

## Airport Commission May 2021 Meeting

### Old Business:

- 1) Blower attachment purchase
- 2) Radios for plow truck / equipment operators
- 3) Any safety training in the works for operators
- 4) Snow removal plan in the works. Use Airtaps and MNDOT Aero's materials?
- 5) AWOS move
- 6) Geese harassment - Can others assist with harassment with permission or participate in any hunts this fall? Leaving dead carcass next to pond has been suggested?
- 7) County funding request. What discussions have taken place?
- 8) New hangar build packet / process formalized?

### New Business:

- 1) ATT / wireless provider signal strength request
- 2) Gami G100UL fuel option. This is a new lead free fuel option that was recently announced at Osh Kosh. This fuel would potentially replace 100LL. Here are a couple web links that provide some background on the product. We will not be deciding anything at the meeting, but this may be a topic of discussions for future meetings. I just wanted everyone to start getting educated on the topic.
