D. PUBLIC COMMENT (3 Minute Rule Applies):

Andrea Freeman addressed the Commission with comments related to:

- She is against the vacation of New School Road. She and several other people use the road as a short cut for access to gas, banking, the hardware store, etc. She requests that there be a consideration to pave Kopra Street since it is being used to avoid Date Street.

Randy Ashbaugh addressed the Commission with comments related to:

- He is against the vacation of New School Road. He explained that he agrees with Andrea Freemans comments regarding paving over Kopra Street.

City Attorney Rubin pointed out that we will have a public hearing regarding the vacation of the New School Rd and that he suggests that people wait until the public hearing portion of the agenda for the meeting to discuss the vacation of the road.

E. REPORTS:

City Manager Gonzales reported the following:

- We have 2 vacancies on the Impact Fee Advisory Board, 1 on the Library Advisory Board, 2 people of the Recreation Advisory Board, and Planning and Zoning Board.
- She spoke with Arnie Castaneda (Water/Wastewater Dept Head). They have 10 water leaks and they fixed 2.
- Well number 6 repair is moving forward they are waiting on some supplies.
- She wanted to thank everyone for respecting the water schedule that is in effect. The water tank is holding steady.
- She is asking everyone be patient and be safe on NM DOT project the roundabouts.

City Attorney Rubin reported the following:

- Back on January 11th 2023 they adopted and approved an Ordinance which designates Sierra County Magistrate Court as a Court having jurisdiction over a Municipal Ordinances and also appealed the Municipal Court Ordinance themselves and was notified on April 28th that the Supreme Court has adopted and approved our Ordinance. He states that the process actually goes back to a year ago when the City Commission first adopted a resolution where they didn't designate the Magistrate Court as our Jurisdiction, they had 7 committee members, the committee had to meet and publicize a Public Hearing and it came back to Commission and then Commission took action after the publication process and then submitted everything to the Supreme Court.

Commissioner Fahl had questions regarding the process on when the Municipal Court closes.

City Attorney Rubin followed with an answer saying that it is effective as the day of the expiration of the term of honorable Beatrice Garcia Sanders, so we have to wait until that term is over.

City Commission Reports:

Commissioner Fahl had no reports.

Commissioner Harrelson reported the following:

- The schools are wrapping up their last final couple of weeks of school and field day is going on. She suggests that as many people as possible should be attending the Commission meetings as well as the School Board Meetings to be more involved.

Mayor Pro-Tem Hechler reported the following:

- He wanted to give a quick report on Fiesta, he wanted to give a shout out the sponsors, especially SDR and Virgin Galactic those two sponsors gave us the line share of our revenues to do things that we needed to do this year and were very supportive of the community and that we need to support them. They had other great sponsors as well most of which came from this community with one acceptance and that was from Albuquerque and that was the Electrician Union we had up there. There were bands for all three days which was something we didn't have last year so Friday night was a very busy night. Saturday was busy almost all day long, there were spinoffs including rodeos and additional concerts. There were lots of tournaments including volleyball, softball, Cornhole. This year there was shade provided for people viewing the bands. There were 50 parade entries and over 40 vendors. Fiesta committee is still sending out thanks and cleaning up what needs to be cleaned up and will start the planning process for next year's Fiesta that following Saturday. He also includes a thank you to the community for their support.

G. PUBLIC HEARINGS:

1. Discussion/Action: Final Adoption of Ordinance No. 749 Implementing the City's Affordable Housing Plan:

City Manager Gonzales: This is an ordinance adding a new Article to Chapter 4, titled the affordable housing ordinance to be codified as Section 4-501.

City Attorney Rubin: When I was reviewing the ordinance, I was trying to see how I can help the Commission out, and as to what advice I can be giving here. The ordinance is fairly lengthy, and I wouldn't expect you'd be able to go through it and understand all of the legal issues that are contained there. In your packet, there is a letter that I wrote to Mr. Carmona. I had gone through the ordinance on my own, and I was trying to identify all of the different requirements that the ordinance was going to impose on the city and the City Commission. Mr. Carmona's response to my letter is also included in the packet. My only concern is that it appears that there is a lot that we need to do, and my question is if the city is in any position to do that. Mr. Carmona is ready to address that question.

Justin Carmona, MFA Community Relations Manager: This ordinance allows the city to furnish donations to developers for the purpose of developing more housing in the city, and that allows you to lower the cost of actually building the housing if you donate land,

buildings, or funds to them directly. Without this ordinance, legally the city cannot donate to developers because of the anti-donation clause of the New Mexico Constitution. In terms of requirements, generally the requirements are as minimal as they can be under the law. The state legislature put a lot of requirements in when they made the Affordable Housing Act, and it's up to us at MFA to come up with how those requirements are reflected in reality. We try to minimize the number of things that we require on your end as much as possible, but there are still a number of things that are required. Overall, it is a partnership. This isn't just on you. This is on us as well at MFA. My position exists, just to help you through this one ordinance and process.

Mayor Forrister: What are you doing right now that we don't have this, and what is going to change?

Justin Carmona, MFA Community Relations Manager: Right now it is pretty much all on developers if they want to come in and get funding from us. We provide financing to developers so right now it is all on developers to come and say that they want to develop in Truth or Consequences, and then we work with them on that. This will provide what we call gap financing which is basically a couple million dollars which will make the projects more feasible. It is actually more likely that if you pass this ordinance, more housing will be developed in the city because it allows you to donate to them.

Commissioner Fahl: I think that we in our community, understand that we don't have enough affordable housing, and this is a great program, but my concern is the amount of staff time this is going to take and who is going to dedicate to that. An RFP process is an arduous process. It says in here "*the city can otherwise identify a qualifying grantee*" so how does that work?

Justin Carmona, MFA Community Relations Manager: That is a great point. The title of that section is a little misleading. You don't actually have to go through the RFP process. If a developer comes to you and say that they want to build a "100 unit" housing development in the middle of your city, they can just work with you directly. You don't have to actually solicit an RFP. You can just work with them and say, "Ok, we can donate land to you, we can give you funds for that" and you don't actually have to go through the entire RFP process.

Commissioner Fahl: How does that not violate the procurement process?

Justin Carmona, MFA Community Relations Manager: We are trying to change the wording on that right now. It is just not an RFP process. It is either/or. It is either an RFP process or you can just identify them through some other means, basically they can just come to you directly or you can engage them in saying "you are building this development, and we have these funds that we want to offer you" and you don't have to go through the RFP process.

Mayor Pro-Tem Hechler: My questions are the same as Commissioner Fahl's. Do we have enough administration within the city to handle this? City Manager Gonzales, how

do you look at this? Do you hire a new position? Do you give this to someone else? How do we administrate this?

City Manager Gonzales: What I think this is... is when a contractor comes to us wanting (*for example*) to build a 100 unit affordable housing development. We can tell the contractor that they have to follow the guidelines, and work with MFA, rather than us doing it.

Justin Carmona, MFA Community Relations Manager: Yes, that is right. So basically, you would hand them a form that we made which is an application checklist, which has all of the documents that they need to give to you, and it is on them to provide it to us. You would review the documents, and then we review them as well here at MFA. Then after that whole process, you would go through the process of writing and signing a contract to give the donation to them.

City Manager Gonzales: Can you define donation?

Justin Carmona, MFA Community Relations Manager: So donations can include a number of things. The most common donation is land that the city owns or have access to. It could also be buildings or infrastructure. You can actually pay for infrastructure projects directly. You can also donate funds or reduce or abate fees that the city normally imposes upon buildings. Impact fees are the most common. That is what donations mean.

Mayor Forrister: What is the benefit of us signing this?

Assistant City Manager Alvarez: I think that the opportunity to develop in the city at any time is always a good thing. If you look at our demographics in the city, I don't think that we are talking about 5 to 20 applications coming in a year. We might see one every few years, so I do feel it is something that I can potentially take on in the Planning & Zoning Department. Mr. Carmona, how many municipalities have adopted an affordable housing plan?

Justin Carmona, MFA Community Relations Manager: I believe it is around 30 across the state. I know that there are 37 local governments which include counties and municipalities. There are less than 100 cities across the state, so about 1/3 of them have adopted this.

City Attorney Rubin: I hope that we adopt this, and I certainly hope that it works out, but if it turns out that it is a big problem, you can terminate it.

Mayor Pro-Tem Hechler: If we approve this ordinance, then we are just approving the frame work for it. It is there in front of us in case we need it, but we still have to have approved individual projects, so I think we are safe in doing that if we decide to do so.

Mayor Forrister opened the public hearing.

Proponents:

Andrea Freeman: She doesn't understand if this is for apartment complexes or single family residences? I would be in favor of apartment complexes, but I would be dead against single family residences. We went through this before in 2005, and we had low income housing come in, and then we had massive foreclosures, and it hurt our community and our market.

Mayor Forrister: So, you are on the fence. You are a proponent and opponent, I guess?

Opponents:

There were no opponents.

Mayor Forrister closed the public hearing.

Mayor Pro-Tem Hechler moved to approve Final Adoption of Ordinance No. 749 Implementing the City's Affordable Housing Plan. Commission Harrelson seconded the motion. Roll call was taken by the Clerk-Treasurer. Motion carried unanimously.

2. Public Hearing/Discussion/Action: Request to Vacate a Section of New School Road:

Assistant City Manager Alvarez: The T or C Municipal School district submitted an application to request that the City of T or C vacate a Section of New School Road from the baseball field to past the student parking lot. That location is identified in the attached map in your packet. We notified all property owners within a 300 ft. radius. We also reached out to all of our utility departments, and overall, the electric department didn't have any issues, although there is a main transformer that would require some access. It is not owned by the city. It is owned by Tristate. The concern from our water and wastewater department was that they have some main water lines running along the golf course side of the campus so there would be some easements where some of those lines are placed that they would need to have access to. They would also need full access to the lines and valves on a 24hr basis, in case of any type of emergency. He also does not necessarily support the request for vacation. Our street department had some questions and concerns regarding the traffic flow, as well as road maintenance pertaining to the vacation. We also had NMDOT reach out to us as well with concerns on traffic flow, and the fact that they are doing the roundabouts and if the traffic begins to flow down to Barton, we are only going to direct that traffic issue that we were having at New School Road, down to the Barton area. The fire department submitted a letter of their concern as well.

City Attorney Rubin: I believe that this was not addressed by the Planning & Zoning Commission so I believe that we would have to go through the Battershell process here.

Assistant City Manager: That is correct. The Planning & Zoning Commission did not have a meeting in May.

City Clerk Torres swore in all parties who spoke during the public hearing.

Mayor Forrister opened the public hearing.

Proponents:

Alfred Aguirre, T or C Schools Director of Safety and Security: A while back we had asked Chief Tavizon to walk our campuses and provide us with any recommendations on how to improve safety at our schools. He brought up the idea of vacating the roads, and that is why we are here. We briefly talked about installing areas where we could vacate the road and make it a more secure campus. There was an incident where Border Patrol had initiated an investigation and it led to our student parking lot at the high school. It was a pursuit which Border Patrol had terminated and the vehicle ended up in our parking lot. Border Patrol was still looking for the vehicle and ended up finding the vehicle in our parking lot by the wellness center. Our Dean of Students Mr. Wolf was the one who identified that Border Patrol was in our parking lot so he went over there with our security officer and started asking questions. They informed him that there were 5 subjects that were not in the vehicle. They were searching, so we initiated a secure place/shelter on campus until we could determine if they were a threat or not. That lasted about 15 minutes or so and they determined that they were not on campus. I happened to come across one of them which could have very easily fit in. He was a younger male around 18 or 19 years old who actually looked like a student, but in talking to him I figured out that he was not. That was an eye opener and it solidified, but the recommendation that Chief Tavizon had provided was to do this. I think we need it, not so much to keep students in, but to keep people out. I think that it will make our campus a lot safer.

Nichole Burgin, T or C Schools Superintendent: We have had to go into at least shelter in places due to the same reason with chases through town and with Border Patrol. Another purpose of it is because we do have shared staff at the high school and we have students crossing those streets every day, and going back and forth, and we are having to navigate the traffic with that.

Commissioner Harrelson: You also had a plan B at the school meeting where you proposed this. I believe plan B was to put a bridge between the two schools. Can you speak a little about that?

Alfred Aguirre, T or C Schools Director of Safety and Security: Our plan B would be to secure TCMS and HSHS separately which would mean fencing off TCMS and HSHS separately.

Mayor Forrister: We have heard more opponents than proponents, and that is mainly because of the new roundabouts that we have gotten, and they are worried that traffic

would now be diverted away from that. There were also safety access concerns so what are your thoughts on that, and how would you accommodate that?

Alfred Aguirre, T or C Schools Director of Safety and Security: I think that the roundabouts are great, and I think that they are going to work. They are still going to be utilized if were to close campus. What I foresee in the future is for school road by the main entrance to the staff parking lot, there would be a security building in that location to screen people in which means that visitors, parents, and contractors would have to go through that security shack and come in. They would of course, exit the same way and go through the roundabout onto their destinations. I was with the New Mexico State Police for 20 years, and I was stationed here in T or C for about 10 years, and in my 10 years here, I have investigated several crashes and I have worked with our local responders and law enforcement. I cannot recall one single time where we had to shut down a road and utilize school road and Pershing to divert traffic, so I don't think that will be an issue.

Nichole Burgin, T or C Schools Superintendent: In a pre-meeting that we had with everybody when these concerns were raised, Police Chief Tavizon mentioned an alternate route that might be more appropriate instead of going through a school zone.

Mayor Pro-Tem Hechler: If you have a guard shack. How is that administered? Do the students get a pass? Will everyone get a pass? How would that work?

Alfred Aguirre, T or C Schools Director of Safety and Security: I think it would be more so for the initial screening. Of course that security officer who will have a position there at that location will hopefully be knowledgeable of all of our students. Someone who they identify not being familiar with the schools would be screened.

Mayor Pro-Tem Hechler: Wouldn't that create a bottleneck?

Alfred Aguirre, T or C Schools Director of Safety and Security: In the morning, both entrances would be open. There would be a security officer in place, and it would just be a quick initial screening.

Nichole Burgin, T or C Schools Superintendent: Student entry would come from the opposite direction. We would have everybody else coming through the front and students would enter into the back where their parking lot is.

Alfred Aguirre, T or C Schools Director of Safety and Security: We have a software in place for all of our schools called Raptor. When a visitor, contractor, or parent goes to the school and needs to go to a classroom or such, they would have to go to the front desk where they will be asked for identification. That identification will be ran through Raptor which runs through the New Mexico sex offender registry, and if we have any names that are already pre-set to flag anyone who isn't supposed to be there it will alert for that as well. As it stands now, everyone will need to report to the front desk and check in and they will be issued a badge. For the initial process, it will require an ID that

has a barcode, so once it has been scanned, if you go in a second time and you forgot your ID, you would just need to enter a partial first name or last name and it will bring it up and you would just select which one it is. It includes their picture so you will be able to identify them.

Mayor Forrister: I go to the elementary school a lot, and they are very secure. Everything has to filter to the front desk and there is a fencing around it so the security there is definitely far better than that of the middle school where you can kind of enter anywhere and it is not filtered through that front desk. The need for security at the middle school and high school is very high. What would be the disadvantage other than kids going in between the two schools, and separating them and doing your plan B? What do you guys not like for your plan B?

Nichole Burgin, T or C Schools Superintendent: I think that having it all creates a community feel and that is why everyone had leaned toward that when we discussed it in the board meeting. We like the fact that it is a shared campus and when we look at having them in their own fencing, we have to look at how the students and teachers would get back and forth to each school. Right now we don't have enough classrooms and we are looking at how we can re-arrange every space that we have to accommodate choir, and band and JROTC. Those are the classes that we share with the high school. As far as emergency access, in that scenario, people would be given remote access in and out as needed.

Chief of Police Tavizon: I was asked to go and do an assessment of the school for security purposes and doing so I did recognize that the school is wide open to any kind of threat that may or may not come in. They could come in from any direction, off the interstate, or through the desert. It is wide open. I had assessed that the most efficient way to secure that would be to vacate the road and secure both campuses so they can move back and forth freely. I believe that the plan was to leave it open on both ends. They would have a gate on both sides to come in. Plan B was also brought up as well to fence the individual schools. That would be less efficient, but it would still work to create that security that we needed. Mr. Aguirre did bring up the fact that there has been several incidences where Border Patrol has come across with different individuals coming through. I also think that in the day in age that we are dealing with now with the active shooters, they was the campus is now, it would be a nightmare for first responders to respond with a wide open campus. It would be a nightmare to not only keep the parents out, and to try to isolate the incident, but it would also be difficult to recognize that it is a crime scene if something were to happen.

Commissioner Harrelson: So you are saying that it would be more efficient for you as an officer to have one campus vs two separate campuses.

Chief of Police Tavizon: Yes ma'am. We do have other diversionary roads, and the roundabouts would still have access to the businesses in that area.

Mayor Pro-Tem Hechler: One of the main reasons why NMDOT decided to build the roundabouts was because of the traffic backup on New School Road. As we all recall, the busses would be backed up 14-15 busses deep, and taking the chance to get across that intersection because nobody wanted to wait so I'm thinking that we are creating that again by putting a bottleneck guard station of some sort there at the schools. We are trying to avoid that. I think it would be in our best interest to get the roundabouts finished first, and see how they flow, and see what the issues are with that and see how it goes before we jump into something like this and complicate the issue before we are even done with it.

City Manager Swingle: NMDOT was not excited about this concept because they are pouring in millions of dollars into the roundabout project, and if this is approved, in their mind, it defeats the all of their research and 8 years of work that they put together on this. They were adamant about it. The concern that I have is when will they come back and do another project if the Commission does something like this before they are even done with this current project. We have to think about the ramifications that it may have long term on the city.

Opponents:

Mayor Pro Tem Hechler read a letter submitted by Fire Chief Tooley. (Complete copy attached hereto and made a part hereof).

Andrea Freeman: She is against the vacation of New School Road. She and several other people use the road as a short cut for access to gas, banking, the hardware store, etc. She requests that there be a consideration to pave Kopra Street since it is being used to avoid Date Street.

Virginia Holbrook: I oppose it because I use that road to go from the hardware store to home on Spruce, so it is a way to avoid getting on Date because roundabouts are nuts. I think that other people also do the same thing. I find that there aren't enough roads back that way and that is a concern. I really don't want the road to close.

Jared Bartoo: I want to agree with all of the previous opponents. My kids will be attending the schools on that road so I have a vested interest in the security. I commend these fine people for coming up with a plan, but I don't think that closing the road is the one to use because I was actively involved in building the ram proof gate at the Spaceport, and if you are going to get through something, a security guard in a little building with some chain link is not going to stop a high speed vehicle. I have a towing company in town and we are always moving in the snow, and having to deal with traffic and the state highway was closed 6 months ago in that snow storm and the state police diverted probably 30 to 40 semi's just that was so the Fire Department makes a good point, and forcing people through the old Furr's parking lot is unfair to that private property owner because they had to loop them around and get them stacked up. Also with them taking away the shoulders on North Date with the roundabout project, there

will be less parking now so you will be stacking trucks all the way up to Foxworth and around.

Willie Culver: The concern is safety. You have to have an alternative route. If they want to secure campus, do like the elementary and fence it off at both sides. Who owns the actual property that the street is established on?

Assistant City Manager Alvarez: It is a designated city street. They are asking the city to vacate that property so that is why we are here.

Mayor Forrister closed the public hearing.

Mayor Pro-Tem Hechler: I don't think that this is something that we should do right now. There are a lot of things to work out. There is a lot of traffic that would go through there and I think it would be contrary to the good of this community to do so.

Commissioner Fahl: I think that most of us here have raised our children through that school or we are raising grandchildren. Nobody doesn't want our kids to be safe, but I don't believe that connecting those two together is really going to solve a lot of the safety issues. I feel that something should be done, but I don't believe that vacating the street would be right, and our job is to look out for our constituents and that is not an advantage to them.

Commissioner Harrelson: Looking at the map, it seems that Randy Ashbaugh has opportunity to create a road right there so I think you should communicate with him to get him to cut a road from Walmart to the back side of the golf course to bypass that area and that would be something that you could propose to the city. That is where I would think the first step would be.

Mayor Pro-Tem Hechler made a motion to deny the Request to Vacate a Section of New School Road. Commissioner Fahl seconded the motion. Roll call was taken by the Clerk-Treasurer. Motion carried unanimously.

H. ORDINANCES/RESOLUTIONS/ZONING:

- 1. Discussion/Action: Publication of Ordinance No. 752 Amending the City of Truth or Consequences Code of Ordinances, by Amending Section 14-96 of the Code Pertaining to Waste Water Connection Fees:**

Arnie Castaneda, Water/Wastewater Director: Staff is requesting publication of Ordinance No. 752 amending the City of Truth or Consequences Code of Ordinances, by Amending Section 14-96 of the Code Pertaining to Waste Water Connection Fees. The current fees do not reflect the financial amount that we use to connect wastewater service to our public. I did some research and looked at other communities similar to Truth or Consequences and the proposed new fees align more with the rest of the state,

and they align more with what we actually use as far as parts, and labor to connect the wastewater service.

Assistant City Manager Alvarez: Our water and wastewater tap fees were not addressed during the study. I want to say that these fees were established in 2007 or 2008. We have had many developers who have come in and are astonished at how inexpensive our fees are.

City Manager Swingle: If they hired a private sector to do this it would be 3 times the cost. There is absolutely no profit in here. I still don't think that this captures the total cost to the city, but it is still an improvement.

Commissioner Fahl moved to approve publication of Ordinance No. 752 Amending the City of Truth or Consequences Code of Ordinances, by Amending Section 14-96 of the Code Pertaining to Waste Water Connection Fees. Mayor Pro-Tem Hechler seconded the motion. Roll call was taken by the Clerk-Treasurer. Motion carried unanimously.

2. Discussion/Action: Publication of Ordinance No. 753 Amending the City of Truth or Consequences Code of Ordinances, by Amending Section 14-95 of the Code Pertaining to Water Connection Fees:

Arnie Castaneda, Water/Wastewater Director: Staff is requesting publication of Ordinance No. 753 Amending the City of Truth or Consequences Code of Ordinances, by Amending Section 14-95 of the Code Pertaining to Water Connection Fees. We did the same process on this ordinance as well.

Mayor Pro-Tem Hechler moved to approve publication of Ordinance No. 753 Amending the City of Truth or Consequences Code of Ordinances, by Amending Section 14-95 of the Code Pertaining to Water Connection Fees. Commission Fahl seconded the motion. Roll call was taken by the Clerk-Treasurer. Motion carried unanimously.

3. Discussion/Action: Publication of Ordinance No. 754 Authorizing the issuance of the City of T or C Joint Utility System Improvements Revenue Bonds.

Chris Muirhead, Modrall Sperling: This is just the next step in the process for the USDA bond financing. This is the \$5,487,000 loan. The key thing about this is that it would be a pledge of your water system net revenues so it is after you pay your operation and maintenance expenses. It is a 40 year term with an interest rate of 2.125% per annum. You can also pre-pay at any point. This is just an interdiction. We will go through any detail you like when it comes back for final adoption. This is to re-pay the interim financing that USDA is now requiring for this project, and move that forward. This

pledge is not a general obligation. Thank you to the Clerk and Mayor for coming in early and signing those documents. We are lined up to close that transaction next Friday and that money will be available for your projects.

Commissioner Fahl moved to approve Publication of Ordinance No. 754 Authorizing the issuance of the City of T or C Joint Utility System Improvements Revenue Bonds. Mayor Pro-Tem Hechler seconded the motion. Roll call was taken by the Clerk-Treasurer. Motion carried unanimously.

4. Discussion/Action: Resolution No. 42 22/23 Budget Adjustment Request. Kristie Wilson, Finance Director

Kristie Wilson, Finance Director reviewed the Budget Adjustments provided in the packet.

Commissioner Fahl moved to approve Resolution No. 42 22/23 Budget Adjustment Resolution. Commissioner Harrelson seconded the motion. Roll call was taken by the Clerk-Treasurer. Motion carried unanimously.

5. Discussion/Action: Publication of Ordinance No. 755 an Ordinance authorizing the lease of real property to Gravity Pad Towers' LLC (Water tank site on 2nd Street) pursuant to section 3-54-1 NMSA 1978.

City Manager Swingle: This is a request for publication for publication of Ordinance No. 755 an Ordinance authorizing the lease of real property to Gravity Pad Towers' LLC on the water tank site on 2nd Street. There are two towers connected to that tank so another ordinance will come in the future. This is just for one of the towers. As soon as Verizon initiates their work, we will process the second tower. This is a 99 year lease for access to this tower, they are going to pay the city \$80,000, as well as \$80,000 for the next one when it is approved in time.

Mayor Pro-Tem Hechler moved to approve publication of Ordinance No. 755 an Ordinance authorizing the lease of real property to Gravity Pad Towers' LLC (Water tank site on 2nd Street) pursuant to section 3-54-1 NMSA 1978. Commission Harrelson seconded the motion. Roll call was taken by the Clerk-Treasurer. Motion carried unanimously.

I. NEW BUSINESS:

1. Discussion/Action: Approval to close the PD Confidential Bank Account:

City Manager Gonzales: This is a request to close the obsolete PD Confidential bank account. This account has not been used in several years. That money came from the general fund so it will go back to the general fund when we close this account.

Commissioner Fahl moved to approve the closure of the PD Confidential Bank Account. Mayor Pro-Tem Hechler seconded the motion. Roll call was taken by the Clerk-Treasurer. Motion carried unanimously.

2. Discussion/Action: Approval of the CDBG Professional Services Agreement for Grant Administration Services:

Assistant City Manager Alvarez: The city has entered into a grant agreement with the NM CDBG Program for the water meter replacement, and part of the grant funding is allocated to Grant Administration Services. Staff wishes to enter into an agreement with South Central Council of Government for these services for oversight of the grant. This is for \$22,500.

Mayor Pro-Tem Hechler moved to approve the CDBG Professional Services Agreement for Grant Administration Services. Commission Harrelson seconded the motion. Roll call was taken by the Clerk-Treasurer. Motion carried unanimously.

3. Discussion/Action: Proposal to Conduct a Comprehensive Water and Wastewater Cost of Service and Rate Design Study:

Assistant City Manager Alvarez: We are requesting approval to enter into an agreement to have a water and wastewater cost of service and rate design study done. The city had this done a few years back through RCAC which was mandated by USDA. This is the same company that is doing our solid waste study so they would be reviewing our current status of both the water and the wastewater revenue and their expenses. They will also review our infrastructure needs and make sure that the rates that we have are, or are not, maintaining what is needed to proceed forward. The cost for this is \$41,660.

Commissioner Fahl moved to approve the proposal to conduct a Comprehensive Water and Wastewater Cost of Service and Rate Design Study. Commission Harrelson seconded the motion. Roll call was taken by the Clerk-Treasurer. Motion carried unanimously.

4. Discussion/Action: Approve and Accept a Grant of Right of Way Easement for Public Road and Utility Easement.

Assistant City Manager Alvarez: Ashbaugh Construction Co. would like to grant a right of way easement for public road and utility easement of a strip of land (noted as a shaded area on Exhibit A) to the City of Truth or Consequences.

Mayor Pro-Tem Hechler moved to approve and accept a Grant of Right of Way Easement for Public Road and Utility Easement. Commission Harrelson seconded the motion. Roll call was taken by the Clerk-Treasurer. Motion carried unanimously.

5. Discussion/Action: Memorandum of Agreement between NMDOT and the City of T or C.

Assistant City Manager Alvarez: The City Commission approved Resolution 30 22/23 on February 8, 2023 approving support of a Fourth Leg to the proposed Intersection/Roundabout at Date Street, and NM 181 of the New Mexico Department of Transportation (NMDOT) I-25 Business Loop for the purpose of servicing future development. This is the required MOA for the design of the proposed project.

Commissioner Fahl moved to approve the Memorandum of Agreement between NMDOT and the City of T or C. Commission Harrelson seconded the motion. Roll call was taken by the Clerk-Treasurer. Motion carried unanimously.

6. Discussion/Action: Approve Economic Development Department Grant Appropriation Agreement.

Assistant City Manager Alvarez: At the last meeting I brought to you that economic development wanted to take back a portion of the funding that was allocated to the city for the Foch Street project so they can reallocate it. This is the agreement for the first \$600,000 that they are giving back to the city, and then they have also indicated that they will be giving us another \$400,000 plus additional funding if there is a shortfall, this next fiscal year.

Mayor Pro-Tem Hechler moved to approve the Economic Development Department Grant Appropriation Agreement. Commission Harrelson seconded the motion. Roll call was taken by the Clerk-Treasurer. Motion carried unanimously.

J. ADJOURNMENT:

Mayor Forrister adjourned the meeting at 10:55 a.m.

TRUTH OR CONSEQUENCES
FIRE
DEPARTMENT

May 10th, 2023

City Commissioners,

The Truth or Consequences Fire Department is against the vacation of New School Road that is being proposed by the Truth or Consequences Municipal School District.

The concerns are:

1. Fire Department access to Foxworth Galbraith and the businesses along new school road for evacuation & attack routes for the fire department apparatus.
2. New School Road is our Hazmat approach route from the west for fuel spills, propane leaks and other hazardous material along north Date Street.
3. The Truth or Consequences Fire Department has designated New School Road as an important "Evacuation Route" for the areas of north Date Street. (See attached map)
4. Late Friday night we had a bad wreck on north Date Street and north bound traffic had to go through Pershing and New School Road to the north.

By vacating New School Road, you will put a burden on all public safety. If the school district has security issues, they can secure their campuses by other means without closing this vital roadway.

If you have any questions, please contact me at (575) 740-1640 or e-mail chief@torcfire.com.

4. NEW BUSINESS:

a. Discussion/Action: Water Rate Increase, George Szigeti:

Chairman Szigeti: I looked at the chart from last week and got the current rate sheets from our website and the information on the water rate studies are little bit off. It says our water rates are 1550 and they are actually 2778 for water and 1236 for sewer, not sure how they calculated it out but when I use 6,000 gallons, I came up with 3744, so we are not as far below the average as we had thought.

Sonya Renfro, Utility Office Manager: The base rate for the water is \$17.83 is the base fee up to 2000 gallons.

Assistant City Manager Alvarez: This would have been off of December 2021; you are correct it is incorrect they did the base rate and they didn't count for the additional 4 thousand gallons of water.

Chairman Szigeti: CPI this year is still going to be a pretty healthy amount so its going to be going back up again this year, are we still wanting to look at increasing the rate or do we want to leave as is.

Vice Chairman Dornbusch: I've heard rumors that we are going to go with brand new water meters.

City Manager Swingle: We received a grant for \$750,000 and that is for water meters that will cover approximately 900, probably a decreased number may be 800 or 700.

Vice Chairman Dornbusch: What I remember about the efficiency of the meters that are in place is they were running around 94% for the ones that they tested on average. We are looking at a 5-6% revenue increase just by putting in the new meters. Because those things are 99.9% accurate. I think we should install as many of those as fast as we can and see what the revenue does and then come back to this issue and see about raising the rates then.

Sonya Renfro, Utility Office Manager: I think that we also need to look at the difference in residential and commercial rates for water because me washing dishes at home is a lot different than a restaurant washing dishes, and we are paying the exact same rates. If you look at electric, sewer, trash, there is a difference in residential and commercial so I think commercial should be raised period.

Vice Chairman Dornbusch: I did notice that discrepancy when I was looking at the chart that was there about how much other places are getting charged for businesses, not sure why its that way other then we want to be business friendly but I agree I think that unless its some sort of business that water is the business, like the water filter places charging them a sewer fee would be insulting because none of their water goes through the sewer.

Sonya Renfro Utility Office Manager: For businesses like that there is irrigation meters so they wouldn't be charged for sewer necessarily unless they have bathroom sinks or stuff that goes into our sewer.

Chairman Szigeti: The thing is that one of the things that happen with the water at least is that by having basically the same charge a small business is paying basically about the same as a home is and again many of these stores don't have washing machines and showers and so that allows them to keep their cost down but what happens is the usage goes up the rate goes up and those businesses that use a lot of water are paying more and I don't know many households that would use more than 15,000 gallons a month. The difference between small commercial and large commercial is made up by the increase in the rates. One of the things we can do is look at increasing the rates for the large consumers because they are the ones that put much more of a demand on the system. Do we have any customers that fall in that range of more than 29,000 gallons a month?

Sonya Renfro Utility Office Manager: A lot of businesses do yes.

Chairman Szigeti: I really don't want to increase the rates for the real small businesses.

Vice Chairman Dornbusch: Don't we have a tiered system for residential? Did we put a tiered system on commercial?

Chairman Szigeti: They are identical. The question is do we want to be charging more for commercial systems? A lot of places like the electric and trash we have a difference there and a lot of the logic is well if the business they can deduct it as an expense so we can charge them more and that nice but if you are looking at the low end businesses which we have quite a few of we really don't want to do anything that impacts the smaller businesses that much.

Sonya Renfro Utility Office Manager: You could do like the electric does, if even just a residential customer uses over 4,000 kilowatts in a calendar year 3 times then they go to demand, you could do the same for the water if a customer uses more than 33,000 gallons per 3 months out of the calendar year then they are considered commercial and then they would pay more. It would only make sense because other places do charge more for residential. If you figure the grease that going down the drains and into our sewer system or the chemicals that are going down the toilets and the drain into our sewer system so there is a lot of different aspects to look at just on that alone.

City Manager Swingle: Mr. Chairmen, members of the board when I brought this up, I really didn't bring this up to with the intent of you all kind of setting the rates. What I was suggesting is that we hire a company to do it a rate study, and the study we currently have that we are operating under does not include infostructure that we need to replace and that has to be factored in to the rates. Now right now we have a couple hundred thousand dollars a year separation between budget and revenues coming in so there is not enough revenue generated to address infostructure particularly in our crisis that we are in right now with water but at any time we have got to have enough money in the water department so that they can address infostructure for the foreseeable future and this study did not take that into consideration at the time that it was done and I don't think we knew back then what our infostructure needs were at the time and now we do and have plenty of data and reports study's done on what we need infostructure wise and I am not suggesting that the rates go up so much that we restore our infostructure in a year or two but we certainly have to have this planned out and it needs an actuarial analysis to make that determination of how much the rate should go up if they should go up at all and I am sure that they will suggest that they are.

Assistant City Manager Alvarez: Chairmen, members of the board I reached out to you as DAS requested and in order to adjust our rates once they have approved the rate study like Bruce said it almost has to go out for another study they will require a scope plan explaining why we are doing an increase the financial projection 5 years from the date of the change to insure that the changes meet or exceed the projections that were originally scoped for so that is kind of a little bit above and beyond what we would want to be doing in house.

Chairman Szigeti: That kind of does force our hand on that if we do actually go out and hire somebody to look at the issue and do a complete analysis on it.

City Manager Swingle: They are very expensive but you want to do and there has to be some logic behind our madness and the data will tell them, if they say that our rates are sufficient now that is what they will tell us if they think we need a 5% or 10% increase and that is what they will tell us if they feel that they are high they will tell us to lower it but I doubt that is going to be the scenario.

Chairman Szigeti: So then would we then send a recommendation to the commission to engage someone to do a rate study?

City Manager Swingle: That is my hope yes.

Chairman Szigeti: Is that agreeable with everyone on the board? So, we can have a little more information before we start banging our heads on the table.

Vice Chairman Dornbusch: I think it is a great proposal because as a volunteer this is getting kind of thick. I see that we do need to raise our rates because we are in a deficit when it comes to infostructure demand. We are 50 years behind in our infostructure demand, we can't make that up in one change so we would have to have future projections on where this is going again it comes back to revenue and getting those meters in, my opinion would be priority one because that could guarantee 5% increase after that is rolling in that will give a better idea on what revenue is going to be and give us a better base line where we have to go from.

Chairman Szigeti: I have got serious questions about that 94% figure that they came up with on that because I know my meter is way off one month a few months ago it registered zero usage for the month. When we were working, we were using 4-5 thousand gallons a month and we were both out of the house like 60 hours a week and now that we are retired and at home all of the time, we used 2-3 thousand gallons, that just doesn't add up.

Vice Chairman Dornbusch: It really surprised me when that survey came out when they did those hundred meters and tested them that they got 95% that they had to skew the testing to get the 88% that would skew it all down justify the whole cost of everything and that's where I drew the line on by using meters come out of the box at 97% efficiency that can read down to a gallon a minute and putting them under the same spotlight as the new meters that can read down to a quart a minute was unfair and skewed the test and was all about numbers making sense so that they could get their money and make us servants for the next 20 years. So, when those numbers came out, I was really surprised because I thought that they would be a lot lower.

Sonya Renfro Utility Manager: I think that the biggest discrepancies with the low flow is that almost every meter that we put out for testing is at 11%.

Vice Chairman Dornbusch: When they are brand new, they are all tight tolerances, everything moves against each other after a while they are not moving in the low flow and there is not enough energy to get it to go. That's what I have found is that a lot of our usage is swamp coolers and people leaving the hose trickling those do not show up on the meter and those are something that we have something we can do about unlike a small leak under a street somewhere that we do not know about because it does not come to the surface. So, fix the stuff we can do easily once we get new meters in people will be excited. We can get rid of that loss and start focusing on Veater street.

Chairman Szigeti made a motion to recommend to the City Commission to engage in outside entity to do a rate analysis on infostructure needs for the water

Vice Chairman Dornbusch seconded the motion

Motion carried unanimously

5. REPORTS FROM THE BOARD

Chairman Szigeti welcomed new member Ken Moran to the board.

6. REPORTS FROM STAFF

Assistant City Manager Alvarez: SmithCo is going to be starting some of their tie ends for the downtown project and their first one is going to be on the 22nd in the area of Tractor Supply it will be a water outage that we are going to do door hangers to notify all applicable people or those who we think are going to be applicable. They are expecting approximately a 4-hour water outage in the area of Tractor Supply hopefully, only 4 hours and hopefully only those ones that we think are going to be affected. You will see those as soon as they notify us of the date and time and the area. They will door hangers to notify people and give the information to us we will get it posted on our Facebook page which this one is and then we notify the Utilities office and the Clerks office as well as central dispatch I notified them this time in case they get phone calls.

City Manager Swingle: The Electric steady we still have not heard back from them but I imagine that we should hear from them soon, at least draft report if not the final report from them. Sanitation the commission approved the Sanitation steady based on the landfill in Las Cruces. I am killing you with the cost increases that I am giving but you need to get a rate steady and make some of that up because we are not going to be able to survive or sustain the services we have with the current structures. We met with the Governors office and our Legislative Delegation early in the session to talk about needing \$20 million of water at our water lines, we went in and basically pinned every water leak that we had last year which was over 400 water leaks and there are really two major areas Veater and the middle streets immediately adjacent to Veater street and from 3rd street to 9th street and from Cedar to gold that area is where all of the water leaks are occurring so to replace those lines is \$31,000 linear fee, valves, hydrants, everything is associated that is needed the costs is \$20 million for those two areas so we are logging for \$20 million they have about \$12.5 billion in appropriations this year and they have \$3.6 billion of new money in the legislation this year and Senator Diamond worked her tail off for us and she was not successful for lots of reasons but we are not a liberal county is what it boils down to legislature would not bite, the governor would not bite. We met with two reporters one was a local environmental writer who did the first story on it thought it was a good story basically justifying the need for the \$20 million dollars then we had NBC National come in and they also wrote a story on it, it was probably not as good as the first article but it was still a good article having said that and those were given to the governors office she is aware of it and they still chose not to fund it my point to them was and I testified before a senate committee on the water request saying you are going to give us the money now or later. As summer picks up temperatures start increasing water leaks are going to explode every year, they get worse we could not keep up with it last year. Today alone there are 13 water leaks throughout the city. That number is down from 20 to 30 that we typically averaged, so we are going to get the money eventually unfortunately it is going to be a lot of embarrassment when we have the real water crisis when water is flooding the streets that is when we will get the legislation to act until then it is unfortunate. We are losing way too much water we are losing 43% over 200 million gallons of water a year. That is a crisis in the desert.

Chairman Szigeti: If my calculation is right that \$20 million if we were to pay for it that is \$5,300 per customer.

City Manager Swingle: The first questions the legislatures were asking is what are your rates? And when was your last rate increase? We had a rate steady done approximately 3 years ago there was a major increase in rates at that time and then it is based on CPI year one it was 5.4%

increase year two it was 9.1% increase those are significant raises so more motivation for having another rate steady done. The last thing I wanted to talk about was the Electric Dept and a potential sale it is on for executive session at the next meeting the sale is not what they are there to discuss they are there to discuss components of the sale and the next level of feasibility steady that is going to be done. So, if you happen to see that or hear that it is on the agenda they are not negotiating or anything like that the next phase still has to be done.

Board Member Gil Avelar: Is that a closed meeting?

City Manager Swingle: It will be discussed in executive session.

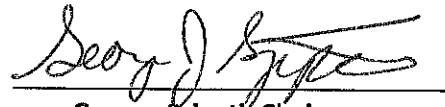

7. ADJOURNMENT

There being no further business, Chairman Szigeti made a motion to adjourn the meeting.

Member Avelar seconded the motion.

Motion carried unanimously.

B. Sale Proceeds. The proceeds from the sale of the Series 2023 Bonds shall be deposited promptly upon the receipt thereof in a separate account in an Insured Bank, designated by the City, which account is hereby created and shall be known as the "City of Truth or Consequences, New Mexico Water System Improvement Revenue Bonds, Series 2023, Construction Fund." The Insured Bank shall be required to pledge collateral security for all deposits in the Construction Fund in accordance with the laws of the State of New Mexico, and laws and regulations of the United States of America. The monies in the Construction Fund, except

as herein otherwise specifically provided, shall be used and paid out solely for the purposes specified in this Ordinance.

C. Purchaser Not Responsible. The Purchaser of the Series 2023 Bonds shall not be responsible for the application or disposal by the City or by its officers of the funds derived from the sale thereof or of any other funds herein designated.

Section 15. The Construction Fund.

A. Withdrawals. Monies shall be withdrawn from the Construction Fund for the Project upon warrants or checks drawn and signed by the Mayor and the City Clerk-Treasurer.

No such warrant or check for any sum for any actual construction work or purchase of construction materials pursuant to the terms and provisions of construction contracts shall be issued until the City has received engineering approval certifying that such sum is due and owing for work under such contracts and has received approval and concurrence for such payment from the Rural Utilities Service. The designated engineering approval shall be by the Consulting Engineer whose approval must be in the form of a written certificate stating that the payment therein approved is being made to pay for materials supplied or work satisfactorily completed in substantial accordance with the plans and specifications for the work involved. The designated Rural Utilities Service approval shall be in the form of a written certificate stating that the Rural Utilities Service has reviewed the request for payment and has concurred with making the payment. Such certificates of approval shall be in appropriate form, shall be signed by the Consulting Engineer or his duly authorized representative or by an authorized representative of the Rural Utilities Service, as applicable, and shall be filed with the City Clerk-Treasurer and the Insured Bank holding the Construction Fund.

B. Disposition of Unspent Amounts in the Construction Fund. When all work on the Project is completed in accordance with the plans and specifications and all amounts due therefor are paid, the Consulting Engineer and the Rural Utilities Service shall file with the Insured Bank and the City Clerk-Treasurer a certificate so stating, and thereupon the Insured Bank shall transfer to the Bond Fund all funds remaining in the Construction Fund, if any, and such proceeds shall be promptly used to pay debt service on the Series 2023 Bonds.

Section 16. Special Funds.

A. The Income Fund is hereby continued. The Water Utility System Gross Income Fund shall be used for the deposit of the Gross Revenues of the System and shall be a special fund, not part of the general treasury or general fund of the City.

B. The Operation and Maintenance Fund is hereby continued as a separate account in the Income Fund and shall be used for the deposit of revenues of the System to be used for the payment of Operation and Maintenance Expenses of the System as set forth in Section 17 of this Ordinance.

C. The Bond Fund is hereby created as a separate account in the Income Fund and shall be used for deposit of Net Revenues of the System to be used for the payment of principal and interest on the Series 2023 Bonds as set forth in Section 17 hereof.

D. The Debt Service Reserve Fund is hereby created as a separate account in the Income Fund and shall be used as set forth in Section 17 hereof.

E. The Asset Management Reserve Fund is hereby created as a separate account in the Income Fund and shall be used as set forth in Section 17 hereof.

Section 17. Administration of Income Fund. So long as the Series 2023 Bonds shall be outstanding either as to principal or interest, or both, the Gross Revenues of the System shall be set aside and deposited into the Income Fund and the following monthly payments shall be made from the Income Fund:

A. Operation and Maintenance Expenses. Money in the Income Fund shall first be disbursed to make deposits into the Operation and Maintenance Fund. There shall be deposited in the Operation and Maintenance Fund each month an amount sufficient to meet the current Operation and Maintenance Expenses of the month plus an amount equal to 1/12th of the Operation and Maintenance Expenses payable on an annual basis such as insurance.

B. Bond Fund. Second and concurrently with the monthly payments required by paragraphs C, D and G of this Section, and subject to and after the payments required by paragraph A of this Section, from any moneys remaining in the Income Fund there shall be deposited to the Bond Fund the following:

(1) Monthly, commencing on the first of the month immediately succeeding the issuance and delivery of the Series 2023 Bonds, an amount which is necessary, together with any moneys therein and available therefor, to pay the payment of principal and interest on the Series 2023 Bonds as provided in the Debt Service Schedule; and

(2) If prior to any payment date, there has been accumulated in the Bond Fund the entire amount necessary to pay the next payment of principal and interest, the payment required in subparagraph (1) of this subsection, may be appropriately reduced; but the required monthly amounts shall again be credited to the Bond Fund commencing on the applicable payment date.

Except as provided in paragraph I of this Section, the moneys in the Bond Fund shall be used only to pay the principal of and interest on the Series 2023 Bonds as the same become due.

C. Debt Service Reserve Fund. Concurrently with the monthly payments required by paragraphs B, D and G of this Section, and subject to and after the payments required by paragraph A of this Section, from any moneys remaining in the Income Fund there shall be deposited in the Debt Service Reserve Fund, monthly, commencing on the first day of the month immediately succeeding delivery of the Series 2023 Bonds, an amount equal to one-one hundred

and twentieth (1/120) of the average annual principal and interest installment payment on the Bonds ("Required Reserve Fund Deposit"). Monthly payments of the Required Reserve Fund Deposit shall be made into the Debt Service Reserve Fund until there is accumulated one annual installment of principal and interest due on the Bonds. The accumulated amounts of the Required Reserve Fund Deposits in the Debt Service Reserve Fund shall be maintained as a continuing reserve to be used, with the approval of the Rural Utilities Service or the registered owner of the Series 2023 Bonds, only (i) to prevent deficiencies in the payment of the principal of and interest on the Series 2023 Bonds resulting from the failure to deposit into the Bond Fund sufficient funds to pay said principal and interest as the same become due, (ii) for paying the cost of repairing or replacing any damage to facilities constituting a part of the System caused by catastrophe, (iii) for extensions or improvements to facilities constituting a part of the System, and (iv) for repairing or replacing of short-lived assets which have a useful life significantly less than the final maturity date of the Series 2023 Bonds. After any use of moneys in the Debt Service Reserve Fund for an approved purpose as set forth in the preceding sentence, monthly deposits of the Required Reserve Fund Deposit shall continue until there is accumulated one annual installment of principal and interest due on the Bonds. Moneys on deposit in the Debt Service Reserve Fund to the extent in excess of the amount which may be held in a "reasonably required reserve fund" within the meaning of the Internal Revenue Code of 1986, as amended, and applicable U.S. Treasury Regulations (collectively, the "Code") shall not be invested at a yield in excess of the yield on the Series 2023 Bonds or in any other manner which would cause the Series 2023 Bonds to become "arbitrage bonds" within the meaning of the Code or otherwise cause interest on the Series 2023 Bonds to become includible in gross income of the registered owner thereof for federal income tax purposes under the Code.

D. Payment of the Additional Parity Obligations. Concurrently with the payments required by paragraphs B, C and G of this Section, and subject to and after the payments required by paragraph A of this Section, any balance remaining in the Income Fund shall be used by the City for the payment of principal of and interest on the Parity Obligations (including, in each case, reserves therefor), if any, issued and payable from the Net Revenues, as the same accrue.

E. Defraying Delinquencies in the Bond Fund and the Debt Service Reserve Fund. If, in any month, the City shall, for any reason, fail to pay into the Bond Fund the full amount above stipulated from the Net Revenues, then an amount equal to the difference between that paid from the Net Revenues and the full amount so stipulated shall be paid into the Bond Fund from the Debt Service Reserve Fund. If, in any month, the City shall, for any reason, fail to pay into the Debt Service Reserve Fund the Required Reserve Fund Deposit, the difference between the amount paid and the amount of the Required Reserve Fund Deposit shall be paid therein from the first Net Revenues thereafter received from the operation of the System not required to be otherwise applied.

F. Termination upon Deposits to Maturity. No payment need be made into the Bond Fund, the Debt Service Reserve Fund, or both, if the amount in the Bond Fund and the amount in the Debt Service Reserve Fund total a sum at least equal to the entire amount of the outstanding Series 2023 Bonds, both as to principal and interest to their maturities, and both accrued and not accrued, in which case, moneys in the two funds in an amount at least equal to such principal and interest requirements shall be used solely to pay such as the same become due,

and any moneys in excess thereof in the two funds and any other moneys derived from the operation of the System may be used as provided in this Section.

G. Asset Management Reserve Fund. Concurrently with the monthly payments required by paragraphs B, C and D of this Section, and subject to and after the payments required by paragraph A of this Section, from any moneys remaining in the Income Fund there shall be deposited in the Asset Management Reserve Fund, monthly, commencing on the first day of the month immediately succeeding delivery of the Series 2023 Bonds, an amount equal to \$14,238 until the total aggregate amount deposited annually in the Asset Management Reserve fund totals \$170,861. The accumulated amounts of the deposits in the Asset Management Reserve Fund shall be maintained as a continuing reserve to be used, with the approval of the Rural Utilities Service or the registered owner of the Series 2023 Bonds, only for repairing or replacing short-lived assets which have a useful life significantly less than the final maturity date of the Series 2023 Bonds. After any use of moneys in the Asset Management Reserve Fund for an approved purpose as set forth in the preceding sentence, monthly deposits shall continue and there shall be no requirement that the money so used be replenished from the Income Fund or any other available moneys of the City.

H. Payment of Subordinate Obligations. Third, and subject to and after the payments required by paragraphs A through G of this Section, from any monies remaining in the Income Fund, there shall be made the payment of interest on and principal of, and reserves for, additional bonds or other obligations hereafter authorized to be issued and payable from the Net Revenues with a lien thereon which is subordinate and junior to the lien thereon of Parity Obligations, including the NMFA Loan Agreement (2014) and NMFA Loan Agreement (2016).

I. Use of Surplus Revenues. Gross revenues accumulated over and above that needed to pay Operating and Maintenance Expenses and debt service and reserves for any outstanding obligations may only be retained or used to make prepayments on the Parity Obligations or subordinate obligations or for System improvements. Gross Revenues cannot be used to pay any expenses which are not directly incurred for the System.

Section 18. General Administration of Funds. The funds designated in Sections 16 and 17 shall be administered and invested as follows:

A. Places and Times of Deposits. The funds shall be separately maintained as a trust fund or funds for the purposes established and shall be deposited in one or more bank accounts in an Insured Bank or Banks. Each fund shall be continuously secured to the extent required by law and shall be irrevocable and not withdrawable by anyone for any purpose other than the stated purpose. Payments shall be made into the proper account not later than the first day of the month except when the first day shall be a Sunday or legal holiday, and then payment shall be made on the next succeeding secular day. No later than three (3) days prior to each payment date, moneys sufficient to pay interest and principal then due on the Series 2023 Bonds shall be transferred to the Paying Agent. Nothing in this Ordinance shall prevent the Commission from establishing one or more bank accounts in an Insured Bank or Insured Banks for all the funds required by this Ordinance or, except for the Construction Fund which must be maintained as a

separate account, shall prevent the combination of such funds and accounts with any other bank account or accounts for other funds and accounts of the City.

B. Investment of Moneys. Moneys in any fund or account not immediately needed may be invested in any investment permitted by law. The obligations so purchased as an investment of moneys in any fund or account shall be deemed to be part of such fund or account, and the interest accruing thereon and any profit realized therefrom shall be credited to such fund or account, and any loss resulting from such investment shall be charged to such fund or account. The City Clerk-Treasurer shall present for redemption or sale on the prevailing market any obligations so purchased as an investment of moneys in the fund or account whenever it shall be necessary to do so in order to provide moneys to meet any payment or transfer from such fund.

Section 19. Lien on Net Revenues. The Series 2023 Bonds shall constitute an irrevocable first lien (but not an exclusive first lien) on, and the City hereby grants to the owners of the Series 2023 Bonds a security interest in, the Net Revenues as set forth herein and on parity with any existing Parity Obligations or future Parity Obligations which may be issued. The Net Revenues are hereby authorized to be pledged and are hereby pledged and the City grants a security interest therein and in the funds on deposit in the Bond Fund and Debt Service Reserve Fund for the payment of the principal of and interest on the Series 2023 Bonds.

Section 20. Additional Bonds or Other Obligations Payable from Net Revenues.

A. Earnings Test. Nothing in this ordinance contained shall be construed to prevent the issuance by the City of additional Parity Obligations payable from the Net Revenues and constituting a lien upon said revenues on a parity with, but not prior or superior to the lien of the Series 2023 Bonds, nor to prevent the issuance of bonds or other obligations refunding all or a part of the Series 2023 Bonds, provided, however, that before any such additional Parity Obligations are authorized or actually issued, the following tests shall be satisfied:

(1) The City is not, and has not been in default as to making any payments required by Section 17 hereof during the twelve months immediately preceding the issuance of such additional Parity Obligations, or if none of the Series 2023 Bonds have been issued and Outstanding for a period of at least twelve months, then for the longest period of time any of such Series 2023 Bonds have been issued and Outstanding; and

(2) The Net Revenues for the Fiscal Year immediately preceding the date of issuance of such additional Parity Obligations shall have been sufficient to pay an amount representing one hundred twenty percent (120%) of the combined average annual principal and interest requirements coming due in any subsequent Fiscal Year on the then outstanding Parity Obligations payable from and constituting a lien upon the Net Revenues and the additional Parity Obligations proposed to be issued (excluding any reserves therefor).

The foregoing limitations on the issuance of Parity Obligations shall not apply with regard to issuance of the Series 2023 Bonds or in the case of the issuance of additional Parity Obligations necessary to complete the Project in accordance with the original plans and specifications therefor.

B. Certification or Opinion of Earnings. A written certification or opinion by the Independent Accountant or City Clerk-Treasurer that Net Revenues for the Fiscal Year immediately preceding the date of issuance of the proposed additional Parity Obligations are sufficient to pay said amounts, shall be conclusively presumed to be accurate in determining the right of the City to authorize, issue, sell and deliver the proposed additional Parity Obligations on a parity with the Series 2023 Bonds.

C. Consideration of Additional Revenue Permitted. In determining whether or not additional Parity Obligations may be issued as aforesaid, consideration may be given to any probable increase in the estimated Net Revenues of the System that may result from the expenditure of funds proposed to be derived from the issuance and sale of the proposed additional Parity Obligations or an increase in System rates.

D. Subordinate Obligations Permitted. Nothing herein contained shall be construed to prevent the City from issuing bonds or other obligations payable from the revenues of the System and having a lien thereon subordinate, inferior and junior to the lien of the Series 2023 Bonds.

E. Superior Obligations Prohibited. Nothing herein contained shall be construed to permit the City to issue bonds or other obligations payable from the revenues of the System and having a lien thereon prior and superior to the lien of the Series 2023 Bonds.

F. Rural Utilities Service Consent Required. No additional bonds or other obligations payable from revenues of the System (including Parity Obligations and subordinate obligations) will be issued without the prior written consent of Rural Utilities Service.

Section 21. Refunding Bonds. The provisions of Section 20 hereof are subject to the following exceptions:

A. Privilege of Issuing Refunding Obligations. If at any time the Commission shall find it desirable to refund the Outstanding Series 2023 Bonds, the Series 2023 Bonds may be refinanced and paid, in whole or in part, in advance of their maturity (but only with the consent of Rural Utilities Service, unless the obligations shall then mature or be callable). No refunding obligations shall be issued to advance refund or defease all or any portion of the Series 2023 Bonds as prohibited by 7 CFR 1780.94(j)(4). As required by the Loan Resolution, the City shall issue refunding obligations to pay and refinance the Outstanding Series 2023 Bonds, in whole or in part, at the request of Rural Utilities Service if at any time it shall appear to Rural Utilities Service that the City is able to refund the Outstanding Series 2023 Bonds by issuing bonds or obtaining a loan at reasonable rates and terms for bonds or loans for similar purposes and periods of time.

B. Limitations upon Issuance of Parity Refunding Obligations. No refunding bonds or other refunding obligations payable from any revenues of the System shall be issued on a parity with the Series 2023 Bonds, unless the refunding bonds or other refunding obligations are issued in compliance with paragraph A of Section 20 hereof.

C. Limitations upon Issuance of any Refunding Obligations. Any refunding bonds or other refunding obligations payable from any revenues of the System shall be issued with such details as the Commission may provide by ordinance and only with the consent of Rural Utilities Service and in accordance with any applicable Rural Utilities Service regulations, so long as the United States of America is the holder and/or insurer of the Series 2023 Bonds.

Section 22. Protective Covenants. The City covenants and agrees with each and every holder of the Series 2023 Bonds:

A. Public Utility. The municipal water facilities of the City shall continue to constitute a public utility designated as the System and shall hereafter be operated and maintained as a public utility.

B. Use of Series 2023 Bonds Proceeds. The City, with the proceeds derived from the sale of the Series 2023 Bonds, shall proceed with and complete acquisition and construction of the Project without delay.

C. Payment of the Series 2023 Bonds. The City shall promptly pay the principal of and interest on the Series 2023 Bonds at the place, on the dates, and in the manner specified herein. Principal and interest on the Series 2023 Bonds are payable solely from Net Revenues, and the special funds herein authorized for such purpose.

D. City's Existence. The City shall maintain its corporate identity and existence so long as the Series 2023 Bonds remain outstanding, unless another political subdivision or authority by operation of law succeeds to the liabilities and rights of the City, without adversely affecting to any substantial degree the privileges and rights of the holder of the Series 2023 Bonds.

E. Impairment of Contract. Except with the approval of the holder of the Outstanding Series 2023 Bonds, the City agrees that this Ordinance shall not be repealed or otherwise directly or indirectly modified, in such a manner as to adversely affect the Outstanding Series 2023 Bonds.

F. Use Charges. Rates for services rendered by the System shall be reasonable and just, taking into account the cost and value of the System, Operation and Maintenance Expenses, proper allowances for depreciation and the amounts necessary to retire all bonds payable from Net Revenues, and any reserves therefor. There shall be charged against all users, including the City, rates and amounts, which shall be increased from time to time if necessary, sufficient to produce revenues to pay the annual Operation and Maintenance Expenses, the monthly Required Reserve Fund Deposit and deposits to the Asset Management Reserve Fund, and 120% of the combined average annual principal and interest requirements on all outstanding Parity Bonds and other obligations payable from Net Revenues. No free services of the System shall be furnished by the City. Any use of the System by the City shall be paid for from the City's general fund at the reasonable value of the use so made. Income so derived from the City shall be treated in the same manner as any other System income. The City is granted a statutory lien upon realty for unpaid rates and charges pursuant to Section 3-23-6 NMSA 1978. The City covenants and agrees

that it will cause any lien on each property to be perfected and enforced in accordance with the provisions of Sections 3-23-6 and 3-36-1 through 3-36-7 NMSA 1978.

G. Levy and Reduction of Charges. Prior to the delivery of the Series 2023 Bonds, the City has established and levied the required rates and charges for use of the System. No reduction in any initial rate schedule may be made unless:

(1) The City has complied with Section 17 hereof for at least one Fiscal Year immediately preceding such reduction;

(2) The audit for the one full Fiscal Year immediately preceding such reduction discloses that the estimated revenues resulting from the proposed rate schedule will be sufficient to meet the requirements of paragraph F of this Section; and

(3) The City has obtained the written consent of the Rural Utilities Service if the United States of America is the holder of the Series 2023 Bonds.

H. Efficient Operation. The City shall operate the System as long as the Series 2023 Bonds are outstanding and shall make such improvements and repairs to the System as may be necessary to insure its economical and efficient operation and its ability to meet demands for service and its continual operation and maintenance in good condition.

I. Records of System. Separate records will be kept showing complete and correct entries of all transactions relating to the System. Such records shall include monthly entries showing the number of customers, the revenues received, a detailed statement of expenses, and such other items specified by the Rural Utilities Service.

J. Right to Inspect. The United States of America, any other owner of the Series 2023 Bonds or their duly authorized agents shall have the right at all reasonable times to inspect the System and all records, accounts and data relating thereto.

K. Audits and Budgets. So long as the Series 2023 Bonds shall be Outstanding, the City shall furnish to the Purchaser, and to any owner or owners or insurers of the Series 2023 Bonds who has requested the same, not later than thirty (30) days after the close of each three-month fiscal period, complete operating and income statements of the System in reasonable detail covering such three-month period, and, not later than sixty (60) days after the close of each fiscal year, complete financial statements of the System to the owner of the Series 2023 Bonds covering such fiscal year. For a fiscal year in which an audit report is required under OMB Circular A-128 or the Purchaser's regulations as set forth in the Letter of Conditions issued to the City by the Purchaser, such report will take the place of the year-end financial statements and be submitted to the Purchaser within the timeframe required for the type of report submitted. In addition, the City will prepare and adopt prior to the beginning of each fiscal year, a budget for the ensuing fiscal year for the System, such budget to include an estimate of revenues and expenses during such fiscal year. The City will furnish a copy of each annual report and budget to Rural Utilities Service when available and without request, and to any other owner of the Series 2023 Bonds upon request.

L. Billing Procedure and Discontinuance of Service. All System bills shall be sent out on a regularly established day of each month in advance or after service is rendered. If bills are not paid within a reasonable time after such date, they shall be collected in any lawful manner. Upon nonpayment of charges, water service will be discontinued if permitted by law and will be restored only upon payment of the delinquent amounts plus the cost of restoration.

M. Use of Bond Fund and Reserve Funds. The Bond Fund, Debt Service Reserve Fund and Asset Management Reserve Fund shall be used solely and only, and said funds are hereby pledged, for the purposes set forth in this Ordinance.

N. Charges and Liens upon System. The City, from Revenues, will pay all taxes and governmental charges lawfully levied in respect of the System when due. The City will comply with all valid requirements of any governmental authority relative to the System and will not create or permit to be created any lien or charge on the System or the Revenues except as permitted herein. The City will satisfy within sixty days after the same shall accrue all lawful claims and demands which might by law become a lien on the System or upon the Revenues unless the validity thereof is being contested in good faith by appropriate legal proceedings.

O. Insurance. The City, in its operation of the System, will carry fire and extended coverage insurance, public liability insurance and other types of insurance in such amounts and to such extent as is normally carried by private corporations operating facilities of the same type. The City will also maintain, as provided by law, a self-insurance fund to cover workmen's compensation insurance or will carry equivalent insurance. The cost of insurance shall be considered one of the Operation and Maintenance Expenses of the System. In the event of property loss or damage, insurance proceeds shall be used first for the purpose of restoring or replacing the property lost or damaged, any remainder shall be treated as Net Revenues, and shall be subject to distribution in the manner provided hereinabove in Section 17, for Net Revenues derived from the operation of the System. Nothing herein shall prevent the City from establishing a funded self-insurance program. In addition to the insurance required by this subsection, the City will acquire and maintain such additional insurance as may be required by the Rural Utilities Service.

P. Competing System. The City shall not grant any franchise or license to a competing system, or permit any person or organization to sell water service and facilities within the City (unless required to do so by law). To the extent permitted by law, the City will require all residents to connect to the System facilities.

Q. Alienating System. While the Series 2023 Bonds are outstanding, the City will not sell, lease, mortgage, pledge or otherwise alienate the System, or any part thereof, without the prior written consent of the Rural Utilities Service. In the event of any sale as aforesaid, the proceeds of such sale shall be distributed as Net Revenues in the manner provided hereinabove in Section 17 hereof.

R. Extension of Interest Payments. The City will not extend or be a party to the extension of the time for paying any claim for interest on the Series 2023 Bonds. Any installment of interest so extended shall not be entitled in case of default hereunder to the benefit

or security of this Ordinance except subject to the prior payment in full of the principal of all Series 2023 Bonds and interest which has not been extended.

S. Management of the System. The City shall employ competent and experienced management personnel for the System. If an "event of default" shall occur and continue for a period of sixty (60) days or if the Net Revenues in any Fiscal Year fail to equal principal, interest and reserve requirements for all Outstanding Parity Obligations and other obligations payable from the Net Revenues, the City shall retain an independent consultant who is qualified in the management of facilities similar to the System, to assist in the management of the System so long as such event of default continues or the Net Revenues are less than the amount designated.

T. Fidelity Bonds. Each municipal official responsible for receiving income and maintaining the accounts of the System shall be bonded at all times, which bond shall be conditioned upon the proper allocation of such income. The cost of each bond shall be considered one of the Operation and Maintenance Expenses of the System.

U. Performing Duties. To the extent permitted by applicable law, the City will faithfully and punctually perform all duties with respect to the System required by the Constitution and laws of the State of New Mexico and the ordinances and resolutions of the City, including but not limited to, the making and collecting of reasonable and sufficient rates and charges for services rendered or furnished by the System as hereinbefore provided.

V. Other Liens. Except as set forth in this Ordinance, there are no liens or encumbrances of any nature whatsoever, on or against the System or the revenues derived or to be derived from the operation of the same.

W. Service Connections. The City shall provide adequate service to all persons within the service area of the System who can feasibly and legally be served and shall obtain the concurrence of the Rural Utilities Service prior to refusing new or adequate services to such persons.

X. Debts or Liabilities of System. The City shall not borrow money, enter into any contract or agreement, or otherwise incur any liabilities for any purpose in connection with the System (exclusive of normal maintenance) without the prior written consent of the Rural Utilities Service if such undertaking would involve the Gross Revenues of the System.

Y. Tax Covenants. The Mayor and/or City Clerk-Treasurer or any other officer of the City having responsibility for the issuance of the Series 2023 Bonds shall give an appropriate certificate of the City, for inclusion in the transcript of proceedings for the Series 2023 Bonds, setting forth the reasonable expectations of the City regarding the amount and use of all the proceeds of the Series 2023 Bonds, the facts, circumstances and estimates on which they are based, and other facts and circumstances relevant to the tax treatment of interest on the Series 2023 Bonds.

The City covenants that it (a) will take or cause to be taken such actions which may be required of it for the interest on the Series 2023 Bonds to be and remain excluded from gross

income for federal income tax purposes, and (b) will not take or permit to be taken any actions which would adversely affect that exclusion, and that it, or persons acting for it, will, among other acts of compliance, (i) apply the proceeds of the Series 2023 Bonds to the governmental purpose of the borrowing, (ii) restrict the yield on investment property acquired with those proceeds, (iii) make timely rebate payments to the federal government, if required, (iv) maintain books and records and make calculations and reports, and (v) refrain from certain uses of proceeds, all in such manner and to the extent necessary to assure such exclusion of that interest under the Code. The Mayor and/or City Clerk-Treasurer and other appropriate officers are hereby authorized and directed to take any and all actions, make calculations and rebate payments, and make or give reports and certifications, if any, as may be required or appropriate to assure such exclusion of that interest.

Z. Qualified Tax-Exempt Obligations. The Series 2023 Bonds are hereby designated as “qualified tax-exempt obligations” for purposes of Section 265(b)(3) of the Code. In that connection, the City hereby covenants that the City, it having no “subordinate entities” with authority to issue obligations within the meaning of that Section of the Code, in or during the calendar year in which the Series 2023 Bonds are issued, (i) will not designate as “qualified tax-exempt obligations” for purposes of Section 265(b)(3) of the Code, tax-exempt obligations, including the Series 2023 Bonds, in an aggregate principal amount in excess of \$10,000,000, and (ii) will not issue tax-exempt obligations within the meaning of Section 265(b)(4) of the Code, including the Series 2023 Bonds and any qualified 501(c)(3) bonds as defined in Section 145 of the Code (but excluding obligations, other than qualified 501(c)(3) bonds, that are private activity bonds as defined in Section 141 of the Code), in an aggregate principal amount exceeding \$10,000,000, unless the City receives an opinion of nationally recognized bond counsel that such designation or issuance, as applicable, will not cause the Series 2023 Bonds to cease to be “qualified tax-exempt obligations.”

Section 23. Events of Default. It is an “event of default” if:

A. Nonpayment of Principal. Payment of principal of any Series 2023 Bonds is not made when due either at maturity or by proceedings for prior redemption, or otherwise; or

B. Nonpayment of Interest. If payment of any installment of interest shall not be made when the same becomes due and payable; or

C. Incapable to Perform. The City becomes incapable of fulfilling its obligations hereunder; or

D. Default of any Provision. The City defaults in the punctual performance of any other of its covenants hereunder for sixty (60) days after written notice shall have been given to the City by the holders of twenty-five percent (25%) of the principal amount of the Series 2023 Bonds then outstanding.

Section 24. Remedies on Default. Upon the happening and continuance of any event of default, the holder or holders of not less than twenty-five percent (25%) of the principal amount of the Series 2023 Bonds then outstanding, or a trustee therefor, may protect and enforce the rights

of any owner of Series 2023 Bonds by proper legal or equitable remedy deemed most effectual including mandamus, specific performance of any covenant, the appointment of a receiver (the consent to such appointment being hereby granted), injunctive relief or requiring the Commission to act as if it were the trustee of an express trust, or any combination of such remedies. All proceedings shall be maintained for the equal benefit of all owners of Series 2023 Bonds. Any receiver appointed to protect the rights of owners of Series 2023 Bonds may take possession and operate and maintain the System in the same manner as the City itself might do. The failure of the owner of the Series 2023 Bonds to proceed does not relieve the City or any person of any liability for failure to perform any duty hereunder. The foregoing rights are in addition to any other rights and the exercise of any right by any owner of the Series 2023 Bonds shall not be deemed a waiver of any other right.

Section 25. Duties upon Default. Upon the happening of any event of default, the City will perform all proper acts to protect and preserve the security created for the prompt payment of the principal of and interest on the Series 2023 Bonds. The holders of not less than twenty-five percent (25%) in the principal amount of the Series 2023 Bonds, after written demand, may proceed to protect and enforce the rights provided by this Section and by Section 24.

Section 26. Amendment of Ordinance, Waiver of Rural Utilities Service Requirements. This Ordinance may not be amended without the written consent of the owner of the Series 2023 Bonds. Any provision of this Ordinance providing specific remedies or rights to the United States of America may be waived while the United States of America is not the owner upon receipt of written consent of the owner of the then Outstanding Series 2023 Bonds.

Section 27. Delegated Powers. The officers of the City be, and they hereby are, authorized and directed to take all action required by this Ordinance, and all such other action as may be necessary or appropriate to effectuate the provisions of this Ordinance, including, without limiting the generality of the foregoing, any required printing of the Series 2023 Bonds and the execution of such certificates as may be required by the Purchaser or bond counsel.

ORDINANCE No. 748

**AN ORDINANCE AUTHORIZING THE LEASE OF REAL
PROPERTY, PURSUANT TO SECTION 3-54-1 NMSA 1978.**

A. WHEREAS, the City of Truth or Consequences, New Mexico (the "City") is a legally created, established, organized and existing incorporated municipality under the constitution and laws of the State of New Mexico; and

B. WHEREAS, the City owns certain real property located within its boundaries specifically described as follows:

East ½ Corner of Section 28, Township 13 South, Range 4 West,
commonly referred to as the Kopra Street Tower Site in Truth or
Consequences, Sierra County, New Mexico.

C. WHEREAS, the City has negotiated a Lease Agreement with American Tower ("Tenant"), whereby the City shall lease its interest in and to the above-described property to the Tenant; and

D. WHEREAS, under Section 3-54-1 NMSA 1978, the City is required to obtain an appraisal from a qualified appraiser of any property to be leased, and said appraisal was prepared by Lee Morris of Morris Appraisal Services, Inc. dated August 25, 2022; and

E. According to the aforesaid appraisal, the appraiser opined as follows: "Therefore, by reason of my research of the current market, and by virtue of my experience, I have formed the opinion that the market rent for the ground lease as stated as of the effective date of this report was: **FIFTEEN THOUSAND DOLLARS (\$15,000.00)** per year.

F. The contemplated rental is a one-time up front payment of \$480,000.00 to be paid at the inception of the Lease. The Lease shall be for a 99 year term commencing upon the effective date of this Ordinance.

G. The Lessee of the proposed agreement shall be American Tower Corporate Limited Liability Company. A copy of the following documents are attached hereto as **EXHIBITS A and B**, and are incorporated into this Ordinance by reference.

1. Purchase and Sale Agreement.
2. Communications Facility Easement and Assignment of Tower-Related Ground Lease.

H. The City Commission has determined that it is in the best interests of the City to consummate the proposed transaction. Several of the reasons in support of proceeding with the proposed transaction include the following:

1. As noted above, the proposed payment of \$480,000.00 would be "up-front" at the inception of the Lease.
2. Proceeding with the proposed transaction represents the best use of the property. It would be otherwise difficult and costly to develop the property.
3. In the absence of entering into the proposed long term Lease Agreement, it is very speculative if the property could be used as a cell tower site in the distant future.
4. Operating and maintaining the property in its current use has been a labor-intensive endeavor the City. Entering into this proposed transaction would relieve the City of a significant, time-consuming burden.

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COMMISSION OF THE CITY OF TRUTH OR CONSEQUENCES, NEW MEXICO:

Section 1. Authority. The City is authorized to lease interests in real property pursuant to the provisions of Section 3-54-1, N.M.S.A. (1978).

Section 2. Material Terms Lease Agreement.

A. The City shall lease the above-described property to the tenant in accordance with the terms described in **EXHIBITS A and B above.**

B. The Tenant acknowledged that it is leasing the property in an "as is" condition, and the City has made no warranties or representations regarding the Real Property, the status of its title, or its feasibility for development.

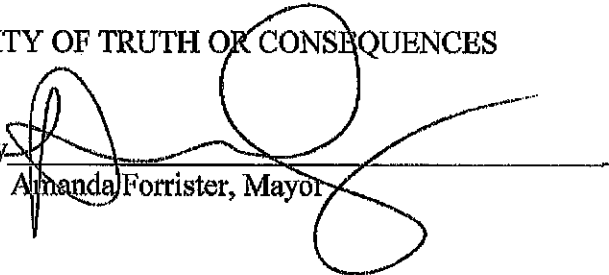

Section 3. Effective Date. This Ordinance shall be effective forty-five (45) days after its adoption.

Section 4. Severability. If any section, paragraph, clause or provision shall be held to be valid or unenforceable, the invalidity or unenforceability of such section, paragraph, clause or provision shall not affect any of the remaining provisions of this Ordinance.

In consideration of the foregoing recitals and the mutual covenants set forth herein, and other good and valuable consideration, the receipt, adequacy, and sufficiency of which are hereby acknowledged, the Parties hereby agree as follows:

1. Seller hereby grants to Buyer an exclusive option (the "**Option**") to purchase a ninety-nine (99) years term exclusive communications easement and non-exclusive access and utility easement (collectively, the "**Easements**"), which Easements shall be memorialized in an easement agreement, the form and substance of which shall be substantially similar to the agreement attached hereto as Exhibit A and incorporated herein by reference (the "**Easement Agreement**"). The Easement Agreement shall grant, convey, and transfer to Buyer certain rights as described in the Easement Agreement over, across, in, and under that certain real property owned by Seller in the County of Sierra, State of New Mexico (the "**Premises**"), and on which Buyer currently operates or manages a communications facility. Seller shall also assign to Buyer, or an affiliate of Buyer, all of Seller's right, title and interest in, to and under all of the existing leases, licenses, or other agreements for use and occupancy of the Premises, including but not limited to those agreements listed on the Current Agreement Addendum attached hereto and incorporated by this reference (collectively, the "**Current Agreement**" or "**Current Agreements**"), including without limitation, the right to receive any and all rents and other monies payable to Seller thereunder, arising or accruing on or after the Closing (as herein defined). With the assignment of the Third Party Lease, Seller grants to Buyer an additional **nine hundred point eight (900.8) square feet** contiguous to the land which Buyer currently leases or subleases (the "**Expansion Area**"), to be incorporated into the exclusive easement area referenced in the Easement Agreement. inspecting, surveying or otherwise evaluating the Premises to determine whether Buyer will, in its sole and absolute discretion, exercise the Option. Seller shall provide Buyer with any reasonable documentation requested by Buyer to facilitate payment to Seller or to otherwise assist in expediting Buyer's completion of its due diligence. If all or any portion of the Premises is encumbered by a mortgage or other security instrument, Seller agrees to obtain a Non-Disturbance Agreement ("**NDA**") from the applicable lender(s) on a form to be provided by Buyer. EASEMENT AND ASSIGNMENT AGREEMENT

This Easement Agreement ("***Agreement***") dated as of _____, 202_ (the "***Effective Date***"), by and between **The City of Truth or Consequences, New Mexico** a municipal corporation ("***Grantor***") and **ATC Sequoia LLC**, a Delaware limited liability company ("***Grantee***").

BACKGROUND

Grantor is the owner of the real property described in **Exhibit "A"** attached hereto and by this reference made a part hereof (the "***Premises***"). Grantor desires to grant to Grantee certain easement rights with respect to the Premises, as more particularly described below, and subject to the terms and conditions of this Agreement.

AGREEMENTS

For and in consideration of the covenants and agreements herein contained and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereto agree as follows:

1. **Grant of Easements.** Grantor, for itself and its heirs, personal representatives, successors and assigns, hereby grants, bargains, sells, transfers and conveys to Grantee, its successors and/or assigns: (i) a ninety-nine (99) years term exclusive easement (the "***Exclusive Easement***") in and to that portion of the Premises more particularly described on **Exhibit "B"** attached hereto which shall include portions of the Premises upon which Grantee's fixtures, structures, equipment or other personal property are located as of the date of this Agreement, in addition to **nine hundred point eight (900.8) square feet** contiguous to such land (the "***Expansion Area***") consisting of Grantor's assignment to Grantee and Grantee assumption from Grantor of all rights and obligations of Grantor as landlord under the third party lease (the "***Third Party Lease***") listed on **Exhibit "E"**, attached hereto and by this reference incorporated herein, and by this reference made a part hereof (the "***Exclusive Easement Area***"); and (ii) a non-exclusive easement (the "***Access and Utility Easement***"; the Exclusive Easement and Access and Utility Easement, collectively, the "***Easements***") in and to that portion of the Premises more particularly described on **Exhibit "C"** attached hereto and by this reference made a part hereof (the

EXHIBIT B & C

"Access and Utility Easement Area"; the Access and Utility Easement Area and Exclusive Easement Area, collectively, the **"Easement Areas"**). The Easement Areas shall be used for the purposes set forth herein and shall expressly include that portion of the Premises upon which any of Grantee's fixtures, structures, equipment or other personal property are located as of the date of this Agreement.

2. **Private Easement.** Nothing in this Agreement shall be deemed to be a dedication of any portion of the Easement Areas for public use. All rights, easements and interests herein created are private and do not constitute a grant for public use or benefit.

3. **Successors Bound.** This Agreement shall be binding on and inure to the benefit of the parties hereto and their respective heirs, personal representatives, lessees, successors and assigns. It is the intention of the parties hereto that all of the various rights, obligations, restrictions and easements created in this Agreement shall run with the affected lands and shall inure to the benefit of and be binding upon all future owners and lessees of the affected lands and all persons claiming any interest under them.

4. **Duration.** The duration of this Agreement and the Easements granted herein (the **"Term"**) shall be ninety-nine (99) years from the Effective Date, unless Grantee provides written, recordable notice of Grantee's intent to terminate this Agreement and the Easements described herein, in which event this Agreement, the Easements, and all obligations of Grantee hereunder shall terminate upon Grantee's recordation of any such notice. For the avoidance of doubt, Grantee may, in its sole and absolute discretion, unilaterally terminate this Agreement, the Easements, and all of Grantee's obligations hereunder without the approval of or consent of Grantor as provided in the immediately preceding sentence.

5. **Easement Consideration.** Grantor hereby acknowledges the receipt, contemporaneously with the execution hereof, of all consideration due hereunder. Accordingly, no additional consideration shall be due during the Term.

6. **Use of Easement Areas.**

a. **Exclusive Easement.** The Exclusive Easement Area may be used by Grantee and any of its affiliates, customers, tenants, subtenants, lessees, licensees, successors, and/or assigns together with any of the employees, contractors, consultants, and/or agents of the foregoing (collectively, the **"Permitted Parties"**) for the purposes of installing, constructing, maintaining, operating, modifying, repairing and/or replacing improvements, equipment, structures, fixtures, antennae and other personal property as Grantee may deem necessary or appropriate, which may be located on or in the Exclusive Easement Area from time to time, for the facilitation of communications and other related uses. Any such property, including any equipment, structures, fixtures and other personal property currently on or in the Exclusive Easement Area, shall not be deemed to be part of the Premises, but instead shall remain the property of Grantee or the applicable Permitted Parties. At any time during the Term and at any time within 180 days after the termination of this Agreement, Grantee and/or any applicable Permitted Parties may remove their equipment, structures, fixtures and other personal property from the Easement Areas. Grantee may make, without the consent or approval of Grantor, any improvements, alterations or modifications to the Exclusive Easement Area as are deemed appropriate by Grantee, in its sole and absolute discretion. Grantee shall have the unrestricted and exclusive right, exercisable without the consent or approval of Grantor, to lease, sublease, license, or sublicense any portion of the Exclusive Easement Area, but no such lease, sublease or license shall relieve or release Grantee from its obligations under this Agreement. Grantor shall not have the right to use the Exclusive Easement Area for any reason and shall not disturb Grantee's nor any Permitted Parties' right to use the Exclusive Easement Area in any manner. Grantee may, at Grantee's sole and exclusive option, construct a fence around all or any part of the Exclusive Easement Area and shall have the right to prohibit anyone, including Grantor, from entry into such Exclusive Easement Area.

b. **Access and Utility Easement.** The Access and Utility Easement shall be used by Grantee and the Permitted Parties for pedestrian and vehicular (including trucks) ingress and egress to and from the Exclusive Easement Area at all times during the Term on a seven (7) days per week, twenty-four (24) hours per day basis. Grantee shall have the non-exclusive right to construct, reconstruct, add, install, improve, enlarge, operate, maintain and remove overhead and underground utilities, including, without limitation, electric, fiber, water, gas, sewer, telephone, and data transmission lines (including wires, poles, guys, cables, conduits and appurtenant equipment) in, on, or under the Access and Utility Easement Area in order to connect the same to utility lines located in a publicly dedicated right of way. Notwithstanding the foregoing, Grantor shall not in any manner prevent, disturb, and/or limit access to the Access and Utility Easement Area or use of the Access and Utility Easement by Grantee or any

of the Permitted Parties, and Grantor shall not utilize the Access and Utility Easement Area in any manner that interferes with Grantee's or any of the Permitted Parties' use of such area as expressly provided herein. Grantor agrees to maintain the existing access road in a manner sufficient to allow pedestrian and vehicular access to the Exclusive Easement Area at all times except that Grantee shall be responsible for repairing any damage caused by the use of the road by Grantee and/or the Permitted Parties, reasonable wear and tear excepted. In the event the Access and Utility Easement Area cannot, does not, or will not fully accommodate the access and utility needs of the Grantee during the Term, or if it is reasonably determined by Grantor or Grantee that any utilities that currently serve the Exclusive Easement Area are not encompassed within the description of the Access and Utility Easement Area as set forth herein, Grantor and Grantee agree to amend the description of the Access and Utility Easement Area provided herein to include the description of such areas and/or to relocate the Access and Utility Easement, for no additional consideration, and to create a revised legal description for the Access and Utility Easement Area that will reflect such relocation. The Access and Utility Easement and the rights granted herein with respect to the same shall be assignable by Grantee to any public or private utility company to further effect this provision without the consent or approval of Grantor.

7. Non-Compete. During the Term, Grantor shall not sell, transfer, grant, convey, lease, and/or license by deed, easement, lease, license or other legal instrument, an interest in and to, or the right to use or occupy any portion of the Premises or Grantor's contiguous, adjacent, adjoining or surrounding property to any person or entity directly or indirectly engaged in the business of owning, acquiring, operating, managing, investing in or leasing wireless telecommunications infrastructure (any such person or entity, a "Third Party Competitor"), without the prior written consent of Grantee, which may be withheld, conditioned, and/or delayed in Grantee's sole, reasonable discretion.
8. Assignment. Grantee may assign this Agreement, in whole or in part, to any person or entity at any time without the prior written consent or approval of, or notice to, Grantor, including, but not limited to, an affiliate of Grantee. If any such assignee agrees to assume all of the obligations of Grantee under this Agreement, then Grantee will be relieved of all of its obligations, duties and liabilities hereunder.
9. Covenants; Representations; Warranties.
 - a. Grantor hereby represents and warrants to Grantee the following: (i) Grantor is the owner in fee simple of the Easement Areas, free and clear of all liens and encumbrances; (ii) Grantor has the full authority and power to enter into and perform its obligations under this Agreement, and, to the extent applicable, the person or persons executing this Agreement on behalf of Grantor have the authority to enter into and deliver this Agreement on behalf of Grantor; (iii) to the best of Grantor's knowledge, there is no condemnation proceeding pending or threatened against all or any portion of the Premises; (iv) no claim, litigation, proceeding, or investigation is pending or, to the best of Grantor's knowledge, threatened against Grantor or all or any portion of the Premises that could affect Grantee's use of the Easement Areas as contemplated herein; (v) Grantor has not filed any voluntary petition in bankruptcy or suffered the filing of an involuntary petition by its creditors or suffered the appointment of a receiver to take possession of substantially all of its assets; (vi) to the best of Grantor's knowledge, the Premises is in compliance with all applicable laws, ordinances and regulations, including those governing Hazardous Materials (as defined below); (vii) to the best of Grantor's knowledge, there is no proceeding pending or threatened to change the zoning status of the Premises; (viii) Grantor is not indebted to any party, including, without limitation, any local or state or the federal government for which a lien or claim of lien has been or could be asserted against all or any portion of the Premises; (ix) there are no leases, written or oral, affecting all or any portion of the Easement Areas, except for any agreements entered into between Grantee or its affiliates and third parties and/or the Current Agreement(s) and Third Party Lease (as defined below); (x) the Easement Areas do not constitute or form a part of Grantor's homestead, or, in the event that the Easement Areas are located upon homestead property, then Grantor's spouse (if applicable) shall join in the execution of this Agreement; (xi) Grantor has paid all taxes, assessments, charges, fees, levies, impositions and other amounts relating to the Premises due and payable prior to the Effective Date; and (xii) Grantee shall peaceably and quietly hold, exercise, and enjoy the Easements during the Term without any hindrance, molestation or ejection by any party whomsoever.
 - b. During the Term, Grantor shall pay when due all real property, personal property, and other taxes, fees and assessments attributable to the Premises, including the Easement Areas. Grantee hereby agrees to reimburse Grantor for any personal property taxes in addition to any increase in real property taxes levied against the

Premises that are directly attributable to Grantee's improvements on the Easements (but not, however, taxes or other assessments attributable to periods prior to the Effective Date), provided, however, that Grantor must furnish written documentation (the substance and form of which shall be reasonably satisfactory to Grantee) of such personal property taxes or real property tax increase to Grantee along with proof of payment of the same by Grantor. Anything to the contrary notwithstanding, Grantor shall not be entitled to reimbursement from Grantee for any costs associated with an increase in the value of Grantor's real property calculated based on any monetary consideration paid from Grantee to Grantor. Additionally, Grantor is only eligible for reimbursement by Grantee for any applicable taxes if Grantor requests such reimbursement within one (1) year after the date such taxes became due. Grantor shall submit requests for reimbursement in writing to: *American Tower Corporation, Attn: Landlord Relations, 10 Presidential Way, Woburn, MA 01801* unless otherwise directed by Grantee from time to time. Subject to the requirements set forth in this Section, Grantee shall make such reimbursement payment within forty-five (45) days of receipt of a written reimbursement request from Grantor. Grantee shall pay applicable personal property taxes directly to the local taxing authority to the extent such taxes are billed and sent directly by the taxing authority to Grantee. If Grantor fails to pay when due any taxes affecting the Premises as required herein, Grantee shall have the right, but not the obligation, to pay such taxes on Grantor's behalf and: (i) deduct the full amount of any such taxes paid by Grantee on Grantor's behalf from any future payments required to be made by Grantee to Grantor hereunder; (ii) demand reimbursement from Grantor, which reimbursement payment Grantor shall make within ten (10) days of such demand by Grantee; and/or (iii) collect from Grantor any such tax payments made by Grantee on Grantor's behalf by any lawful means.

- c. Without Grantee's prior written consent, which consent may be withheld or conditioned in Grantee's sole and absolute discretion, Grantor shall not (i) cause any portion of the Easement Areas to be legally or otherwise subdivided from any master tract of which it is currently a part, or (ii) cause any portion of the Easement Areas to be separately assessed for tax purposes.
 - d. Grantor shall not suffer, grant, create, transfer, or convey (or cause to be suffered, granted, created, transferred, or conveyed) any claim, lien, encumbrance, easement, interest, restriction or other charge or exception to title to the Easement Areas or any other portion of the Premises that would adversely affect Grantee's use of the Easement Areas as contemplated herein.
 - e. Grantor shall not, and shall not permit any third party to use, generate, store, or dispose of any Hazardous Materials on, under, about, or within the Premises in violation of any Environmental Laws (as defined below). As used herein, "**Hazardous Materials**" shall mean any: contaminants, oils, asbestos, PCBs, hazardous substances, or wastes as defined by federal, state, or local environmental laws, regulations, or administrative orders or other materials the removal of which are required or the maintenance of which are prohibited or regulated by any federal, state, or local governmental authorities having jurisdiction over all or any portion of the Premises. As used herein, "**Environmental Laws**" shall mean any laws, regulations, ordinances, and/or administrative orders applicable to all or any portion of the Premises, which govern Hazardous Materials.
 - f. Grantee shall not, and shall not permit any third party to use, generate, store, or dispose of any Hazardous Materials on, under, about, or within the Easement Areas in violation of any Environmental Laws.
 - g. Grantor hereby agrees to and does indemnify and shall defend and hold harmless Grantee and its officers, directors, shareholders, agents, contractors, and attorneys for, from, and against all damages asserted against or incurred by any of them by reason of or resulting from a breach by Grantor of any representation, warranty or covenant of Grantor contained herein.
 - h. The representations, warranties, covenants, agreements, and indemnities contained in this section shall survive the execution and delivery of this Agreement indefinitely.
10. Non-Disturbance. During the Term, Grantor will not improve or alter the Premises or grant, convey, transfer, or otherwise enter into any other easement, ground lease, lease, license, or similar agreement or contract with respect to any portion of the Premises if the same would interfere with, disturb, limit, or impair Grantee's permitted use of the Easement Areas. Grantor hereby acknowledges that Grantee and the Permitted Parties are currently utilizing the Exclusive Easement Area for the purpose of transmitting and receiving communication signals, including, but not limited to, wireless telecommunications signals. Grantor and Grantee recognize and acknowledge that Grantee's use of the

Easement Areas set forth in this Agreement would be materially frustrated if the communications signals were blocked or otherwise interfered with, or if access and/or utilities to and from the Exclusive Easement Area were inhibited, even if temporarily. Grantor, for itself, its successors and assigns, hereby agrees to use its best efforts to prevent the occurrence of any of the foregoing and shall promptly undertake any remedial action necessary to comply with the terms and provisions of this Section. Grantee shall have the express right, among others, to seek an injunction to prevent any of the activities prohibited by this Section.

11. Grantee's Securitization Rights; Estoppel. Grantor hereby consents to the granting by Grantee of one or more leasehold mortgages, collateral assignments, liens, and/or other security interests (collectively, a "**Security Interest**") in Grantee's interest in this Agreement and all of Grantee's property and fixtures attached to and lying within the Exclusive Easement Area and further consents to the exercise by Grantee's mortgagee ("**Grantee's Mortgagee**") of its rights to exercise its remedies, including without limitation foreclosure, with respect to any such Security Interest. Grantor shall recognize the holder of any such Security Interest of which Grantor is given prior written notice (any such holder, a "**Holder**") as "Grantee" hereunder in the event a Holder succeeds to the interest of Grantee hereunder by the exercise of such remedies. Grantor further agrees to execute a written estoppel certificate within thirty (30) days of written request of the same by Grantee or Holder.

12. Notices. All notices must be in writing and shall be valid upon receipt when delivered by hand, by nationally recognized courier service, or by First Class United States Mail, certified, return receipt requested to the addresses set forth below:

Grantor or Grantee, by thirty (30) days prior written notice to the other in the manner provided herein, may designate one or more different notice addresses from those set forth above. Refusal to accept delivery of any notice or the inability to deliver any notice because of a changed address for which no notice was given as required herein, shall be deemed to be receipt of any such notice.

13. Force Majeure. The time for performance by Grantor or Grantee of any term, provision, or covenant of this Agreement shall automatically be deemed extended by time lost due to delays resulting from strikes, civil riots, floods, labor or supply shortages, material or labor restrictions by governmental authority, litigation, injunctions, and any other cause not within the control of Grantor or Grantee, as the case may be.

14. Miscellaneous. This Agreement shall be recorded at the sole expense of Grantee and shall be governed by and construed in all respects in accordance with the laws of the State or Commonwealth in which the Premises is situated, without regard to the conflicts of laws provisions of such State or Commonwealth. The captions and headings herein are for convenience and shall not be held or deemed to define, limit, describe, explain, modify, amplify or add to the interpretation, construction or meaning of any provisions, scope or intent of this Agreement. This Agreement and any other documents executed in connection herewith, constitute the entire understanding between the parties with regard to the subject matter hereof and there are no representations, inducements, conditions, or other provisions other than those expressly set forth herein. Grantee has not provided any legal or tax advice to Grantor in connection with the execution of this Agreement. This Agreement may not be modified, amended, altered or changed in any respect except by written agreement that is signed by each of the parties hereto.

15. Cumulative Remedies. Except as otherwise expressly provided herein, each and every one of the rights, benefits and remedies provided to Grantor or Grantee in this Agreement, or in any instrument or documents executed pursuant to

this Agreement, are cumulative and shall not be exclusive of any other of said rights, remedies and benefits allowed by law or equity to Grantor or Grantee.

16. Counterparts. This Agreement may be executed in several counterparts, each of which when so executed and delivered, shall be deemed an original and all of which, when taken together, shall constitute one and the same Instrument, even though Grantor and Grantee are not signatories to the original or the same counterpart.

17. Severability. Should any part or provision of this Agreement be rendered or declared invalid by a court of competent jurisdiction, such invalidation of such part or provision shall not invalidate the remaining portions of the Agreement, and they shall remain in full force and effect and this Agreement shall be construed as if such part or provision had been so limited or as if such provision had not been included herein, as the case may be. Additionally, if any laws, rules or regulations promulgated by any state, county or local jurisdiction, including without limitation those concerning zoning, subdivision or land use, or should any court of competent jurisdiction, make the sale of the Easements herein either void or voidable, Grantor agrees that upon the written request of Grantee, the parties shall execute a reasonably acceptable ground lease between Grantor, as landlord, and Grantee, as tenant (with the Exclusive Easement area being the leased premises therein, and the Access and Utility Easement area remaining a non-exclusive easement for access and utility purposes) for uses consistent with those set forth herein. The parties agree that no additional consideration shall be paid to Grantor for entering into such a lease and said lease must (a) expressly provide that Grantee shall not be required to obtain the consent of Grantor to enter into any sublease or license of any portion of the leased premises or to permit sublessees or licensees to utilize the non-exclusive easement for access and utilities, (b) be for a term of ninety-nine (99) years, or as long as permitted by applicable law.

18. Attorney's Fees. If there is any legal action or proceeding between Grantor and Grantee arising from or based on this Agreement, the non-prevailing party to such action or proceeding shall pay to the prevailing party all costs and expenses, including reasonable attorney's fees and disbursements, actually incurred by such prevailing party in connection with such proceeding and in any appeal in related thereto. If such prevailing party recovers a judgment in any such action, proceeding or appeal, such costs, expenses and attorney's fees and disbursements shall be included in and as a part of such judgment.

19. Government Approvals/Applications. Grantor hereby covenants and agrees that (a) neither Grantor nor any affiliate of Grantor shall at any time oppose in any manner (whether at a formal hearing, in written documentation, or otherwise) any zoning, land use or building permit application of Grantee and (b) Grantor shall promptly cooperate with Grantee in making application for and/or otherwise obtaining all licenses, permits, and any other necessary approvals that may be required for Grantee's intended use of the Easement Areas.

20. Assignment of Ground Leases. Grantor hereby assigns to Grantee all of Grantor's beneficial rights, title and interest in, to and under all of the existing leases, licenses and other agreements for use or occupancy of the Easements, including, but not limited to, those agreements listed on Exhibit "D" attached hereto (the "**Current Agreement**" or "**Current Agreements**"), and those agreements listed on Exhibit "E" attached hereto (the "**Third Party Lease**"), including without limitation, the right to receive any and all rents and other monies payable to Grantor thereunder and including during any and all extensions thereof ("**Contract Revenues**"). Grantor hereby represents and warrants that as of the Effective Date there are no leases, license or other agreements pertaining to the Premises other than the Current Agreement(s) and Third Party Lease. Notwithstanding the foregoing assignment to Grantee, Grantor agrees that Grantor remains the fee owner of the Premises and Grantor remains obligated to comply with all obligations of the lessor or Grantor under the Current Agreement(s) and Third Party Lease, as the same may be extended or renewed, which relate to the ownership, maintenance, operation and use of the Premises. Such obligations are hereby expressly excluded from the foregoing assignment. Grantor hereby acknowledges that as of the Effective Date none of the improvements constructed pursuant to the Current Agreement(s) and Third Party Lease encroach outside the Premises. Grantor hereby certifies to Grantee that to the best of Grantor's knowledge the Current Agreement(s) and Third Party Lease are in full force and effect, that Grantor is not in default or breach of any of its obligations under the Current Agreement(s) and Third Party Lease, that Grantor has received no notices alleging a default under the Current Agreement(s) and Third Party Lease, and that as of the date hereof the lessee under the Current Agreement(s) and Third Party Lease has no claim against Grantor. Grantor agrees to indemnify and hold Grantee harmless from and against all loss, cost, damage, and expense, including, without limitation, reasonable attorney fees, arising out of any act, omission, or default by Grantor under the Current Agreement(s) and Third Party Lease that occurred prior to the Effective Date.

21. Further Acts; Attorney-In-Fact. Grantor, at Grantee's sole cost and expense, shall cooperate with Grantee in executing any documents necessary to protect Grantee's rights under this Agreement or Grantee's use of the Easements and to take such action as Grantee may be reasonably required to effect the intent of this Agreement. Grantor hereby irrevocably appoints Grantee as Grantor attorney-in-fact coupled with an interest to prepare, execute, deliver, and submit land-use, building permit and zoning applications related to Grantee's permitted use of the Easement Areas, on behalf of Grantor, to federal, state and local governmental authorities.

22. Survey. Grantee may elect, at Grantee's expense, to cause a boundary, as-built or similar survey of all or any portion of the Easement Areas (the "Survey") to be prepared by a surveyor duly licensed under the laws of the state in which the Premises is located. Grantor further agrees that Grantee may elect, in Grantee's sole and absolute discretion, to replace Exhibit B and Exhibit C with a revised Exhibit B and Exhibit C depicting and/or describing the Exclusive Easement Area and Access and Utility Easement Area, as applicable, in accordance with the Survey prepared at Grantee's election.

23. Waiver. NOTWITHSTANDING ANYTHING TO THE CONTRARY CONTAINED HEREIN, IN NO EVENT SHALL GRANTOR OR GRANTEE BE LIABLE TO THE OTHER FOR, AND GRANTOR AND GRANTEE HEREBY WAIVE, TO THE FULLEST EXTENT PERMITTED UNDER APPLICABLE LAW, THE RIGHT TO RECOVER INCIDENTAL, CONSEQUENTIAL (INCLUDING, WITHOUT LIMITATION, LOST PROFITS, LOSS OF USE OR LOSS OR BUSINESS OPPORTUNITY), PUNITIVE, EXEMPLARY, AND SIMILAR DAMAGES.

24. Condemnation. In the event Grantor receives notification of any condemnation proceeding affecting the Easement Areas, or any portion thereof, Grantor shall provide notice of the proceeding to Grantee within forty-eight (48) hours. If a condemning authority takes all of the Easement Areas, or any portion thereof, Grantee shall be entitled to pursue Grantee's own award in the condemnation proceeds, which for Grantee will include, where applicable, the value of its communications facility, moving expenses, consideration paid to Grantor for the Easements, and business dislocation expenses.

ORDINANCE No. 751

AN ORDINANCE AUTHORIZING THE LEASE OF REAL PROPERTY, PURSUANT TO SECTION 3-54-1 NMSA 1978.

A. WHEREAS, the City of Truth or Consequences, New Mexico (the "City") is a legally created, established, organized and existing incorporated municipality under the constitution and laws of the State of New Mexico; and

B. WHEREAS, the City owns certain real property located within its boundaries specifically described as follows:

.230 acre in S½, SE¼ of Section 28, Township 13 South, Range 4 West, NMPM, commonly referred to as the Water Tank Site on Pershing Street in Truth or Consequences, Sierra County, New Mexico, more particularly, described in **EXHIBIT 1** which is the survey from Chaparral Surveying, LLC, dated January 13, 2022.

C. WHEREAS, the City has negotiated a Lease Agreement with Tower Point ("Tenant"), whereby the City shall lease its interest in and to the above-described property to the Tenant; and

D. WHEREAS, under Section 3-54-1 NMSA 1978, the City is required to obtain an appraisal from a qualified appraiser of any property to be leased, and said appraisal was prepared by Lee Morris of Morris Appraisal Services, Inc. dated August 25, 2022; and

E. According to the aforesaid appraisal, the appraiser opined as follows: "Therefore, by reason of my research of the current market, and by virtue of my experience, I have formed the opinion that the market rent for the ground lease as stated as of the effective date of this report was: **FIFTEEN THOUSAND DOLLARS (\$15,000.00)** per year.

F. The contemplated rental is a one-time up front payment of \$300,000.00 to be paid at the inception of the Lease. The Lease shall be for a 99 year term commencing upon the effective date of this Ordinance.

G. The Lessee of the proposed agreement shall be Tower Point. A copy of the Lease and related documents are attached hereto as **EXHIBIT A**.

H. The City Commission has determined that it is in the best interests of the City to consummate the proposed transaction. Several of the reasons in support of proceeding with the proposed transaction include the following:

1. As noted above, the proposed payment of \$300,000.00 would be "up-front" at the inception of the Lease.

2. Proceeding with the proposed transaction represents the best use of the property. It would be otherwise difficult and costly to develop the property.

3. In the absence of entering into the proposed long term Lease Agreement, it is very speculative if the property could be used as a cell tower site in the distant future.

4. Operating and maintaining the property in its current use has been a labor-intensive endeavor the City. Entering into this proposed transaction would relieve the City of a significant, time-consuming burden.

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COMMISSION OF THE CITY OF TRUTH OR CONSEQUENCES, NEW MEXICO:

Section 1. Authority. The City is authorized to lease interests in real property pursuant to the provisions of Section 3-54-1, N.M.S.A. (1978).

Section 2. Material Terms Lease Agreement.

A. The City shall lease the above-described property to the tenant in accordance with the terms described in **EXHIBIT A attached.**

B. The Tenant acknowledged that it is leasing the property in an "as is" condition, and the City has made no warranties or representations regarding the Real Property, the status of its title, or its feasibility for development.

Section 3. Effective Date. This Ordinance shall be effective forty-five (45) days after its adoption.

Section 4. Severability. If any section, paragraph, clause or provision shall be held to be valid or unenforceable, the invalidity or unenforceability of such section, paragraph, clause or provision shall not affect any of the remaining provisions of this Ordinance.

Independent Auditors' Report

To Brian S. Colón, Esq.
New Mexico State Auditor

City Commission
City of Truth or Consequences

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, the aggregate remaining fund information and the budgetary comparison for the General Fund of the City of Truth or Consequences ("City"), as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

In our opinion, based on our audit and the report of the other auditors, the accompanying financial statements present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of the City as of June 30, 2022, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparison for the general fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

We did not audit the financial statements of the Housing Authority, which represents 7.76%, 4.92% and 3.72%, respectively, of the Assets, Net Position, and Revenue of the City. Those financial statements were audited by other auditors whose report thereon has been furnished to us, and our opinion, in so far as it relates to the amounts included for the Housing Authority, is based solely on the report of the other auditors.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

The City's management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Required Supplementary Information

Management has omitted management’s discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinions on the basic financial statements are not affected by this missing information.

Accounting principles generally accepted in the United States of America require that the schedule of the City’s proportionate share of the net pension liability, the schedule of the City’s contributions, the schedule of the City’s proportionate share of the OPEB liability, and the schedule of the City’s contributions on pages 70-74 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management’s responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City’s basic financial statements. The combining and individual nonmajor fund financial statements, the Schedule of Expenditures of Federal awards as required by *Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, the financial data schedules, as required by the U.S. Department of Housing and Urban Development, and the other schedules required by 2.2.2 NMAC as noted in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements, the Schedule of Expenditures of Federal awards as required by *Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and the other schedules required by 2.2.2 NMAC as noted in the table of contents is the responsibility of management

and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements, the Schedule of Expenditures of Federal awards as required by *Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, the financial data schedules, as required by the U.S. Department of Housing and Urban Development, and the other schedules required by 2.2.2 NMAC as noted in the table of is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 13, 2022, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,
AND CHANGES IN FUND BALANCES - GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
Year Ended June 30, 2022**

**Net Change in Fund Balances - Total Governmental Funds
(Statement of Revenue, Expenditures, and Changes
in Fund Balances)**

\$ 2,992,400

Amounts reported for governmental activities in the statement of activities are different because:

Change in net position of internal service funds 12,852

Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense.

Capital expenditures	1,446,679	
Transfers and loss on disposition	(16,750)	
Depreciation expense	<u>(691,691)</u>	
		738,238

Revenues in the governmental funds that provide current financial resources are not included in the Statement of Activities because they were recognized in a prior period.

Change in unavailable revenue related to property taxes receivable 16,143

Governmental funds report City pension and other pension benefit (OPEB) contributions as expenditures. However, in the Statement of Net Activities, the cost of pension benefits and other postemployment benefits earned net of employee contributions is reported as pension and OPEB expense:

Pension expense	(113,495)
OPEB expense	215,498

The issuance of long-term debt (e.g. bonds, loans, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position.

The following table represents the changes in long-term debt for the fiscal year:

Change in bonds, notes, and loans payable	425,454
Change in compensated absences	111,158
Change in accrued interest on long-term debt	<u>678</u>

Change in net position in governmental activities	\$ <u>4,398,926</u>

**STATE OF NEW MEXICO
CITY OF TRUTH OR CONSEQUENCES
NOTES TO FINANCIAL STATEMENTS
June 30, 2022**

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Financial Reporting Entity

The City of Truth or Consequences, (City), New Mexico, which was incorporated in 1917, operates under a Commission / Manager form of government. Five commissioners are elected at large and one of the commissioners serves as Mayor. This reporting entity consists of the primary government, organizations for which the primary government is financially accountable and other organizations for which the nature and significance of their relationship with the primary government are such that exclusion could cause the City's financial statements to be misleading or incomplete.

In evaluating how to define the government, for financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the reporting entity was made by applying the criteria set forth in generally accepted accounting principles (GAAP). Blended component unit, although legally separate entities, are in substance part of the government's operations. Each discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that is legally separate from the government.

The basic (but not the only) criteria for including a potential component unit within the reporting entity is the governing body's ability to exercise oversight responsibility. The most significant manifestation of this ability is financial interdependency. Other manifestations of the ability to exercise oversight responsibility include, but are not limited to, the selection of governing authority, the designation of management, the ability to significantly influence operations, and accountability for fiscal matters. A second criterion used in evaluating potential component units is the scope of public service. Application of this criterion involves considering whether the activity benefits the government and/or its citizens, or whether the activity is conducted within the geographic boundaries of the government and is generally available to its citizens. A third criterion used to evaluate potential component units for inclusion or exclusion from the reporting entity is the existence of special financing relationships, regardless of whether the government is able to exercise oversight responsibilities. Based upon the application of these criteria, the City has one component unit required to be reported under GASB Statements No. 14, No. 39, and No 61.

The Truth or Consequences Housing Authority (The Authority) has been determined to be a component unit of the City that should be discretely presented in the City's financial statements pursuant to the criteria described above. The authority was audited by another auditor and has separately issued financial statements and all exhibits, schedules and footnotes are included in those financial statements. Excerpts of the component unit's activities that we deemed material are included in the City's financial report. The Authority's separately issued financial statements may be obtained directly from their administrative office as follows: Executive Director, Truth or Consequences Housing Authority, 108 South Cedar, Truth or Consequences, New Mexico 87901.

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the activities of the primary government and its component units. The effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Government-wide and fund financial statements

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment, are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Indirect costs are not allocated to functions in the statement of activities. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

C. Measurement focus, basis of accounting and financial statement presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements and the fiduciary fund – agency financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Derived tax revenues (gross receipts taxes, cigarette taxes and gas taxes) are recognized when the underlying transaction takes place. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the City.

The City reports the following major governmental funds:

The **General** fund is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The **Capital Improvement Reserve Funds**— This is a reserve fund that is used to fund capital outlay, maintenance, and repairs. In 2020-2022 it was used for technology equipment, roof renovations, vehicles, renovation of Ralph Edwards Park, and pool repairs. The city received loan proceeds to refund these expenditures in 2022-2022. The loan came from new money on PPRF-4698 a refund of loan PPRF-2246 NMFA. This is a Capital Projects Fund.

The **NMFA Projects Funds** -Projects funded by the New Mexico Finance Authority Loan proceeds and grants. For 2020-2022 these projects included a City-Wide Water Preliminary Engineering Report, a River Walk Feasibility Study, and a Sanitary Sewer Asset Management Plan. This is a Capital Projects Fund.

The **Debt Service Fund** was created to account for the accumulation of resources for, and the repayment of general long-term principal, interest, and related costs of the general obligation bonds. Revenues for this fund are taxes generated by sources designated in bond obligations. The fund is required by bond-obligation requirements. This is a Debt Service Fund.

The government reports the following major proprietary funds:

The **Joint Utility Office** fund accounts for the provision of water, electric, sewer and wastewater services to the residents of the city. All activities necessary to provide such services are accounted for in this fund, including, but not limited to, administration, operations, maintenance, financing and related debt service, billing and collection.

The **Electric** fund accounts for the provision of electric services to the residents of the city. All activities necessary to provide such services are accounted for in this fund, including, but not limited to, administration, operations, maintenance, financing and related debt service, billing, and collection.

The **Water** fund accounts for the provision of water services to the residents of the city. All activities necessary to provide such services are accounted for in this fund, including, but not limited to, administration, operations, maintenance, financing and related debt service, billing and collection.

The **Wastewater Treatment Plant** fund accounts for the provision of sewer and waste water services to the residents of the city. All activities necessary to provide such services are accounted for in this fund, including, but not limited to, administration, operations, maintenance, financing and related debt service, billing and collection.

The **Airport Fund** used to account for the operations and maintenance of the airport. Financing is provided by fuel sales and fees for services. The fund is authorized by City Commissioner.

The **Solid Waste** fund accounts for the activities of the City's solid waste services.

Additionally, the City maintains one individual internal service fund. A description of the fund is as follows:

The **Internal Service** fund accounts for the costs of maintaining the City's vehicle and equipment fleet. The fund bills various City departments to cover the cost of maintaining the City's fleet.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the City's utility and various other functions of the City. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided 2) operating grants and contributions and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

D. Assets, Liabilities and Net Position

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the City's enterprise funds and internal service funds are charges to customers for sales and services. The utilities also recognize as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is City policy to use restricted resources first, then unrestricted resources as they are needed.

Deposits and Investments. The City's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Assets, Liabilities and Net Position (Continued)

State statutes authorize the City to invest in obligations of the U.S. Treasury, repurchase agreements, Certificates of Deposits, and the State Treasurer's Investment Pool. Investments for the City are reported at fair value. The State Treasurer's Investment Pool operates in accordance with appropriate state laws and regulations and is not SEC registered. The reported value of the pool is the same as the fair value of the pool shares. Generally, investment income earned as a result of pooling is distributed to the appropriate funds utilizing a formula based on the average daily balance of cash and investments of each fund. All investment in such pool is voluntary.

Receivables and Payables. Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds". Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources in the event they are not received within 60 days at year end.

The joint utility enterprise fund is responsible for billing and collecting electric, water, and wastewater charges using a cycle billing system. No billing cycles are billed in advance of services. Metered accounts are billed in arrears and have been accrued. The only unearned revenue is customer payments for prepaid electric distribution construction. Customers are required to pay 100% of the estimate prepared by the electric director. When the job is complete the actual costs of the job are prepared and the customer is either refunded the overpayment or billed for the shortage. These payments for construction are then reported as increases in net assets at the end of the fiscal year. All trade receivables are shown net of an allowance for uncollectible accounts. The City is required to provide service and grant credit to a diverse customer base within its service territory. The City may require security deposits prior to providing service to customers depending upon an assessment of credit worthiness.

All receivables are reported at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible. In the government-wide and governmental fund financial statements, delinquent property taxes are recorded when levied. Property taxes are considered to be 100 % collectible.

Property taxes are levied on November 1 based on the assessed value of property as listed on the previous January 1 and are due in two payments by November 10th and April 10th. Property taxes uncollected after November 10th and April 10th are considered delinquent and the City may assess penalties and interest. The taxes attach as an enforceable lien on property thirty (30) days thereafter, at which time they become delinquent. Property taxes are collected by Sierra County and remitted monthly to the City.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Assets, Liabilities and Net Position (Continued)

The City estimates the allowance for uncollectible accounts based on the day's delinquent. The City has estimated all accounts that are greater than 120 days to be uncollectible.

Restricted Assets: Restricted assets consist of those funds expendable for operating purposes but restricted by donors or other outside agencies as to the specific purpose for which they may be used and restricted for future debt service payments, capital projects, customer deposits and other restrictions.

Inventories and Prepaid Items. Inventories are by the City and the Joint Utility, Airport, and Solid Waste Funds and are valued at cost using the first-in/first-out (FIFO) method. Certain payments to vendors reflect costs applicable to future accounting periods wide and are recorded as prepaid items in both government-wide and fund financial statements.

Capital Assets. Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items) are, reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the City as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. Such assets, including infrastructure, have higher limits that must be met before they are capitalized. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. Computer software costs, whether externally purchased or developed in-house, shall be capitalized if the total cost of the software equals or exceeds \$5,000 and has a life of at least two years. Library books and periodicals are estimated to have a useful life of less than one year or are under the capitalization threshold and are expensed when purchased.

Property, plant, and equipment of the primary government have the following threshold levels to be capitalized and are depreciated using the straight-line method over the following estimated useful lives:

	<u>Estimated Useful Life</u>
Buildings and improvements	10-50 years
Equipment	5-25 years
Infrastructure including golf course and airport	10-50 years
Vehicles	5-10 years
Utility plant	20-40 years

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Assets, Liabilities and Net Position (Continued)

Compensated Absences. Each employee of the City may accumulate a total of thirteen to twenty-six days of vacation per year. Employees may accumulate up to thirty days of vacation and carry leave forward from calendar year to calendar year. Upon termination, employees will be paid up to thirty days of accrued vacation pay leave. All vacation pay is accrued when incurred in the government-wide and proprietary fund financial statements. A liability is reported in the governmental funds only if they have matured.

Vested or accumulated vacation leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental or proprietary fund that will pay it. In prior years, substantially all of the related expenditures have been liquidated by the general fund. Amounts of vested or accumulated vacation leave that are not expected to be liquidated with expendable available financial resources are reported in the government-wide statement of net position.

Sick Leave – Each employee of the City may accumulate a total of thirteen days of sick leave per year. Sick leave can be carried forward from calendar year to calendar year. Upon separation of employment, an employee with five or more continuous years of service will be compensated for one third of the first 480 accrued sick leave hours for a total of 160 hours. Employees with less than five years of continuous service forfeit all accrued sick leave at separation of employment. Employees cannot donate sick leave at time of separation.

Deferred Outflows/Inflows of Resources. In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. Also, in addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. Deferred inflows are reported in the governmental funds regarding property taxes. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

Long-Term Obligations. In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs related to insurance, are amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs other than related insurance are expended in the year incurred.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Assets, Liabilities and Net Position (Continued)

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs related to insurance, during the current period. The face amount of debt issued is reported as other financing sources. Bond premium and discounts are reported as other financing uses. Issuance costs, even if withheld from actual net proceeds received, are reported as debt service expenditures.

Pension. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Public Employees Retirement Association (PERA) and additions to/deductions from PERA's fiduciary net position have been determined on the same basis as they are reported by PERA's. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Postemployment Benefits Other Than Pensions (OPEB): For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the New Mexico Retiree Health Care Authority (NMRHCA) and additions to and deductions from NMRHCA's fiduciary net position have been determined on the same basis as they are reported by NMRHCA. For this purpose, NMRHCA recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Fund Equity Flow Assumptions. In the fund financial statements, governmental funds report restricted and unassigned fund balances. Restricted fund balances represent amounts that are constrained externally by creditors (such as debt covenants), grantors, contributors, or laws of other governments. Sometimes the City will fund outlays for a particular purpose from both restricted and unrestricted resources. In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the City's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

Fund Balances. In the fund financial statements, fund balances of the governmental funds are classified as follows:

Nonspendable – amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact.

Restricted – amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Assets, Liabilities and Net Position (Continued)

Committed – amounts that can be used only for specific purposes determined by a formal action of the City Commission. City Commission is the highest level of decision-making authority for the City. Commitments may be established, modified, or rescinded only through ordinances or resolutions approved by the City Commission.

Assigned – amounts that are constrained by the City's intent to use them for a specific purpose but are neither restricted nor committed. The City has not established a policy regarding the assignment of funds, so this category of fund balance represents the residual amounts not otherwise reported as unspendable, restricted, or committed in governmental funds outside of the general fund.

Unassigned – all other spendable amounts.

Use of Estimates. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates. Significant estimates in the City's financial statements include the allowance for uncollectible accounts in the joint utility fund, depreciation on capital assets, net pension liability calculations, the current portion of accrued compensated absences, and the estimate for landfill closure and postclosure costs.

NOTE 2. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

A. Budgetary Information

Annual budgets are adopted for all funds. All budgets are consistent with generally accepted accounting principles (GAAP). All annual appropriations lapse at fiscal year-end. Carryover funds must be appropriated in the budget of the subsequent fiscal year. Because the budget process in the State of New Mexico requires that the beginning cash balance be appropriated in the budget of the subsequent fiscal year, such appropriated balance is legally restricted and is therefore presented as a reserved portion of fund balance.

Actual expenditures may not exceed the budget on a fund basis. Budgets may be amended by City Commission resolution with approval by the State Department of Finance and Administration. City department heads may make transfers of appropriations within a fund. The legal level of budgetary control is the fund level. Increases or decreases of appropriations between funds require the approval of the governing Commission.

The city follows the following procedures in establishing the budgetary data reflected in the financial statements:

1. Prior to June, the City Manager submits to the City Commission a proposed operating budget for preliminary approval for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing them. A budget is prepared for each fund.

2. Prior to September 1, the budget is legally enacted through passage of a resolution and the Local Government Division of the State Department of Finance and Administration approves the final budget.
3. After the budget is adopted any supplemental appropriations must be approved by the City Commission

The budgetary basis and GAAP basis are the same for all governmental fund types. Budgets for proprietary enterprise funds are adopted on a non-GAAP basis, using the spending measurement focus as in governmental fund types.

B. Excess of Expenditures over Appropriations

As of June 30, 2022, the City did not over expend the budget in any fund.

NOTE 3. DEPOSITS AND INVESTMENTS

State statutes authorize the investment of the City funds in a wide variety of instruments including certificates of deposit and other similar obligations, state investment pool, money market accounts, and United States Government Obligations. All invested funds of the City properly followed State investment requirements as of June 30, 2022.

Deposits of funds may be in interest or noninterest bearing checking accounts in one or more banks or savings and loan associations within the geographical boundaries of the City. Deposits may be made to the extent that they are insured by an agency of the United States or by collateral deposited as security or by bond given by the financial institution.

The rate of interest in non-demand interest-bearing accounts shall be set by the State Board of Finance, but in no case shall the rate of interest be less than one hundred percent of the asked price on United States Treasury bills of the same maturity on the date of deposit.

Excess of funds may be temporarily invested in securities which are issued by the State of by the United States government, or by their departments or agencies, and which are either direct obligations of the State of the United States or are backed by the full faith and credit of those governments.

The City has investments in the State Treasurer external investment pool (the Local Government Investment Pool). The investments are valued at fair value based on quoted market prices as of June 30, 2022. The State Treasurer Local Government Investment Pool (LGIP) is not SEC registered. Section 6-10-10 I, NMSA 1978, empowers the State Treasurer, with the advice and consent of the State Board of Finance, to invest money held in the short-term investment fund in securities that are issued by the United States government or by its departments or agencies and are either direct obligations of the United States or are backed by the full faith and credit of the United States government or are agencies sponsored by the United States government. The Local Government Investment Pool investments are monitored by the same investment committee and the same policies and procedures that apply to all other state investments. The pool does not have unit shares. Per Section 6-10-10.1F, NMSA 1978, at the end of each month all interest earned is distributed by the State Treasurer to the contributing entities in amounts directly proportionate to the respective amounts deposited in the fund and the length of time the amounts were invested. Participation in the local government investment pool is voluntary. The LGIP has been rated by Standard & Poor's and has received an AAAM rating.

In addition to the investment in LGIP above there are \$1,212,258 of certificates of deposit that are greater than 90 days and therefore are considered investments in the Statement of Net Position.

Interest Rate Risk. The risk that interest rate variations may adversely affect the fair value of an investment. An acceptable method for reporting interest rate risk is weighted average maturity (WAM). The State Treasurer's Office uses this method for reporting purposes for the Local Government Investment Pool. As of June 30, 2022 the LGIP WAM (R) was 49 days and WAM (F) was 89 days. The City does not have a formal policy limiting investment maturities that would help manage its exposure to fair value losses from increasing interest rates.

Interest Rate Risk. The risk that interest rate variations may adversely affect the fair value of an investment. The State Treasurer's Office uses this method for reporting purposes for the Local Government Investment Pool. As of June 30, 2022 the LGIP WAM (R) was 49 days and WAM (F) was 89 days. The City does not have a formal policy limiting investment maturities that would help manage its exposure to fair value losses from increasing interest rates.

Credit Risk. As directed by State Statute 6-10-36, E. and F., excess funds may be invested in securities backed by the full faith and credit of the United States Government, such as treasury notes, bills and bonds; in securities of Agencies that are guaranteed by the United States Government; bonds or negotiable securities of the State of New Mexico or of any county, municipality or school district in the State of New Mexico which has a taxable valuation of real property for the last preceding year of at least one million dollars (\$1,000,000) and has not defaulted in the payment of any interest or sinking fund obligation or failed to meet any bonds at maturity at any time within five years last preceding. The LGIP is exempt from this reporting requirement.

Custodial Credit Risk (Deposits) - City. Custodial credit risk is the risk that in the event of a bank failure, the City's deposits may not be returned to it. State statute requires that the bank deposits be 50% collateralized and repurchase agreements be 102% collateralized. The City's accounts at an insured depository institution, including all noninterest bearing transaction accounts, will be insured by the FDIC up to the standard maximum deposit insurance amount of \$250,000 for demand deposit accounts and \$250,000 for time and savings accounts. At June 30, 2022, \$0 of the City's bank balances of \$12,150,466, was exposed to custodial credit risk. The collateral pledged is listed in the table of contents of this report and as listed below.

		First Saving Bank

Custodial Credit Risk (Deposits) - Component. Custodial credit risk is the risk that in the event of a bank failure, the Housing Authority deposits may not be returned to it. The Housing Authority does not have a deposit policy for custodial credit risk, other than following state statutes as put forth in the Public Money Act (Section 6-10-1 to 6-10-63 NMSA 1978). At June 30, 2022, \$828,256 of the Housing Authority's bank balance of \$1,780,234 was exposed to custodial credit risk. Although the \$828,256 was uninsured, all of that amount was collateralized by collateral held by the pledging bank's trust department, not in the Housing Authority's name. None of the Housing Authority's deposits were

uninsured and uncollateralized at June 30, 2022.

Custodial Credit Risk (Investments). In the case of investments, this is the risk that in the event of the failure of the counterparty, the City will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The LGIP is exempt from this reporting requirement.

Collateral. Only securities backed by the full faith and credit of the United States Government will be accepted as collateral. The City may make an exception and accept as collateral securities from a governmental entity within the State of New Mexico as described by State Statute 6-10-16-A. All securities pledged as collateral shall be held by a third-party financial institution. Any change in the institution holding the collateral must have prior approval of management.

Concentration of Credit Risk – Investments. For an investment, concentration of credit risk is when any one issuer is 5% or more of the investment portfolio of the City. The investments in New Mexico State LGIP represent 100%, of the investment portfolio. The City's policy related to concentration credit risk is to comply with the state statute as put forth in the Public Money Act (Section 6-10-63, NMSA 1978).

GASB Statement No. 72 requires investment to be presented at fair value. This statement provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under GASB Statement No. 72 are described as follows:

Basis of Fair Value Measurement –

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Quoted prices in markets that are not considered to be active or financial instruments without quoted market prices, but for which all significant inputs are observable, either directly or indirectly.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The following table sets forth by level, within the fair value hierarchy, the City's assets had a fair value as of June 30, 2022:

The City currently reports substantially all of its risk management activities, except worker's compensation, in its General Fund. Claims expenditures and liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. Current liabilities are reported when the liability has matured. These losses include an estimate of claims that have been incurred but not reported.

Contingent Liabilities. Amounts received or receivable from grant agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. affiliated public employer is required to be a member in the Public Employees Retirement Fund, unless specifically excluded.

Benefits Provided. Benefits are generally available at age 65 with five or more years of service or after 25 years of service regardless of age for TIER I members. Provisions also exist for retirement between ages 60 and 65, with varying amounts of service required. Certain police and fire members may retire at any age with 20 or more years of service for Tier I members. Generally, the amount of retirement pension is based on final average salary, which is defined under Tier I as the average of salary for the 36 consecutive months of credited service producing the largest average; credited service; and the pension factor of the applicable coverage plan. Monthly benefits vary depending upon the plan under which the member qualifies, ranging from 2% to 3.5% of the member's final average salary per year of service. The maximum benefit that can be paid to a retiree may not exceed a range of 60% to 90% of the final average salary, depending on the division. Benefits for duty and non-duty death and disability and for post-retirement survivors' annuities are also available.

TIER II. The retirement age and service credit requirements for normal retirement for PERA state and municipal general members hired increased effective July 1, 2013 with the passage of Senate Bill 27 in the 2013 Legislative Session. Under the new requirements (Tier II), general members are eligible to retire at any age if the member has at least eight years of service credit and the sum of the member's age and service credit equals at least 85 or at age 67 with 8 or more years of service credit. General members hired on or before June 30, 2013 (Tier I) remain eligible to retire at any age with 25 or more years of service credit. Under Tier II, police and firefighters in Plans 3, 4, and 5 are eligible to retire at any age with 25 or more years of service credit. State police and adult correctional officers, peace officers and municipal juvenile detention officers will remain in 25-year retirement plans, however, service credit will no longer be enhanced by 20%. All public safety members in Tier II may retire at age 60 with 6 or more years of service credit. Generally, under Tier II pension factors were reduced by .5%, employee contributions increased 1.5 percent and effective July 1, 2014 employer contributions were raised .05 percent. The computation of final average salary increased as the average of salary for 60 consecutive months.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions: At June 30, 2022, the City reported a liability of \$5,050,051 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2021, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2020. Therefore, the employer's portion was established as of the measurement date of June 30, 2020. There were no significant events or changes in benefit provision that required an adjustment to the roll-forward liabilities as of June 30, 2021. The City's proportion of the net pension liability was based on a projection of the City's long-term share of contributions to the pension plan relative to the projected contributions of all participating entities, actuarially determined.

For PERA Fund Division Municipal General, at June 30, 2022, the City reported a liability of \$3,763,778 for its proportionate share of the net pension liability. Amortization method	Level Percentage of Pay
Amortization period	Solved for based on statutory rates

NOTE 11. PENSION PLAN – PUBLIC EMPLOYEES RETIREMENT PLAN (CONTINUED)

The total pension liability, net pension liability, and certain sensitivity information are based on an actuarial valuation performed as of June 30, 2020. The total pension liability was rolled-forward from the valuation date to the plan year ended June 30, 2021. These assumptions were adopted by the Board use in the June 30, 2020 actuarial valuation.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Global Equity	35.50%	5.90%
Risk Reduction & Mitigation	19.50%	1.00%
Credit Oriented Fixed Income	15.00%	6.20%
Real Assets	20.00%	6.00%
Multi-Risk Allocation	10.00%	6.40%
Total	100.0%	

Discount rate: A single discount rate of 7.25% was used to measure the total pension liability as of June 30, 2021. This single discount rate was based on a long-term expected rate of return on pension plan investments of 7.25%, compounded annually, net of expense. Based on the stated assumptions and the projection of cash flows, the plan's fiduciary net position and future contributions were projected to be available to finance all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The projections of cash flows used to determine this single discount rate assumed that plan member and employer contributions will be made at the current statutory levels.

Sensitivity of the Employer's proportionate share of the net pension liability to changes in the discount rate: The following presents the City's proportionate share of the net pension liability calculated using the discount rate of 7.25 percent, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25 percent) or 1-percentage-point higher (8.25 percent) than the current rate:

Rate of Return – The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which the expected future real rates of return (net of investment fees and inflation) are developed for each major asset class. Discount Rate – The discount rate used to measure the Fund's total OPEB liability is 3.62% as of June 30, 2021. The projection of cash flows used to determine the discount rate assumed that employer contributions will be made at rates proportional to the actuary determined contribution rates. For this purpose, employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs for future plan members and their beneficiaries are not included. Based on those assumptions, the Fund's fiduciary net position was projected to be available to make all projected future benefit payments for current plan members through the fiscal year ending June 30, 2052. Thus, the 7.00% discount rate was used to calculate the net OPEB liability through 2052. The index rate for 20-year, tax exempt general obligation municipal bonds with an average rating of AA/Aa or higher was used beyond 2052, resulting in a blended discount rate of 3.62%.

NOTE 13. RECENT ACCOUNTING PRONOUNCEMENTS

In June 2017, GASB issued Statement No. 87, Leases, to be implemented for fiscal years beginning after June 15, 2021. The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement requires recognitions of certain lease assets and liabilities for leases that previously were classified as operating leases. The City implemented this statement.

In June 2018, the GASB issued Statement No. 89, Accounting for Interest Cost Incurred before the end of a Construction Period. The new effective date is for reporting periods beginning after December 15, 2020. Statement 89 establishes accounting requirements for interest cost incurred before the end of a construction period. This Statement requires that interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statements prepared using the economic resources measurement focus. The implementation of this Statement had no effect on the City's financial statements.

In January 2020, the GASB issued Statement No. 92, Omnibus 2020. The new effective date is for reporting periods beginning after June 15, 2021. Statement No. 92. The objectives of this statement are to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing practice issues. Topics include: 1) effective date of Statement No 87, *Leases*, and implementation guide No 2019-3, *Leases*, for interim financial reports; 2) Reporting of intra-entity transfers of assets between a primary government employer and a component unit defined benefit pension plan or defined benefit OPEB plan; 3) The applicability of Statements No 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68*, and *Amendments to Certain Provisions of GASB Statements 67 and 68*, as amended, and No 74, *Financial Reporting for OPEB Plans other Than Pension Plans*, as amended, to reporting assets accumulated for

postemployment benefits; 4) The applicability of certain requirements of Statement No 87, *Fiduciary Activities*, to postemployment benefit arrangements; 5) Measurement of liabilities (and assets, if any) related to asset retirement obligations (AROs) in a government acquisition; 6) Reporting by public entity risk pools for amounts that are recoverable from reinsurers or excess insurers. The City implemented this Statement.

In March 2020, the GASB issued Statement No. 93, Replacement of Interbank Offered Rates. The new effective date is for reporting periods beginning after June 15, 2021. Statement No. 93 addresses accounting and financial reporting implications that result from the replacement of an IBOR (interbank offered rate) such as the LIBOR (London Interbank Offered Rate). The implementation of this Statement had no effect on the City's financial statements.

In October 2021, the GASB issued Statement No. 98, The Annual Comprehensive Financial Report. The new effective date is for reporting periods beginning after June 15, 2021. Statement No. 98 establishes the term annual comprehensive financial report and its acronym ACFR. That new term and acronym replace instances of comprehensive annual financial report and its acronym in generally accepted accounting principles for state and local governments. This Statement was developed in response to concerns raised by stakeholders that the common pronunciation of the acronym for comprehensive annual financial report sounds like a profoundly objectionable racial slur. The implementation of this Statement had no effect on the City's financial statements.

NOTE 14. NEW ACCOUNTING PRONOUNCEMENTS

The following GASB pronouncements have been issued, but are not yet effective at June 30, 2022.

State and Federal laws and regulations require that the City place a final cover on its landfill site and perform certain maintenance and monitoring functions at the landfill site for a minimum of thirty years after closure. The City has had the landfill site closed to the public and is in the process of collecting dirt for the final cap. The estimated total current cost of the landfill closure and postclosure care is based on the amount that would be paid if all equipment, facilities, and services required to close, monitor, and maintain the landfill were acquired as of June 30, 2015. An updated estimate was performed in January of 2022. Current year deletions were based off of estimated costs from the Solid Waste Fund. The balance of remaining landfill closure and postclosure care cost at June 30, 2022 is \$780,613.

There were no sub-recipients during fiscal 2022.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT
AUDITING STANDARDS***

To Brian S. Colón, Esq.
New Mexico State Auditor

City Commission
City of Truth or Consequences

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, the aggregate remaining fund information, and the budgetary comparison of the General Fund of the City of Truth or Consequences (the "City") as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated December 13, 2022.

Our report includes a reference to other auditors who audited the financial statements of the Housing Authority, as described in our report on City of Truth or Consequences financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors. However, this report, insofar as it relates to the results of the other auditors, is based solely on the reports of the other auditors

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses. However, as described in the accompanying schedule of findings and questioned costs, we identified certain deficiencies in internal control that we consider to be material weaknesses and significant deficiencies.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination

of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. We consider the deficiencies described in the accompanying schedule of findings and questioned costs as items CU 2022-001 to be material weaknesses.

A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiencies described in the accompanying schedule of findings and questioned costs as items 2022-001 to be a significant deficiency.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under Government Auditing Standards, and which are described in the accompanying schedule of findings and questioned costs as item CU 2022-002, CU 2022-003, and CU 2022-004.

City's Response to Findings

Government Auditing Standards requires the auditor to perform limited procedures on the City's response to the findings identified in our audit and described in the accompanying schedule of findings and questioned costs. The City's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL
PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE
REQUIRED BY THE UNIFORM GUIDANCE**

To Brian S. Colón, Esq.
New Mexico State Auditor

The City Commission
City of Truth or Consequences

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited the City of Truth or Consequences, New Mexico (the "City") compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the City's major federal programs for the year ended June 30, 2022. The City's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, City of Truth or Consequences complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2022.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of City of Truth or Consequences and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of City of Truth or Consequences' compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to City of Truth or Consequences' federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on City of Truth or Consequences' compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about City of Truth or Consequences' compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding City of Truth or Consequences' compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of City of Truth or Consequences' internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of City of Truth or Consequences' internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

SECTION II – FINDINGS – FINANCIAL STATEMENT AUDIT

2022-001 Procurement (Significant Deficiency)

CONDITION: During our testing of Procurement, PBH noted the following:

- During the fiscal year the City spent \$192,056 with Western United Electric. Per test of supporting documented it was noted that purchases was made thru Quotations and not thru competitive bid as required by Section 13-1-102 NMAC 1978.

CRITERIA: Per Section 13-1-102 NMAC 1978. All procurement shall be achieved by competitive sealed bid pursuant to Sections 13-1-103 through 13-1-110 NMSA 1978, except procurement achieved pursuant to the following sections of the Procurement Code: A. Sections 13-1-111 through 13-1-122 NMSA 1978, competitive sealed proposals; B. Section 13-1-125 NMSA 1978, small purchases; C. Section 13-1-126 NMSA 1978, sole source procurement; D. Section 13-1-127 NMSA 1978, emergency procurements; E. Section 13-1-129 NMSA 1978, existing contracts; F. Section 13-1-130 NMSA 1978, purchases from antipoverty program businesses; G. the Educational Facility Construction Manager At Risk Act [13-1-124.1 to 13-1-124.5 NMSA 1978]; and H. the Transportation Construction Manager General Contractor Act [13-1-122.1 to 13-1-122.4 NMSA 1978].

EFFECT: The City is not in compliance with Section 13-1-102 NMAC 1978..

CAUSE: Lack of policies in regard to monitoring vendor expenses to determine at which point Quotation is no longer permissible and competitive bids are necessary.

RECOMMENDATION: We recommend the City implement monitoring of vendor expenses and policy regarding at what point vendor services must go to competitive bid and how those are handled.

MANAGEMENT RESPONSE: This was not one purchase, this was a series of purchases through the year that was not anticipated to incur the large sum for this vendor. We will put a plan in place to review large vendors monthly to ensure we are abiding by \$60,000 purchase rule.

RESPONSIBLE PARTY FOR CORRECTIVE ACTION: Procurement Officer

SECTION V – COMPONENT UNIT FINDINGS

A. FINANCIAL STATEMENT FINDINGS

B. FEDERAL AWARD FINDINGS

CU 2022-001 Internal Controls over Tenant Files (Material Weakness)

CONDITION: 8 out of 16 samples for tenant eligibility testing failed internal control. The tenant files were not initialed on tab 6 cover; 4 out of 16 sample for correct rent income failed internal control. The backup documentation "Clarification Record" did not match the Rent Computation Worksheet, this is due to the form being filled out incorrectly by the Occupancy Specialist; and 1 out of 16 samples for correct rent income failed internal control. The file did not have backup documentation, the Rent Clarification Record sheet.

CRITERIA: Per 2 CFR Section 200.303- Internal Controls of the Uniform Guidance states that the non-federal agency must : (a) establish and maintain effective internal controls over the federal award that provides reasonable assurance that the non-federal entity is managing federal award in compliance with federal statues, regulations, and the terms and conditions of the federal award. These internal control should be in compliance with guidance in "Standards for Internal Controls in the Federal Government" issued by the Comptroller General of the United States or the " Internal Control Integrated Framework", issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO)

Per 7 CFR Section 3560.203- Tenant Contributions: (a) tenant's contributions to rent charged for a rental unit in an Agency financed housing project is based on the tenant's income, as calculated on the Agency's Tenant certification forms, and the availability of Agency or non-Agency rental subsidies.

Per 7 CFR Section 3560.254- Eligibility for rental assistance: (c) Eligible households eligible for rental assistance are those (1) with very low or low incomes who are eligible to live in MFH; (2) Whose net tenant contribution to rent determined in accordance with 3560.203(a)(1) is less than the basic rent for the unit.

EFFECT: The Authority risks tenant files to be incorrect if no staff reviewed backup documentation; the Authority risks inaccurate calculation for rent; and the Authority risks incomplete backup documentation and incorrect calculation of rent.

CAUSE: Tenant files are manually initialed by Authority staff. It appears that the staff is not consistent with initialing the files' the backup documentation is a manual process, it appears the staff was filling out forms incorrectly, and all backup documentation is kept in the file, it appears that the staff did not save the backup documentation correctly and were unable to locate these files

**STATE OF NEW MEXICO
CITY OF TRUTH OR CONSEQUENCES
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
Year Ended June 30, 2022**

RECOMMENDATION: We recommend that all files being initialed be staff to indicate review; that staff is trained to fill out forms correctly to prevent this issue; and all backup documentation to be kept in the file.

MANAGEMENT RESPONSE: Due to staff turnover consistent processes were not followed. Newer Housing Authority occupancy staff will receive further training on tenant file requirements as well as implementing quality control.

RESPONSIBLE PARTY FOR CORRECTIVE ACTION: Associate Executive Director

TIMELINE FOR CORRECTIVE ACTION: June 30, 2023.

C. SECTION 12-6-5 NMSA 1978 FINDINGS

CU 2022-002 ERB Employee Reporting (Other Non-Compliance)

CONDITION: The Housing Authority did not report the correct date of birth for one employee during the completion of their monthly report to New Mexico Retiree Health Care Authority ("NMRHCA") during the year of the valuation of the Housing Authority's Net Pension Liability.

CRITERIA: Per the AICPA State and Local Guide Chapter 13 Section 18 indicates that enrollment of an employee, whether by the employer or directly by the employee, through an application process communicate certain elements of census data – including name, social security number, date of birth, gender, date of hire, marital status, and position or job code.

EFFECT: The Housing Authority did not report the correct date of birth for an employee to NMRHCA, which could result in errors in that employee's service credit with NMRHCA.

CAUSE: The Housing Authority's payroll department collected the proper forms from the employee at the beginning of employment, but the employee's date of birth was incorrect in the Housing Authority's NMRHCA upload File for their first pay period.

RECOMMENDATION: We recommend that the Housing Authority implement procedures to ensure that new employee's information is correct in the NMRHCA report beginning in the period that they first become eligible employees. A review of this file should occur and be documented via a signature before the file is uploaded to NMRHCA.

MANAGEMENT RESPONSE: The Housing Authority human resources will cross reference and review employee information for accuracy prior to submission of any uploads to NMRHCA.

EFFECT: The Housing Authority has overpaid monies for reimbursements using public funds and is not in compliance with the Per Diem and Mileage Act.

CAUSE: The Housing Authority was unaware that employees should be reimbursed either per diem or actual and not a combination of both.

RECOMMENDATION: We recommend the Housing Authority should update the travel reimbursement forms and train employees on how to complete the forms using either the per diem or actual rates. In addition, all travel should be approved before the date of travel to ensure the estimated rates are correct

MANAGEMENT RESPONSE: The Housing Authority has updated travel reimbursements forms and informed employees of the new form and proper usage and selection.

BUDGET EVALUATION

The City has funded local organizations in the past; however, funding is scarce and the City usually receives more requests for funds than are available. Therefore, please note that your answers to these questions will have a direct bearing on how much, if any, funding will be allocated to your organization.

REQUIREMENTS

Organization's previous year's audit report or internal/informal financial statement is required. Please include with application. Proof of nonprofit status from Internal Revenue Service and the Office of the Secretary of State must accompany application. Application requires signature of authorized representative. Application must be submitted by the due date referenced above. *(Attach a separate sheet to this form if you need additional space for your answers.)*

FUTURE FUNDING REQUEST

- Amount of funding requested for FY 2023/2024: \$8,700.00
- Detailed accounting of how proposed funding is to be spent in FY 2023/2024:
Matthew 25's goal is to cover 75% of our major fixed expenses (totaling \$16,200) through grants. Across the board
our costs increased, with one exception, insurance cost. Our rent, utilities and insurance fixed cost total is \$16,250.
With this grant we would allocate \$8,400 to cover rent, and \$300 to cover a third of insurance cost while the balance
would be covered by grants from Sierra County or others being sought.

- State how the residents or businesses of Truth or Consequences will be benefited by the funding allotted to your organization in FY 2023/2024.

Matthew 25 has provided food to underprivileged and impoverished in Sierra County for over 15 years.

Approximately 75% of food distribution in Sierra County is for residents of Truth or Consequences while the other 25% are residents in rural areas of the county. Annually the average of over 3,000 baskets feed 6,200 people.

Totals of 2022/2023 year-to-date (July-March) resulted in over 2300 baskets feeding 4,600 people or an average of over 500 people per month. Each person receives around 30 lbs of fresh, canned and frozen goods each visit.

This grant helps ensure we can easily serve the community's food insecurity needs by applying it to our fixed costs.

- Explain if the City's funding of your organization will be used to leverage other funding from other sources.

Matthew 25 lost a key individual in 2022 resulting in struggles to resolve gaps and delinquencies. Grant funding went from 55% of our total revenues in 2021 to 25% of our total revenues in 2022. While new staff familiarize themselves and begin to understand funding needs, the obvious local opportunities are sought to leverage 2023 grants from Sierra County and the City of Truth or Consequences. Roadrunner Food Bank has also opened a grant for equipment purchases, which Matthew 25 has applied for, and if awarded, the additional equipment should allow for more efficiencies and storage to enable increased distributions. We will also continue to seek grant opportunities with United Way, Network for Good, Walmart, and the Community Foundation of Southern NM.

- Do you have plans for conducting an independent financial audit of your organization in the coming year? Yes ☐ No ☒ If yes, who will be the independent public accountant?

HISTORICAL INFORMATION

- Amount of current (2022/2023) year's funding: \$0.00
- Detailed account of how the current year's funds have been spent:

Matthew 25 did not meet the deadline for an application for 2022/2023 funding due to the loss of key individuals.

- Explain if the City's funding of your organization was used to leverage other funding from other sources. If so, how:

Matthew 25's loss of a key individual in 2022 resulted in a struggle to resolve the gaps and delinquencies including
loss of the City grant opportunity. This unexpected loss of funding, a 27% food cost increase, a 17% rent
increase, an 8% utilities increase, as well as fees to reinstate and rectify delinquencies has had an impact.
We remain diligent in rectifying the issues and seeking to continue to serve the community in grants for 2023.

- State how the residents or businesses of Truth or Consequences benefited by the funding allotted to your organization this current year (2022/2023):

Although we can not state that the residents directly benefited by City funding, the City sets an example
that seems to carry forward. Our local businesses, churches, and residents follow through with fundraisers, food
drives, and private donations and, in turn, they have been gracious with donations resulting in \$13,000 in 2022.
Donor contributions rose from 41% of total revenues in 2021 to 69% of total revenues in 2022.
These private donations resulted in the ability to purchase and distribute needed foods for the community.
Other sources of our funding in 2022 are fairly insignificant from Network for Good plus Bullocks receipt program to
net another \$5,800 but with the loss of grants unfortunately expenses outweighed contributions and caused
a deficit of a negative \$1,900. Such loss means, should emergencies, catastrophic events, or other unfortunate
events occur, the continued loss of grant funding will prevent us to serve the community into the future.

- Has there been an independent financial audit of the organization this year or in prior years?
 Yes ☐ No ☒ If YES, please provide name below and a copy of the current audit with your application. If NO, please provide internal/informal audit or financial statements.

Ok, Angie,

I will draft it with a July 1 start date. I can quickly change it if we need to.

Jay,

It could start as early as June. I was thinking July so that we could do it on the FY basis- if that matters.

Bruce said should be an annual renewal. I am out of practice for the MOU renewals so whatever works for you.

Dea Angie,

Here is a rough draft of the proposed lease. Please note that there are a few blanks that need to be filled in. Also, with respect to paragraphs 9 and 10, I was unsure if the City was responsible for maintenance and repairs.

Feel free to make suggested changes.

Hi Angie,

When will the lease begin, and for how long?

Regarding their services, perhaps I can attach the subrecipient application which sets forth their services. Will that suffice?

Jay,

Could you please draft a lease agreement for Matthew 25 to go into the Nadine Gardener building?

No fee as they are providing a community service and they will provide quarterly reports for meals provided.
