

11-27-18 Edna G Commission 7:00pm

Members present:

Miles Woodruff

Tom Koehler

Hayes Scriven

Carl Shaffer

Guest-Kathy Glenn

A request for a copy of the minutes from the Edna G Steering committee to be provided to the commission and friends of the Edna G.

A request for how much we have paid Stantec and AMI to this point, and a copy of the contract.

Tom has adjusted the mooring lines three times in the last month or so. Woodruff removed steel cable that was broken, Shaffer is ordering a new one.

The friends did an outstanding job decorating the tug.

Bubblers and all supplies are in. Woodruff will contact Mike Ojard for some information regarding installation, and then put in a work order for city crew to install by the end of December.

The door to the captain's quarters has been repaired along with a porthole.

The commission would like a timeline on the feasibility study.

We will be removing old musty, moldy carpet in the captain's quarters in the near future.

Adjourn at 8:20pm
