years for Non-Medicare medical plan costs and 7.5% graded down to 4.5% over 12 years for Medicare medical plan costs

**Rate of Return** – The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which the expected future real rates of return (net of investment fees and inflation) are developed for each major asset class. These returns are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adding expected inflation and subtracting expected investment expenses and a risk margin. The target allocation and projected arithmetic real rates of return for each major asset class, after deducting inflation, but before investment expenses, used in the derivation of the long-term expected investment rate of return assumptions.

**NOTE 12. POST-EMPLOYMENT BENEFITS – STATE RETIREE HEALTH CARE PLAN  
 (CONTINUED)**

The best estimates for the long-term expected rate of return is summarized as follows:

<u>Asset Class</u>	<u>Long-Term Rate of Return</u>
U.S. core fixed income	20%
U.S. equity – large cap	20
Non U.S. – emerging markets	15
Non U.S. – developed equities	12
Private equity	10
Credit and structured finance	10
Real estate	5
Absolute return	5
U.S. equity – small/mid cap	3

**Discount Rate** – The discount rate used to measure the Fund’s total OPEB liability is 4.16% as of June 30, 2018. The projection of cash flows used to determine the discount rate assumed that employer contributions will be made at rates proportional to the actuary determined contribution rates. For this purpose, employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs for future plan members and their beneficiaries are not included. Based on those assumptions, the Fund’s fiduciary net position was projected to be available to make all projected future benefit payments for current plan members through the fiscal year ending June 30, 2039. Thus, the 7.25% discount rate was used to calculate the net OPEB liability through 2029. Beyond 2039, the index rate for 20-year, tax exempt general obligation municipal bonds with an average rating of AA/Aa or higher was used, resulting in a blended discount rate of 4.16%.

***Sensitivity of the net OPEB liability to changes in the discount rate and healthcare cost trend rates.***

The following presents the net OPEB liability of the City, as well as what the City’s net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (3.16 percent) or 1-percentage-point higher (5.16 percent) than the current discount rate; percent) than the current discount rate:

**NOTE 13. LANDFILL CLOSURE AND POST-CLOSURE CARE**

The City stopped accepting solid waste at its landfill and placed the final cap in 2016. State and federal laws and regulations required the City to perform certain maintenance and monitoring functions at the landfill site for 30 years after closure. There is a liability of \$828,193.

Fund as an estimate of the landfill post-closure care costs. However, due to changes in technology, laws or regulations, these costs may change in the future.

**NOTE 14. RECENT ACCOUNTING PRONOUNCEMENTS**

GASB Statement No. 95, *Postponement of the Effective Dates of Certain Authoritative Guidance* was issued May 2020 and is effective immediately. The primary objective of this Statement is to provide temporary relief to governments and other stakeholders in light of the COVID-19 pandemic. That objective is accomplished by postponing the effective dates of certain provisions in Statements and Implementation Guides that first became effective or are schedule to become effective for periods beginning after June 15, 2018 and later.

The effective dates of certain provisions contained in the following pronouncements are postponed by one year:

GASB Statement No. 83, *Certain Asset Retirement Obligations*

GASB Statement No. 84, *Fiduciary Activities*

GASB Statement 88, *Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements*

GASB Statement 89, *Accounting for Interest Cost Incurred before the End of a Construction Period*

GASB Statement 90, *Majority Equity Interests*

GASB Statement 91, *Conduit Debt Obligations*

GASB Statement 92, *Omnibus 2020*

GASB Statement 93, *Replacement of Interbank Offered Rates*

The effective date of GASB Statement No. 87, *Leases*, is postponed by 18 months.

**NOTE 15. NEW ACCOUNTING PRONOUNCEMENTS**

The following GASB pronouncements have been issued, but are not yet effective at June 30, 2020.

GASB Statement No. 84, *Fiduciary Assets*

GASB Statement No. 87, *Leases*

**STATE OF NEW MEXICO

**NOTE 15. NEW ACCOUNTING PRONOUNCEMENTS (CONTINUED)**

GASB Statement No. 89, *Accounting for Interest Cost Incurred before the End of a Construction Period.*

GASB Statement No. 90, *Majority Equity Interests-an amendment of GASB Statements No. 14 and No. 61.*

GASB Statement No. 91, *Conduit Debt Obligations.*

GASB Statement No. 92, *Omnibus 2020*

GASB Statement No. 93, *Replacement of Interbank Offered Rates*

GASB Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*

GASB Statement No. 95, *Subscription-Based Information Technology Arrangements*

The City will implement the new GASB pronouncements in the fiscal year no later than the required effective date. The City believes that the above listed new GASB pronouncements will not have a significant financial impact to the City or in issuing its financial statements.

**NOTE 16. TAX ABATEMENTS**

Governmental Accounting Standards Board Statement No. 77 requires the City to disclose information on certain tax abatement agreements affecting the City. Accordingly, the City did not have any tax abatements affecting the City during the year ended June 30, 2020.

**NOTE 17. SUBSEQUENT EVENTS**

Events subsequent to June 30, 2020 have been evaluated by management through December 14, 2020, the date the financial statements were available for issuance. In the opinion of management, no events occurring after June 30, 2020 require adjustment or disclosure in the financial statement.

**NOTE 18. COVID-19**

In early March 2020, the COVID-19 virus was declared a global pandemic, and it continues to cause market fluctuations. Business continuity and financial markets, including supply chains and consumer demand across a broad range of industries and countries, could be severely impacted for months or more, as governments and their citizens take significant and unprecedented measures to mitigate the consequences of the pandemic. Management is carefully monitoring the situation and evaluating its options during this time.

**STATE OF NEW MEXICO  
CITY OF TRUTH OR CONSEQUENCES  
NOTES TO SUPPLEMENTAL SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS  
Year Ended June 30, 2020**

**Basis of Presentation**

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes the federal grant activity of the County under programs of the federal government for the year ended June 30, 2020. The information in this Schedule is presented in accordance with the requirements of Uniform Guidance, Audits of States, Local Governments, and Non-Profit Organizations. Because the Schedule presents only a portion of the operations of the County, it is not intended to and does not present the financial position, changes in net assets, and cash flows of the County. Expenditures reported on the Schedule are reported on the accrual basis of accounting.

**Subrecipients of Grant Awards**

There were no sub-recipients during fiscal 2020.

**Loans**

The City expended federal awards in the form of loans in the Water and Waste Disposal Systems for Rural Communities program totaling \$1,030,000 during the year ended June 30, 2020.

**Indirect Cost Rate**

The City has elected not to use the 10% de Minimis Indirect Cost Rate.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

To Brian S. Colón, Esq.  
New Mexico State Auditor

City Commission  
City of Truth or Consequences

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, the aggregate remaining fund information, and the budgetary comparison of the General Fund of the City of Truth or Consequences (the "City") as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated December 14, 2020.

Our report includes a reference to other auditors who audited the financial statements of the Housing Authority, as described in our report on City of Truth or Consequences financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

***Internal Control over Financial Reporting***

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

**OFFICE LOCATIONS**

**TEXAS** | Waco | Temple | Hillsboro | Houston  
**NEW MEXICO** | Albuquerque

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

### ***Compliance and Other Matters***

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under Government Auditing Standards, and which are described in the accompanying schedule of findings and responses as items 2020-001 and 2020-002.

### ***City's Response to Findings***

The City's response to the findings identified in our audit are described in the accompanying schedule of findings and responses. The City's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

### ***Purpose of this Report***

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE**

To Brian S. Colón, Esq.  
New Mexico State Auditor

The City Commission  
City of Truth or Consequences

**Report on Compliance for Each Major Federal Program**

We have audited the City of Truth or Consequences, New Mexico (the "City") compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the City's major federal programs for the year ended June 30, 2020. The City's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

***Management's Responsibility***

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

***Auditor's Responsibility***

Our responsibility is to express an opinion on compliance for each of the City's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the City's compliance.

**OFFICE LOCATIONS**

TEXAS | Waco | Temple | Hillsboro | Houston  
NEW MEXICO | Albuquerque

### ***Opinion on Each Major Federal Program***

In our opinion, the City complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2020.

### **Report on Internal Control over Compliance**

Management of the City is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected and corrected on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that were not identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

**SECTION II – FINDINGS – FINANCIAL STATEMENT AUDIT**

---

**2020-001 CONTROLS OVER CASH DISBURSEMENTS (Finding that does not rise to the level of a significant deficiency)**

CONDITION: During our internal control testwork over cash disbursement we noted the following:

- In 1 transaction totaling \$115 out of 25 transactions tested, a purchase order was not completed.

CRITERIA: Per the City's finance policies and procedures (which comply with the New Mexico Procurement Code, Article 1, Sections 13-1-1 thru 13-1-199), the City is required to use a pre-numbered purchase order for all goods and services procured. The City's policies and procedures also state that all purchase orders must be approved by management before the purchase is made.

EFFECT: The City is not in compliance with state statutes or the City's internal control policies which could lead to misappropriation of assets through unauthorized purchases.

CAUSE: Lack of training of employees purchasing goods/services (all purchases must have a PO and must be approved by management prior to purchase and payment), and/or lax oversight of purchasing process.

RECOMMENDATION: We recommend retraining and re-emphasizing the requirement that all purchases must have an approved purchase order before goods and or services are acquired.

MANAGEMENT RESPONSE: Management will continue to train staff on purchasing procedures and will directly work with any employee violating procurement policy on a one-on-one basis.

**2020-002 (Previously 2019-001) CONTROLS SURROUNDING PAYROLL DISBURSEMENTS  
(Finding that does not rise to the level of a significant deficiency)**

CONDITION: During our test of controls over payroll disbursements we noted the following:

- Two out of 25 employees tested did not have a properly certified Federal Form I-9.

The city has implemented additional procedures to review forms. The city made progress on this finding.

CRITERIA: Per the City's finance policies and procedures and Federal Regulations the City is required to complete an accurate Form I-9 for all new hires.

EFFECT: The City is not in compliance with their internal control policies and federal requirements.

CAUSE: The unexpected passing of a City employee resulted in the incomplete I-9s during the new hire process.

RECOMMENDATION: We recommend reviewing the personnel files to verify that all employees must have a properly certified Federal form I-9 on file. We recommend the City review the Federal guidelines on correcting an I-9 after hire date to ensure the missing I-9s are completed.

MANAGEMENT RESPONSE: Management will work with the Human Resources Department to ensure that all forms are signed and approved on a timely basis.

RESPONSIBLE PARTY FOR CORRECTIVE ACTION: City Manager and Finance Director.
