Conservation Improvement Programs
help residents and businesses
save energy and lower costs!

RESIDENTIAL PROGRAMS

Home Energy Audit—Reduce your energy use and improve the efficiency of your home with a Home Energy Audit. A trained energy auditor will visit your home, analyze how your household uses energy, and provide practical steps to better manage daily energy usage and lower monthly utility bills.

Home Plan Reviews—Design and build your new home for comfort, energy efficiency, and cost savings. A Home Plan Review will maximize energy-saving opportunities during the design phase and help you access rebates and incentives for energy-efficient choices.

Rebates for Energy-Efficient Products—Access rebates for installing energy-saving products, such as those mentioned below, in your home.

ENERGY STAR® Appliances

LED Lighting

Central Air Conditioning (CAC)

New Forced-Air Furnace with
Electronically Commutated Motor (ECM)

ECM Furnace and CAC Combo

Mini Split Air Source Heat Pumps

Programmable Thermostat

High Efficiency Water Heaters

Heating, Ventilation and Air Conditioning
Cleaning and Tune Ups

MULTI-FAMILY ENERGY AUDITS AND DIRECT INSTALLS

Property owners, building managers, and residents benefit from services designed to improve the energy efficiency of apartment buildings and other multi-family facilities:

- Basic analysis of utility bills and discussion of specific concerns
- Comprehensive building audit that examines the age, efficiency, and general condition of mechanical systems
- Detailed report with energy-conservation recommendations
- FREE direct installation of energy-efficient products to apartment units and common areas for qualified facilities

COMMERCIAL-INDUSTRIAL ENERGY AUDITS AND SERVICES

Work with your utility's conservation improvement program to maximize energy efficiency in your business. Energy specialists are eager to assist with recommendations to cut energy costs, prioritize economically viable projects, and maximize local rebate opportunities! All for FREE! Commercial energy audits and services can be tailored to any size business, from a multi-facility campus or large industrial plant to a small retail location.
