

## *Water Service Interruption Notice*

**Monday June 14<sup>nd</sup>, 10am-2pm**

As part of on-going water main upgrades/repairs we will need to shut off the water main servicing the 500-900 blocks of 11<sup>th</sup> Avenue from approximately 10 am until 2 PM on Monday, June 14, 2021.

**Water service to properties in these blocks will be shut off during this time.**

Residents may want to store some water in advance for use during the interruption. PLEASE do not use your water system during the shut off period if you reside in the affected area.

When water service is restored, there may be some air in the line and/or discolored water. Residents should run their cold laundry tub faucet or outside water spigot until the water is consistent and clear.

If you have any questions regarding this notice or the proposed work, please contact the Utility Superintendent, Paul Johnson at 218-834-8812 or City Hall at 218-834-5631

*We understand this construction will cause some inconvenience for the affected properties, and we appreciate your patience and cooperation as we work through this important project for the community.*
